

The Florida Senate
BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Agriculture

BILL: SB 290

INTRODUCER: Senator Truenow

SUBJECT: Department of Agriculture and Consumer Services

DATE: December 1, 2025

REVISED: _____

ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1. Stokes-Ramos	Becker	AG	Pre-meeting
2. _____	_____	FP	_____
3. _____	_____	RC	_____

I. Summary:

SB 290 makes a number of changes to laws related to the Department of Agriculture and Consumer Services (department) and related topics. Specifically, the bill:

- Prohibits a county or municipality from enacting a local policy to restrict the use of gasoline-powered farm or landscape equipment.
- Requires the Acquisition and Restoration Council to determine whether any lands surplusd by a local governmental entity are suitable for bona fide agricultural purposes, and prohibits local governments from transferring future development rights for such lands.
- Requires the Department of Environmental Protection (DEP) to determine whether any state-owned conservation lands are suitable for bona fide agricultural purposes, and to retain a rural-lands-protection easement for all such lands.
- Removes the Babcock Ranch Advisory Group.
- Adds criminal penalties for receiving or providing unauthorized assistance on a commercial driver license (CDL) exam.
- Repeals statutes requiring Florida’s participation in the Southern States Energy Compact.
- Prohibits land application of classes of biosolids besides Class AA biosolids, and removes the requirement that rules adopted by the department with respect to biosolids be ratified by the Legislature.
- Repeals the Healthy Food Financing Initiative.
- Prohibits commercial solicitation on properties that comply with “no solicitation” signage requirements and provides penalties for violation.
- Allows the department to reorganize itself upon approval of the commissioner.
- Modifies eligibility requirements for the Agriculture and Aquaculture Producers Emergency Recovery Loan Program.
- Creates the Food Animal Veterinary Medicine Loan Repayment Program to help offset loans incurred for studies leading to a veterinary degree with a specialization in food animal veterinary medicine.

- Adds the Welaka Training Center as a site that the Florida Forest Service (FFS) may operate to train fire and forest resource managers, and adds that the FFS may assess appropriate fees to meet its operational costs regardless of the training location.
- Allows the FFS to pay the CDL renewal costs for employees whose positions require them to operate equipment requiring a CDL.
- Establishes the Farmers Feeding Florida Program and restricts Feeding Florida from allowing an opposed candidate for elective office to host a food distribution event.
- Prohibits the department from renewing a certificate of registration for an aquaculture facility that is not in compliance, and imposes a 3-year waiting period for reapplication.
- Revises various regulations of fairs and fair associations.
- Adds “concealed weapon permit” or “concealed weapon permitholder” to the list of words a person is prohibited from wearing or displaying with the intention to mislead, and provides criminal penalties for violation.
- Removes the word “perishable” from the agricultural food products for which agricultural producers can seek to recover damages for disparagement, and adds that the term “agricultural food product” includes any agricultural practices used in the production of such products.
- Prohibits the possession, use, manufacture, import, sale, or distribution of signal jamming devices.

Overall, the bill has an indeterminate, yet likely insignificant impact to the department. See **Section V. Fiscal Impact Statement.**

The bill takes effect July 1, 2026, except for Section 3 of the bill, which is retroactive to January 1, 2024.

II. Present Situation:

The present situation for each issue is described below in Section III, Effect of Proposed Changes.

III. Effect of Proposed Changes:

Gasoline-Powered Equipment

Present Situation

The governing body of a county or municipality has broad legislative powers to enact ordinances and local laws, perform governmental functions, and exercise power to promote the health, welfare, safety, and quality of life of a local government’s residents. Ordinances address a wide variety of local issues, from government structure and zoning laws to speed limits and noise ordinances. Procedures for passing local ordinances are prescribed by the Legislature and differ only slightly between counties and municipalities.

A number of local governments have introduced and adopted ordinances that prohibit the use of gasoline-powered leaf blowers and chainsaws, including Naples¹ and Miami Beach.² These local governments have cited noise and environmental pollution concerns motivating the ordinances. The city of Winter Park prohibited the use of internal combustion engine leaf blowers, but voters later reversed the ban.³ Lawn care agencies were reported to express concern about the cost of switching to electric, and that electric leaf blowers do not hold a charge long enough for the required work.⁴⁵

The Florida Right to Farm Act⁶ provides that “a local government may not adopt any ordinance, regulation, rule, or policy to prohibit, restrict, regulate, or otherwise limit an activity of a bona fide farm operation on land classified as agricultural land pursuant to s. 193.461, where such activity is regulated through implemented best management practices or interim measures” developed by DEP, the department, or water management districts.

Section 366.032(2), F.S., also prohibits (except to enforce the Florida Building Code and Florida Fire Prevention Code) a municipality, county, special district, development district, or other political subdivision of the state from restricting or prohibiting the use of an appliance using the fuels or energy types used, delivered, converted, or supplied by the entities above.

Effect of Proposed Changes

Section 1 creates s. 125.489, F.S., to prohibit a county from enacting or enforcing a resolution, ordinance, rule, code, or policy or to take any action that restricts or prohibits the use of gasoline-powered farm equipment or gasoline-powered landscape equipment and provides related definitions. The bill does not prohibit or limit a county from encouraging the use of alternative farm or landscape equipment, such as battery-powered equipment.

Section 2 creates s. 166.036, F.S., to prohibit a municipality from enacting or enforcing a resolution, ordinance, rule, code, or policy or to take any action that restricts or prohibits the use of gasoline-powered farm equipment or gasoline-powered landscape equipment and provides related definitions. The bill does not prohibit or limit a municipality from encouraging the use of alternative farm or landscape equipment, such as battery-powered equipment.

⁶ Section 823.14, F.S.

Surplus of State-Owned Lands

Present Situation

State law designates the Board of Trustees of the Internal Improvement Trust Fund (Board of Trustees)⁷ as the entity responsible for determining which state lands (the title to which are vested in the Board of Trustees) may be surplus.⁸ The statute addresses two different categories of state-owned lands: conservation lands and nonconservation lands.⁹ For all conservation lands, the Acquisition and Restoration Council¹⁰ must first make a recommendation to the Board of Trustees.¹¹ Conservation lands may only be surplus if the Board of Trustees, by an affirmative vote of at least three members, determines that the lands are no longer needed for conservation purposes.¹² Requests for surplus lands may be made by any public or private entity or person.¹³ Local government requests for surplus lands through purchase or exchange are expedited throughout the surplus process.¹⁴

Effect of Proposed Changes

Section 3 amends s. 253.0341, F.S., to provide additional requirements for the surplus of state-owned lands. The bill requires the Acquisition and Restoration Council to determine whether any lands surplus by a local governmental entity are suitable for bona fide agricultural purposes. A local governmental entity may not transfer future development rights for any surplus lands determined to be suitable for bona fide agricultural purposes.

