Excused: Senators Garcia and Montford

PRAYER

The following prayer was offered by Deacon Wallace Brown, Pilgrim Rest Missionary Baptist Church, Havana, a long-time employee of the Office of the Senate Sergeant at Arms:

Our Father and Creator, we come to say thank you for all of your help through this world and through this life. Through prayer, we can reach out to you for ourselves and for our loved ones and even for people we do not know. Through you, our knowledge of you is more clear. Forgive us for our wrongdoings and make us ready to forgive others. Save us from temptation and from falling into sinful ways. You rule over all things. Your power supplies all of our needs. Glory to your holy name.

Bless our great state and bless our world and all of the beautiful things in it. Bless our legislators and keep their minds sharp as they take on all of the state's tough problems. Keep your loving hands around them every day. We pray this prayer in your name. Amen.

SR 550—A resolution supporting an extension of the current moratorium on drilling in the Gulf of Mexico east of the Military Mission Line.

WHEREAS, the Florida Legislature represents the military bases and personnel that maintain, manage, and use the Gulf of Mexico Range Complex (GOMEX Range Complex) which provides for the common defense of this state and the nation, and

WHEREAS, defense is the State of Florida’s fourth largest industry, accounting for more than 775,000 jobs, \$80 billion in economic impact, and 65 percent of the regional economy of Northwest Florida, and

WHEREAS, testing and training activities conducted from Florida’s air and sea bases are considerably dependent on unconstrained access to the Eastern Gulf of Mexico airspace and seaspace, and

WHEREAS, the GOMEX Range Complex is a unique national resource, and

WHEREAS, the range is larger than all other training ranges inside the continental United States combined, stretching from the Florida Panhandle south to Key West and encompassing the Eastern Gulf of Mexico, and

WHEREAS, surrounding the GOMEX Range Complex are numerous United States Department of Defense installations, ranges, and airspaces, which make the complex unique, and

WHEREAS, originally a place to practice air-to-air engagements and air-to-surface bombing and strafing, the GOMEX Range Complex has served the nation for over 60 years, and

WHEREAS, after World War II, the GOMEX Range Complex was used to test surface-to-air rockets against drones and, with the advent of fifth-generation aircraft at Tyndall and Eglin Air Force Bases, has been used extensively to test future weapons systems, and

WHEREAS, the military missions require day and night access to the airspace, from the surface up to 60,000 feet, for high-speed flying and maneuvering, as well as day and night access to the seaspace, from the sea surface to the subsurface areas, for use by ships and submarines, and

WHEREAS, the military uses live ammunition and missiles against remotely piloted full-scale targets and drones, resulting in large debris fields of dangerous objects, and

WHEREAS, for well over a decade and through two presidential administrations, the United States Department of Defense policy has been to keep the Eastern Gulf of Mexico free from obstruction, and

WHEREAS, oil exploration and offshore platforms placed in the Eastern Gulf of Mexico could jeopardize military missions and severely reduce the state's appeal in keeping military installations, and

WHEREAS, without access to airspace in order to test modern and emerging weapons systems and train the aircrews that support such systems, Florida would lose its primary reason for hosting the GOMEX Range Complex, and

WHEREAS, the Gulf of Mexico Energy Security Act (GOMESA) of 2006 restricts oil and gas leasing in all areas east of the Military Mission Line established at 86°41' W. longitude and bans oil and gas leasing within 125 miles of the Florida coastline in the Eastern Planning Area and in a portion of the Central Planning Area until 2022, and

WHEREAS, attempts to reduce restrictions on oil and gas exploration and production arose in 2013 and 2015, when the members of the United States Senate and the United States House of Representatives developed and introduced bills to change GOMESA without addressing the military need to maintain the GOMEX Range Complex, and

WHEREAS, in 2013, the Offshore Energy and Jobs Act was introduced by United States Representative Doc Hastings of Washington to propose changes in oil and gas drilling and exploration locations, and

