Section 1. Subsection (4) of section 409.904, Florida Statutes, is amended to read:

409.904 Optional payments for eligible persons.—The agency may make payments for medical assistance and related services on behalf of the following persons who are determined to be eligible subject to the income, assets, and categorical eligibility tests set forth in federal and state law. Payment on behalf of these Medicaid eligible persons is subject to the availability of moneys and any limitations established by the General Appropriations Act or chapter 216.

Section 2. Section 409.9041, Florida Statutes, is created to read:

409.9041 Medicaid work and community engagement requirements.—

(1) The Legislature finds that assisting able-bodied adult

175 Medicaid recipients in achieving self-sufficiency through
176 meaningful work and community engagement is essential to
177 ensuring that the state Medicaid program remains a sustainable
178 resource for residents who are most in need of such assistance.

179 (2) (a) The agency shall seek federal approval to implement
180 mandatory work and community engagement requirements for able-
181 bodied adults, as specified in this section, as a condition of
182 obtaining and maintaining coverage under the state Medicaid
183 program. The agency may not implement the mandatory work and
184 community engagement requirements until it receives federal
185 approval through a Medicaid waiver and the agency's business
186 plan submitted under paragraph (b) is specifically approved by
187 the Legislature.

188 (b) The agency shall, in consultation with the Department
189 of Children and Families and the Department of Commerce, develop
190 a business plan to implement this section. The plan must include
191 methods for determining Medicaid eligibility and the
192 applicability of exemptions under subsections (3) and (4) on an
193 ongoing basis and an analysis representing the potential effects
194 that implementing this section will have on Medicaid enrollment
195 and expenditures. The plan must also include a methodology to
196 provide those Medicaid recipients who stand to lose Medicaid
197 eligibility due to earning income under the requirements of
198 subsection (3) with a transition period to temporarily maintain
199 eligibility, under parameters similar to those that enable a
200 family eligible for temporary cash assistance to temporarily
201 maintain Medicaid eligibility under s. 445.029. The agency shall
202 submit the plan to the Governor, the President of the Senate,
203 and the Speaker of the House of Representatives no later than

20261758c2

320 this section shall be construed to prevent or limit the agency
321 from adjusting fees, reimbursement rates, lengths of stay,
322 number of visits, number of services, or any other adjustments
323 necessary to comply with the availability of moneys and any
324 limitations or directions provided for in the General
325 Appropriations Act or chapter 216.

326 (5) HOSPITAL INPATIENT SERVICES.—The agency shall pay for
327 all covered services provided for the medical care and treatment
328 of a recipient who is admitted as an inpatient by a licensed
329 physician or dentist to a hospital licensed under part I of

379 are determined to be eligible on the dates on which the services
380 were provided. Any optional service that is provided shall be
381 provided only when medically necessary and in accordance with
382 state and federal law. Optional services rendered by providers
383 in mobile units to Medicaid recipients may be restricted or
384 prohibited by the agency. Nothing in this section shall be
385 construed to prevent or limit the agency from adjusting fees,
386 reimbursement rates, lengths of stay, number of visits, or
387 number of services, or making any other adjustments necessary to
388 comply with the availability of moneys and any limitations or
389 directions provided for in the General Appropriations Act or

401 serious mental illness who are high utilizers of behavioral
402 health services in an institutional setting. The program must be

405 coordination with the Department of Children and Families to
406 develop the program. The agency and the department shall produce

409 be submitted to the Legislature as legislative budget requests
410 and appropriated in the General Appropriations Act before the
411 program may be implemented.

475 administered drug list, preferred product list, or high-cost
476 drug list. Upon timely notice, the agency shall ensure that any
477 drug that has been approved or had any of its particular uses
478 approved by the United States Food and Drug Administration under
479 a priority review classification will be reviewed by the
480 committee at the next regularly scheduled meeting following 3
481 months of distribution of the drug to the general public.

482 (8) The committee shall develop its preferred drug list,
483 preferred physician-administered drug list, preferred product
484 list, and high-cost drug list recommendations by considering the
485 clinical efficacy, safety, and cost-effectiveness of a product.

