497 alternative service delivery and reimbursement methodologies,
498 including competitive bidding pursuant to s. 287.057, designed
499 to facilitate the cost-effective purchase of a case-managed
500 continuum of care. The agency shall also require providers to
501 minimize the exposure of recipients to the need for acute
502 inpatient, custodial, and other institutional care and the
503 inappropriate or unnecessary use of high-cost services. The
504 agency shall contract with a vendor to monitor and evaluate the
505 clinical practice patterns of providers in order to identify
506 trends that are outside the normal practice patterns of a
507 provider's professional peers or the national guidelines of a
508 provider's professional association. The vendor must be able to
509 provide information and counseling to a provider whose practice
510 patterns are outside the norms, in consultation with the agency,
511 to improve patient care and reduce inappropriate utilization.
512 The agency may mandate prior authorization, drug therapy
513 management, or disease management participation for certain
514 populations of Medicaid beneficiaries, certain drug classes, or
515 particular drugs to prevent fraud, abuse, overuse, and possible
516 dangerous drug interactions. The Pharmaceutical and Therapeutics
517 Committee shall make recommendations to the agency on drugs for
518 which prior authorization is required. The agency shall inform
519 the Pharmaceutical and Therapeutics Committee of its decisions
520 regarding drugs subject to prior authorization. The agency is
521 authorized to limit the entities it contracts with or enrolls as
522 Medicaid providers by developing a provider network through

588-02430-26

20261758c1

523 provider credentialing. The agency may competitively bid single-
524 source-provider contracts if procurement of goods or services
525 results in demonstrated cost savings to the state without
526 limiting access to care. The agency may limit its network based
527 on the assessment of beneficiary access to care, provider
528 availability, provider quality standards, time and distance
529 standards for access to care, the cultural competence of the
530 provider network, demographic characteristics of Medicaid
531 beneficiaries, practice and provider-to-beneficiary standards,
532 appointment wait times, beneficiary use of services, provider
533 turnover, provider profiling, provider licensure history,
534 previous program integrity investigations and findings, peer
535 review, provider Medicaid policy and billing compliance records,
536 clinical and medical record audits, and other factors. Providers
537 are not entitled to enrollment in the Medicaid provider network.
538 The agency shall determine instances in which allowing Medicaid
539 beneficiaries to purchase durable medical equipment and other
540 goods is less expensive to the Medicaid program than long-term
541 rental of the equipment or goods. The agency may establish rules
542 to facilitate purchases in lieu of long-term rentals in order to
543 protect against fraud and abuse in the Medicaid program as
544 defined in s. 409.913. The agency may seek federal waivers
545 necessary to administer these policies.

546 (5) (a) The agency shall implement a Medicaid prescribed-
547 drug spending-control program that includes the following
548 components:

549 1. A Medicaid preferred drug list and a Medicaid physician-
550 administered drug list. The preferred drug list, which shall be
551 a listing of cost-effective therapeutic options recommended by

588-02430-26

20261758c1

552 the Medicaid Pharmacy and Therapeutics Committee established
553 pursuant to s. 409.91195 and adopted by the agency for each
554 therapeutic class on the preferred drug list. At the discretion
555 of the committee, and when feasible, the preferred drug list
556 should include at least two products in a therapeutic class. The
557 physician-administered drug list shall be a listing of
558 physician-administered drugs covered by the state Medicaid
559 program, based on the United States Food and Drug
560 Administration's approved indications and compendia in 42 U.S.C.
561 s. 1396r-8(g)(1)(B). Within the preferred physician-administered
562 drug list, there must be a section containing a list of
563 preferred physician-administered drugs that are cost-effective
564 therapeutic options recommended by the Medicaid Pharmaceutical
565 and Therapeutics Committee established pursuant to s. 409.91195.
566 The physician-administered drug list must be updated at least
567 twice a year. The agency may post and update the preferred drug
568 list and the preferred physician-administered drug updates to
569 the list on the agency's an Internet website without following
570 the rulemaking procedures of chapter 120. Antiretroviral agents
571 are excluded from the preferred drug list. The agency shall also
572 limit the amount of a prescribed drug dispensed to no more than
573 a 34-day supply unless the drug products' smallest marketed
574 package is greater than a 34-day supply, or the drug is
575 determined by the agency to be a maintenance drug in which case
576 a 100-day maximum supply may be authorized. The agency may seek
577 any federal waivers necessary to implement these cost-control
578 programs and to continue participation in the federal Medicaid
579 rebate program, or alternatively to negotiate state-only
580 manufacturer rebates. The agency may adopt rules to administer