WHEREAS, the Offshore Energy and Jobs Act of 2015 was introduced by United States Senator Bill Cassidy of Louisiana, to increase oil and gas exploration and production, most notably through reducing the exclusion area east of the Military Mission Line from 125 miles to 50 miles offshore and through shortening the time limit of the moratorium from 2022 to 2017, but the bill ultimately did not advance past committee, and GOMESA remained intact for the time being, and

WHEREAS, the United States Secretary of Defense, the Chief of Staff of the United States Air Force, and fifteen members of the United States Congress from Florida have written letters requesting an extension to the moratorium, which is essential for developing and sustaining the military's future capabilities and for guaranteeing long-term capabilities for future test missions that may enable new technologies such as hypersonic fifth-generation fighters, advanced subsurface weapons systems, and other projects that require enlarged testing and training footprints well beyond 2022, and

WHEREAS, without the certainty of an extension to the moratorium, investment in upgrades in telemetry, tracking, and other important improvements are at risk, and

WHEREAS, in March 2017, twenty local county commissions, chambers of commerce, local economic development councils, and military affairs committees drafted resolutions in support of the moratorium and submitted them to the Florida Legislature, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida:

That the State of Florida must maintain a united front in supporting an extension of the current moratorium on drilling in the Gulf of Mexico east of the Military Mission Line.

BE IT FURTHER RESOLVED that to allow drilling east of the Military Mission Line would mean loss of range areas and possible relocation of aircraft and bases to other unrestricted range areas.

BE IT FURTHER RESOLVED that the Florida Senate supports an indefinite extension of the restriction, specified in the Gulf of Mexico Energy Security Act of 2006, oil and gas leasing in all areas east of the Military Mission Line established at 86°41' W. longitude and indefinite extension of the Act's ban oil and gas leasing within 125 miles of the Florida coastline in the Eastern Planning Area and in a portion of the Central Planning Area.

Section 6. In order to implement Specific Appropriations 6 and 92 of the 2018-2019 General Appropriations Act, present subsections (16) and (17) of section 1011.62, Florida Statutes, are renumbered as subsections (19) and (20), respectively, new subsections (16) and (17) and subsection (18) are added to that section, and paragraph (a) of subsection (4) and subsection (14) of that section are amended, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) *Estimated taxable value calculations.—*

1.a. Not later than 2 working days before July 19, the Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local property

appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or an assessment roll change required by final judicial decisions as specified in paragraph (19)(b) ~~(16)(b)~~. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district's revenue from required local effort millage will produce more than 90 percent of the district's total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(14) QUALITY ASSURANCE GUARANTEE.—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~, quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~ and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

(16) HOPE SUPPLEMENTAL SERVICES ALLOCATION.—*The hope supplemental services allocation is created to provide district-managed turnaround schools, as required under s. 1008.33(4)(a), and charter schools authorized under s. 1008.33(4)(b), with funds to offer services designed to improve the overall academic and community welfare of the schools' students and their families.*

(a) *Services funded by the allocation may include, but are not limited to, tutorial and after-school programs, student counseling, nutrition education, and parental counseling. In addition, services may also include models that develop a culture that encourages students to complete high school and to attend college or career training, set high academic expectations, inspire character development, and include an extended school day and school year.*

(b) *Prior to distribution of the allocation, a school district, for a district turnaround school, or the charter school governing board for a charter school, as applicable, shall develop and submit a plan for im-*

plementation to its respective governing body for approval no later than August 1 of the fiscal year.

(c) At a minimum, the plans required under paragraph (b) must:

1. Establish comprehensive support services that develop family and community partnerships;
2. Establish clearly defined and measurable high academic and character standards;
3. Increase parental involvement and engagement in the child's education;
4. Describe how instructional personnel will be identified, recruited, retained, and rewarded;
5. Provide professional development that focuses on academic rigor, direct instruction, and creating high academic and character standards; and
6. Provide focused instruction to improve student academic proficiency, which may include additional instruction time beyond the normal school day or school year.

(d) Each school district and hope operator shall submit approved plans to the commissioner by September 1 of each fiscal year.