486 (9) The Medicaid Pharmaceutical and Therapeutics Committee
487 may also make recommendations to the agency regarding the prior
488 authorization of any prescribed drug covered by Medicaid.

489 (10) Medicaid recipients may appeal agency preferred drug
490 formulary decisions using the Medicaid fair hearing process
491 administered by the Agency for Health Care Administration.

492 Section 6. Paragraph (a) of subsection (5) of section
493 409.912, Florida Statutes, is amended, and subsection (14) is

576-03342-26

20261758c2

494 added to that section, to read:

495 409.912 Cost-effective purchasing of health care.—The
496 agency shall purchase goods and services for Medicaid recipients
497 in the most cost-effective manner consistent with the delivery
498 of quality medical care. To ensure that medical services are
499 effectively utilized, the agency may, in any case, require a
500 confirmation or second physician's opinion of the correct
501 diagnosis for purposes of authorizing future services under the
502 Medicaid program. This section does not restrict access to
503 emergency services or poststabilization care services as defined
504 in 42 C.F.R. s. 438.114. Such confirmation or second opinion
505 shall be rendered in a manner approved by the agency. The agency
506 shall maximize the use of prepaid per capita and prepaid
507 aggregate fixed-sum basis services when appropriate and other
508 alternative service delivery and reimbursement methodologies,
509 including competitive bidding pursuant to s. 287.057, designed
510 to facilitate the cost-effective purchase of a case-managed
511 continuum of care. The agency shall also require providers to
512 minimize the exposure of recipients to the need for acute
513 inpatient, custodial, and other institutional care and the
514 inappropriate or unnecessary use of high-cost services. The
515 agency shall contract with a vendor to monitor and evaluate the
516 clinical practice patterns of providers in order to identify
517 trends that are outside the normal practice patterns of a
518 provider's professional peers or the national guidelines of a
519 provider's professional association. The vendor must be able to
520 provide information and counseling to a provider whose practice
521 patterns are outside the norms, in consultation with the agency,
522 to improve patient care and reduce inappropriate utilization.

576-03342-26

20261758c2

523 The agency may mandate prior authorization, drug therapy
524 management, or disease management participation for certain
525 populations of Medicaid beneficiaries, certain drug classes, or
526 particular drugs to prevent fraud, abuse, overuse, and possible
527 dangerous drug interactions. The Pharmaceutical and Therapeutics
528 Committee shall make recommendations to the agency on drugs for
529 which prior authorization is required. The agency shall inform
530 the Pharmaceutical and Therapeutics Committee of its decisions
531 regarding drugs subject to prior authorization. The agency is
532 authorized to limit the entities it contracts with or enrolls as
533 Medicaid providers by developing a provider network through
534 provider credentialing. The agency may competitively bid single-
535 source-provider contracts if procurement of goods or services
536 results in demonstrated cost savings to the state without
537 limiting access to care. The agency may limit its network based
538 on the assessment of beneficiary access to care, provider
539 availability, provider quality standards, time and distance
540 standards for access to care, the cultural competence of the
541 provider network, demographic characteristics of Medicaid
542 beneficiaries, practice and provider-to-beneficiary standards,
543 appointment wait times, beneficiary use of services, provider
544 turnover, provider profiling, provider licensure history,
545 previous program integrity investigations and findings, peer
546 review, provider Medicaid policy and billing compliance records,
547 clinical and medical record audits, and other factors. Providers
548 are not entitled to enrollment in the Medicaid provider network.
549 The agency shall determine instances in which allowing Medicaid
550 beneficiaries to purchase durable medical equipment and other
551 goods is less expensive to the Medicaid program than long-term

576-03342-26

20261758c2

552 rental of the equipment or goods. The agency may establish rules
553 to facilitate purchases in lieu of long-term rentals in order to
554 protect against fraud and abuse in the Medicaid program as
555 defined in s. 409.913. The agency may seek federal waivers
556 necessary to administer these policies.

