

The Florida Senate
BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Appropriations Committee on Health and Human Services

BILL: CS/SB 36

INTRODUCER: Health Policy Committee and Senator Sharief and others

SUBJECT: Use of Professional Nursing Titles

DATE: February 11, 2026 REVISED: _____

ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1. Smith	Brown	HP	Fav/CS
2. Gerbrandt	McKnight	AHS	Pre-meeting
3. _____	_____	RC	_____

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 36 explicitly authorizes licensed nurses to use the titles “Doctor of Nursing Practice” or “Doctor of Philosophy” and the corresponding abbreviations, “D.N.P.” or “Ph.D.,” if the nurse holds that doctoral degree. The bill prohibits a nurse who holds a doctoral degree from using the title “doctor” in a clinical setting without clearly specifying his or her profession.

The bill has no fiscal impact on state expenditures or revenues. **See Section V., Fiscal Impact Statement.**

The bill takes effect July 1, 2026.

II. Present Situation:

Nurse Licensure and Regulation

The Division of Medical Quality Assurance (MQA), within the Department of Health (DOH), has general regulatory authority over Florida’s licensed health care practitioners. The MQA works in conjunction with the Board of Nursing (Board) to license and regulate approximately 50,378 advanced practice registered nurses (APRNs), 62,230 licensed practical nurses (LPNs), and 347,857 registered nurses (RNs) who are practicing in Florida under an active Florida

license.¹ The DOH and the Board also regulate approximately 4,195 RNs and 549 LPNs from other states who are authorized to practice in Florida through the Nurse Licensure Compact.²

To become initially licensed as an LPN or RN in Florida, an applicant must have completed an accredited or Board-approved pre-licensure nursing education program and passed the National Council of State Boards of Nursing Licensure Examination (NCLEX).³ Nurses licensed in other states may apply for licensure by endorsement under the Mobile Opportunity by Interstate Licensure Endorsement (MOBILE) Act.⁴ Additionally, Florida is a member of the Nurse Licensure Compact which enables RNs and LPNs licensed to practice in other compact states to be able to practice in Florida if they have been issued a multistate license under the compact.⁵

Within the nursing profession, there are two primary categories of licensure: practical nurses and professional nurses. The Nurse Practice Act, codified within part I of ch. 464, F.S., distinguishes between the practice of practical nursing and the practice of professional nursing.

Practical nursing consists of performing selected nursing acts, such as administering treatments and medications, under the direction of a registered nurse, physician, or certain other licensed health care providers. It focuses on the care of individuals who are ill or infirm, and on promoting wellness and preventing illness.⁶

Professional nursing involves the performance of acts that require substantial, specialized knowledge, judgment, and skill based on scientific principles from the psychological, biological, physical, and social sciences. This includes comprehensive responsibilities such as assessing and diagnosing patient needs, planning and evaluating care, administering treatments and medications under proper authorization, and supervising or teaching others in the performance of these duties.⁷

The licensed practical nurses (LPNs) are licensed to practice practical nursing under supervision whereas the registered (professional) nurses (RNs) are licensed to practice professional nursing. The RNs who complete additional graduate- or doctoral-level education may obtain licensure as an advanced practice registered nurse (APRN). In Florida, The APRNs are licensed in one or more of the following roles: nurse practitioner (NP), certified nurse midwife (CNM), clinical nurse specialist (CNS), psychiatric-mental health nurse practitioner, and certified registered nurse anesthetist (CRNA).⁸

The APRNs seeking to register to practice primary care autonomously, i.e. without physician supervision, must complete 3,000 clinical practice hours, which may include clinical instruction

provided by faculty in a clinical setting in a graduate program leading to a master's or doctoral degree in a clinical nursing specialty area.⁹

Post-licensure Nursing Programs

A post-licensure nursing program is a nursing education program designed for people who are already licensed as nurses, most commonly RNs, who want to build upon their existing clinical foundation to advance their education, role, or specialty. Common programs include:

- Registered Nurse to Bachelor of Science in Nursing (RN to BSN);
- Master of Science in Nursing (MSN);
- Doctor of Nursing Practice (DNP);
- Doctor of Philosophy (Ph.D.); and
- Specialty nursing certificates.

The Florida Center for Nursing reported that in 2023, 11.9 percent of Florida APRNs and 1.1 percent of RNs hold a DNP or a Ph.D. in nursing.¹⁰

A DNP degree focuses on advanced clinical practice and leadership. The DNP programs emphasize evidence-based care, system improvement, and public health, addressing Florida's health care needs, and managing chronic conditions.¹¹

A Ph.D. degree in nursing is research-focused and prepares nurses for careers as nurse scientists in primarily academic settings.¹²

Titles and Abbreviations

Within the Nurse Practice Act, s. 464.015, F.S., restricts the use of nursing titles and corresponding abbreviations such as RN, LPN, APRN, unless the individual holds a license as such. Licensees who are found in violation of this section have committed the following acts, which are subject to disciplinary action:¹³

- Making misleading, deceptive, or fraudulent representations in or related to the practice of the licensee's profession.¹⁴
- Failing to identify through written notice, which may include the wearing of a name tag, or orally to a patient the type of license under which the practitioner is practicing.¹⁵

For a nurse who violates either provision, the penalty can range from a reprimand and a \$250 fine up to a \$700 fine and license suspension.¹⁶

¹⁵ Section 456.072(1)(t), F.S.

¹⁶ Rule 64B9-8.006, F.A.C.

Current law does not explicitly authorize or prohibit the use of the titles “Doctor of Nursing Practice” or “Doctor of Philosophy” and the corresponding abbreviations, “D.N.P.” or “Ph.D.,” for persons who do not hold those degrees.

III. Effect of Proposed Changes:

The bill amends s. 464.015, F.S., to authorize nurses licensed under ch. 464, F.S., to use the titles “Doctor of Nursing Practice” or “Doctor of Philosophy” and the corresponding abbreviations, “D.N.P.” or “Ph.D.,” if the nurse holds that doctoral degree.

The bill prohibits a nurse who holds a doctoral degree from using the title “doctor” in a clinical setting without clearly specifying his or her profession. Licensees found to be in violation of this new requirement will be subject to disciplinary action under existing grounds for discipline.

The bill takes effect July 1, 2026.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None identified.

B. Public Records/Open Meetings Issues:

None identified.

C. Trust Funds Restrictions:

None identified.

D. State Tax or Fee Increases:

None identified.

E. Other Constitutional Issues:

None identified.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None identified.

B. Private Sector Impact:

None identified.

C. Government Sector Impact:

The bill has no fiscal impact on state expenditures or revenues.

VI. Technical Deficiencies:

None identified.

VII. Related Issues:

None identified.

VIII. Statutes Affected:

This bill substantially amends section 464.015 of the Florida Statutes.

IX. Additional Information:**A. Committee Substitute – Statement of Substantial Changes:**

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Health Policy on February 2, 2026:

The CS clarifies that a licensed nurse may use certain titles and abbreviations consistent with the doctoral degree the nurse has obtained. By removing the word “only” from the underlying bill, out-of-state degree holders are allowed to use the titles and abbreviations enumerated in the bill. Rather than requiring all doctoral degree holders to specify their profession when using the title “doctor,” the CS provides that a nurse who holds a doctoral degree may not use the title “doctor” in a clinical setting without clearly specifying his or her profession.

B. Amendments:

None.
