

FLORIDA HOUSE OF REPRESENTATIVES FINAL BILL ANALYSIS

This bill analysis was prepared by nonpartisan committee staff and does not constitute an official statement of legislative intent.

BILL #: CS/HB 453 TITLE: Requirements for a Standard High School Diploma SPONSOR(S): Gossett-Seidman	COMPANION BILL: CS/SB 556 (Berman) LINKED BILLS: None RELATED BILLS: None
---	--

FINAL HOUSE FLOOR ACTION: 111 Y's 0 N's **GOVERNOR'S ACTION:** Approved

SUMMARY

Effect of the Bill:

The bill authorizes a student with a disability to substitute one school year of participation in the Special Olympics for the physical education requirement for a standard high school diploma, as determined appropriate by the student's Individual Education Plan team.

The bill revises high school graduation requirements to specify that completion of two years of marching band satisfies both the one credit requirement in physical education and the one credit requirement in performing arts.

Fiscal or Economic Impact:

None

ANALYSIS

EFFECT OF THE BILL:

The bill authorizes a [student with a disability](#) to participate in the [Special Olympics](#) as a course substitution for the [physical education requirement](#) for a standard high school diploma. A student who chooses this option is required to participate for one school year, as determined by the student's Individual Education Plan (IEP) team.

The bill also revises high school graduation requirements by providing that [completion of two years of marching band](#) satisfies both the one credit requirement in physical education and the one credit requirement in performing arts. (Section [1](#)).

The bill was approved by the Governor on May 11, 2026, ch. 2026-70, L.O.F., and will become effective on July 1, 2026. (Section [2](#)).

RELEVANT INFORMATION

SUBJECT OVERVIEW:

Florida Special Olympics

Special Olympics is an international program that provides individuals with intellectual disabilities who are eight years or older with access to year-round sports training and athletic competition in over 20 summer and winter Olympic-type sports.¹ The program's mission is to promote inclusion, physical fitness, and personal growth through participation in sports. In addition to athletic development, the program fosters social skills, teamwork, and self-confidence, helping participants engage more fully in their communities.²

STORAGE NAME: h0453z1

DATE: 5/12/2026

In Florida, the Special Olympics program offers training and sports competition across the state, with county and regional competitions culminating in the State Games.³ In 2024, Special Olympics Florida had 76,976 athletes participating in 176 competitions across 26 sports.⁴

Physical Education Requirement

To earn a standard high school diploma, students must complete coursework in multiple areas, including English language arts, mathematics, science, social studies, fine or performing arts, electives, and physical education (PE), and earn a cumulative GPA of 2.0 on a 4.0 scale.⁵

To meet the PE requirement, students must earn one credit in physical education, which must include the integration of health.⁶ Students are also required to earn one credit in fine or performing arts.⁷

Options that may be used to satisfy the PE requirement include:⁸

- Participation in interscholastic sports at the junior varsity or varsity level for two full seasons.
- [Completion of two years of marching band](#), which may satisfy either the one credit requirement in physical education or the one credit requirement in fine or performing arts.
- Completion of two years in an R.O.T.C. program, with a significant drill component, which satisfies both the one credit requirement in physical education and the one credit requirement in fine or performing arts.

Students may also satisfy one-half credit in physical education or one-half credit in performing arts with the completion of one semester with a grade of “C” or better in marching band or in a dance class.⁹

Students with Disabilities

State law provides additional options for students with disabilities entering grade 9 beginning in the 2014-2015 school year to meet standard high school diploma requirements, as specified in the student’s IEP. Students may satisfy diploma requirements through options that the IEP team has determined most appropriate for demonstrating the student’s skills, including:¹⁰

- Students assessed through the Florida Alternate Assessment: Course substitutions, assessments, certifications, or portfolios that demonstrate mastery of academic standards.¹¹
- Students whose IEP emphasizes mastery of academic and employment competencies: Completion of prescribed courses, achievement of transition plan goals, demonstration of employment skills, and earning industry certifications, verified by the IEP team, employer, and teacher.¹²
- Changes to IEP Graduation Options: Any change must be parent-approved and verified for appropriateness by an independent reviewer.¹³