557 (5) (a) The agency shall implement a Medicaid prescribed-
558 drug spending-control program that includes the following
559 components:

560 1. A Medicaid preferred drug list and a Medicaid physician-
561 administered drug list. The preferred drug list, ~~which~~ shall be
562 a listing of cost-effective therapeutic options recommended by
563 the Medicaid Pharmacy and Therapeutics Committee established
564 pursuant to s. 409.91195 and adopted by the agency for each
565 therapeutic class on the preferred drug list. At the discretion
566 of the committee, and when feasible, the preferred drug list
567 should include at least two products in a therapeutic class. The
568 physician-administered drug list shall be a listing of
569 physician-administered drugs covered by the state Medicaid
570 program, based on the United States Food and Drug
571 Administration's approved indications and compendia in 42 U.S.C.
572 s. 1396r-8(g) (1) (B). Within the preferred physician-administered
573 drug list, there must be a section containing a list of
574 preferred physician-administered drugs that are cost-effective
575 therapeutic options recommended by the Medicaid Pharmaceutical
576 and Therapeutics Committee established pursuant to s. 409.91195.
577 The physician-administered drug list must be updated at least
578 twice a year. The agency may post and update the preferred drug
579 list and the preferred physician-administered drug ~~updates to~~
580 ~~the list on~~ the agency's an Internet website without following

576-03342-26

20261758c2

581 the rulemaking procedures of chapter 120. Antiretroviral agents
582 are excluded from the preferred drug list. The agency shall also
583 limit the amount of a prescribed drug dispensed to no more than
584 a 34-day supply unless the drug products' smallest marketed
585 package is greater than a 34-day supply, or the drug is
586 determined by the agency to be a maintenance drug in which case
587 a 100-day maximum supply may be authorized. The agency may seek
588 any federal waivers necessary to implement these cost-control
589 programs and to continue participation in the federal Medicaid
590 rebate program, or alternatively to negotiate state-only
591 manufacturer rebates. The agency may adopt rules to administer
592 this subparagraph. The agency shall continue to provide
593 unlimited contraceptive drugs and items. The agency must
594 establish procedures to ensure that:

595 a. There is a response to a request for prior authorization
596 by telephone or other telecommunication device within 24 hours
597 after receipt of a request for prior authorization; and

598 b. A 72-hour supply of the drug prescribed is provided in
599 an emergency or when the agency does not provide a response
600 within 24 hours as required by sub-subparagraph a.

601 2. A Medicaid preferred product list, which shall be a
602 listing of cost-effective therapeutic supplies recommended by
603 the Medicaid Pharmaceutical and Therapeutics Committee
604 established pursuant to s. 409.91195 and adopted by the agency
605 for each product class listed on the preferred product list and
606 reimbursed by the state Medicaid program through the pharmacy
607 point-of-sale. The agency may post the preferred product list
608 and updates to the list on the agency's website without
609 following the rulemaking procedures of chapter 120.

576-03342-26

20261758c2

610 3. A list of high-cost drugs recommended by the Medicaid
611 Pharmaceutical and Therapeutics Committee established pursuant
612 to s. 409.91195 and adopted by the agency, for the purpose of
613 coverage, reimbursement, or billing guidance. The agency may
614 post the high-cost drug list and updates to the list on the
615 agency's website without following the rulemaking procedures of
616 chapter 120. The agency must establish procedures to ensure
617 that:

618 a. There is a response to a request for prior authorization
619 for a high-cost drug by telephone or other telecommunication
620 device within 24 hours after receipt of the request for prior
621 authorization; and

622 b. A 72-hour supply of the high-cost drug prescribed is
623 provided in an emergency or when the agency does not provide a
624 response to a prior authorization request within 24 hours as
625 required by sub-subparagraph a.

626 4. A provider of prescribed drugs is reimbursed in an
627 amount not to exceed the lesser of the actual acquisition cost
628 based on the Centers for Medicare and Medicaid Services National
629 Average Drug Acquisition Cost pricing files plus a professional
630 dispensing fee, the wholesale acquisition cost plus a
631 professional dispensing fee, the state maximum allowable cost
632 plus a professional dispensing fee, or the usual and customary
633 charge billed by the provider.