(e) For the 2018-2019 fiscal year, a school that is selected to receive funding in the 2017-2018 fiscal year pursuant to s. 1002.333(10)(c) shall receive \$2,000 per FTE. A district-managed turnaround school required under s. 1008.33(4)(a) and a charter school authorized under s. 1008.33(4)(b) are eligible for the remaining funds based on the school's unweighted FTE, up to \$2,000 per FTE or as provided in the General Appropriations Act.

This subsection expires July 1, 2019.

(17) **MENTAL HEALTH ASSISTANCE ALLOCATION.**—The mental health assistance allocation is created to provide supplemental funding to assist school districts in establishing or expanding comprehensive school-based mental health programs that increase awareness of mental health issues among children and school-age youth; train educators and other school staff in detecting and responding to mental health issues; and connect children, youth, and families who may experience behavioral health issues with appropriate services. These funds may be allocated annually in the General Appropriations Act to each eligible school district and developmental research school based on each entity's proportionate share of Florida Education Finance Program base funding. The district funding allocation must include a minimum amount as specified in the General Appropriations Act. Upon submission and approval of a plan that includes the elements specified in paragraph (b), charter schools are also entitled to a proportionate share of district funding for this program. The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses.

(a) Prior to distribution of the allocation:

1. The district must annually develop and submit a detailed plan outlining the local program and planned expenditures to the district school board for approval.
2. A charter school must annually develop and submit a detailed plan outlining the local program and planned expenditures of the funds in the plan to its governing body for approval. After the plan is approved by the governing body, it must be provided to its school district for submission to the commissioner.

(b) The plans required under paragraph (a) must include, at a minimum, all of the following elements:

1. A collaborative effort or partnership between the school district and at least one local community program or agency involved in mental health to provide or to improve prevention, diagnosis, and treatment services for students;

6. Training opportunities for school personnel in the techniques and supports needed to identify students who have trauma histories and who have or are at risk of having a mental illness, and in the use of referral mechanisms that effectively link such students to appropriate treatment and intervention services in the school and in the community.

(c) The districts shall submit approved plans to the commissioner by August 1 of each fiscal year.

This subsection expires July 1, 2019.

(18) **FUNDING COMPRESSION ALLOCATION.**—The Legislature may provide an annual funding compression allocation in the General Appropriations Act. The allocation is created to provide additional funding to school districts and developmental research schools whose total funds per FTE in the prior year were less than the statewide average. Using the most recent prior year FTEP calculation for each eligible school district, the total funds per FTE shall be subtracted from the state average funds per FTE, not including any adjustments made pursuant to paragraph (19)(b). The resulting funds per FTE difference, or a portion thereof, as designated in the General Appropriations Act, shall then be multiplied by the school district's total unweighted FTE to provide the allocation. If the calculated funds are greater than the amount included in the General Appropriations Act, they must be prorated to the appropriation amount based on each participating school district's share. This subsection expires July 1, 2019.

Section 11. Effective October 1, 2018, in order to implement Specific Appropriations 217 and 218 of the 2018-2019 General Appropriations Act, section 8 of chapter 2017-129, Laws of Florida, is amended to read:

Section 8. Effective October 1, 2018, subsection (2) of section 409.908, Florida Statutes, is amended to read:

409.908 Reimbursement of Medicaid providers.—Subject to specific appropriations, the agency shall reimburse Medicaid providers, in accordance with state and federal law, according to methodologies set forth in the rules of the agency and in policy manuals and handbooks incorporated by reference therein. These methodologies may include fee schedules, reimbursement methods based on cost reporting, negotiated fees, competitive bidding pursuant to s. 287.057, and other mechanisms the agency considers efficient and effective for purchasing services or goods on behalf of recipients. If a provider is reimbursed based on cost reporting and submits a cost report late and that cost report would have been used to set a lower reimbursement rate for a rate semester, then the provider's rate for that semester shall be retroactively calculated using the new cost report, and full payment at the recalculated rate shall be effected retroactively. Medicare-granted extensions for filing cost reports, if applicable, shall also apply to Medicaid cost reports. Payment for Medicaid compensable services made on behalf of Medicaid eligible persons is subject to the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216. Further, nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, or number of services, or making any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act, provided the adjustment is consistent with legislative intent.