588-02430-26

20261758c1

581 this subparagraph. The agency shall continue to provide
582 unlimited contraceptive drugs and items. The agency must
583 establish procedures to ensure that:

584 a. There is a response to a request for prior authorization
585 by telephone or other telecommunication device within 24 hours
586 after receipt of a request for prior authorization; and

587 b. A 72-hour supply of the drug prescribed is provided in
588 an emergency or when the agency does not provide a response
589 within 24 hours as required by sub subparagraph a.

590 2. A Medicaid preferred product list, which shall be a
591 listing of cost-effective therapeutic supplies recommended by
592 the Medicaid Pharmaceutical and Therapeutics Committee
593 established pursuant to s. 409.91195 and adopted by the agency
594 for each product class listed on the preferred product list and
595 reimbursed by the state Medicaid program through the pharmacy
596 point-of-sale. The agency may post the preferred product list
597 and updates to the list on the agency's website without
598 following the rulemaking procedures of chapter 120.

599 3. A list of high-cost drugs recommended by the Medicaid
600 Pharmaceutical and Therapeutics Committee established pursuant
601 to s. 409.91195 and adopted by the agency, for the purpose of
602 coverage, reimbursement, or billing guidance. The agency may
603 post the high-cost drug list and updates to the list on the
604 agency's website without following the rulemaking procedures of
605 chapter 120. The agency must establish procedures to ensure
606 that:

607 a. There is a response to a request for prior authorization
608 for a high-cost drug by telephone or other telecommunication
609 device within 24 hours after receipt of the request for prior

588-02430-26

20261758c1

610 authorization; and611 b. A 72-hour supply of the high-cost drug prescribed is
612 provided in an emergency or when the agency does not provide a
613 response to a prior authorization request within 24 hours as
614 required by sub subparagraph a.615 4. A provider of prescribed drugs is reimbursed in an
616 amount not to exceed the lesser of the actual acquisition cost
617 based on the Centers for Medicare and Medicaid Services National
618 Average Drug Acquisition Cost pricing files plus a professional
619 dispensing fee, the wholesale acquisition cost plus a
620 professional dispensing fee, the state maximum allowable cost
621 plus a professional dispensing fee, or the usual and customary
622 charge billed by the provider.623 5. A hospital facility administering long-acting
624 injectables for severe mental illness shall be reimbursed
625 separately from the diagnosis-related group. Long-acting
626 injectables administered for severe mental illness in a hospital
627 facility setting shall be reimbursed at no less than the actual
628 acquisition cost of the drug.629 6. The agency shall contract with a vendor to perform a
630 detailed fiscal impact study to evaluate the 340B Drug Pricing
631 Program administered by the Health Resources and Services
632 Administration. The study must evaluate 340B compliance, 340B
633 drug purchases, and reimbursement methodologies within the fee-
634 for-service program and Statewide Medicaid Managed Care program.
635 Statewide Medicaid Managed Care plans, pharmacy benefit
636 managers, and Medicaid providers shall submit to the agency all
637 data necessary for the completion of the study, including, but
638 not limited to, information related to drug purchasing,

588-02430-26

20261758c1

639 reimbursement, billing and coding, and dispensing. Noncompliance
640 with the 340B data submission requirements of this subparagraph
641 may result in sanctions from the agency or the Board of
642 Pharmacy, as applicable. The agency shall submit the results of
643 the study to the Governor, the President of the Senate, and the
644 Speaker of the House of Representatives by June 30, 2027.