DEP, in coordination with the department, shall determine whether any state-owned conservation lands are suitable for bona fide agricultural purposes, and may surplus such suitable state-owned lands. DEP shall retain a rural-lands-protection easement for all state-owned conservation lands determined to be suitable for bona fide agricultural production. Proceeds from the sale of such surplus lands must be deposited into the Incidental Trust Fund within the department. By January 1, 2027, DEP shall provide a yearly report of such surplus state-owned conservation lands.

This subsection is retroactive to January 1, 2024.

⁷ The Board of Trustees is a four-person board consisting of the Governor, the Attorney General, the Chief Financial Officer, and the Commissioner of Agriculture. *See* s. 253.02(1), F.S.

⁸ Section 253.0341(1), F.S.

⁹ *Id.*

¹⁰ Section 259.035, F.S., provides that the Acquisition and Restoration Council (ARC) is a 10-member group with representatives from four state agencies, four appointees of the Governor, one appointee by the Fish and Wildlife Conservation Commission, and one appointee by the Commissioner of Agriculture and Consumer Services. ARC has responsibility for the evaluation, selection and ranking of state land acquisition projects on the Florida Forever priority list, as well as the review of management plans and land uses for all state-owned conservation lands. Dep't of Environmental Protection, *Acquisition and Restoration Council*, <https://floridadep.gov/lands/environmental-services/content/acquisition-and-restoration-council-arc> (last visited Dec. 1, 2025); *see also* s. 253.0341(6), F.S. (providing that before any decision by the Board of Trustees, ARC must review and make recommendations to the Board of Trustees concerning the request for surplus, and must determine whether the request is compatible with the resource values of and management objectives for such lands).

¹¹ Section 253.0341(1), F.S.

¹² FLA. CONST. art. X, s. 18.

¹³ Section 253.0341(11), F.S.

¹⁴ Section 253.0341(1), F.S.

Babcock Ranch Preserve

Present Situation

The Babcock Ranch covers an area of 143 square miles and comprises 81,499 acres in Charlotte County and 9,862 acres in Lee County. In July of 2006, a Palm Beach real estate development firm, Kitson & Partners, purchased the entire 91,361 acre Babcock Ranch. The entity retained approximately 18,000 acres for development and sold to the State of Florida the remaining 73,000 acres.

This acquisition was made possible through the Babcock Ranch Preserve Act that was passed by the Legislature in 2006. The Act authorized the Babcock Ranch Preserve (preserve) as a working ranch and to protect regionally important water resources, diverse natural habitats, scenic landscapes and historic and cultural resources in southwest Florida.

Kitson & Partners entered into an agreement with the state of Florida to form a public/private partnership to manage the preserve. A subsidiary of Kitson & Partners, Babcock Ranch Management LLC, entered into a management agreement with the Board of Trustees and Lee County to provide management services for the preserve.

Section 259.1053, F.S., creates the Babcock Ranch Advisory Group to assist the department by providing guidance and advice concerning the management and stewardship of the Babcock Ranch Preserve. The Babcock Ranch Advisory Group has not met since 2017.¹⁵

Effect of Proposed Changes

Section 4 amends s. 259.1053, F.S., to remove the Babcock Ranch Advisory Group from statute.

Payments to Subcontractors

Present Situation

Many of Florida's subcontractors and material suppliers are small, locally-owned businesses that depend on timely payments to stay in business. Late or withheld payments may also delay project completion.

Section 287.1351, F.S., prohibits a vendor that is in default on any contract with an agency or has otherwise repeatedly demonstrated an inability to fulfill the terms and conditions of previous state contracts from submitting a bid, proposal, or reply to an agency or enter into or renew a contract to provide goods or services to an agency after its placement on the suspended vendor list. The suspended vendor list¹⁶ includes vendors that have been removed from the vendor list for "failing to fulfill any of its duties specified in a contract with the State."¹⁷

¹⁵ See Babcock Ranch Advisory Group 10-year plan, <https://www.fdacs.gov/Forest-Wildfire/Our-Forests/State-Forests/Babcock-Ranch-Preserve/Babcock-Ranch-Preserve-10-Year-Land-Management-Plan> (last visited Dec. 1, 2025)

¹⁶ DMS. *Vendor registration and vendor lists*. https://www.dms.myflorida.com/business_operations/state_purchasing/state_agency_resources/vendor_registration_and_vendor_lists (last visited Dec. 1, 2025).

¹⁷ Section 287.042, F.S.; See Rule 60A-10.006, F.A.C.

Effect of Proposed Changes

Section 5 amends s. 287.1351, F.S., to add that a vendor that has failed to timely compensate its subcontractors or suppliers will be placed on the suspended vendor list.

Section 12 amends s. 489.105, F.S., to define “subcontractor” and “supplier” as the same meaning provided in s. 558.002, F.S.

Section 13 creates s. 489.1295, F.S., to require a contractor to pay its subcontractors or suppliers within 15 business days after the contractor is paid for the respective services. A contractor who violates this section commits a misdemeanor of the first degree, or a felony of the third degree when the services performed are valued at \$20,000 or more.

Section 43 reenacts s. 287.056, F.S., related to disqualification from state contract eligibility of vendors placed on the suspended vendor list, to incorporate the amendments made to s. 287.1351, F.S.

Section 44 reenacts s. 287.138, F.S., related to contracting with entities of foreign countries of concern, to incorporate the amendments made to s. 287.1351, F.S.

Cheating on CDL Examinations***Present Situation***

Applicants to drive vehicles requiring a CDL must undergo an exam that tests the applicant’s:

- Eyesight;
- Ability to read and understand highway signs regulating, warning, and directing traffic;
- Knowledge of the traffic laws of this state pertaining to the class of motor vehicle for which he or she is applying;
- Knowledge of the effects and dangers of driving under the influence of alcohol and controlled substances; and
- Knowledge of any special requirements for the safe operation of the class of vehicle for which he or she is applying to be licensed to operate.

He or she must also perform an actual demonstration of his or her ability to exercise ordinary and reasonable control in the safe operation of a motor vehicle or combination of vehicles of the type covered by the license classification which the applicant is seeking, including an exam of the applicant’s ability to perform an inspection of his or her vehicle.¹⁸

Section 322.36, F.S., prohibits a person from authorizing or knowingly permitting a motor vehicle owned or controlled by him or her to be operated on any highway or public street except by a person authorized to operate a motor vehicle under this chapter. Anyone who violates this provision commits a misdemeanor of the second degree.

¹⁸ Section 322.12(4), F.S.