(2)(a)1. Reimbursement to nursing homes licensed under part II of chapter 400 and state-owned-and-operated intermediate care facilities for the developmentally disabled licensed under part VIII of chapter 400 must be made prospectively.

2. Unless otherwise limited or directed in the General Appropriations Act, reimbursement to hospitals licensed under part I of chapter 395 for the provision of swing-bed nursing home services must be made on the basis of the average statewide nursing home payment, and reimbursement to a hospital licensed under part I of chapter 395 for the provision of skilled nursing services must be made on the basis of the average nursing home payment for those services in the county in which the hospital is located. When a hospital is located in a county that does not have any community nursing homes, reimbursement shall be determined by averaging the nursing home payments in counties that surround the county in which the hospital is located. Reimbursement to hospitals, including Medicaid payment of Medicare copayments, for skilled nursing services shall be limited to 30 days, unless a prior authorization has been obtained from the agency. Medicaid reimbursement may be extended by the agency beyond 30 days, and approval must be based upon verification by the patient's physician that the patient requires short-term rehabilitative and recuperative services only, in which case an extension of no more than 15 days may be approved. Reimbursement to a hospital licensed under part I of chapter 395 for the temporary provision of skilled nursing services to nursing home residents who have been displaced as the result of a natural disaster or other emergency may not exceed the average county nursing home payment for those services in the county in which the hospital is located and is limited to the period of time which the agency considers necessary for continued placement of the nursing home residents in the hospital.

(b) Subject to any limitations or directions in the General Appropriations Act, the agency shall establish and implement a state Title XIX Long-Term Care Reimbursement Plan for nursing home care in order to provide care and services in conformance with the applicable state and federal laws, rules, regulations, and quality and safety standards and to ensure that individuals eligible for medical assistance have reasonable geographic access to such care.

1. The agency shall amend the long-term care reimbursement plan and cost reporting system to create direct care and indirect care subcomponents of the patient care component of the per diem rate. These two subcomponents together shall equal the patient care component of the per diem rate. Separate prices shall be calculated for each patient care subcomponent, initially based on the September 2016 rate setting cost reports and subsequently based on the most recently audited cost report used during a rebasing year. The direct care subcomponent of the per diem rate for any providers still being reimbursed on a cost basis shall be limited by the cost-based class ceiling, and the indirect care subcomponent may be limited by the lower of the cost-based class ceiling, the target rate class ceiling, or the individual provider target. The ceilings and targets apply only to providers being reimbursed on a cost-based system. Effective October 1, 2018, a prospective payment methodology shall be implemented for rate setting purposes with the following parameters:

a. Peer Groups, including:

(I) North-SMMC Regions 1-9, less Palm Beach and Okeechobee Counties; and

(II) South-SMMC Regions 10-11, plus Palm Beach and Okeechobee Counties.

b. Percentage of Median Costs based on the cost reports used for September 2016 rate setting:

(I) Direct Care Costs 105 ~~100~~ percent.

(II) Indirect Care Costs 92 percent.

(III) Operating Costs 86 percent.

c. Floors:

(I) Direct Care Component 95 percent.

(II) Indirect Care Component 92.5 percent.

(III) Operating Component None.

d. Pass-through Payments . . . Real Estate and Personal Property Taxes and Property Insurance.

e. Quality Incentive Program Payment Pool . . 7.5 6 percent of September 2016 non-property related payments of included facilities.

f. Quality Score Threshold to Quality for Quality Incentive Payment 20th percentile of included facilities.

g. Fair Rental Value System Payment Parameters:

(I) Building Value per Square Foot based on 2018 RS Means.

(II) Land Valuation 10 percent of Gross Building value.

(III) Facility Square Footage Actual Square Footage.

(IV) Moveable Equipment Allowance \$8,000 per bed.

(V) Obsolescence Factor 1.5 percent.

(VI) Fair Rental Rate of Return 8 percent.

(VII) Minimum Occupancy 90 percent.

(VIII) Maximum Facility Age 40 years.

(IX) Minimum Square Footage per Bed 350.