634 5. A hospital facility administering long-acting
635 injectables for severe mental illness shall be reimbursed
636 separately from the diagnosis-related group. Long-acting
637 injectables administered for severe mental illness in a hospital
638 facility setting shall be reimbursed at no less than the actual

576-03342-26

20261758c2

639 acquisition cost of the drug.

640 6. The agency shall contract with a vendor to perform a
641 detailed fiscal impact study to evaluate the 340B Drug Pricing
642 Program administered by the Health Resources and Services
643 Administration. The study must evaluate 340B compliance, 340B
644 drug purchases, and reimbursement methodologies within the fee-
645 for-service program and Statewide Medicaid Managed Care program.
646 Statewide Medicaid Managed Care plans, pharmacy benefit
647 managers, and Medicaid providers shall submit to the agency all
648 data necessary for the completion of the study, including, but
649 not limited to, information related to drug purchasing,
650 reimbursement, billing and coding, and dispensing. Noncompliance
651 with the 340B data submission requirements of this subparagraph
652 may result in sanctions from the agency or the Board of
653 Pharmacy, as applicable. The agency shall submit the results of
654 the study to the Governor, the President of the Senate, and the
655 Speaker of the House of Representatives by June 30, 2027.

656 7.3. The agency shall develop and implement a process for
657 managing the drug therapies of Medicaid recipients who are using
658 significant numbers of prescribed drugs each month. The
659 management process may include, but is not limited to,
660 comprehensive, physician-directed medical-record reviews, claims
661 analyses, and case evaluations to determine the medical
662 necessity and appropriateness of a patient's treatment plan and
663 drug therapies. The agency may contract with a private
664 organization to provide drug-program-management services. The
665 Medicaid drug benefit management program shall include
666 initiatives to manage drug therapies for HIV/AIDS patients,
667 patients using 20 or more unique prescriptions in a 180-day

576-03342-26

20261758c2

668 period, and the top 1,000 patients in annual spending. The
669 agency shall enroll any Medicaid recipient in the drug benefit
670 management program if he or she meets the specifications of this
671 provision and is not enrolled in a Medicaid health maintenance
672 organization.

673 8.4. The agency may limit the size of its pharmacy network
674 based on need, competitive bidding, price negotiations,
675 credentialing, or similar criteria. The agency shall give
676 special consideration to rural areas in determining the size and
677 location of pharmacies included in the Medicaid pharmacy
678 network. A pharmacy credentialing process may include criteria
679 such as a pharmacy's full-service status, location, size,
680 patient educational programs, patient consultation, disease
681 management services, and other characteristics. The agency may
682 impose a moratorium on Medicaid pharmacy enrollment if it is
683 determined that it has a sufficient number of Medicaid-
684 participating providers. The agency must allow dispensing
685 practitioners to participate as a part of the Medicaid pharmacy
686 network regardless of the practitioner's proximity to any other
687 entity that is dispensing prescription drugs under the Medicaid
688 program. A dispensing practitioner must meet all credentialing
689 requirements applicable to his or her practice, as determined by
690 the agency.

691 9.5. The agency shall develop and implement a program that
692 requires Medicaid practitioners who issue written prescriptions
693 for medicinal drugs to use a counterfeit-proof prescription pad
694 for Medicaid prescriptions. The agency shall require the use of
695 standardized counterfeit-proof prescription pads by prescribers
696 who issue written prescriptions for Medicaid recipients. The

576-03342-26

20261758c2

697 agency may implement the program in targeted geographic areas or
698 statewide.

699 ~~10.6.~~ The agency may enter into arrangements that require
700 manufacturers of generic drugs prescribed to Medicaid recipients
701 to provide rebates of at least 15.1 percent of the average
702 manufacturer price for the manufacturer's generic products.
703 These arrangements shall require that if a generic-drug
704 manufacturer pays federal rebates for Medicaid-reimbursed drugs
705 at a level below 15.1 percent, the manufacturer must provide a
706 supplemental rebate to the state in an amount necessary to
707 achieve a 15.1-percent rebate level.