Effect of Proposed Changes

Section 6 amends s. 322.12, F.S., to add that an applicant for a CDL who receives unauthorized assistance from another person on the exam that tests his or her knowledge of traffic laws and signage pertaining to the respective class of vehicle commits a misdemeanor of the second degree.

Section 7 amends s. 322.36, F.S., to add that a person who knowingly or willfully provides unauthorized assistance to an applicant for the CDL exam commits a misdemeanor of the second degree.

Southern States Energy Compact Repeal***Present Situation***

Section 377.711, F.S., establishes Florida as a member of the Southern States Energy Compact (compact). The compact is performed by the Southern States Energy Board (SSEB). The SSEB is a non-profit interstate compact organization created by state law in 1960 and consented to by Congress¹⁹ with a broad mandate to contribute to the economic and community well-being of the southern region.²⁰ Its mission is to enhance economic development and the quality of life through innovations in energy and environmental policies, programs, and technologies. The SSEB serves its members directly by providing assistance designed to develop effective energy and environmental policies and programs and represents its members before governmental agencies at all levels.

Section 377.712, F.S., provides for Florida's participation on the SSEB, including requiring the Governor, President of the Senate, and Speaker of the House of Representatives to each appoint one member to the SSEB. The section also authorizes departments, agencies, and officers of the state and its subdivisions to cooperate with the SSEB if the activities have been approved by either the Governor or the member appointed by the Governor.

According to the department, Florida has not used and does not anticipate using the services provided by the SSEB. Participating in the compact costs Florida approximately \$45,000 annually.

Effect of Proposed Changes

Sections 8, 9, and 10 repeal s. 377.71, F.S., s. 377.711, F.S., and s. 377.712, F.S., respectively. This removes from statute all language referencing the Southern States Energy Compact and Florida's requirement to participate in it.

Biosolids Management***Present Situation***

The proper treatment and disposal or reuse of domestic wastewater is an important part of protecting Florida's water resources. The majority of Florida's domestic wastewater is controlled

¹⁹ Public Laws 87-563 and 92-440.

²⁰ Southern States Energy Board. *About SSEB*. <http://www.sseb.org/about/> (last visited Dec. 1, 2025)

and treated by centralized treatment facilities regulated by the DEP. Florida has approximately 2,000 permitted domestic wastewater treatment facilities.²¹

When domestic wastewater is treated, solid, semisolid, or liquid residue known as biosolids²² accumulates in the wastewater treatment plant and must be removed periodically to keep the plant operating properly.²³ Biosolids also include products and treated material from biosolids treatment facilities and septage management facilities regulated by the DEP.²⁴ The collected residue is high in organic content and contains moderate amounts of nutrients.²⁵

The DEP has stated that wastewater treatment facilities produce about 340,000 dry tons of biosolids each year.²⁶ Biosolids can be disposed of in several ways including placement in a landfill, distribution and marketing as fertilizer, and land application to pasture or agricultural lands.²⁷ Biosolids are subject to regulatory requirements established by the DEP to protect public health and the environment.²⁸

Land application of biosolids involves spreading biosolids on the soil surface or incorporating or injecting biosolids into the soil at a permitted site.²⁹ This practice provides nutrients and organic matter to the soil on agricultural land, golf courses, forests, parks, mine reclamation sites, and other disturbed lands. Composted and treated biosolids are used by landscapers and nurseries, and by homeowners for their lawns and home gardens.³⁰

The DEP regulates three classes of biosolids for beneficial use: Class AA, Class A, and Class B biosolids.³¹ The classes are categorized based on treatment and quality, with Class AA biosolids receiving the highest level of treatment, and Class B receiving the lowest.³² Treatment of biosolids must reduce pathogens, the attractiveness of the biosolids for pests like insects and rodents, and the amount of toxic metals in the biosolids.³³

²² Section 373.4595, F.S., defines biosolids as the solid, semisolid, or liquid residue generated during the treatment of domestic wastewater in a domestic wastewater treatment facility and include products and treated material from biosolids treatment facilities and septage management facilities. The term does not include the treated effluent or reclaimed water from a domestic wastewater treatment facility, solids removed from pump stations and lift stations, screenings and grit removed from the preliminary treatment components of domestic wastewater treatment facilities, or ash generated during the incineration of biosolids.

³¹ Rule 62-640.200, F.A.C.

³² *Id.*; DEP. *Domestic wastewater biosolids*.

³³ Rule 62-640.200, F.A.C.

Class AA biosolids can be distributed and marketed like other commercial fertilizers with few further restrictions.³⁴

Biosolids are regulated under Rule 62-640 of the Florida Administrative Code. The rules provide minimum requirements, including monitoring and reporting requirements, for the treatment, management, use, and disposal of biosolids. The rules are applicable to wastewater treatment facilities, applicers, and distributors³⁵ and include permit requirements for both treatment facilities and biosolids application sites.³⁶

Each permit application for a biosolids application site must include a site-specific nutrient management plan (NMP) that establishes the specific rates of application and procedures to apply biosolids to land.³⁷ Biosolids may only be applied to land application sites that are permitted by the DEP and have a valid NMP.³⁸ Biosolids must be applied at rates established in accordance with the NMP and may be applied to a land application site only if all concentrations of minerals do not exceed ceiling and cumulative concentrations determined by rule.³⁹ According to the St. Johns Water Management District, application rates of biosolids are determined by crop nitrogen demand, which can often result in the overapplication of phosphorus to the soil and can increase the risk of nutrient runoff into nearby surface waters.⁴⁰

Once a facility or site is permitted, it is subject to monitoring, record-keeping, reporting, and notification requirements.⁴¹ The requirements are site-specific and can be increased or reduced by the DEP based on the quality or quantity of wastewater or biosolids treated; historical variations in biosolids characteristics; industrial wastewater or sludge contributions to the facility; the use, land application, or disposal of the biosolids; the water quality of surface and ground water and the hydrogeology of the area; wastewater or biosolids treatment processes; and the compliance history of the facility or application site.⁴²

The land application of Class A and Class B biosolids is also prohibited within priority focus areas in effect for Outstanding Florida Springs if the land application is not in accordance with a NMP that has been approved by the DEP.⁴³ The NMP must establish the rate at which all biosolids, soil amendments, and nutrient sources at the land application site can be applied to the land for crop production while minimizing the amount of pollutants and nutrients discharged into groundwater and waters of the states.⁴⁴

³⁴ DEP. *Domestic wastewater biosolids*; National Biosolids Data Project. *Florida biosolids*. <https://www.biosolidsdata.org/florida> (last visited Dec. 1, 2025); Rule 62-640.850, F.A.C.

³⁹ Rule 62-640.700, F.A.C.

