COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 176 requires each state university and Florida College System (FCS) institution to adopt and implement written safety policies and procedures applicable to campus facilities, classrooms, and other institutional settings to prevent, report, and respond to both an act of violence or attempted violence against a person and a credible threat, as defined in s. 784.048(1)(c), F.S.¹ The bill requires each state university and FCS institution's policies and procedures to include certain provisions specified in the bill.

The bill requires each state university and FCS institution to annually review and update its policies and procedures to incorporate best practices in threat assessment, campus security, and safety.

The bill authorizes the Board of Governors to adopt regulations, and the State Board of Education to adopt rules, to administer the provisions of the bill.

This bill does not have a fiscal impact on state revenues and expenditures. **See Section V., Fiscal Impact Statement.**

¹ "Credible threat" means a verbal or nonverbal threat, or a combination of the two, including threats delivered by electronic communication or implied by a pattern of conduct, which places the person who is the target of the threat in reasonable fear for his or her safety or the safety of his or her family members or individuals closely associated with the person, and which is made with the apparent ability to carry out the threat to cause such harm. Section 784.048(1)(c), F.S.

The bill takes effect July 1, 2026.

II. Present Situation:

Governance and Institutional Authority for Campus Safety Policy

The Board of Governors (BOG) has constitutional authority to regulate the State University System (SUS), and each local constituent university is administered by a 13-member board of trustees.² The BOG may adopt a regulation development procedure for the BOG and university boards of trustees to use in implementing their constitutional duties and responsibilities.³ Florida College System (FCS) institution boards of trustees have statutory authority to provide for risk management, safety, security, and law enforcement operations at the institution, including emergency response.⁴

Campus Emergency Response Information; Public Records and Open Meetings Exemptions

Current law defines “campus emergency response” to include plans and training for responding to an act of terrorism or other public safety crisis or emergency, and it specifies categories of included information. Campus emergency response information includes, in part:

- Threat assessments conducted by any agency or private entity.
- Threat response plans.
- Emergency evacuation plans.
- Manuals for security personnel, emergency equipment, or security training.
- Security systems or plans.
- Identification of staff involved in emergency preparedness, response, and recovery activities.
- Individual identification of affected or at-risk students, faculty, and staff and related record-transfer and family-inquiry response methods.

Any portion of a campus emergency response held by a public postsecondary educational institution is exempt from the public records requirement.

Any portion of a campus emergency response held by specified governmental entities, including the BOG, the Department of Education, and state or local law enforcement and emergency management agencies, is also exempt from the public records requirement.

That portion of a public meeting that would reveal information related to a campus emergency response is exempt from open meetings requirements.⁵

³ Art. IX, s. 7(d), Fla. Const.; and s. 1001.706(2), F.S.

⁴ Section 1001.64(23), F.S.

⁵ Section 1004.0962, F.S.

State University System Emergency Management Planning

BOG regulation requires each SUS university to develop and maintain a comprehensive emergency management program and maintain a comprehensive emergency management plan and continuity of operations plan.⁶

The regulation also references state emergency management law that applies to state agencies and specified facilities, including requirements related to emergency coordination and disaster preparedness planning.⁷

Federal Campus Security Disclosure Requirements

The U.S. Department of Education describes the federal campus security framework as advancing goals of keeping students, parents, and employees informed about campus security, and it states that ensuring institutional compliance and enforcement is a departmental priority.⁸

Federal regulations implementing the Clery Act framework require participating institutions to prepare and distribute an annual security report and to comply with related policy statement and campus crime statistics disclosure requirements.⁹

Federal regulations also address timely warnings and require institutions to include emergency response and evacuation procedures in the annual security report.¹⁰

State University System Campus Safety Summit

A Florida Board of Governors report titled “SUS Safety Summit” states that, on October 8, 2025, the SUS hosted a safety summit for university leadership and FCS leaders and discussed key safety issues, including building hardening, threat assessment, and communications.¹¹

The report describes facility lock review efforts following April 17, 2025, events at Florida State University and discusses facility and physical security measures such as reinforced access points, electronic door control systems, and modernized locking technologies.

The report discusses threat assessment as a proactive measure and describes multidisciplinary threat assessment teams drawing on expertise such as law enforcement, counseling, student affairs, and human resources.¹²

The report discusses emergency communications practices such as establishing communication hierarchies and distributing verified updates through multiple channels.¹³

III. Effect of Proposed Changes:

The bill creates s. 1004.0983, F.S., to require each state university and Florida College System (FCS) institution to adopt and implement written safety policies and procedures applicable to campus facilities, classrooms, and other institutional settings to prevent, report, and respond to both an act of violence or attempted violence against a person and a credible threat, as defined in s. 784.048(1)(c), F.S.¹⁴

The bill requires each state university and FCS institution's policies and procedures to include, at a minimum, provisions that:

- Identify a responsible person who coordinates the institution's response to covered threats or conduct and implements the policies and procedures, including all safety measures.
- Establish clear internal and external reporting protocols, including notification of campus security or a local law enforcement agency when appropriate.
- Outline protective measures available to affected persons, which may include work or class relocation, security escorts, and restricting access to certain areas by a person engaged in covered conduct.
- Provide timely updates to an affected person regarding the status of an incident and any action taken.
- Ensure the policies and procedures are prominently posted on the institution's website and available to students, faculty, staff, and visitors upon request.

The bill requires each state university and FCS institution to annually review and update its policies and procedures to incorporate best practices in threat assessment, campus security, and safety.

The bill authorizes the Board of Governors to adopt regulations, and the State Board of Education to adopt rules, to administer the provisions of the bill.

The bill takes effect July 1, 2026.

VIII. Statutes Affected:

This bill creates section 1004.0983 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations Committee on Pre-K - 12 Education on January 28, 2026:

The committee substitute revises the scope of the required institutional safety policies and procedures by replacing the bill's current "physical threats" and "other conduct or

language” standard with a narrower framework focused on violence against a person and on credible threats, as defined in s. 784.048(1)(c), F.S. It also clarifies that the required policies and procedures apply to campus facilities, classrooms, and other institutional settings and must address prevention, reporting, and response.

B. Amendments:

None.