708 ~~11.7.~~ The agency may establish a preferred drug list as
709 described in this subsection, and, pursuant to the establishment
710 of such preferred drug list, negotiate supplemental rebates from
711 manufacturers that are in addition to those required by Title
712 XIX of the Social Security Act and at no less than 14 percent of
713 the average manufacturer price as defined in 42 U.S.C. s. 1936
714 on the last day of a quarter unless the federal or supplemental
715 rebate, or both, equals or exceeds 29 percent. There is no upper
716 limit on the supplemental rebates the agency may negotiate. The
717 agency may determine that specific products, brand-name or
718 generic, are competitive at lower rebate percentages. Agreement
719 to pay the minimum supplemental rebate percentage guarantees a
720 manufacturer that the Medicaid Pharmaceutical and Therapeutics
721 Committee will consider a product for inclusion on the preferred
722 drug list. However, a pharmaceutical manufacturer is not
723 guaranteed placement on the preferred drug list by simply paying
724 the minimum supplemental rebate. Agency decisions will be made
725 on the clinical efficacy of a drug and recommendations of the

576-03342-26

20261758c2

726 Medicaid Pharmaceutical and Therapeutics Committee, as well as
727 the price of competing products minus federal and state rebates.
728 The agency may contract with an outside agency or contractor to
729 conduct negotiations for supplemental rebates. For the purposes
730 of this section, the term "supplemental rebates" means cash
731 rebates. Value-added programs as a substitution for supplemental
732 rebates are prohibited. The agency may seek any federal waivers
733 to implement this initiative.

734 ~~12.a.8.a.~~ The agency may implement a Medicaid behavioral
735 drug management system. The agency may contract with a vendor
736 that has experience in operating behavioral drug management
737 systems to implement this program. The agency may seek federal
738 waivers to implement this program.

739 b. The agency, in conjunction with the Department of
740 Children and Families, may implement the Medicaid behavioral
741 drug management system that is designed to improve the quality
742 of care and behavioral health prescribing practices based on
743 best practice guidelines, improve patient adherence to
744 medication plans, reduce clinical risk, and lower prescribed
745 drug costs and the rate of inappropriate spending on Medicaid
746 behavioral drugs. The program may include the following
747 elements:

748 (I) Provide for the development and adoption of best
749 practice guidelines for behavioral health-related drugs such as
750 antipsychotics, antidepressants, and medications for treating
751 bipolar disorders and other behavioral conditions; translate
752 them into practice; review behavioral health prescribers and
753 compare their prescribing patterns to a number of indicators
754 that are based on national standards; and determine deviations

576-03342-26

20261758c2

755 from best practice guidelines.

756 (II) Implement processes for providing feedback to and
757 educating prescribers using best practice educational materials
758 and peer-to-peer consultation.

759 (III) Assess Medicaid beneficiaries who are outliers in
760 their use of behavioral health drugs with regard to the numbers
761 and types of drugs taken, drug dosages, combination drug
762 therapies, and other indicators of improper use of behavioral
763 health drugs.

764 (IV) Alert prescribers to patients who fail to refill
765 prescriptions in a timely fashion, are prescribed multiple same-
766 class behavioral health drugs, and may have other potential
767 medication problems.

768 (V) Track spending trends for behavioral health drugs and
769 deviation from best practice guidelines.

770 (VI) Use educational and technological approaches to
771 promote best practices, educate consumers, and train prescribers
772 in the use of practice guidelines.

773 (VII) Disseminate electronic and published materials.

774 (VIII) Hold statewide and regional conferences.

775 (IX) Implement a disease management program with a model
776 quality-based medication component for severely mentally ill
777 individuals and emotionally disturbed children who are high
778 users of care.

779 13.9- The agency shall implement a Medicaid prescription
780 drug management system.