⁴⁰ Hoge, V. R., Environmental Scientist IV, St. Johns River Water Management District. *Developing a biosolids database for watershed modeling efforts*, abstract available at http://archives.waterinstitute.ufl.edu/symposium2018/abstract_detail.asp?AssignmentID=1719 (last visited Dec. 1, 2025).

⁴¹ Rule 62-640.650, F.A.C.

⁴² *Id.*

⁴³ Section 373.811(4), F.S.

⁴⁴ *Id.*

Between 2018 and 2024, the number of biosolids land application sites decreased by about 40%. Florida Class AA and Class B biosolids are also marketed and distributed out of state.⁴⁵

Section 403.0855, F.S., provides legislative findings and requires the DEP to adopt rules for biosolids management. The statute requires all biosolids application sites to meet the DEP rules in effect at the time of the renewal of the biosolids application site permit or facility permit, effective July 1, 2020. Permittees applying Class A or Class B biosolids shall ensure a minimum unsaturated soil depth of 2 feet between the depth of biosolids placement and the water table level at the time of application. Permittees shall also be enrolled in the Department of Agriculture and Consumer Services best management practices program or be within an agricultural operation enrolled in the program for the applicable commodity type.

Effect of Proposed Changes

Section 11 amends s. 403.0855, F.S., to require that permittees of a biosolids land application site permitted after July 1, 2020, shall ensure that only Class AA biosolids are applied to the soil. This section also removes the requirement that rules adopted by the department pursuant to this section be ratified by the Legislature.

Obstructing Inspection

Present Situation

The Division of Food Safety is directly responsible for assuring the public of a safe, wholesome and properly represented food supply. It accomplishes this through the permitting and inspection of food establishments, inspection and evaluation of food products, and the performance of specialized laboratory testing on a variety of food products sold and/or produced in Florida.⁴⁶

Section 500.147, F.S., authorizes the department to have free access at all reasonable hours to any food establishment, any food records, or any vehicle being used to transport or hold food in commerce for the purpose of inspection or sampling.

Section 500.04, F.S., prohibits refusal to permit entry or inspection, or to permit the taking of a sample, as authorized by s. 500.147, F.S.

According to the department, the Division of Food Safety has reported experiences of food establishments obstructing inspection by creating inhospitable conditions for inspectors that make inspection difficult to perform.

Effect of Proposed Changes

Section 14 amends s. 500.04, F.S., to add obstruction to the prohibited acts involving permitting entry or inspection or sample taking as authorized by s. 500.147, F.S.

Section 45 reenacts s. 500.177, F.S., related to the penalty for violation of s. 500.04, F.S., for the purpose of incorporating the amendments made by the bill to s. 500.04, F.S.

⁴⁵ Email from DEP On File with Senate Agriculture Committee

⁴⁶ See <https://www.fdacs.gov/Divisions-Offices/Food-Safety> (last visited Dec. 1, 2025)

Healthy Food Financing Initiative

Present Situation

In 2016, the Florida Legislature directed the department to establish a Healthy Food Financing Initiative Program (program) to provide financial assistance for the rehabilitation or expansion of grocery retail outlets located in underserved or low-income communities.⁴⁷ The department was directed to draw upon and coordinate the use of federal, state, and private loans or grants, federal tax credits, and other types of financial assistance. The goal of the program is to improve public health and well-being of low-income children, families, and older adults by increasing access to fresh produce and other nutritious foods at participating grocery outlets that are required to allocate at least 30 percent of their retail space to the sale of perishable foods, which may include fresh or frozen dairy products, fresh produce, and fresh meats, poultry, and fish.⁴⁸

For the 2016-2017 fiscal year, \$500,000 in nonrecurring funds was appropriated to the department to implement the program.⁴⁹

Effect of Proposed Changes

Section 15 repeals s. 500.81, F.S., the Healthy Food Financing Initiative.

Product Mislabeling

Present Situation

Section 500.93, F.S., provides definitions for “egg,” “egg product,” “FDA,” “meat,” “milk,” and “poultry” or “poultry product” to align with the federal definitions. The statute grants the department rulemaking authority to enforce the FDA’s standard of identity for milk, eggs, egg products, meat, poultry, and poultry products and prohibit the sale of plant-based products mislabeled as milk, eggs, egg products, meat, poultry, and poultry products in the state. It provides that this subsection is effective upon the enactment into law of a mandatory labeling requirement to prohibit the sale of plant-based products mislabeled as milk, eggs, egg products, meat, poultry, and poultry products by any 11 of the group of 14 states identified in statute.⁵⁰

The statute requires the department to notify the Division of Law Revision upon the enactment into law of mandatory labeling requirements by any 11 of the group of 14 states identified in statute.⁵¹

Effect of Proposed Changes

Section 16 amends s. 500.93, F.S., to add in a cross reference previously omitted.

⁴⁷ Section 500.81, F.S.

⁴⁸ Section 500.81, F.S.

⁴⁹ Chapter 2016-221, Laws of Florida.

⁵⁰ The 14 states are composed of Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia.

⁵¹ *Id.*

Health Studio Registration Exemptions

Present Situation

The Health Studio Act, ss. 501.012-501.019, F.S., regulates health studios that enter into contracts for health studio services with consumers. “Health studios” includes, among other things, a gym that offers its members the use of weight-training and cardiovascular equipment. The act requires studios to:

- Register with the department;
- Include specific provisions in every contract with a consumer, such as the consumer’s total payment obligations, and cancellation provisions;
- Provide a security bond, generally ranging from \$10,000 to \$25,000, depending on the value of outstanding contracts with the studio; and
- Refrain from prohibited practices, such as committing an intentional fraud.

The following health studios or health-related businesses are exempt from registration with the department:⁵²

- Nonprofit organizations that have tax-exempt status with the Internal Revenue Service;
- Gymnastics schools that engage in instruction and training only;
- Golf, tennis, or racquetball clubs that do not offer physical exercise equipment;
- A program or facility offered and used solely for the purpose of dance, aerobic exercise, or martial arts that does not use physical exercise equipment;
- Country clubs that primarily provide social or recreational amenities to its members; and
- A program or facility offered by an organization for the exclusive use of its employees and their family members.

Changes in the health studio industry have created additional types of businesses not contemplated at the creation of the statute which bear similarities to the types of businesses exempt under s. 501.013, F.S.

Effect of Proposed Changes

Section 17 amends s. 501.013, F.S., to add that the department may exempt any other businesses or activities not in existence as of July 1, 2026, from ss. 501.012-501.019, F.S.