645 7.3. The agency shall develop and implement a process for
646 managing the drug therapies of Medicaid recipients who are using
647 significant numbers of prescribed drugs each month. The
648 management process may include, but is not limited to,
649 comprehensive, physician-directed medical-record reviews, claims
650 analyses, and case evaluations to determine the medical
651 necessity and appropriateness of a patient's treatment plan and
652 drug therapies. The agency may contract with a private
653 organization to provide drug-program-management services. The
654 Medicaid drug benefit management program shall include
655 initiatives to manage drug therapies for HIV/AIDS patients,
656 patients using 20 or more unique prescriptions in a 180-day
657 period, and the top 1,000 patients in annual spending. The
658 agency shall enroll any Medicaid recipient in the drug benefit
659 management program if he or she meets the specifications of this
660 provision and is not enrolled in a Medicaid health maintenance
661 organization.

662 8.4. The agency may limit the size of its pharmacy network
663 based on need, competitive bidding, price negotiations,
664 credentialing, or similar criteria. The agency shall give
665 special consideration to rural areas in determining the size and
666 location of pharmacies included in the Medicaid pharmacy
667 network. A pharmacy credentialing process may include criteria

588-02430-26

20261758c1

668 such as a pharmacy's full-service status, location, size,
669 patient educational programs, patient consultation, disease
670 management services, and other characteristics. The agency may
671 impose a moratorium on Medicaid pharmacy enrollment if it is
672 determined that it has a sufficient number of Medicaid-
673 participating providers. The agency must allow dispensing
674 practitioners to participate as a part of the Medicaid pharmacy
675 network regardless of the practitioner's proximity to any other
676 entity that is dispensing prescription drugs under the Medicaid
677 program. A dispensing practitioner must meet all credentialing
678 requirements applicable to his or her practice, as determined by
679 the agency.

680 9.5. The agency shall develop and implement a program that
681 requires Medicaid practitioners who issue written prescriptions
682 for medicinal drugs to use a counterfeit-proof prescription pad
683 for Medicaid prescriptions. The agency shall require the use of
684 standardized counterfeit-proof prescription pads by prescribers
685 who issue written prescriptions for Medicaid recipients. The
686 agency may implement the program in targeted geographic areas or
687 statewide.

688 10.6. The agency may enter into arrangements that require
689 manufacturers of generic drugs prescribed to Medicaid recipients
690 to provide rebates of at least 15.1 percent of the average
691 manufacturer price for the manufacturer's generic products.
692 These arrangements shall require that if a generic-drug
693 manufacturer pays federal rebates for Medicaid-reimbursed drugs
694 at a level below 15.1 percent, the manufacturer must provide a
695 supplemental rebate to the state in an amount necessary to
696 achieve a 15.1-percent rebate level.

588-02430-26

20261758c1

697 11.7. The agency may establish a preferred drug list as
698 described in this subsection, and, pursuant to the establishment
699 of such preferred drug list, negotiate supplemental rebates from
700 manufacturers that are in addition to those required by Title
701 XIX of the Social Security Act and at no less than 14 percent of
702 the average manufacturer price as defined in 42 U.S.C. s. 1936
703 on the last day of a quarter unless the federal or supplemental
704 rebate, or both, equals or exceeds 29 percent. There is no upper
705 limit on the supplemental rebates the agency may negotiate. The
706 agency may determine that specific products, brand-name or
707 generic, are competitive at lower rebate percentages. Agreement
708 to pay the minimum supplemental rebate percentage guarantees a
709 manufacturer that the Medicaid Pharmaceutical and Therapeutics
710 Committee will consider a product for inclusion on the preferred
711 drug list. However, a pharmaceutical manufacturer is not
712 guaranteed placement on the preferred drug list by simply paying
713 the minimum supplemental rebate. Agency decisions will be made
714 on the clinical efficacy of a drug and recommendations of the
715 Medicaid Pharmaceutical and Therapeutics Committee, as well as
716 the price of competing products minus federal and state rebates.
717 The agency may contract with an outside agency or contractor to
718 conduct negotiations for supplemental rebates. For the purposes
719 of this section, the term "supplemental rebates" means cash
720 rebates. Value-added programs as a substitution for supplemental
721 rebates are prohibited. The agency may seek any federal waivers
722 to implement this initiative.