(X) Maximum Square Footage for Bed 500.

(XI) Minimum Cost of a renovation/replacements . . . \$500 per bed.

h. Ventilator Supplemental payment of \$200 per Medicaid day of 40,000 ventilator Medicaid days per fiscal year.

2. The direct care subcomponent shall include salaries and benefits of direct care staff providing nursing services including registered nurses, licensed practical nurses, and certified nursing assistants who deliver care directly to residents in the nursing home facility, allowable therapy costs, and dietary costs. This excludes nursing administration, staff development, the staffing coordinator, and the administrative portion of the minimum data set and care plan coordinators. The direct care subcomponent also includes medically necessary dental care, vision care, hearing care, and podiatric care.

3. All other patient care costs shall be included in the indirect care cost subcomponent of the patient care per diem rate, including complex medical equipment, medical supplies, and other allowable ancillary costs. Costs may not be allocated directly or indirectly to the direct care subcomponent from a home office or management company.

4. On July 1 of each year, the agency shall report to the Legislature direct and indirect care costs, including average direct and indirect care costs per resident per facility and direct care and indirect care salaries and benefits per category of staff member per facility.

5. Every fourth year, the agency shall rebase nursing home prospective payment rates to reflect changes in cost based on the most recently audited cost report for each participating provider.

6. A direct care supplemental payment may be made to providers whose direct care hours per patient day are above the 80th percentile and who provide Medicaid services to a larger percentage of Medicaid patients than the state average.

7. For the period beginning on October 1, 2018, and ending on September 30, 2021, the agency shall reimburse providers the greater of their September 2016 cost-based rate or their prospective payment rate. Effective October 1, 2021, the agency shall reimburse providers the greater of 95 percent of their cost-based rate or their rebased prospective payment rate, using the most recently audited cost report for each facility. This subparagraph shall expire September 30, 2023.

8. Pediatric, Florida Department of Veterans Affairs, and government-owned facilities are exempt from the pricing model established in this subsection and shall remain on a cost-based prospective payment system. Effective October 1, 2018, the agency shall set rates for all

facilities remaining on a cost-based prospective payment system using each facility's most recently audited cost report, eliminating retroactive settlements.

It is the intent of the Legislature that the reimbursement plan achieve the goal of providing access to health care for nursing home residents who require large amounts of care while encouraging diversion services as an alternative to nursing home care for residents who can be served within the community. The agency shall base the establishment of any maximum rate of payment, whether overall or component, on the available moneys as provided for in the General Appropriations Act. The agency may base the maximum rate of payment on the results of scientifically valid analysis and conclusions derived from objective statistical data pertinent to the particular maximum rate of payment.

Section 12. Effective October 1, 2018, in order to implement Specific Appropriations 217 and 218 of the 2018-2019 General Appropriations Act, subsection (23) of section 409.908, Florida Statutes, is amended to read:

If a provider is reimbursed based on cost reporting and submits a cost report late and that cost report would have been used to set a lower reimbursement rate for a rate semester, then the provider's rate for that semester shall be retroactively calculated using the new cost report, and full payment at the recalculated rate shall be effected retroactively. Medicare-granted extensions for filing cost reports, if applicable, shall also apply to Medicaid cost reports. Payment for Medicaid compensable services made on behalf of Medicaid eligible persons is subject to the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216. Further, nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, or number of services, or making any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act, provided the adjustment is consistent with legislative intent.

The provisions of this subsection are subject to the notice and objection procedures set forth in s. 216.177.

Section 41. (1) *In order to implement specific appropriations from the land acquisition trust funds within the Department of Agriculture and Consumer Services, the Department of Environmental Protection, the Department of State, and the Fish and Wildlife Conservation Commission, which are contained in the 2018-2019 General Appropriations Act, the Department of Environmental Protection shall transfer revenues from the Land Acquisition Trust Fund within the department to the land*

acquisition trust funds within the Department of Agriculture and Consumer Services, the Department of State, and the Fish and Wildlife Conservation Commission, as provided in this section. As used in this section, the term "department" means the Department of Environmental Protection.