Unauthorized Commercial Solicitation

Present Situation

Section 501.022, F.S., prohibits home solicitation sales, as defined in s. 501.021, F.S., without first obtaining a valid home solicitation sale permit. Violation of this statute is a first-degree misdemeanor. Some local ordinances in Florida impose further restrictions on home solicitation sales. For example, Leon County prohibits such solicitation on properties that display the locally-required “No Solicitation,”⁵³ the town of Palm Beach prohibits such solicitation outside of

⁵² Sections 501.0125-.013, F.S.

⁵³ Chapter 12, Article IV, Sec. 12-82, Leon County Code of Laws.

specified hours and on properties that display a “No Solicitation,”⁵⁴ and the city of Belle Isle⁵⁵ prohibits such solicitation outside of specified hours.⁵⁶

Effect of Proposed Changes

Section 18 creates s. 501.062, F.S., to provide legislative intent and prohibit commercial solicitation on properties that comply with “no commercial solicitation” signage requirements as provided in the section. The section also provides penalties for violation, including a noncriminal violation punishable with a \$500 fine for the first violation and a second-degree misdemeanor for a second or subsequent violation.

Departmental Reorganization Powers

Present Situation

Section 20.04, F.S., outlines the required structure of the executive branch of state government. Subsection 20.04(7), F.S., states that unless authorized by law, department heads may not reallocate duties and functions specifically assigned by law to a specific unit of the department, but they can do so for duties and functions assigned generally to the department. Department heads may recommend the establishment of additional units, but additional divisions may only be established by statutory enactment, while other units may be initiated by the department and established as recommended by the Department of Management Services and approved by the Executive Office of the Governor, or by statutory enactment.

Section 570.07, F.S., outlines the functions, powers, and duties of the department.

Effect of Proposed Changes

Section 19 amends s. 570.07, F.S., to add that the department shall have the functions, powers, and duties to reorganize departmental units upon approval of the commissioner, notwithstanding s. 20.04(7), F.S.

Agriculture and Aquaculture Producers Emergency Recovery Loan Program

Present Situation

The Agriculture and Aquaculture Producers Emergency Recovery Loan Program, established by s. 570.822, F.S., makes loans to agriculture and aquaculture producers that have experienced damage or destruction from a declared emergency. Loan funds may be used to restore, repair, or replace essential physical property or remove vegetative debris from essential physical property.

Under the program, the department is authorized to make low-interest or interest-free loans of up to \$500,000 to eligible applicants. An approved applicant may receive no more than one loan per

⁵⁴ Chapter 78, Article I, sec. 78-1, Palm Beach, Florida, Code of Ordinances.

⁵⁵ Ch. 20, sec. 20-2, see

https://library.municode.com/fl/belle_isle/codes/code_of_ordinances?nodeId=PTIICOOR_CH20PESO_S20-4PROBSOPE
(last visited Dec. 1, 2025)

⁵⁶ Chapter 20, sec. 20-2, Belle Isle, Florida, Code of Ordinances.

declared disaster, two loans per year, and five loans within any three-year period. The term of each loan is 10 years.

To be eligible an applicant must:

- Own or lease a bona fide farm operation damaged or destroyed as a result of a declared natural disaster located in a county that experienced a declared natural disaster; and
- Maintain complete and acceptable farm records, pursuant to criteria published by the department, and present them as proof of production levels and bona fide farm operations.⁵⁷

Effect of Proposed Changes

Section 20 amends s. 570.822, F.S., to add that eligible applicants for the program must be a United States citizen and a legal resident of this state before or on the date of the declared emergency. If the applicant is an entity as defined in s. 605.0102, F.S., it must be wholly owned and operated in the United States and have an active certificate of status issued by the Department of State pursuant to chapter 605, F.S.

Food Animal Veterinary Medicine Loan Repayment Program

Present Situation

Florida has experienced a shortage of food animal veterinarians caring for livestock and food animals, particularly in rural areas. Nationally, over 72% of new veterinary graduates go into companion animal practices, with average starting salaries of \$140,000, while around 3% of new graduates pursue food animal practice, with starting salaries averaging \$100,000.⁵⁸ Student loan debt can be a major factor driving new graduates to companion animal practice rather than food animal practice. Having a greater number of food animal veterinarians working in the state can help ensure animal health, food safety, and sufficient emergency response during disease outbreaks.

The federal Veterinary Medicine Loan Repayment Program, authorized by the National Veterinary Medical Services Act⁵⁹ and administered by the United States Department of Agriculture (USDA), provides veterinary medicine education loan repayments of up to \$40,000 per year for veterinarians who provide agricultural animal veterinary services in a designated veterinary shortage area.⁶⁰

Effect of Proposed Changes

Section 21 creates s. 570.846, F.S., to establish the Food Animal Veterinary Medicine Loan Repayment Program. The bill authorizes the department to make payments that offset loans incurred for studies leading to a veterinary degree with a specialization in food animal veterinary

⁵⁷ Section 570.822(3), F.S.

⁶⁰ USDA. *The Veterinary Medicine Loan Repayment Program*. <https://www.nifa.usda.gov/grants/programs/veterinary-medicine-loan-repayment-program> (last visited Dec. 1, 2025)

medicine. The department may make payments of up to \$25,000 each year for up to 5 years for up to three new eligible candidates. To be eligible, a candidate must have graduated from a college of veterinary medicine accredited by the American Veterinary Medical Association, have received a Florida veterinary medical license, have obtained a Category II Accreditation from the USDA, and be a practicing food animal veterinarian in this state who cares for food animals at least 20 hours per week. Candidates are ineligible if they are also receiving financial assistance from the federal Veterinary Medicine Loan Repayment Program as established in 7 U.S.C. part 3151a. The department may adopt any rules necessary to administer the program.

Limited Poultry Producer Annual Bird Limit

Present Situation

Section 583.01, F.S., currently defines the term “dealer” to mean any person, firm, or corporation, including a producer, processor, retailer, or wholesaler, that sells, offers for sale, or holds for the purpose of sale in this state 30 dozen or more eggs or its equivalent in any one week, or more than 384 dressed birds in any one week. The definition creates limited sale poultry requirements to benefit operators of small poultry farms, to provide a level of economic and regulatory relief relative to production and sale of limited poultry. Florida Administrative Code 5K-4.033 further defines a “Limited Poultry and Egg Farm Operation” as limited to 20,000 birds annually.

At the federal level, Public Law 90-492, known as the Poultry Product Inspection Act (PPIA), exempts poultry producers who slaughter or process the products of 20,000 poultry birds or fewer from certain inspection requirements of the act.⁶¹

Effect of Proposed Changes

Section 22 amends s. 583.01, F.S., to change the dressed bird limit of a poultry “dealer” from 384 birds weekly⁶² to 20,000 birds annually. This change will align state law with federal law.