781 a. The agency may contract with a vendor that has
782 experience in operating prescription drug management systems in
783 order to implement this system. Any management system that is

576-03342-26

20261758c2

784 implemented in accordance with this subparagraph must rely on
785 cooperation between physicians and pharmacists to determine
786 appropriate practice patterns and clinical guidelines to improve
787 the prescribing, dispensing, and use of drugs in the Medicaid
788 program. The agency may seek federal waivers to implement this
789 program.

790 b. The drug management system must be designed to improve
791 the quality of care and prescribing practices based on best
792 practice guidelines, improve patient adherence to medication
793 plans, reduce clinical risk, and lower prescribed drug costs and
794 the rate of inappropriate spending on Medicaid prescription
795 drugs. The program must:

796 (I) Provide for the adoption of best practice guidelines
797 for the prescribing and use of drugs in the Medicaid program,
798 including translating best practice guidelines into practice;
799 reviewing prescriber patterns and comparing them to indicators
800 that are based on national standards and practice patterns of
801 clinical peers in their community, statewide, and nationally;
802 and determine deviations from best practice guidelines.

803 (II) Implement processes for providing feedback to and
804 educating prescribers using best practice educational materials
805 and peer-to-peer consultation.

806 (III) Assess Medicaid recipients who are outliers in their
807 use of a single or multiple prescription drugs with regard to
808 the numbers and types of drugs taken, drug dosages, combination
809 drug therapies, and other indicators of improper use of
810 prescription drugs.

811 (IV) Alert prescribers to recipients who fail to refill
812 prescriptions in a timely fashion, are prescribed multiple drugs

576-03342-26

20261758c2

813 that may be redundant or contraindicated, or may have other
814 potential medication problems.

815 ~~14.10.~~ The agency may contract for drug rebate
816 administration, including, but not limited to, calculating
817 rebate amounts, invoicing manufacturers, negotiating disputes
818 with manufacturers, and maintaining a database of rebate
819 collections.

820 ~~15.11.~~ The agency may specify the preferred daily dosing
821 form or strength for the purpose of promoting best practices
822 with regard to the prescribing of certain drugs as specified in
823 the General Appropriations Act and ensuring cost-effective
824 prescribing practices.

825 ~~16.12.~~ The agency may require prior authorization for
826 Medicaid-covered prescribed drugs. The agency may prior-
827 authorize the use of a product:

- 828 a. For an indication not approved in labeling;
829 b. To comply with certain clinical guidelines; or
830 c. If the product has the potential for overuse, misuse, or
831 abuse.

832

833 The agency may require the prescribing professional to provide
834 information about the rationale and supporting medical evidence
835 for the use of a drug. The agency shall post prior
836 authorization, step-edit criteria and protocol, and updates to
837 the list of drugs that are subject to prior authorization on the
838 agency's ~~Internet~~ website within 21 days after the prior
839 authorization and step-edit criteria and protocol and updates
840 are approved by the agency. For purposes of this subparagraph,
841 the term "step-edit" means an automatic electronic review of

576-03342-26

20261758c2

842 certain medications subject to prior authorization.

843 ~~17.13.~~ The agency, in conjunction with the Pharmaceutical
844 and Therapeutics Committee, may require age-related prior
845 authorizations for certain prescribed drugs. The agency may
846 preauthorize the use of a drug for a recipient who may not meet
847 the age requirement or may exceed the length of therapy for use
848 of this product as recommended by the manufacturer and approved
849 by the Food and Drug Administration. Prior authorization may
850 require the prescribing professional to provide information
851 about the rationale and supporting medical evidence for the use
852 of a drug.

