guidelines and definitions. Coverage of retrieval and storage expires after a period of 3 years from the date of the procedures presenting a risk of iatrogenic infertility or when the individual is no longer covered under the state group health insurance plan, whichever occurs first.

(c) A state group health insurance plan may not require preauthorization for coverage of standard fertility retrieval and preservation services; however, a health benefit plan may contain provisions for maximum benefits and may subject the covered service to the same deductible, copayment, and coinsurance.

(d) As used in this subsection, the term:

1. "Iatrogenic infertility" means an impairment of fertility caused directly or indirectly by surgery, chemotherapy, radiation, or other associated medically necessary treatment with a potential side effect of impaired fertility as established by the American Society for Reproductive Medicine.

2. "Nationally recognized clinical practice guidelines and definitions" mean evidence-based clinical practice guidelines developed by independent organizations or medical professional societies using a transparent methodology and reporting structure and with a conflict-of-interest policy, and definitions used or established in said guidelines. Guidelines developed by such organizations or societies must establish standards of care informed by a systematic review of evidence and an assessment of the benefits and costs of alternative care options and include recommendations intended to optimize patient care.

3. "Standard fertility retrieval and preservation services"

163044

40 means oocyte and sperm retrieval and preservation procedures and
41 storage, including ovarian