Florida Forest Service Training Centers

Present Situation

Florida Forest Service (FFS) has the primary responsibility for the prevention, detection, and suppression of wildfires wherever they may occur. It must provide firefighting crews and develop a training curriculum for forestry firefighters.

Section 590.02, F.S., grants the FFS the authority to pay the cost of the initial CDL exam fee for employees whose position requires them to operate equipment requiring a license, but does not include the cost of CDL renewal. The FFS employs more than 1,250 people in more than 90 job classes. The FFS had 20 different job classes that require a Class A or B CDL as a condition of employment, as of 2018. The Department of Financial Services prohibits the use of public funds to pay license or exam fees under Chapter 69I-40.002(23), F.A.C., unless specifically authorized by law.

⁶¹ 21 U.S.C. § 464. (2020).

⁶² 384 birds weekly adds up to 19,968 birds annually.

Effect of Proposed Changes

Section 23 amends s. 590.02, F.S., to add the Welaka Training Center as a site that the FFS may operate to train fire and forest resource managers, and adds that the FFS may determine and assess appropriate fees to meet its operational costs and grant free meals, room, and scholarships, regardless of the location of the training.

The bill also adds CDL renewal costs to the CDL costs paid by the FFS.

Farmers Feeding Florida Program

Present Situation

The Farmers Feeding Florida Program (program) was temporarily created during the 2025 legislative session and funded through the General Appropriations Act.⁶³ The bill permanently codifies this temporary program. The program provides funding and authority to Feeding Florida to purchase, transport, and distribute non-Emergency Food Assistance Program (non-TEFAP) fresh food products for the benefit of food insecure residents. The program supports Florida farmers while connecting them to families in need. In Florida, the USDA found that 12% of households were food insecure in 2023,⁶⁴ while Feeding America estimates that 3.2 million Floridians were food insecure that year.⁶⁵

The Emergency Food Assistance Program (TEFAP) is a USDA U.S.-grown food distribution program for low-income households that is administered in Florida by the department. The Farmers Feeding Florida Program distributes fresh food outside of TEFAP food.

Effect of Proposed Changes

Section 24 creates s. 595.421, F.S., to establish the Farmers Feeding Florida Program to coordinate with Feeding Florida or its successor entity to acquire, transport, and distribute non-TEFAP fresh food products for the benefit of residents who are food insecure due to a lack of local food resources, accessibility, and affordability. Feeding Florida shall submit monthly reports to the department detailing the amount of food purchased, itemized by commodity type, and purchase and delivery locations and dates. Feeding Florida shall also submit quarterly reports to the legislative appropriations committees detailing the amount of food distributed, itemized by commodity type, and the distribution locations. Foods purchased by Feeding Florida through the program are restricted to charitable purposes for hunger relief and may not reenter the wholesale, retail, or secondary markets. The bill also restricts Feeding Florida from allowing an opposed candidate for elective office to host a food distribution non-emergency event during the election season.

Aquaculture Process Modernization

Present Situation

The Florida Aquaculture Policy Act established that aquaculture is agriculture and consolidated state regulatory responsibilities under the department. Florida's aquaculture industry produces the greatest variety of aquatic species of any state in the nation. Moreover, aquaculture is Florida's most diverse agribusiness. The state's subtropical climate, extensive marine and freshwater resources, cargo shipping infrastructure, and extensive coastline have made the state's aquaculture industry uniquely diverse. There are approximately 1,000 certified aquaculture farms in Florida, located in every region of the state, which produce an estimated 1,500 varieties of fish, aquatic plants, mollusks, crustaceans, turtles, amphibians, and alligators for ornamental, food and bait markets as well as for sporting, conservation, and educational purposes.⁶⁶⁶⁷

Sovereign submerged lands are lands in Florida that include tidal lands, islands, sand bars, shallow banks, and lands waterward of the ordinary or mean high water line, beneath navigable fresh water or beneath tidally-influenced waters.⁶⁸ To conduct aquaculture activities on sovereign submerged lands in Florida, an individual must obtain a lease from the Board of Trustees.⁶⁹ The department accepts and reviews applications and provides recommendations to the Board of Trustees. The Board of Trustees may approve, approve with modifications, or deny the application.⁷⁰

An individual engaging in aquaculture must obtain an aquaculture certificate of registration from the department.⁷¹

Effect of Proposed Changes

Section 25 amends s. 597.004, F.S., to restrict the department from renewing a certificate of registration for a facility that is not compliant with this section unless the renewal application includes documentation of corrective action, and to impose a 3-year reapplication waiting period for revoked or suspended certificates of registration. The bill also updates the scientific name of the Florida bass to *Micropterus salmoides*.

Section 26 amends s. 597.010, F.S., to allow, rather than obligate, the department to adjust annual rental fees for leases.

Florida Wine Trust Fund

Present Situation

The Legislature declared that viticulture, the production and utilization of grapes, is an underdeveloped agricultural commodity enterprise in this state. The Legislature recognizes that

⁶⁶ See <https://www.fdacs.gov/content/download/91723/file/FDACS-P-02145-2020FLAquacultureIndustryOverview.pdf> (last visited Dec. 1, 2025).

⁶⁷ Ch. 597, F.S.

⁶⁸ Rule 18-21.003(67), F.A.C.; s. 253.03(1), F.S.

⁶⁹ Sections 253.68 and 597.010, F.S.

⁷⁰ Rule 18-21.021(1)(q), F.A.C.

⁷¹ Section 597.004(1), F.S.

Florida possesses many resources and geographic advantages that favor the expansion and growth of present-day viticulture into a broad-based, economically viable industry. The growth potential of the present industry offers good opportunities for local economic development and supply trade. The development of viticulture is compatible with the economies, lifestyles, and interests of both rural and urban Florida.⁷²

Further, the Legislature finds that factors such as minimal new grape cultivar development, lack of printed information on production and processing, minimal understanding of winemaking techniques and requirements that will capitalize on the unique characteristics of available grape cultivars, minimal understanding of grape juice processing requirements, lack of fresh fruit handling and processing technology specifically for muscadine grape cultivars, lack of quality standards for wine and other processed grapes, lack of assistance and printed information for overall business planning and marketing, and lack of coordination of the many diverse interests and expertises which could contribute to the further development of viticulture in the state are inhibitory to the development of viticulture to the potential of which it is reasonably capable, going into the 21st century.⁷³

The Florida Viticulture Policy Act creates the Florida Wine Advisory Council, State Wine Plan, Florida Farm Winery Program, and Florida Wine Trust Fund to support the wine and viticulture industries in Florida.⁷⁴

Effect of Proposed Changes

Section 27 amends s. 599.012, F.S., to make conforming changes replacing “viticulture” with “wine” as the products promoted by the Florida Wine Trust Fund, and adding “wine” to the topics of research for which the Florida Wine Trust Fund can provide grants.