(2) *After subtracting any required debt service payments, the proportionate share of revenues to be transferred to each land acquisition trust fund shall be calculated by dividing the appropriations from each of the land acquisition trust funds for the fiscal year by the total appropriations from the Land Acquisition Trust Fund within the department and the land acquisition trust funds within the Department of Agriculture and Consumer Services, the Department of State, and the Fish and Wildlife Conservation Commission for the fiscal year. The department shall transfer the proportionate share of the revenues in the Land Acquisition Trust Fund within the department on a monthly basis to the appropriate land acquisition trust funds within the Department of Agriculture and Consumer Services, the Department of State, and the Fish and Wildlife Conservation Commission and shall retain its proportionate share of the revenues in the Land Acquisition Trust Fund within the department. Total distributions to a land acquisition trust fund within the Department of Agriculture and Consumer Services, the Department of State, and the Fish and Wildlife Conservation Commission may not exceed the total appropriations from such trust fund for the fiscal year.*

(3) *In addition, the department shall transfer from the Land Acquisition Trust Fund to land acquisition trust funds within the Department of Agriculture and Consumer Services, the Department of State, and the Fish and Wildlife Conservation Commission amounts equal to the difference between the amounts appropriated in chapter 2017-70, Laws of Florida, to the department's Land Acquisition Trust Fund and the other land acquisition trust funds, and the amounts actually transferred between those trust funds during the 2017-2018 fiscal year.*

(4) *The department may advance funds from the beginning unobligated fund balance in the Land Acquisition Trust Fund to the Land Acquisition Trust Fund within the Fish and Wildlife Conservation Commission needed for cash flow purposes based on a detailed expenditure plan. The department shall prorate amounts transferred quarterly to the Fish and Wildlife Conservation Commission to recoup the amount of funds advanced by June 30, 2019.*

(5) *This section expires July 1, 2019.*

Section 42. *In order to implement Specific Appropriations 1393A, 1393B, 1549, 1549A, 1549B, 1550A, 1681A, 1681B, 1686A, and 1802A of the 2018-2019 General Appropriations Act, the Department of Environmental Protection shall distribute any moneys transferred from the Land Acquisition Trust Fund into the Florida Forever Trust Fund using the distribution formula specified in s. 259.105(3), Florida Statutes. 375.075 Outdoor recreation; financial assistance to local governments.—

(5)(a) *For the 2018-2019 fiscal year:*

1. *Notwithstanding any other provision of this section, \$4 million of funds for projects must be used exclusively for projects that provide recreational enhancements and opportunities for children. The department shall conduct a separate grant application process exclusively for such projects. The department shall establish the schedule for the grant application process for projects that provide publicly available recreational enhancements and opportunities for children and shall award the grants for such projects by December 31, 2018, and each year thereafter.*

2. *Notwithstanding subsection (3), a local government may submit up to three grant applications for projects if at least one of those projects provides recreational enhancements and opportunities for children. The maximum project grant for each project application that provides recreational enhancements and opportunities for children may not exceed*

\$250,000 in state funds, which the local government must match on a dollar-for-dollar basis.

(b) The selection criteria used by the department for grant applications submitted pursuant to this subsection must give priority to projects geared toward children under the age of 12, but which also provide educational opportunities and have established safety standards. The department shall give the highest priority to those project applications that further demonstrate they will serve the needs of children with unique abilities and will be accessible and usable to those with physical and developmental disabilities. All projects must be required to have playground equipment and lighting that is adequate for evening use.

(c) The playground equipment should be designed in a manner to serve children under the age of 12 with unique abilities, including those with physical and developmental disabilities. The criteria must also establish a minimum lot size for such project.

(d) This subsection expires July 1, 2019.