723 12.a.8.a. The agency may implement a Medicaid behavioral
724 drug management system. The agency may contract with a vendor
725 that has experience in operating behavioral drug management

588-02430-26

20261758c1

726 systems to implement this program. The agency may seek federal
727 waivers to implement this program.

728 b. The agency, in conjunction with the Department of
729 Children and Families, may implement the Medicaid behavioral
730 drug management system that is designed to improve the quality
731 of care and behavioral health prescribing practices based on
732 best practice guidelines, improve patient adherence to
733 medication plans, reduce clinical risk, and lower prescribed
734 drug costs and the rate of inappropriate spending on Medicaid
735 behavioral drugs. The program may include the following
736 elements:

737 (I) Provide for the development and adoption of best
738 practice guidelines for behavioral health-related drugs such as
739 antipsychotics, antidepressants, and medications for treating
740 bipolar disorders and other behavioral conditions; translate
741 them into practice; review behavioral health prescribers and
742 compare their prescribing patterns to a number of indicators
743 that are based on national standards; and determine deviations
744 from best practice guidelines.

745 (II) Implement processes for providing feedback to and
746 educating prescribers using best practice educational materials
747 and peer-to-peer consultation.

748 (III) Assess Medicaid beneficiaries who are outliers in
749 their use of behavioral health drugs with regard to the numbers
750 and types of drugs taken, drug dosages, combination drug
751 therapies, and other indicators of improper use of behavioral
752 health drugs.

753 (IV) Alert prescribers to patients who fail to refill
754 prescriptions in a timely fashion, are prescribed multiple same-

588-02430-26

20261758c1

755 class behavioral health drugs, and may have other potential
756 medication problems.

757 (V) Track spending trends for behavioral health drugs and
758 deviation from best practice guidelines.

759 (VI) Use educational and technological approaches to
760 promote best practices, educate consumers, and train prescribers
761 in the use of practice guidelines.

762 (VII) Disseminate electronic and published materials.

763 (VIII) Hold statewide and regional conferences.

764 (IX) Implement a disease management program with a model
765 quality-based medication component for severely mentally ill
766 individuals and emotionally disturbed children who are high
767 users of care.

768 13.9. The agency shall implement a Medicaid prescription
769 drug management system.

770 a. The agency may contract with a vendor that has
771 experience in operating prescription drug management systems in
772 order to implement this system. Any management system that is
773 implemented in accordance with this subparagraph must rely on
774 cooperation between physicians and pharmacists to determine
775 appropriate practice patterns and clinical guidelines to improve
776 the prescribing, dispensing, and use of drugs in the Medicaid
777 program. The agency may seek federal waivers to implement this
778 program.

779 b. The drug management system must be designed to improve
780 the quality of care and prescribing practices based on best
781 practice guidelines, improve patient adherence to medication
782 plans, reduce clinical risk, and lower prescribed drug costs and
783 the rate of inappropriate spending on Medicaid prescription

588-02430-26

20261758c1

784 drugs. The program must:

785 (I) Provide for the adoption of best practice guidelines
786 for the prescribing and use of drugs in the Medicaid program,
787 including translating best practice guidelines into practice;
788 reviewing prescriber patterns and comparing them to indicators
789 that are based on national standards and practice patterns of
790 clinical peers in their community, statewide, and nationally;
791 and determine deviations from best practice guidelines.

792 (II) Implement processes for providing feedback to and
793 educating prescribers using best practice educational materials
794 and peer-to-peer consultation.

795 (III) Assess Medicaid recipients who are outliers in their
796 use of a single or multiple prescription drugs with regard to
797 the numbers and types of drugs taken, drug dosages, combination
798 drug therapies, and other indicators of improper use of
799 prescription drugs.

800 (IV) Alert prescribers to recipients who fail to refill
801 prescriptions in a timely fashion, are prescribed multiple drugs
802 that may be redundant or contraindicated, or may have other
803 potential medication problems.

804 14.10. The agency may contract for drug rebate
805 administration, including, but not limited to, calculating
806 rebate amounts, invoicing manufacturers, negotiating disputes
807 with manufacturers, and maintaining a database of rebate
808 collections.