Public Fair Charter and Permitting Process Modernization

Present Situation

The Legislature first passed laws for the purpose of regulating state fair associations and operations by enacting ch. 7388, L.O.F, in 1917. In 1974, the Legislature enacted ch. 74-322, L.O.F., which created the Florida State Fair Authority to deal exclusively with the staging of the annual state fair in Tampa, Florida. The last major changes to the statute occurred when the statute was reviewed in 1993 under provisions of the Regulatory Sunset Act. At that time, it was revised and reenacted by the provisions of ch. 93-168, L.O.F.

Currently there is no mechanism in statute for the denial or remediation of fair charter applications. Applicants must record the proposed charter with the judge of the circuit court for the county in which the principal office of the association will be located. Applicants are also required to publish a notice of intention to apply in a local newspaper for four consecutive weeks, and to publish any amendments to their charter in the same manner. A fair association approved by the board of county commissioners is required to submit its charter and any

⁷² Section 599.001 F.S.

⁷³ *Id*

⁷⁴ Chapter 599, F.S.

amendments to the circuit judge of the county where its principal office is located and to file a copy with the department.

The department is required to issue a permit within 10 days after the permit application requirements have been fulfilled.

Effect of Proposed Changes

Section 28 amends s. 616.001, F.S., to remove the definitions of community, county, district, regional, and state fairs, which are included under “annual public fair.” The removal of these definitions also removes the requirements that the agricultural products of each fair be produced in or be typical of its respective geographic area, and that the majority of the board of directors of each fair shall reside, be employed, or operate a business in its respective geographic area. It removes the requirement that district fairs pay at least \$25,000 in cash premiums or awards to exhibitors, and that district fairs have exhibits representing basic resources in agriculture and industry of each county served by the fair. It also retains the definition “public fair or exposition” to include that it benefits and develops the educational agricultural, horticultural, livestock, charitable, historical, civic, cultural, scientific, and other resources of this state, or any county, municipality, or other community in this state.

Section 29 amends s. 616.01, F.S., to remove the minimum requirement of 25 persons to incorporate a fair association. The bill also creates a mechanism for denial of applications and a process for remediation before resubmission. It also requires the proposed charter submitted by approved applicants to be notarized. The bill adds requirements for the proposed charter to include provision for ex officio membership, the name of an elected member of the board of county commissioners who will serve as an ex officio member of the board of directors of the association, the official email address of the association, and the language for the oath that the applicant will take.

Section 30 amends s. 616.02, F.S., to limit the number of incorporated fair associations per county to one, excluding the state fair and fair associations incorporated before the bill effective date. The department may not approve a charter incorporating a new fair association in a county where one already exists, except at the discretion of the Commissioner of Agriculture.

Section 31 amends s. 616.03, F.S., to remove the requirement that a fair association applicant send a notice to the department of the intention to apply to the circuit court for the charter, that the notice be published in a newspaper in the county of the association each week for four consecutive weeks, that the notice briefly summarize the charter and objectives of the proposed association, and that the proposed charter be on file in the office of the clerk of the circuit court during the publication period. The proposed charter must first be approved by the department before being submitted to the board of county commissioners of the county where the principal office of the association will be located.

Section 32 amends s. 616.05, F.S., to remove the public notice requirement for association charter amendments that was removed for proposed charters in section 31.

Section 33 amends s. 616.051, F.S., to remove the public notice requirement for dissolving a fair association and to allow that remaining assets be distributed to the county in which the principal office of the association is located, unless otherwise specified by the property deed.

Section 34 amends s. 616.07, F.S., to remove the requirement for remaining assets of a dissolved association to be distributed to any county or municipality, and to remove the provision allowing the board of directors to designate the public project that will benefit from the funds or the manner in which the property will be used. It also removes the requirement that property contributed by a municipality or county be reconvened to that respective municipality or county.

Section 35 amends s. 616.101, F.S., to clarify that the threshold of annual attendance of 25,000 is based on recorded attendance from the previous year, and that a new fair association must follow the financial reporting requirements of a fair association whose fair has an annual attendance of 25,000 or fewer. It also adds the requirement that a fair association review its charter every 5 years and submit a certified copy to the department that incorporates any amendment made in the last 5 years. A designated member of the association shall attest that the submitted charter is accurate and factual.

Section 36 amends s. 616.15, F.S., to clarify that the application for a permit for the annual public fair shall be submitted to the department at least 90 days, rather than 3 months, before the fair. It adds the requirements that the permit applicant provide a copy of the association's charter which incorporates all amendments made and a complete listing of all exhibits required. It removes the requirement that the applicant provide a written statement subscribed by an association officer that the main purpose of the association is to conduct a public fair for the benefit of the resources of the geographic area represented by the fair. It removes several requirements for the permit application and adds them to requirements to be sent to the department 21 days before the fair: proof of liability insurance of at least \$300,000 per occurrence, a copy of the association's most recent annual financial statement, and a list of all current members of the board of directors of the association and their contact information.

Section 37 amends s. 616.251, F.S., to exempt the Florida State Fair Authority from part I of this chapter.

Section 42 amends s. 288.1175, F.S., regarding certified agriculture education and promotion facilities, to update the statutes referencing fair associations to be consistent with the changes made by this bill.

Section 46 reenacts s. 212.08(13), F.S., related to limitations on exemptions to sales, rental, use, consumption, distribution, and storage tax, for the purpose of incorporating amendments made by the bill to s. 616.07, F.S.

Section 47 reenacts s. 616.185, F.S., related to trespass on public fair grounds or facilities, for the purpose of incorporating amendments made by the bill to s. 616.15, F.S.

Unlawful Use of Badges and Concealed Weapon Permit

Present Situation

Section 843.08, F.S., punishes false personation of a law enforcement officer or other specified person. A person commits a false personation offense if he or she falsely assumes or pretends to be a law enforcement officer or other person specified in the statute and takes upon himself or herself to act as such or to require any other person to aid or assist him or her in a matter pertaining to the duty of any specified person.

Section 843.085(1) and (5), F.S., provides that it is a first degree misdemeanor to wear or display any authorized indicia of authority, including any badge, insignia, emblem, identification card, or uniform, or any colorable imitation thereof, of any federal, state, county, or municipal law enforcement agency, or other criminal justice agency, with the intent to mislead or cause another person to believe that he or she is a member of the agency or is authorized to wear or display the item containing the indicia or related words, unless appointed by the Governor pursuant to chapter 354, F.S., authorized by the appropriate agency, or displayed in a closed or mounted case as a collection or exhibit.

