An act relating to dry needling by occupational therapists; amending s. 468.203, F.S.; defining the terms "dry needling" and "myofascial trigger point"; creating s. 468.227, F.S.; requiring the Board of Occupational Therapy Practice to establish minimum standards of practice for the performance of dry needling by occupational therapists; providing performance requirements; requiring the board to establish additional supervision and training requirements; requiring the Department of Health to submit a specified report to the Legislature by a specified date; providing construction; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (3) through (8) of section 468.203, Florida Statutes, are renumbered as subsections (5) through (10), respectively, and new subsections (3) and (4) are added to that section, to read:

468.203 Definitions.—As used in this act, the term:

(3) "Dry needling" has the same meaning as in s.

486.021(12).

(4) "Myofascial trigger point" has the same meaning as in

26 s. 486.021(13).

27 Section 2. Section 468.227, Florida Statutes, is created
28 to read:

29 468.227 Occupational therapist; performance of dry
30 needling.—

31 (1) The board shall establish minimum standards of
32 practice for the performance of dry needling by occupational
33 therapists, including, but not limited to, all of the following:

34 (a) Completion of 2 years of licensed practice as an
35 occupational therapist.

36 (b) Completion of 50 hours of face-to-face continuing
37 education from an entity approved by the board on the topic of
38 dry needling, which must include a determination by the
39 instructor that the occupational therapist demonstrates the
40 requisite psychomotor skills needed to safely perform dry
41 needling. The continuing education must include instruction in
42 all of the following areas:

43 1. Theory of dry needling.

44 2. Selection and safe handling of needles and other
45 apparatus or equipment used in dry needling, including
46 instruction on the proper handling of biohazardous waste.

47 3. Indications and contraindications for dry needling.

48 4. Psychomotor skills needed to safely perform dry
49 needling.

50 5. Postintervention care, including adverse responses,

51 adverse event recordkeeping, and any reporting obligations.

52 (c)1. Completion of at least 25 patient sessions of dry
 53 needling performed under the supervision of an occupational
 54 therapist, physical therapist, or chiropractic physician who
 55 holds an active license to practice in any state or the District
 56 of Columbia, who has actively performed dry needling for at
 57 least 1 year, and who documents that he or she has met the
 58 supervision and competency requirements and needs no additional
 59 supervised sessions to perform dry needling; or

60 2. Completion of 25 patient sessions of dry needling
 61 performed as an occupational therapist licensed in any state or
 62 in the United States Armed Forces.

63 (d) A requirement that dry needling may not be performed
 64 without patient consent and must be a part of a patient's
 65 documented plan of care.

66 (e) A requirement that dry needling may not be delegated
 67 to any person other than an occupational therapist who is
 68 authorized to engage in dry needling under this chapter.

69 (2) The board shall establish additional supervision and
 70 training requirements before the performance of dry needling of
 71 the head and neck or torso by an occupational therapist if the
 72 board deems it necessary for patient safety.

73 (3) The Department of Health shall, within existing
 74 resources, submit a report to the President of the Senate and
 75 the Speaker of the House of Representatives on or before
