(1) As used in this section, the term "resilient building" means any of the following:

59 (b) A building that has a LEED certificate of silver, gold,
60 or platinum in operations and maintenance (O+M), which
61 certificate meets the requirements for the LEED resilience
62 pathway.

63 (2) For taxable years beginning on or after January 1,
64 2027, the owner of a resilient building is eligible to receive a
65 credit against the tax imposed by this chapter as specified in
66 subsection (3). A resilient building may qualify for the tax
67 credit under this section only once.

68 (a) To claim a credit under this section, a building owner
69 must file an application for a tax credit with the Department of
70 Business and Professional Regulation on a form prescribed by the
71 Department of Business and Professional Regulation no later than
72 March 1 of the year immediately following the year of the
73 building's LEED certification. The Department of Business and
74 Professional Regulation may allow applications to be filed
75 electronically. The building owner must verify the application
76 under oath, under the penalty of perjury, and the application
77 must contain all of the following:

78 1. Documentation evidencing the type of LEED certification
79 that was granted for the building that is the subject of the
80 application.

81 2. The date on which LEED certification was granted.

82 3. A statement by the building owner that, for the purpose
83 of research, the resilient building's energy use information
84 will be reported every year of the 5-year credit period to the
85 Department of Business and Professional Regulation using the
86 ENERGY STAR Portfolio Manager. The Department of Business and
87 Professional Regulation may publish the reported energy use

information but may disclose such data only in the aggregate or individually without identifying information.

4. Other information the Department of Business and Professional Regulation deems necessary to make a proper review and determine eligibility.

(b) No later than 30 days after a building owner submits a completed application for the tax credit, the Department of Business and Professional Regulation shall do one of the following:

1. If the building owner is not eligible for a tax credit, notify the building owner in writing of the reasons the building owner is not entitled to a tax credit.

2. If the building owner is eligible for a tax credit, issue a letter to the building owner which includes the name of the taxpayer, the address of the resilient building, the amount of the tax credit as specified in subsection (3), and the tax years for which the building owner is eligible for the tax credit. The building owner must attach the letter from the Department of Business and Professional Regulation to the tax return on which the credit is claimed.

(c) A building owner may file only one application with the Department of Business and Professional Regulation for each resilient building, except that a building owner may file a subsequent application if the building owner's first application was denied or withdrawn because of errors or omissions in the application and the building owner corrected such errors or omissions in the subsequent application.

(3) If the resilient building that is the subject of an application filed under subsection (2) has:

117 (a) A gold or silver BD+C LEED certification that fulfills
118 the LEED resilience pathway, the building owner may receive a
119 tax credit equal to 50 cents per square foot of the building

130 LEED resilience pathway, the building owner may receive a tax
131 credit equal to \$2 per square foot of the building every year
132 for 5 years.

133 (4) (a) If the credit granted under this section is not
134 fully used in any one taxable year because of insufficient tax
135 liability on the part of the building owner, or because the
136 building owner is not subject to tax under this chapter, the
137 unused amount may be carried forward for a period not to exceed
138 5 taxable years or may be transferred in accordance with
139 paragraph (b). The carryover or transferred credit may be used
140 in the year approved or any of the 5 subsequent taxable years
141 when the tax imposed by this chapter for that taxable year
142 exceeds the credit for which the building owner or transferee
143 under paragraph (b) is eligible in that taxable year under this
144 subsection and after applying the other credits and unused
145 carryovers in the order provided by s. 220.02(8).

146 (b)1. The credit under this section may be transferred, in
147 whole or in part:

148 a. By written agreement to a taxpayer subject to the tax
149 under this chapter; and

162 for the building owner and the transferee.

163 (II) The amount of the credit being transferred.

164 (III) The taxable year in which the credit was originally
165 earned by the building owner.

168 (5) If the recipient of the credit granted under this
169 section in any year fails to provide the energy use information
170 required under subparagraph (2)(a)3., the Department of Business
171 and Professional Regulation must rescind the authorization for
172 the credit. Within 10 days after the date on which the building
173 owner was required to report the information, the Department of
174 Business and Professional Regulation shall send a notice

179 Business and Professional Regulation must notify the department
180 of the rescindment of the recipient's tax credit, and the
181 department may not allow the credit to be taken.

183 may not authorize tax credits under this section which exceed
184 \$50 million in any taxable year and shall authorize tax credits
185 on a first-come, first-served basis. The department must defer
186 any remaining eligible applications for consideration in the
187 next taxable year.