Section 44. In order to implement Specific Appropriation 1660 of the 2018-2019 General Appropriations Act, paragraph (r) is added to subsection (4) of section 376.3071, Florida Statutes, to read:

376.3071 Inland Protection Trust Fund; creation; purposes; funding.—

(4) USES.—Whenever, in its determination, incidents of inland contamination related to the storage of petroleum or petroleum products may pose a threat to the public health, safety, or welfare, water resources, or the environment, the department shall obligate moneys available in the fund to provide for:

(r) Notwithstanding paragraph (j), \$10 million is allocated for the 2018-2019 fiscal year for the payment of the repair or the replacement of, or other preventive measures for, storage tanks, piping, or system components. Such costs may include equipment, preventive measures, excavation, electrical work, site restoration, and maintenance protocols. Owners or operators may submit an application for funding on forms developed by the department.

1. The application must include:

a. An affidavit by a petroleum storage system specialty contractor and supporting documentation demonstrating that the storage tank system may have been damaged or is subject to damage by incompatibility with fuel blended with ethanol or biodiesel;

b. A proposed scope of work and cost; and

c. For proposals to replace tanks or piping, a statement from a certified public accountant which indicates the depreciated value of the equipment. The depreciated value is the maximum allowable replacement cost. Tanks and piping that are 20 years old or older are deemed to have no replacement value.

2. The department must review the application for completeness, accuracy, and reasonableness of costs and scope of work. Upon approval of an application, the department must issue a purchase order to the applicant. The department may not issue a purchase order unless funds remain for the current fiscal year. The purchase order must include a deductible of 25 percent of the total cost. Except for preventative maintenance contracts, the specified work must be substantially completed within 180 days after the date of issuance of the purchase order.

3. Applications shall be funded on a first-come, first-served basis. Except for preventative maintenance contracts, the specified work must be substantially completed within 180 days after the date of issuance of the purchase order. After such time, the purchase order is void. An owner or operator may not cancel a preventative maintenance contract without cause. Following submission of proof to the department that the approved scope of work; or, in the case of preventative maintenance contracts, the first service event is complete; the applicant may request payment. A petroleum storage system owner or operator may not receive more than \$200,000 per fiscal year for any single facility or \$500,000 per fiscal year for all the facilities it owns or operates.

4. Owners or operators who have incurred costs for repair, replacement, or other preventative measures as described in this paragraph

from July 1, 2015, through June 30, 2018, may apply to request payment for such costs from the department using the procedure specified in this paragraph. The department may not disburse payments for approved applications for such work until all purchase orders for previously approved applications submitted after July 1, 2018, have been paid and funds remain available for the fiscal year. Such payment is subject to a deductible of 25 percent of the approved cost.

5. Payment may not be provided for:

a. Any costs for which an application for repair, replacement, or preventative measures is not approved in accordance with this paragraph;

b. Proposal costs or costs related to preparation of the application and required documentation;

c. Costs associated with the services of a certified public accountant;

d. Costs associated with storage tanks, piping, or ancillary equipment that has been previously repaired or replaced with funds that have been paid pursuant to this section;

e. Facilities that are not in compliance with department storage tank rules, until the facility has been brought into compliance with such rules; or

f. Costs associated with damage to petroleum storage systems caused in whole or in part by causes other than the storage of fuels blended with ethanol or biodiesel.

6. This paragraph does not affect the obligations of facility owners or operators or petroleum storage system owners or operators to timely comply with department rules regarding the maintenance, replacement, and repair of petroleum storage systems in order to prevent a release or discharge of pollutants. This paragraph does not prevent the department from issuing a purchase order in accordance with this paragraph based on grounds that work had commenced before the issuance of the purchase order.

7. The department shall ensure that petroleum storage systems approved after July 1, 2018, meet applicable standards for compatibility for ethanol blends, biodiesel blends, and other alternative fuels that are likely to be installed in such systems.

8. This paragraph expires July 1, 2019.

The issuance of a site rehabilitation completion order pursuant to subsection (5) or paragraph (12)(b) for contamination eligible for programs funded by this section does not alter the project's eligibility for state-funded remediation if the department determines that site conditions are not protective of human health under actual or proposed circumstances of exposure under subsection (5). The Inland Protection Trust Fund may be used only to fund the activities in ss. 376.30-376.317 except ss. 376.3078 and 376.3079. Amounts on deposit in the fund in each fiscal year must first be applied or allocated for the payment of amounts payable by the department pursuant to paragraph (n) under a service contract entered into by the department pursuant to s. 376.3075 and appropriated in each year by the department before making or providing for other disbursements from the fund. This subsection does not authorize the use of the fund for cleanup of contamination caused primarily by a discharge of solvents as defined in s. 206.9925(6), or polychlorinated biphenyls when their presence causes them to be hazardous wastes, except solvent contamination which is the result of chemical or physical breakdown of petroleum products and is otherwise eligible. Facilities used primarily for the storage of motor or diesel fuels as defined in ss. 206.01 and 206.86 are not excluded from eligibility pursuant to this section.