809 15.11. The agency may specify the preferred daily dosing
810 form or strength for the purpose of promoting best practices
811 with regard to the prescribing of certain drugs as specified in
812 the General Appropriations Act and ensuring cost-effective

588-02430-26

20261758c1

813 prescribing practices.

814 16.12. The agency may require prior authorization for
815 Medicaid-covered prescribed drugs. The agency may prior-
816 authorize the use of a product:817 a. For an indication not approved in labeling;
818 b. To comply with certain clinical guidelines; or
819 c. If the product has the potential for overuse, misuse, or
820 abuse.821
822 The agency may require the prescribing professional to provide
823 information about the rationale and supporting medical evidence
824 for the use of a drug. The agency shall post prior
825 authorization, step-edit criteria and protocol, and updates to
826 the list of drugs that are subject to prior authorization on the
827 agency's ~~Internet~~ website within 21 days after the prior
828 authorization and step-edit criteria and protocol and updates
829 are approved by the agency. For purposes of this subparagraph,
830 the term "step-edit" means an automatic electronic review of
831 certain medications subject to prior authorization.832 17.13. The agency, in conjunction with the Pharmaceutical
833 and Therapeutics Committee, may require age-related prior
834 authorizations for certain prescribed drugs. The agency may
835 preauthorize the use of a drug for a recipient who may not meet
836 the age requirement or may exceed the length of therapy for use
837 of this product as recommended by the manufacturer and approved
838 by the Food and Drug Administration. Prior authorization may
839 require the prescribing professional to provide information
840 about the rationale and supporting medical evidence for the use
841 of a drug.

588-02430-26

20261758c1

842 18.14. The agency shall implement a step-therapy prior
843 authorization approval process for medications excluded from the
844 preferred drug list. Medications listed on the preferred drug
845 list must be used within the previous 12 months before the
846 alternative medications that are not listed. The step-therapy
847 prior authorization may require the prescriber to use the
848 medications of a similar drug class or for a similar medical
849 indication unless contraindicated in the Food and Drug
850 Administration labeling. The trial period between the specified
851 steps may vary according to the medical indication. The step-
852 therapy approval process shall be developed in accordance with
853 the committee as stated in s. 409.91195(7) and (8). A drug
854 product may be approved without meeting the step-therapy prior
855 authorization criteria if the prescribing physician provides the
856 agency with additional written medical or clinical documentation
857 that the product is medically necessary because:

858 a. There is not a drug on the preferred drug list to treat
859 the disease or medical condition which is an acceptable clinical
860 alternative;

861 b. The alternatives have been ineffective in the treatment
862 of the beneficiary's disease;

863 c. The drug product or medication of a similar drug class
864 is prescribed for the treatment of schizophrenia or schizotypal
865 or delusional disorders; prior authorization has been granted
866 previously for the prescribed drug; and the medication was
867 dispensed to the patient during the previous 12 months; or

868 d. Based on historical evidence and known characteristics
869 of the patient and the drug, the drug is likely to be
870 ineffective, or the number of doses have been ineffective.

588-02430-26

20261758c1

871

872 The agency shall work with the physician to determine the best
873 alternative for the patient. The agency may adopt rules waiving
874 the requirements for written clinical documentation for specific
875 drugs in limited clinical situations.

876 19.15. The agency shall implement a return and reuse
877 program for drugs dispensed by pharmacies to institutional
878 recipients, which includes payment of a \$5 restocking fee for
879 the implementation and operation of the program. The return and
880 reuse program shall be implemented electronically and in a
881 manner that promotes efficiency. The program must permit a
882 pharmacy to exclude drugs from the program if it is not
883 practical or cost-effective for the drug to be included and must
884 provide for the return to inventory of drugs that cannot be
885 credited or returned in a cost-effective manner. The agency
886 shall determine if the program has reduced the amount of
887 Medicaid prescription drugs which are destroyed on an annual
888 basis and if there are additional ways to ensure more
889 prescription drugs are not destroyed which could safely be
890 reused.