Effect of Proposed Changes

Section 38 amends s. 843.085, F.S., to add “concealed weapon permit” or “concealed weapon permitholder” to the list of words a person is prohibited from wearing or displaying with the intention to mislead or cause another person to believe that he or she is a member of the agency or is authorized to wear or display the item containing the words. Violation of this prohibition is a misdemeanor of the first degree.

Disparagement of Agricultural Food Products

Present Situation

Section 865.065, F.S., provides that the legislature finds, determines, and declares that the production of agricultural food products constitutes an important and significant portion of the state economy and that it is imperative to protect the vitality of the agricultural economy for the citizens of this state by providing a cause of action for agricultural producers to recover damages for the disparagement of any perishable agricultural product.⁷⁵ Current law provides that any producer or any association representing producers of perishable agricultural food products which suffers damages as a result of another person’s disparagement of any such product may bring an action for damages and any other relief a court deems appropriate.⁷⁶

Effect of Proposed Changes

Section 39 amends s. 865.065, F.S., to remove the word “perishable” from the agricultural food products for which agricultural producers can seek to recover damages for disparagement. It also adds that the term “agricultural food product” includes any agricultural practices used in the production of such products. It adds attorney fees and costs of the action to the damages and other relief a court may deem appropriate for the disparagement.

⁷⁵ Section 865.065(1), F.S.

⁷⁶ Section 865.065(3), F.S.

Signal Jamming Devices

Present Situation

Chapter 934, F.S., governs the security of electronic and telephonic communications. Although most provisions in the chapter relate to law enforcement officers' and communication professionals' actions and limitations, some apply just as well to average citizens. One such provision is s. 934.03(4), F.S., which contains criminal offenses and corresponding penalties for intercepting another's oral communication unless the chapter contains an exception.⁷⁷

Section 934.04, F.S., prohibits the manufacture, distribution, or possession of wire, oral, or electronic communication intercepting devices. Violation of this section is a third-degree felony. Section 843.165, F.S., prohibits knowingly transmitting jamming devices or jamming transmissions over radio frequencies assigned by the Federal Communications Commission (FCC) to a state, county, or municipal governmental agency or water management district, or jamming radio transmissions made by volunteer communications personnel of such agencies or any public or private emergency medical services provider, unless authorized to do so. Violation of this section is a first-degree misdemeanor.

At the federal level, the FCC regulates the use of signal jamming devices. U.S. code 47, section 302a grants the FCC the authority to regulate radio frequency interference.⁷⁸ It prohibits the use, manufacture, import, sale, or shipment of devices that can interfere with radio communications, except as authorized. It does not, however, explicitly prohibit "possession" of such devices.

Effect of Proposed Changes

Section 40 amends s. 934.02, F.S., to add the definition of "signal jamming device" to mean a device or process designed to intentionally interfere with radio communications, police radar, or global positioning systems.

Section 41 creates s. 934.51, F.S., to prohibit the possession, use, manufacture, import, sale, holding for sale, or distribution of signal jamming devices, with the exception of federal or military law enforcement when used lawfully as part of a criminal investigation, or any person authorized by the FCC. Violation of this section constitutes a first-degree misdemeanor.

Section 48 provides that the bill shall take effect July 1, 2026.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Sections 1 and 2 prohibit local governments from enacting or enforcing ordinances related to gasoline-powered agriculture and landscape equipment.

⁷⁷ The prohibition located in s. 934.03(1), F.S., against intentionally intercepting, endeavoring to intercept, or procuring any other person to intercept or endeavor to intercept any wire, oral, or electronic communication, is punishable as a third-degree felony. Section 934.03(4), F.S. A third-degree felony is punishable by up to 5 years imprisonment and a \$5,000 fine. Sections 775.082 and 775.083, F.S. Note that s. 934.41, F.S., contains an alternative fine under limited circumstances.

⁷⁸ 47 U.S.C. § 302a (2021).

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:**A. Tax/Fee Issues:**

None.

B. Private Sector Impact:

The bill could result in more biosolids to be converted to Class AA biosolids and would prohibit the current practice of land application of Class A and B biosolids

The bill expands the types of foods for which producers can bring lawsuits for damages from disparagement and adds attorney fees and costs of the action to the damages they can claim.

C. Government Sector Impact:

The department may incur administrative costs in order to implement the bill.

Additionally:

- The bill may restrict counties and municipalities from imposing fines or fees for the use of gasoline-powered farm equipment or gasoline-powered landscape equipment on farms. The fiscal impact on county and municipal governments is indeterminate, but likely to be insignificant.
- The state will no longer be required to spend \$45,000 annually to be a member of the Southern States Energy Compact.
- There is likely a negative fiscal impact to both the public and private sectors to meet the requirements of the new provisions relating to biosolids. There may be a long-term positive fiscal impact as a result of reduced cleanup costs and reduced damage to the natural systems associated with more rigorous land application requirements.

VI. Technical Deficiencies:

The word “of” is missing between “the name” and “an elected member” on line 1196 and between “directors” and “the association” in line 1199.

The word “perishable” should be stricken on line 1543 to be consistent with the rest of the bill.

VII. Related Issues:**Biosolids Management**

The changes made to the management of biosolids would benefit from further clarification, including providing certain definitions, the consideration of whether DEP rules should be codified, and the specification of whether the new regulations apply to new or renewed permits after the effective date of the bill.

Food Animal Veterinary Medicine Loan Repayment Program

The bill does not specify the types of loans that can be offset, except “for studies leading up to a veterinary degree with a specialization in food animal veterinary medicine.” The bill authorizes the program for up to three new eligible candidates annually but does not provide application or selection requirements. Additionally, it is unclear whether the \$25,000 a year is per candidate or for the program in total.

Public Fair Charter and Permitting Process Modernization

It is unclear whether Section 30 allows new associations to be formed in counties where any associations currently exist.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 253.0341, 259.1053, 287.1351, 288.1175, 322.12, 322.36, 403.0855, 489.105, 500.04, 500.93, 501.013, 570.07, 570.822, 583.01, 590.02, 597.004, 597.010, 599.012, 616.01, 616.02, 616.03, 616.05, 616.051, 616.07, 616.001, 616.101, 616.15, 616.251, 843.085, 865.065, and 934.02.

This bill creates the following sections of the Florida Statutes: 125.489, 166.036, 489.1295, 501.062, 570.846, 595.421, and 934.51.

This bill repeals the following sections of the Florida Statutes: 377.12, 377.71, 377.711, and 500.81.

This bill reenacts the following sections of the Florida Statutes: 212.08, 287.056, 287.138, 500.177, and 616.185.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.