1. A proposed finance plan, as balanced to the requested work program amendment to realign the work program categories to the 2018-2019 ~~2017-2018~~ General Appropriations Act, or any other amendments that reduce work program commitments;

7. A letter of concurrence or nonconcurrence from the affected metropolitan planning organization or, for nonmetropolitan areas, the board of county commissioners with impacted project selections; and

(b)1. The trust funds shall consist of moneys received by the state which under law or under trust agreement are segregated for a purpose authorized by law. The state agency or branch of state government receiving or collecting such moneys is responsible for their proper expenditure as provided by law. Upon the request of the state agency or branch of state government responsible for the administration of the trust fund, the Chief Financial Officer may establish accounts within the trust fund at a level considered necessary for proper accountability. Once an account is established, the Chief Financial Officer may authorize payment from that account only upon determining that there is sufficient cash and releases at the level of the account.

2. In addition to other trust funds created by law, to the extent possible, each agency shall use the following trust funds as described in this subparagraph for day-to-day operations:

c. Administrative trust fund, for use as a depository for funds to be used for management activities that are departmental in nature and funded by indirect cost earnings and assessments against trust funds. Proprietary funds are excluded from the requirement of using an administrative trust fund.

To the extent possible, each agency must adjust its internal accounting to use existing trust funds consistent with the requirements of this subparagraph. If an agency does not have trust funds listed in this subparagraph and cannot make such adjustment, the agency must recommend the creation of the necessary trust funds to the Legislature no later than the next scheduled review of the agency's trust funds pursuant to s. 215.3206.

3. All such moneys are hereby appropriated to be expended in accordance with the law or trust agreement under which they were received, subject always to the provisions of chapter 216 relating to the appropriation of funds and to the applicable laws relating to the deposit or expenditure of moneys in the State Treasury.

4.a. Notwithstanding any provision of law restricting the use of trust funds to specific purposes, unappropriated cash balances from selected trust funds may be authorized by the Legislature for transfer to the Budget Stabilization Fund and General Revenue Fund in the General Appropriations Act.

b. This subparagraph does not apply to trust funds required by federal programs or mandates; trust funds established for bond covenants, indentures, or resolutions whose revenues are legally pledged by the state or public body to meet debt service or other financial requirements of any debt obligations of the state or any public body; the Division of Licensing Trust Fund in the Department of Agriculture and Consumer Services; the State Transportation Trust Fund; the trust fund containing the net annual proceeds from the Florida Education Lotteries; the Florida Retirement System Trust Fund; trust funds under the management of the State Board of Education or the Board of Governors of the State University System, where such trust funds are for auxiliary enterprises, self-insurance, and contracts, grants, and donations, as those terms are defined by general law; trust funds that serve as clearing funds or accounts for the Chief Financial Officer or state agencies; trust funds that account for assets held by the state in a trustee capacity as an agent or fiduciary for individuals, private organizations, or other governmental units; and other trust funds authorized by the State Constitution.

This section expires July 1, 2019.*

Any section of this act which implements more than one specific appropriation or more than one portion of specifically identified proviso language in the 2018-2019 General Appropriations Act is void if all the specific appropriations or portions of specifically identified proviso language are vetoed.*

Section 59. *If any provision of this act or its application to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.*

Section 60. Except as otherwise expressly provided in this act and except for this section, which shall take effect upon this act becoming a law, this act shall take effect July 1, 2018; or, if this act fails to become a law until after that date, it shall take effect upon becoming a law and shall operate retroactively to July 1, 2018.