891 (14) Neither this section nor this chapter prevents the
892 agency from conducting retrospective reviews, investigations,
893 analyses, audits, or any combination thereof to determine
894 possible fraud, abuse, overpayment, or recipient neglect in the
895 state Medicaid program pursuant to s. 409.913, including, but
896 not limited to, reviews in which the services were the subject
897 of a utilization review or prior authorization process.

898 Section 7. Paragraph (e) of subsection (1) and subsections
899 (2) and (6) of section 409.913, Florida Statutes, are amended to

588-02430-26

20261758c1

900 read:

901 409.913 Oversight of the integrity of the Medicaid
902 program.—The agency shall operate a program to oversee the
903 activities of Florida Medicaid recipients, and providers and
904 their representatives, to ensure that fraudulent and abusive
905 behavior and neglect of recipients occur to the minimum extent
906 possible, and to recover overpayments and impose sanctions as
907 appropriate. Each January 15, the agency and the Medicaid Fraud
908 Control Unit of the Department of Legal Affairs shall submit a
909 report to the Legislature documenting the effectiveness of the
910 state's efforts to control Medicaid fraud and abuse and to
911 recover Medicaid overpayments during the previous fiscal year.
912 The report must describe the number of cases opened and
913 investigated each year; the sources of the cases opened; the
914 disposition of the cases closed each year; the amount of
915 overpayments alleged in preliminary and final audit letters; the
916 number and amount of fines or penalties imposed; any reductions
917 in overpayment amounts negotiated in settlement agreements or by
918 other means; the amount of final agency determinations of
919 overpayments; the amount deducted from federal claiming as a
920 result of overpayments; the amount of overpayments recovered
921 each year; the amount of cost of investigation recovered each
922 year; the average length of time to collect from the time the
923 case was opened until the overpayment is paid in full; the
924 amount determined as uncollectible and the portion of the
925 uncollectible amount subsequently reclaimed from the Federal
926 Government; the number of providers, by type, that are
927 terminated from participation in the Medicaid program as a
928 result of fraud and abuse; and all costs associated with

588-02430-26

20261758c1

929 discovering and prosecuting cases of Medicaid overpayments and
930 making recoveries in such cases. The report must also document
931 actions taken to prevent overpayments and the number of
932 providers prevented from enrolling in or reenrolling in the
933 Medicaid program as a result of documented Medicaid fraud and
934 abuse and must include policy recommendations necessary to
935 prevent or recover overpayments and changes necessary to prevent
936 and detect Medicaid fraud. All policy recommendations in the
937 report must include a detailed fiscal analysis, including, but
938 not limited to, implementation costs, estimated savings to the
939 Medicaid program, and the return on investment. The agency must
940 submit the policy recommendations and fiscal analyses in the
941 report to the appropriate estimating conference, pursuant to s.
942 216.137, by February 15 of each year. The agency and the
943 Medicaid Fraud Control Unit of the Department of Legal Affairs
944 each must include detailed unit-specific performance standards,
945 benchmarks, and metrics in the report, including projected cost
946 savings to the state Medicaid program during the following
947 fiscal year.

948 (1) For the purposes of this section, the term:

949 (e) "Overpayment" includes any amount that is not
950 authorized to be paid by the Medicaid program or that should not
951 have been paid, including payments made whether paid as a result
952 of inaccurate or improper cost reporting, improper claiming,
953 unacceptable practices, fraud, abuse, or mistake, and may
954 include amounts paid for goods or services that were the subject
955 of a utilization review or prior authorization process.

956 (2) The agency shall conduct, or cause to be conducted by
957 contract or otherwise, reviews, investigations, analyses,

588-02430-26

20261758c1

958 audits, or any combination thereof, to determine possible fraud,
959 abuse, overpayment, or recipient neglect in the Medicaid program
960 and shall report the findings of any overpayments in audit
961 reports as appropriate. An overpayment determination may be
962 based upon retrospective reviews, investigations, analyses,
963 audits, or any combination thereof to determine possible fraud,
964 abuse, overpayment, or recipient neglect in the Medicaid
965 program, regardless of whether a prior authorization was issued.
966 At least 5 percent of all audits shall be conducted on a random