853 ~~18.14.~~ The agency shall implement a step-therapy prior
854 authorization approval process for medications excluded from the
855 preferred drug list. Medications listed on the preferred drug
856 list must be used within the previous 12 months before the
857 alternative medications that are not listed. The step-therapy
858 prior authorization may require the prescriber to use the
859 medications of a similar drug class or for a similar medical
860 indication unless contraindicated in the Food and Drug
861 Administration labeling. The trial period between the specified
862 steps may vary according to the medical indication. The step-
863 therapy approval process shall be developed in accordance with
864 the committee as stated in s. 409.91195(7) and (8). A drug
865 product may be approved without meeting the step-therapy prior
866 authorization criteria if the prescribing physician provides the
867 agency with additional written medical or clinical documentation
868 that the product is medically necessary because:

869 a. There is not a drug on the preferred drug list to treat
870 the disease or medical condition which is an acceptable clinical

576-03342-26

20261758c2

871 alternative;

872 b. The alternatives have been ineffective in the treatment
873 of the beneficiary's disease;

874 c. The drug product or medication of a similar drug class
875 is prescribed for the treatment of schizophrenia or schizotypal
876 or delusional disorders; prior authorization has been granted
877 previously for the prescribed drug; and the medication was
878 dispensed to the patient during the previous 12 months; or

879 d. Based on historical evidence and known characteristics
880 of the patient and the drug, the drug is likely to be
881 ineffective, or the number of doses have been ineffective.

882

883 The agency shall work with the physician to determine the best
884 alternative for the patient. The agency may adopt rules waiving
885 the requirements for written clinical documentation for specific
886 drugs in limited clinical situations.

887 ~~19.15.~~ The agency shall implement a return and reuse
888 program for drugs dispensed by pharmacies to institutional
889 recipients, which includes payment of a \$5 restocking fee for
890 the implementation and operation of the program. The return and
891 reuse program shall be implemented electronically and in a
892 manner that promotes efficiency. The program must permit a
893 pharmacy to exclude drugs from the program if it is not
894 practical or cost-effective for the drug to be included and must
895 provide for the return to inventory of drugs that cannot be
896 credited or returned in a cost-effective manner. The agency
897 shall determine if the program has reduced the amount of
898 Medicaid prescription drugs which are destroyed on an annual
899 basis and if there are additional ways to ensure more

576-03342-26

20261758c2

900 prescription drugs are not destroyed which could safely be
901 reused.

902 (14) Neither this section nor this chapter prevents the
903 agency from conducting retrospective reviews, investigations,
904 analyses, audits, or any combination thereof to determine
905 possible fraud, abuse, overpayment, or recipient neglect in the
906 state Medicaid program pursuant to s. 409.913, including, but
907 not limited to, reviews in which the services were the subject
908 of a utilization review or prior authorization process.

909 Section 7. Paragraph (e) of subsection (1) and subsections
910 (2) and (6) of section 409.913, Florida Statutes, are amended to
911 read:

912 409.913 Oversight of the integrity of the Medicaid
913 program.—The agency shall operate a program to oversee the
914 activities of Florida Medicaid recipients, and providers and
915 their representatives, to ensure that fraudulent and abusive
916 behavior and neglect of recipients occur to the minimum extent
917 possible, and to recover overpayments and impose sanctions as
918 appropriate. Each January 15, the agency and the Medicaid Fraud
919 Control Unit of the Department of Legal Affairs shall submit a
920 report to the Legislature documenting the effectiveness of the
921 state's efforts to control Medicaid fraud and abuse and to
922 recover Medicaid overpayments during the previous fiscal year.
923 The report must describe the number of cases opened and
924 investigated each year; the sources of the cases opened; the
925 disposition of the cases closed each year; the amount of
926 overpayments alleged in preliminary and final audit letters; the
927 number and amount of fines or penalties imposed; any reductions
928 in overpayment amounts negotiated in settlement agreements or by

576-03342-26

20261758c2

929 other means; the amount of final agency determinations of
930 overpayments; the amount deducted from federal claiming as a
931 result of overpayments; the amount of overpayments recovered
932 each year; the amount of cost of investigation recovered each
933 year; the average length of time to collect from the time the
934 case was opened until the overpayment is paid in full; the
935 amount determined as uncollectible and the portion of the
936 uncollectible amount subsequently reclaimed from the Federal
937 Government; the number of providers, by type, that are
938 terminated from participation in the Medicaid program as a
939 result of fraud and abuse; and all costs associated with
940 discovering and prosecuting cases of Medicaid overpayments and
