18 6. "Sufficient capacity" means a water or sewer utility

25 (b) A municipal utility may not decline to extend service

29 municipality.

30 (c) Upon application for service by an owner, a municipal
31 utility must expand its service territory to allow an owner
32 whose property is located outside of the municipal utility's
33 service territory to connect to the municipal utility if:

34 1. The property is not within the service territory of
35 another water or wastewater utility, as applicable;
36 2. The municipal utility has sufficient capacity to serve
37 the property's anticipated water or wastewater load, as
38 applicable; or

39 3. The property is within one-half mile of a main line of

40 the municipal utility, measured by the closest property boundary
41 line from such main line.
