part of postpartum or childbirth education provided by hospitals, birth centers, home birth providers, and childbirth educators in this state. The materials must include, but need not be limited to, instruction on all of the following:

(a) The increased risk of drowning for infants and toddlers in bathtubs, pools, and other water sources, citing available data on such drownings.

(b) Water safety measures parents can employ to prevent drowning, emphasizing the importance of constant supervision of infants and children while they are around water and the benefits of early childhood swimming lessons and water competency programs as an added layer of protection from drownings.

(c) Additional safety hazards in the home setting and evidence-based safe bathing practices.

(2) Each hospital, birth center, and home birth provider providing maternity, prenatal, and newborn services shall provide the educational materials developed under subsection (1) to the parents or caregivers of a newborn as part of its postpartum education and care. Hospitals and birth centers shall maintain proof of compliance with this subsection and make such records available to the Agency for Health Care Administration upon request.

(3) Childbirth educators shall provide the educational materials developed under subsection (1) to the parents or caregivers receiving childbirth education.

Section 2. Paragraph (j) is added to subsection (4) of section 383.318, Florida Statutes, to read:
