PRAYER

The following prayer was offered by the Reverend Jonathan M. Craig, Ministry to State, Tallahassee:

Heavenly Father, as we begin this morning, we do so with praise, for you, Lord, are God and not we ourselves. You alone are worthy of all praise and all glory and all honor and all power.

Be pleased today to bless these your servants, their staffs, and their families in the work to which you have called them. In the quiet moments of solitude when the weightiness of our callings rests heavy upon us, bless us with the knowledge of your loving presence and encourage us by the power of your Holy Spirit.

In moments of temptation, bless us with deliverance and should we succumb, bless us with humble and contrite hearts burdened by our sin. Remind us that we have an advocate with you and that if we confess our sins, you are faithful and just to forgive us our sins and to cleanse us from all unrighteousness. In our moments of triumph, bless us with joyful hearts which rejoice in you and which give you the glory for the great things you have done. In your holy name, we pray. Amen.

PLEDGE

Senator Brandes led the Senate in the Pledge of Allegiance to the flag of the United States of America.

ADOPTION OF RESOLUTIONS

At the request of Senator Baxley—

By Senator Baxley—

SR 1572—A resolution encouraging Floridians to consider opening their hearts and homes to children in this state who are in need of a loving family, and recognizing November 2021 as “Florida Adoption Month.”

WHEREAS, it is paramount that Florida’s children and families have the opportunities necessary to reach their full potential and lead healthy lives, and

WHEREAS, all children deserve a loving, supportive, nurturing, and permanent family of their own, and

WHEREAS, adoption is an opportunity to change the life of a child and the families that might adopt them while making an impact on local communities, and

WHEREAS, anyone with the ability to love and provide for a child and to make a lifelong commitment can be an adoptive parent, and

WHEREAS, 4,548 Florida children found permanent homes through adoption during the 2019-2020 state fiscal year, and

WHEREAS, approximately 800 Florida children, including teenagers, sibling groups, and children with special medical needs, are available for adoption and have no identified adoptive family, and

WHEREAS, First Lady Casey DeSantis, as chair of the Florida Children and Youth Cabinet and through her “Hope for Healing Florida” program, is working alongside state agencies to improve the health, safety, economic stability, and quality of life of Florida’s children, and

WHEREAS, the Governor’s Office of Adoption and Child Protection, the Florida Department of Children and Families, community-based care lead agencies, the Florida Association of Heart Galleries, state and local agencies, and child advocacy organizations join together each November to raise awareness of foster care adoptions in Florida, and

WHEREAS, this year, Florida will celebrate National Adoption Month and Florida Adoption Month with its 30 Days of Amazing Children campaign on the Explore Adoption website, www.adoptflorida.org, and

WHEREAS, families and children across this state and nation will celebrate adoption on November 20, 2021, National Adoption Day, while also remembering the children who are still in need of a loving, permanent family of their own, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida:

That Floridians are encouraged to consider opening their hearts and homes to children in this state who are in need of a loving family, and that November 2021 is recognized as “Florida Adoption Month.”

—was introduced, read, and adopted by publication.

At the request of Senator Rodriguez—

By Senator Rodriguez—

SR 2014—A resolution recognizing the week of May 2-8, 2021, as “Tardive Dyskinesia Awareness Week” in Florida and encouraging all Floridians to become better informed about tardive dyskinesia.

WHEREAS, many people with serious, chronic mental illness, such as schizophrenia and other schizoaffective disorders, bipolar disorder, or severe depression, require treatment with medications that work as dopamine receptor blocking agents (DRBAs), including antipsychotics, and

WHEREAS, many people who have gastrointestinal disorders, including gastroparesis, nausea, and vomiting, also require treatment with DRBAs, and

WHEREAS, while ongoing treatment with these medications can be very helpful, and even lifesaving, for many people, it also can lead to tardive dyskinesia (TD), a movement disorder that is characterized by random, involuntary, and uncontrolled movements of different muscles in the face, torso, and extremities, and

WHEREAS, TD commonly manifests through movement of the arms, legs, fingers, or toes and, in some cases, may affect the tongue, lips, and jaw, and

WHEREAS, other symptoms of TD include involuntary swaying of the torso or hips and involuntary movement of the muscles associated with walking, speech, eating, and breathing, and

WHEREAS, TD can develop months, years, or decades after a person starts taking DRBAs and even after discontinuing the use of those medications, and, while not everyone who takes a DRBA develops TD, those who do often find the aftereffects are permanent, and

WHEREAS, common risk factors for TD include advanced age and alcoholism or other substance abuse disorders, and postmenopausal women and people with mood disorders also are at higher risk of developing TD, and

WHEREAS, a person’s risk for TD increases after taking DRBAs for just 3 months, and the longer the person takes these medications, the higher his or her risk, and

WHEREAS, it is estimated that more than 500,000 people in the United States suffer from TD, and the National Alliance for Mental Illness estimates that one in every four patients receiving long-term treatment with an antipsychotic medication will experience TD, and

WHEREAS, TD is often unrecognized, and patients suffering from the illness are commonly misdiagnosed, and

WHEREAS, patients suffering from TD often suffer embarrassment due to their abnormal and involuntary movements, which leads them to withdraw from society and increasingly isolate themselves as the disease progresses, and

WHEREAS, caregivers of patients with TD face many challenges and are often responsible for their overall care, and

WHEREAS, years of research have resulted in recent scientific breakthroughs, with two new TD treatments approved by the United States Food and Drug Administration, and

WHEREAS, the American Psychiatric Association recommends regular screening for TD in patients taking DRBAs, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida:

That the week of May 2-8, 2021, is recognized as “Tardive Dyskinesia Awareness Week” in Florida and that all Floridians are encouraged to become better informed about tardive dyskinesia.

—was introduced, read, and adopted by publication.

At the request of Senator Cruz—

By Senator Cruz—

SR 2050—A resolution recognizing May 2021 as “Osteoporosis Awareness Month” in Florida.

WHEREAS, one in two women and one in four men in the United States who are 50 years of age or older will fracture a bone due to osteoporosis in their lifetimes, and

WHEREAS, approximately 4.7 million women who are 50 years of age or older live in this state, and

WHEREAS, a woman’s risk of fracturing a hip is equal to her combined risk of being diagnosed with breast, uterine, and ovarian cancer, and

WHEREAS, bone fractures due to osteoporosis can have serious long-term consequences, and

WHEREAS, after the first bone fracture, postmenopausal women with osteoporosis are five times more likely to fracture a bone within the next year, and

WHEREAS, persons who are living with osteoporosis often remain undiagnosed and untreated, and

WHEREAS, since lost bone cannot be replaced, treatment for osteoporosis typically focuses on preventing any further bone loss, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida:

That May 2021 is recognized as “Osteoporosis Awareness Month” in Florida to increase awareness, screening, and prevention and provide educational resources to inform and empower women to take charge of their bone health.

—was introduced, read, and adopted by publication.

Senator Brodeur moved the following amendment which was adopted:

Amendment 1 (546548) (with title amendment)—Between lines 50 and 51 insert:

Section 2. (1) *The following rule is ratified for the sole and exclusive purpose of satisfying any condition on effectiveness imposed under s. 120.541(3), Florida Statutes: Rules 62-41.300, 62-41.301, 62-41.302, 62-41.303, 62-41.304, and 62-41.305, Florida Administrative Code, titled “Central Florida Water Initiative Area,” as published on November 19, 2020, in the Florida Administrative Register, Vol. 46, No. 226, pages 5019-5025; February 9, 2021, in the Florida Administrative Register, Vol. 47, No. 26, pages 733-734; and March 26, 2021, in the Florida Administrative Register, Vol. 47, No. 59, pages 1506-1507.*

(2) *This section serves no other purpose and shall not be codified in the Florida Statutes. After this act becomes a law, its enactment and effective dates shall be noted in the Florida Administrative Code or the Florida Administrative Register, or both, as appropriate. This section does not constitute legislative preemption of or exception to any provision of law governing adoption or enforcement of the rule cited, and is intended to preserve the status of any cited rule as a rule under chapter 120, Florida Statutes. This section does not cure any rulemaking defect or preempt any challenge based on a violation of the legal requirements governing the adoption of any rule cited.*

Section 3. Paragraph (d) of subsection (2) of section 373.0465, Florida Statutes, is amended to read:

373.0465 Central Florida Water Initiative.—

(2)

(d) The department, in consultation with the St. Johns River Water Management District, the South Florida Water Management District, the Southwest Florida Water Management District, and the Department of Agriculture and Consumer Services, shall adopt uniform rules for application within the Central Florida Water Initiative Area that include:

1. A single, uniform definition of the term “harmful to the water resources” consistent with the term’s usage in s. 373.219;

2. A single method for calculating residential per capita water use;

3. A single process for permit reviews;

4. A single, consistent process, as appropriate, to set minimum flows and minimum water levels and water reservations;

5. A goal for residential per capita water use for each consumptive use permit; ~~and~~

6. An annual conservation goal for each consumptive use permit consistent with the regional water supply plan;

7. *A drought allocation for supplemental irrigation for agricultural uses which is based on a 2-in-10-year rainfall condition or, if the applicant so requests, is based on a 5-in-10-year rainfall condition alone or combined with the 2-in-10-year condition. The applicable water management district may also condition, for information only purposes, consumptive use permits to advise permittees that their annual use of water should be less than the drought allocation in all years except for the drought condition that is the basis for the allocation or a more severe drought; and*

8. *A process for the applicable water management district to annually examine an agricultural user’s 5-year moving average supplemental irrigation water use against the annual supplemental irrigation needs in the 5-in-10-year rainfall condition beginning no earlier than 5 years following the effective date of the rules adopted under this section. If this annual examination indicates that the agricultural user’s 5-year*

moving average use exceeds that needed in such rainfall condition for reasons other than prolonged periods of below average rainfall, the water management district may modify the agricultural user’s permit to include an annual supplemental irrigation allocation based on both the amount of supplemental irrigation required during a 2-in-10-year rainfall condition and the amount of supplemental irrigation required during a 5-in-10-year rainfall condition as provided in rules adopted pursuant to this section. In such case, the supplemental irrigation allocation based on the 5-in-10-year rainfall condition shall be valid for only 5 years unless the agricultural user’s 5-year moving average use continues to exceed the amount of supplemental irrigation needed during a 5-in-10-year rainfall condition for reasons other than prolonged periods of drought.

Subparagraphs 7. and 8. may not be construed to limit the ability of the department or a water management district to establish different supplemental irrigation requirements as part of an existing or future recovery or prevention strategy adopted pursuant to s. 373.0363, s. 373.042, or s. 373.0421. The uniform rules must include existing recovery strategies within the Central Florida Water Initiative Area adopted before July 1, 2016. The department may grant variances to the uniform rules if there are unique circumstances or hydrogeological factors that make application of the uniform rules unrealistic or impractical.

Section 4. Section 373.0466, Florida Statutes, is created to read:

373.0466 *Central Florida Water Initiative Grant Program.—Subject to appropriation, a grant program for the Central Florida Water Initiative is established within the Department of Environmental Protection.*

(1) *The department, in cooperation with the relevant water management districts, shall provide grants for projects that benefit the Central Florida Water Initiative Area and that promote alternative water supplies and protect groundwater resources.*

(2) *In allocating such funds, priority must be given to projects that use reclaimed water, create new surface water storage, enhance natural systems, recharge groundwater, optimize beneficial uses of water, expand water conservation programs, or are able to demonstrate that a significant financial hardship exists as a result of complying with rules applicable to the Central Florida Water Initiative Area.*

Section 5. Paragraph (a) of subsection (9) of section 403.8532, Florida Statutes, is amended to read:

403.8532 Drinking water state revolving loan fund; use; rules.—

(9) The department may adopt rules regarding the procedural and contractual relationship between the department and the corporation under s. 403.1837 and to carry out the purposes of this section and the federal Safe Drinking Water Act, as amended. Such rules shall:

(a) Set forth a priority system for loans based on public health considerations, compliance with state and federal requirements relating to public drinking water systems, and affordability. The priority system ~~shall~~ give special consideration to:

1. Projects that provide for the development of alternative drinking water supply projects and management techniques in areas where existing source waters are limited or threatened by saltwater intrusion, excessive drawdowns, contamination, or other problems;

2. Projects that provide for a dependable, sustainable supply of drinking water and that are not otherwise financially feasible; ~~and~~

3. Projects that contribute to the sustainability of regional water sources; ~~and~~

4. *Projects that implement water supply plans and develop water sources as an alternative to continued reliance on the Floridan Aquifer, pursuant to s. 373.0465.*

Section 6. *The Legislature determines and declares that this act fulfills an important state interest.*

And the title is amended as follows:

Delete lines 2-11 and insert: An act relating to environmental regulation; ratifying specified rules relating to biosolids for the sole and exclusive purpose of satisfying any condition on effectiveness pursuant to s. 120.541(3), F.S., which requires ratification of any rule exceeding the specified thresholds for likely adverse impact or increase in regulatory costs; exempting the rules from certain review and approval by the Environmental Regulation Commission; providing applicability; ratifying specified rules relating to the Central Florida Water Initiative, for the sole and exclusive purpose of satisfying any condition on effectiveness pursuant to s. 120.541(3), F.S., which requires ratification of any rule exceeding any specified thresholds for likely adverse impact or increase in regulatory costs; providing applicability; amending s. 373.0465, F.S.; requiring the department, in consultation with specified water management districts, to adopt rules that include an annual drought allocation for supplemental irrigation for agricultural uses and a process for examining an agricultural user's supplemental irrigation needs as weighed against certain factors; providing for the applicability of specified rules to areas with certain existing recovery strategies; creating s. 373.0466, F.S.; establishing, subject to appropriation, a Central Florida Water Initiative Grant Program within the department; requiring the department, in cooperation with the relevant water management districts, to distribute appropriated funds for certain projects that benefit the Central Florida Water Initiative Area; amending s. 403.8532, F.S.; requiring the department to give funding priority to certain projects relating to the Central Florida Water Initiative; providing a declaration of important state interest; providing an

The single claim of lien is sufficient even though the improvement is for one or more improvements located on separate lots, parcels, or tracts of land. If materials to be used on one or more improvements on separate lots, parcels, or tracts of land ~~under one direct contract~~ are delivered by a lienor to a place designated by the person with whom the materialman contracted, other than the site of the improvement, the delivery to the place designated is prima facie evidence of delivery to the site of the improvement and incorporation in the improvement. The single claim of lien may be limited to a part of multiple lots, parcels, or tracts of land and their improvements or may cover all of the lots, parcels, or tracts of land and improvements. ~~If a claim of lien under this section is for multiple direct contracts, the owner under the direct contracts contract must be the same person for all lots, parcels, or tracts of land against which a single claim of lien is recorded.~~

Section 5. Paragraph (b) of subsection (2) of section 713.10, Florida Statutes, is amended, and subsection (4) is added to that section, to read:

713.10 Extent of liens.—

(2)

(b) The interest of the lessor is not subject to liens for improvements made by the lessee when:

1. The lease, or a short form or a memorandum of the lease that contains the specific language in the lease prohibiting such liability, is recorded in the official records of the county where the premises are located before the recording of a notice of commencement for improvements to the premises and the terms of the lease expressly prohibit such liability; or

2. The terms of the lease expressly prohibit such liability, and a notice advising that leases for the rental of premises on a parcel of land prohibit such liability has been recorded in the official records of the county in which the parcel of land is located before the recording of a notice of commencement for improvements to the premises, and the notice includes the following:

- a. The name of the lessor.
- b. The legal description of the parcel of land to which the notice applies.
- c. The specific language contained in the various leases prohibiting such liability.
- d. A statement that all or a majority of the leases entered into for premises on the parcel of land expressly prohibit such liability.

~~3. The lessee is a mobile home owner who is leasing a mobile home lot in a mobile home park from the lessor.~~

A notice that is consistent with subparagraph 2. effectively prohibits liens for improvements made by a lessee even if other leases for premises on the parcel do not expressly prohibit liens or if provisions of each lease restricting the application of liens are not identical.

(4) *The interest of the lessor is not subject to liens for improvements made by the lessee when the lessee is a mobile home owner who is leasing a mobile home lot in a mobile home park from the lessor.*

Section 10. Section 713.21, Florida Statutes, is amended to read:

(2) By the satisfaction or release of the lienor, duly acknowledged and recorded in the clerk's office. The satisfaction or release must include the lienor's notarized signature and set forth the official records' reference numbers and recording date affixed by the recording office on the subject lien. Section 11. Paragraph (d) of subsection (1) of section 713.23, Florida Statutes, is amended to read:

713.23 Payment bond.—

(1)

(d) In addition, a lienor who has not received payment for furnishing his or her labor, services, or materials must, as a condition precedent to recovery under the bond, serve a written notice of nonpayment on the contractor and a copy of the notice on the surety. The notice must be under oath and served during the progress of the work or thereafter, but may not be served later than 90 days after the final furnishing of labor, services, or materials by the lienor, or, with respect to rental equipment, later than 90 days after the date the rental equipment was on the job site and available for use. A notice of nonpayment that includes sums for retainage must specify the portion of the amount claimed for retainage. The required notice satisfies this condition precedent with respect to the payment described in the notice of nonpayment, including unpaid finance charges due under the lienor's contract, and with respect to any other payments which become due to the lienor after the date of the notice of nonpayment. The time period for serving a notice of nonpayment is shall be measured from the last day of furnishing labor, services, or materials by the lienor and may not be measured by other standards, such as the issuance of a certificate of occupancy or the issuance of a certificate of substantial completion. The failure of a lienor to receive retainage sums not in excess of 10 percent of the value of labor, services, or materials furnished by the lienor is not considered a nonpayment requiring the service of the notice provided under this paragraph. If the payment bond is not recorded before commencement of construction, the time period for the lienor to serve a notice of nonpayment may at the option of the lienor be calculated from the date specified in this section or the date the lienor is served a copy of the bond. However, the limitation period for commencement of an action on the payment bond as established in paragraph (e) may not be expanded. The negligent inclusion or omission of any information in the notice of nonpayment that has not prejudiced the contractor or surety does not constitute a default that operates to defeat an otherwise valid bond claim. A lienor who serves a fraudulent notice of nonpayment forfeits his or her rights under the bond. A notice of nonpayment is fraudulent if the lienor has willfully exaggerated the amount unpaid, willfully included a claim for work not performed or materials not furnished for the subject improvement, or prepared the notice with such willful and gross negligence as to amount to a willful exaggeration. However, a minor mistake or error in a notice of nonpayment, or a good faith dispute as to the amount unpaid, does not constitute a willful exaggeration that operates to defeat an otherwise valid claim against the bond. The service of a fraudulent notice of nonpayment is a complete defense to the lienor's claim against the bond. The notice under this paragraph must include the following information, current as of the date of the notice, and must be in substantially the following form:

Senator Berman moved the following amendment:

Amendment 1 (215478)—Delete lines 862-1063 and insert:

(b) *Entry of a decree of legal separation maintenance by a court of competent jurisdiction in another state that recognizes legal separation or maintenance under its laws.*

(5) “During marriage” means a period that begins at marriage and ends upon the dissolution of marriage or upon the death of a spouse.

(6) “Qualified trustee” means either:

- (a) A natural person who is a resident of the state; or
- (b) A company authorized to act as a trustee in the state.

A qualified trustee’s powers include, but are not limited to, maintaining records for the trust on an exclusive or a nonexclusive basis and preparing or arranging for the preparation of, on an exclusive or a non-exclusive basis, any income tax returns that must be filed by the trust.

(7) “Settlor spouses” means a married couple who establishes a community property trust pursuant to this part.

Section 31. Section 736.1503, Florida Statutes, is created to read:

736.1503 Requirements for community property trust.—An arrangement is a community property trust if one or both settlor spouses transfer property to a trust that:

- (1) Expressly declares that the trust is a community property trust within the meaning of this part.
- (2) Has at least one trustee who is a qualified trustee, provided that both spouses or either spouse also may be a trustee.
- (3) Is signed by both settlor spouses consistent with the formalities required for the execution of a trust under this chapter.
- (4) Contains substantially the following language in capital letters at the beginning of the community property trust agreement:

THE CONSEQUENCES OF THIS COMMUNITY PROPERTY TRUST MAY BE VERY EXTENSIVE, INCLUDING, BUT NOT LIMITED TO, YOUR RIGHTS WITH RESPECT TO CREDITORS AND OTHER THIRD PARTIES, AND YOUR RIGHTS WITH YOUR SPOUSE DURING THE COURSE OF YOUR MARRIAGE, AT THE TIME OF A DIVORCE, AND UPON THE DEATH OF YOU OR YOUR SPOUSE. ACCORDINGLY, THIS TRUST AGREEMENT SHOULD BE SIGNED ONLY AFTER CAREFUL CONSIDERATION. IF YOU HAVE ANY QUESTIONS ABOUT THIS TRUST AGREEMENT, YOU SHOULD SEEK COMPETENT AND INDEPENDENT LEGAL ADVICE. ALTHOUGH NOT A REQUIREMENT, IT IS STRONGLY ADVISABLE THAT EACH SPOUSE OBTAIN THEIR OWN SEPARATE LEGAL COUNSEL PRIOR TO THE EXECUTION OF THIS TRUST.

Section 32. Section 736.1504, Florida Statutes, is created to read:

736.1504 Agreement establishing community property trust; amendments and revocation.—

- (1) In the agreement establishing a community property trust, the settlor spouses may agree upon:
 - (a) The rights and obligations in the property transferred to the trust, notwithstanding when and where the property is acquired or located.
 - (b) The management and control of the property transferred into the trust.
 - (c) The disposition of the property transferred to the trust on dissolution, death, or the occurrence or nonoccurrence of another event, subject to ss. 736.1507 and 736.1508.
 - (d) Whether the trust is revocable or irrevocable.
 - (e) Any other matter that affects the property transferred to the trust and does not violate public policy or general law imposing a criminal penalty, or result in the property not being treated as community property under the laws of a relevant jurisdiction.
- (2) In the event of the death of a settlor spouse, the surviving spouse may amend a community property trust regarding the disposition of that spouse’s one-half share of the community property, regardless of whether the agreement provides that the community property trust is irrevocable.

(3) A community property trust may be amended or revoked by the settlor spouses unless the agreement itself specifically provides that the community property trust is irrevocable.

(4) Notwithstanding any other provision of this code, the settlor spouses shall be deemed to be the only qualified beneficiaries of a community property trust until the death of one of the settlor spouses, regardless of whether the trust is revocable or irrevocable. After the death of one of the settlor spouses, the surviving spouse shall be deemed to be the only qualified beneficiary as to his or her share of the community property trust.

Section 33. Section 736.1505, Florida Statutes, is created to read:

736.1505 Classification of property as community property; enforcement; duration; management and control; effect of distributions.—

- (1) Whether both, one, or neither is domiciled in the state, settlor spouses may classify any or all of their property as community property by transferring that property to a community property trust and providing in the trust that the property is community property pursuant to this part.
- (2) A community property trust is enforceable without consideration.
- (3) All property owned by a community property trust is community property under the laws of the state during the marriage of the settlor spouses.
- (4) The right to manage and control property that is transferred to a community property trust is determined by the terms of the trust agreement.
- (5) When property is distributed from a community property trust, the property shall no longer constitute community property within the meaning of this part, provided that community property as classified by a jurisdiction other than the state retains its character as community property to the extent otherwise provided by ss. 732.216-732.228.

Section 34. Section 736.1506, Florida Statutes, is created to read:

736.1506 Satisfaction of obligations.—Except as provided in s. 4, Art. X of the State Constitution:

- (1) An obligation solely incurred by one settlor spouse before or during the marriage may be satisfied from that settlor spouse’s one-half share of a community property trust, unless otherwise provided in the community property trust agreement.
- (2) An obligation incurred by both spouses during the marriage may be satisfied from a community property trust of the settlor spouses.

Section 35. Section 736.1507, Florida Statutes, is created to read:

736.1507 Death of a spouse.—Upon the death of a spouse, one-half of the aggregate value of the property held in a community property trust established by the settlor spouses reflects the share of the surviving spouse and is not subject to testamentary disposition by the decedent spouse or distribution under the laws of succession of the state. The other one-half of the value of that property reflects the share of the decedent spouse and is subject to testamentary disposition or distribution under the laws of succession of the state. Unless provided otherwise in the community property trust agreement, the trustee has the power to distribute assets of the trust in divided or undivided interests and to adjust resulting differences in valuation. A distribution in kind may be made on the basis of a non-pro rata division of the aggregate value of the trust assets, on the basis of a pro rata division of each individual asset, or by using both methods. The decedent’s spouse’s one-half share shall not be included in the elective estate.

Section 36. Section 736.1508, Florida Statutes, is created to read:

736.1508 Dissolution of marriage.—

- (1) Upon the dissolution of the marriage of the settlor spouses, the community property trust shall terminate and the trustee shall distribute one-half of the trust assets to each spouse in accordance with subsection (3). For purposes of this act, s. 61.075 does not apply to the

disposition of the assets and liabilities held in a community property trust.

(2) The initiation of an action to dissolve the settlor spouses' marriage does not automatically terminate the community property trust unless otherwise agreed to by the settlor spouses in writing or otherwise ordered by the court having jurisdiction over the dissolution proceedings between the settlor spouses. However, if an action to dissolve the settlor spouses' marriage remains pending for 180 days, the trust automatically terminates and the trustee must distribute one-half of the trust assets to each spouse in accordance with subsection (3), unless any of the following apply:

(a) A settlor spouse objects to the termination within 180 days following the filing of the dissolution action. At which time, either party may request that the court having jurisdiction over the dissolution proceedings between the settlor spouses determine if good cause exists to terminate the community property trust during the pendency of the dissolution of marriage action.

(b) The court having jurisdiction over the dissolution proceedings between the settlor spouses enters an order directing otherwise.

(c) The settlor spouses otherwise agree, in writing, while the dissolution of marriage action is pending.

(d) The community property trust agreement provides otherwise.

(3) Unless provided otherwise in the community property trust agreement, the trustee has the power to distribute assets of the trust in divided or undivided interests and to adjust resulting differences in valuation. A distribution in kind may be made on the basis of a non-pro rata division of the aggregate value of the trust assets, on the basis of a pro rata division of each individual asset, or by using both methods. A trustee may not distribute real property or business interests in a manner that would leave the settlor spouses as co-owners of such assets post dissolution of the settlor spouses' marriage or termination of the community property trust, unless otherwise agreed to by the settlor spouses in a separate written agreement executed during the dissolution of marriage action. Notwithstanding any other provision of this section, the community property trust agreement cannot be terminated, and the assets cannot be distributed, in a manner that could cause the trust assets to not be treated as community property.

(4) The court having jurisdiction over the dissolution proceedings between the settlor spouses has personal and subject matter jurisdiction over the settlor spouses and the trustee of the community property trust for the purpose of effectuating the distribution of the community property trust assets consistent with the terms of the community property trust agreement, in a manner ensuring that the trust assets retain their community property character.

Section 37. Section 736.1509, Florida Statutes, is created to read:

736.1509 Right of child to support.—A community property trust does not adversely affect the right of a child of the settlor spouses to support, pursuant to s. 61.30 or the applicable law of another jurisdiction, that either spouse would be required to give under the applicable laws of the settlor spouses' state of domicile.

Section 38. Section 736.151, Florida Statutes, is created to read:

736.151 Homestead property.—

(1) Property that is transferred to or acquired subject to a community property trust may continue to qualify or may initially qualify as the settlor spouses' homestead within the meaning of s. 4(a)(1), Art. X of the State Constitution and for all purposes of general law, provided that the property would qualify as the settlor spouses' homestead if title was held in one or both of the settlor spouses' individual names.

(2) The settlor spouses shall be deemed to have beneficial title in equity to the homestead property held subject to a community property trust for all purposes, including for purposes of s. 196.031.

Section 39. Section 736.1511, Florida Statutes, is created to read:

736.1511 Application of Internal Revenue Code; community property classified by another jurisdiction.—For purposes of the application of s.

1014(b)(6) of the Internal Revenue Code of 1986, 26 U.S.C. s. 1014(b)(6), as of January 1, 2021, a community property trust is considered a trust established under the community property laws of the state. Community property, as classified by a jurisdiction other than this state, which is transferred to a community property trust retains its character as community property while in the trust. If the trust is revoked and property is transferred on revocation of the trust, the community property as classified by a jurisdiction other than the state retains its character as community property to the extent otherwise provided by ss. 732.216-732.228.

Section 40. Section 736.1512, Florida Statutes, is created to read:

736.1512 Unenforceable trusts.—

(1) A community property trust executed during marriage is not enforceable if the spouse against whom enforcement is sought proves that:

(a) The trust was unconscionable when made;

(b) The spouse against whom enforcement is sought did not execute the community property trust agreement voluntarily;

(c) The community property trust agreement was the product of fraud, duress, coercion, or overreaching; or

(d) Before execution of the community property trust agreement, the spouse against whom enforcement is sought:

1. Was not given a fair and reasonable disclosure of the property and financial obligations of the other spouse.

2. Did not voluntarily sign a written waiver expressly waiving right to disclosure of the property and financial obligations of the other spouse beyond the disclosure provided.

3. Did not have notice of the property or financial obligations of the other spouse.

(2) Whether a community property trust is unconscionable shall be determined by a court as a matter of law.

(3) A community property trust may not be deemed unenforceable solely on the fact that the settlor spouses did not have separate legal representation when executing the community property trust agreement.

Section 10. Subsection (3) of section 252.365, Florida Statutes, is amended to read:

252.365 Emergency coordination officers; disaster-preparedness plans.—

~~(3) Emergency coordination officers shall ensure These individuals shall be responsible for ensuring~~ that each state agency and facility, such as a prison, office building, or university, has a disaster preparedness plan that is coordinated with the applicable local emergency-management agency and approved by the division.

(a) The disaster-preparedness plan must outline a comprehensive and effective program to ensure continuity of essential state functions under all circumstances, including, but not limited to, a pandemic or other public health emergency. The plan must identify a baseline of preparedness for a full range of potential emergencies to establish a viable capability to perform essential functions during any emergency or other situation that disrupts normal operations. This baseline must consider and include preparedness for rapid and large-scale increases in the public's need to access government services through technology or other means during an emergency, including, but not limited to, a public health emergency.

(b) The plan must include, at a minimum, the following elements: identification of essential functions, programs, and personnel; procedures to implement the plan and personnel notification and accountability; delegations of authority and lines of succession; identification of alternative facilities and related infrastructure, including those for communications; identification and protection of vital records and databases; provisions regarding the availability of, and distribution plans for, personal protective equipment; and schedules and procedures for periodic tests, training, and exercises.

(c) The division shall develop and distribute guidelines for developing and implementing the plan. By December 31, 2022, each agency must update its plan to include provisions related to preparation for pandemics and other public health emergencies consistent with the plan developed pursuant to s. 381.00315. Each agency plan must be updated

as needed to remain consistent with the state public health emergency management plan.

Section 11. Subsections (7) and (8) are added to section 252.37, Florida Statutes, and subsection (2) of that section is amended, contingent upon SB 1892 or similar legislation creating the Emergency Preparedness and Response Fund taking effect, to read:

252.37 Financing.—

(2)(a) It is the legislative intent that the first recourse be made to funds ~~specifically regularly~~ appropriated to state and local agencies for disaster relief or response.

(b) If the Governor finds that the demands placed upon these funds in coping with a particular disaster declared by the Governor as a state of emergency are unreasonably great, she or he may make funds available by transferring and expending moneys ~~appropriated for other purposes, from the Emergency Preparedness and Response Fund.~~

(c) *If additional funds are needed, the Governor may make funds available by transferring and expending moneys out of any unappropriated surplus funds, or from the Budget Stabilization Fund if the transfers and expenditures are directly related to the declared disaster or emergency. Notice of such action, as provided in s. 216.177, must be delivered at least 7 days before the effective date of the action, unless a shorter period is agreed to in writing by the President of the Senate and the Speaker of the House of Representatives. If the President of the Senate and the Speaker of the House of Representatives timely advise in writing that the parties object to the transfer, the Governor must void such action.*

(d) Following the expiration or termination of the state of emergency, the Governor may transfer moneys with a budget amendment, subject to approval by the Legislative Budget Commission, to satisfy the budget authority granted for such emergency. *The transfers and expenditures supporting the amendment must be directly related to the declared disaster or emergency.*

(7) *An agency or political subdivision shall submit in advance a detailed spending plan for any grants, gifts, loans, funds, payments, services, equipment, supplies, or materials in aid of or for the purposes of emergency prevention, recovery, mitigation, preparedness, and management, other than emergency response, received under this section to the President of the Senate, the Speaker of the House of Representatives, and the chairs of the legislative appropriations committees. This paragraph does not apply to the receipt of any funds from an agency, department, or other affiliated entity of the Federal Government as part of an expedited project worksheet in anticipation of emergency response expenditures. If an emergency situation precludes the timely advanced submission of a detailed spending plan, the plan must be submitted as soon as practicable, but not later than 30 days after initiation of any expenditures, and be resubmitted every 30 days as long as the emergency continues and funds continue to be disbursed.*

(8) *For emergency response activities, including an emergency response that includes emergency protective measures or debris removal, the agency or political subdivision is not required to provide a detailed spending plan in advance of expenditures, but must provide notice to the President of the Senate, the Speaker of the House of Representatives, and the chairs of the legislative appropriations committees of all expenditures in aggregate categories incurred in the emergency response no later than 30 days after the expenditure is incurred, and a copy of any project worksheet submitted to the Federal Emergency Management Agency must be submitted to the same parties no later than 7 days after it is submitted to the Federal Emergency Management Agency.*

Section 12. Section 252.38, Florida Statutes, is amended to read:

252.38 Emergency management powers of political subdivisions.—Safeguarding the life and property of its citizens is an innate responsibility of the governing body of each political subdivision of the state. *However, political subdivisions are given police powers to preserve, not impair, private rights. Therefore, a political subdivision that deprives any person of a constitutional right, a fundamental liberty, a statutory right, or property to address a purported emergency bears the burden of proving that the exercise of police power is narrowly tailored, serves a*

compelling governmental interest, and accomplishes the intended goal through the use of the least intrusive means.

(1) COUNTIES.—

(a) In order to provide effective and orderly governmental control and coordination of emergency operations in emergencies within the scope of ss. 252.31-252.90, each county within this state shall be within the jurisdiction of, and served by, the division. Except as otherwise provided in ss. 252.31-252.90, each local emergency management agency shall have jurisdiction over and serve an entire county. Unless part of an interjurisdictional emergency management agreement entered into pursuant to paragraph (3)(b) which is recognized by the Governor by executive order or rule, each county must establish and maintain such an emergency management agency and shall develop a county emergency management plan and program that is coordinated and consistent with the state comprehensive emergency management plan and program. Counties that are part of an interjurisdictional emergency management agreement entered into pursuant to paragraph (3)(b) which is recognized by the Governor by executive order or rule shall cooperatively develop an emergency management plan and program that is coordinated and consistent with the state comprehensive emergency management plan and program.

(b) Each county emergency management agency created and established pursuant to ss. 252.31-252.90 shall have a director. The director must meet the minimum training and education qualifications established in a job description approved by the county. The director shall be appointed by the board of county commissioners or the chief administrative officer of the county, as described in chapter 125 or the county charter, if applicable, to serve at the pleasure of the appointing authority, in conformance with applicable resolutions, ordinances, and laws. A county constitutional officer, or an employee of a county constitutional officer, may be appointed as director following prior notification to the division. Each board of county commissioners shall promptly inform the division of the appointment of the director and other personnel. Each director has direct responsibility for the organization, administration, and operation of the county emergency management agency. The director shall coordinate emergency management activities, services, and programs within the county and shall serve as liaison to the division and other local emergency management agencies and organizations.

(c) Each county emergency management agency shall perform emergency management functions within the territorial limits of the county within which it is organized and, in addition, shall conduct such activities outside its territorial limits as are required pursuant to ss. 252.31-252.90 and in accordance with state and county emergency management plans and mutual aid agreements. Counties shall serve as liaison for and coordinator of municipalities' requests for state and federal assistance during postdisaster emergency operations.

(d) During a declared state or local emergency and upon the request of the director of a local emergency management agency, the district school board or school boards in the affected area shall participate in emergency management by providing facilities and necessary personnel to staff such facilities. Each school board providing transportation assistance in an emergency evacuation shall coordinate the use of its vehicles and personnel with the local emergency management agency.

(e) County emergency management agencies may charge and collect fees for the review of emergency management plans on behalf of external agencies and institutions. Fees must be reasonable and may not exceed the cost of providing a review of emergency management plans in accordance with fee schedules established by the division.

(2) MUNICIPALITIES.—Legally constituted municipalities are authorized and encouraged to create municipal emergency management programs. Municipal emergency management programs shall coordinate their activities with those of the county emergency management agency. Municipalities without emergency management programs shall be served by their respective county agencies. If a municipality elects to establish an emergency management program, it must comply with all laws, rules, and requirements applicable to county emergency management agencies. Each municipal emergency management plan must be consistent with and subject to the applicable county emergency management plan. In addition, each municipality must coordinate requests for state or federal emergency response assistance with its

county. This requirement does not apply to requests for reimbursement under federal public disaster assistance programs.

(3) EMERGENCY MANAGEMENT POWERS; POLITICAL SUBDIVISIONS.—

(a) In carrying out the provisions of ss. 252.31-252.90, each political subdivision shall have the power and authority:

1. To appropriate and expend funds; make contracts; obtain and distribute equipment, materials, and supplies for emergency management purposes; provide for the health and safety of persons and property, including emergency assistance to the victims of any emergency; and direct and coordinate the development of emergency management plans and programs in accordance with the policies and plans set by the federal and state emergency management agencies.

2. To appoint, employ, remove, or provide, with or without compensation, coordinators, rescue teams, fire and police personnel, and other emergency management workers.

3. To establish, as necessary, a primary and one or more secondary emergency operating centers to provide continuity of government and direction and control of emergency operations.

4. To assign and make available for duty the offices and agencies of the political subdivision, including the employees, property, or equipment thereof relating to firefighting, engineering, rescue, health, medical and related services, police, transportation, construction, and similar items or services for emergency operation purposes, as the primary emergency management forces of the political subdivision for employment within or outside the political limits of the subdivision.

5. To request state assistance or invoke emergency-related mutual-aid assistance by declaring a state of local emergency in the event of an emergency affecting only one political subdivision. The duration of each state of emergency declared locally is limited to 7 days; it may be extended, as necessary, in 7-day increments. Further, the political subdivision has the power and authority to waive the procedures and formalities otherwise required of the political subdivision by law pertaining to:

- a. Performance of public work and taking whatever prudent action is necessary to ensure the health, safety, and welfare of the community.
- b. Entering into contracts.
- c. Incurring obligations.
- d. Employment of permanent and temporary workers.
- e. Utilization of volunteer workers.
- f. Rental of equipment.
- g. Acquisition and distribution, with or without compensation, of supplies, materials, and facilities.
- h. Appropriation and expenditure of public funds.

(b) Upon the request of two or more adjoining counties, or if the Governor finds that two or more adjoining counties would be better served by an interjurisdictional arrangement than by maintaining separate emergency management agencies and services, the Governor may delineate by executive order or rule an interjurisdictional area adequate to plan for, prevent, mitigate, or respond to emergencies in such area and may direct steps to be taken as necessary, including the creation of an interjurisdictional relationship, a joint emergency plan, a provision for mutual aid, or an area organization for emergency planning and services. A finding of the Governor pursuant to this paragraph shall be based on one or more factors related to the difficulty of maintaining an efficient and effective emergency prevention, mitigation, preparedness, response, and recovery system on a unijurisdictional basis, such as:

1. Small or sparse population.

2. Limitations on public financial resources severe enough to make maintenance of a separate emergency management agency and services unreasonably burdensome.

3. Unusual vulnerability to emergencies as evidenced by a past history of emergencies, topographical features, drainage characteristics, emergency potential, and presence of emergency-prone facilities or operations.

4. The interrelated character of the counties in a multicounty area.

5. Other relevant conditions or circumstances.

Section 13. Subsections (1), (2), and (3) of section 252.385, Florida Statutes, are amended to read:

252.385 Public shelter space.—

(1) It is the intent of the Legislature that this state not have a deficit of safe public hurricane evacuation shelter space in any region of the state ~~by 1998 and thereafter~~.

(2)(a) The division shall administer a program to survey existing schools, universities, community colleges, and other state-owned, municipally owned, and county-owned public buildings and any private facility that the owner, in writing, agrees to provide for use as a public hurricane evacuation shelter to identify those that are appropriately designed and located to serve as such shelters. The owners of the facilities must be given the opportunity to participate in the surveys. The state university boards of trustees, district school boards, community college boards of trustees, and the Department of Education are responsible for coordinating and implementing the survey of public schools, universities, and community colleges with the division or the local emergency management agency.

(b) By January 31 of each even-numbered year, the division shall prepare and submit a statewide emergency shelter plan to the Governor and Cabinet for approval, subject to the requirements for approval in s. 1013.37(2). ~~The emergency shelter plan must project, for each of the next 5 years, the hurricane shelter needs of the state, including periods of time during which a concurrent public health emergency may necessitate more space for each individual to accommodate physical distancing. In addition to information on the general shelter needs throughout this state, the plan must shall identify the general location and square footage of special needs shelters, by regional planning council region, during the next 5 years. The plan must shall also include information on the availability of shelters that accept pets. The Department of Health shall assist the division in determining the estimated need for special needs shelter space and the adequacy of facilities to meet the needs of persons with special needs based on information from the registries of persons with special needs and other information.~~

(3) The division shall annually provide to the President of the Senate, the Speaker of the House of Representatives, and the Governor a list of facilities recommended to be retrofitted using state funds. State funds should be maximized and targeted to regional planning council regions with hurricane evacuation shelter deficits. ~~Retrofitting facilities in regions with public hurricane evacuation shelter deficits shall be given first priority and should be completed by 2003. All recommended facilities should be retrofitted by 2008.~~ The owner or lessee of a public hurricane evacuation shelter that is included on the list of facilities recommended for retrofitting is not required to perform any recommended improvements.

Section 14. Subsection (1) of section 252.44, Florida Statutes, is amended to read:

252.44 Emergency mitigation.—

(1) In addition to prevention measures included in the state and local comprehensive emergency management plans, the Governor shall consider on a continuing basis steps that could be taken to mitigate the harmful consequences of emergencies. At the Governor's direction and pursuant to any other authority and competence they have, state agencies, including, but not limited to, those charged with responsibilities in connection with *protecting and maintaining the public health*, flood plain management, stream encroachment and flow regulation, weather modification, fire prevention and control, air quality, public works, land use and land use planning, and construction standards,

shall make studies of emergency-mitigation-related matters. The Governor, from time to time, shall make such recommendations to the Legislature, local governments, and other appropriate public and private entities as may facilitate measures for mitigation of the harmful consequences of emergencies.

Section 15. Present subsection (3) of section 252.46, Florida Statutes, is redesignated as subsection (6), a new subsection (3) and subsections (4) and (5) are added to that section, and subsection (2) of that section is amended, to read:

252.46 Orders and rules.—

(2) All orders and rules adopted by the division or any political subdivision or other agency authorized by ss. 252.31-252.90 to make orders and rules have full force and effect of law after adoption in accordance with ~~the provisions of~~ chapter 120 in the event of issuance by the division or any state agency or, if ~~adopted promulgated~~ by a political subdivision of the state or agency thereof, when filed in the office of the clerk or recorder of the political subdivision or agency ~~adopting promulgating~~ the same. *Failure of a political subdivision to file any such order or rule with the office of the clerk or recorder within 3 days after issuance voids the order or rule.* All existing laws, ordinances, and rules inconsistent with ~~the provisions of~~ ss. 252.31-252.90, or any order or rule issued under the authority of ss. 252.31-252.90, ~~must shall~~ be suspended during the period of time and to the extent that such conflict exists.

(3) *Emergency ordinances, declarations, and orders adopted by a political subdivision under the authority of ss. 252.31-252.90, including those enacted by a municipality pursuant to s. 166.041(3)(b), must be available on a dedicated webpage accessible through a conspicuous link on the political subdivision's homepage. The dedicated webpage must identify the emergency ordinances, declarations, and orders currently in effect. Each political subdivision adopting emergency ordinances, declarations, or orders must provide the division with the link to the political subdivision's dedicated webpage. The division must include these links in an easily identifiable format on its website.*

(4)(a) *An emergency order issued by a political subdivision automatically expires 10 days after its issuance; however, such an order may be extended before its expiration for 10-day periods, subject to ratification by a majority vote of the governing body of the political subdivision. In the event the governing body of the political subdivision is unable to convene before the expiration of the emergency order due to the impacts of a hurricane or other weather-related natural disaster, the 10-day period is tolled until the governing body is able to convene. However, an emergency order issued under this section may not be in effect for more than 30 days unless the governing body approves an extension of the order. The governing body must ratify the extension of such order before it expires. Once ratified, the emergency order may not be amended or replaced by the chief elected officer or chief administrative officer, as applicable, without the ratification of the political subdivision's governing body. In the event the governing body fails to ratify the extension of the emergency order, the chief elected officer or chief administrative officer, as applicable, may not reissue the order in response to the same emergency.*

(b) As used in this subsection, the term:

2. "Chief administrative officer" means the county administrator, county manager, or such other individual designated by ordinance of the political subdivision to exercise emergency management authority.

(c) *When meeting in one physical location is prohibited or not feasible due to the conditions directly related to the declared state of emergency, a public meeting of the governing body of a political subdivision held for the limited purpose of ratifying the extension of an emergency order under this subsection may be conducted via telephone, real-time videoconferencing, or similar real-time electronic or video communication technology. Any communication technology used must be sufficient to permit all interested persons to remotely attend the meeting. Any law, charter provision, or ordinance requiring a quorum to be present in person or requiring the governing body of any political subdivision to*

meet at a specific public place shall be suspended for purposes of such meeting. If the public meeting will be held via telephone, real-time videoconferencing, or similar real-time electronic or video communication technology, the meeting notice must include information necessary for persons interested in attending the meeting to do so, including the places where facilities necessary to allow attendance will be available.

(5) *An order issued by a political subdivision pursuant to this section which imposes a curfew restricting the travel or movement of persons during designated times must nonetheless allow persons to travel during the curfew to their places of employment to report for work and to return to their residences after their work has concluded.*

Section 16. Paragraph (a) of subsection (2) of section 377.703, Florida Statutes, is amended to read:

377.703 Additional functions of the Department of Agriculture and Consumer Services.—

(2) DUTIES.—The department shall perform the following functions, unless as otherwise provided, consistent with the development of a state energy policy:

(a) The Division of Emergency Management is responsible for the development of an energy emergency contingency plan to respond to serious shortages of primary and secondary energy sources. Upon a finding by the Governor, implementation of any emergency program shall be upon order of the Governor that a particular kind or type of fuel is, or that the occurrence of an event which is reasonably expected within 30 days will make the fuel, in short supply. The Division of Emergency Management shall then respond by instituting the appropriate measures of the contingency plan to meet the given emergency or energy shortage. The Governor may utilize the provisions of s. 252.36(6) ~~s. 252.36(5)~~ to carry out any emergency actions required by a serious shortage of energy sources.

Section 17. Paragraph (c) of subsection (1) and subsection (2) of section 381.00315, Florida Statutes, are amended to read:

381.00315 Public health advisories; public health emergencies; isolation and quarantines.—The State Health Officer is responsible for declaring public health emergencies, issuing public health advisories, and ordering isolation or quarantines.

(2)(a) *The department shall prepare and maintain a state public health emergency management plan to serve as a comprehensive guide to public health emergency response in this state. The department shall develop the plan in collaboration with the Division of Emergency Management, other executive agencies with functions relevant to public health emergencies, district medical examiners, and national and state public health experts and ensure that it integrates and coordinates with the public health emergency management plans and programs of the Federal Government. The plan must address each element of public health emergency planning and incorporate public health and epidemiological best practices to ensure that the state is prepared for every foreseeable public health emergency. The plan must include an assessment of state and local public health infrastructure, including information systems, physical plant, commodities, and human resources, and an analysis of the infrastructure necessary to achieve the level of readiness proposed by the plan for short-term and long-term public emergencies. Beginning July 1, 2022, the department shall submit the plan to the Division of Emergency Management for inclusion in the state comprehensive emergency management plan pursuant to s. 252.35. The department shall review the plan after the declared end of each public health emergency, and, in any event, at least every 5 years, and update its terms as necessary to ensure continuous planning.*

(b) Before declaring a public health emergency, the State Health Officer shall, to the extent possible, consult with the Governor and shall notify the Chief of Domestic Security. The declaration of a public health

emergency shall continue until the State Health Officer finds that the threat or danger has been dealt with to the extent that the emergency conditions no longer exist and he or she terminates the declaration. However, a declaration of a public health emergency may not continue for longer than 60 days unless the Governor concurs in the renewal of the declaration.

(c) *The State Health Officer, upon declaration of a public health emergency, shall establish by order the method and procedure for identifying and reporting cases and deaths involving the infectious disease or other occurrence identified as the basis for the declared public health emergency. The method and procedure must be consistent with any standards developed by the Federal Government specific to the declared emergency or, if federal standards do not exist, must be consistent with public health best practices as identified by the State Health Officer. During the pendency of a public health emergency, the department is the sole entity responsible for the collection and official reporting and publication of cases and deaths. The State Health Officer, by order or emergency rule, may ensure necessary assistance from licensed health care providers in carrying out this function and may request the assistance of district medical examiners in performing this function.*

(d) The State Health Officer, upon declaration of a public health emergency, may take actions that are necessary to protect the public health. Such actions include, but are not limited to:

1. *Establishing screening protocols consistent with s. 381.00316.*

Only those health care practitioners specified in this paragraph who possess an unencumbered inactive license and who request that such license be reactivated are eligible for reactivation. An inactive license that is reactivated under this paragraph shall return to inactive status when the public health emergency ends or before the end of the public health emergency if the State Health Officer determines that the health care practitioner is no longer needed to provide services during the public health emergency. Such licenses may only be reactivated for a period not to exceed 90 days without meeting the requirements of s. 456.036 or chapter 401, as applicable.

5.4. Ordering an individual to be examined, tested, vaccinated, treated, isolated, or quarantined for communicable diseases that have significant morbidity or mortality and present a severe danger to public health. Individuals who are unable or unwilling to be examined, tested, vaccinated, or treated for reasons of health, religion, or conscience may be subjected to isolation or quarantine.

a. Examination, testing, vaccination, or treatment may be performed by any qualified person authorized by the State Health Officer.

b. If the individual poses a danger to the public health, the State Health Officer may subject the individual to isolation or quarantine. If there is no practical method to isolate or quarantine the individual, the

Senator Polsky moved the following amendment:

Amendment 1 (555226) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Section 327.4108, Florida Statutes, is amended to read:

327.4108 Anchoring of vessels in anchoring limitation areas.—

(1)(a) The following densely populated urban areas, which have narrow state waterways, residential docking facilities, and significant recreational boating traffic, are designated as *and shall be considered to be grandfathered-in* anchoring limitation areas:

1.~~(a)~~ The section of Middle River lying between Northeast 21st Court and the Intracoastal Waterway in Broward County.

2.~~(b)~~ Sunset Lake in Miami-Dade County.

3.~~(c)~~ The sections of Biscayne Bay in Miami-Dade County lying between:

a.~~1~~ Rivo Alto Island and Di Lido Island.

b.~~2~~ San Marino Island and San Marco Island.

c.~~3~~ San Marco Island and Biscayne Island.

(b)~~(2)~~ To promote the public’s use and enjoyment of the designated waterway, except as provided in subsections (4) ~~(3)~~ and (5) ~~(4)~~, a person may not anchor a vessel at any time during the period between one-half hour after sunset and one-half hour before sunrise in an anchoring limitation area *designated under this subsection*.

(2)(a) *Notwithstanding s. 327.60(2)(f), a county, except for a county included in an area of critical state concern, may establish, in accordance with this subsection, an anchoring limitation area adjacent to urban areas that have residential docking facilities and significant recreational boating traffic. The aggregate total of anchoring limitation areas in a county may not exceed 10 percent of the county’s delineated navigable-in-fact waterways. As used in this subsection, the term “navigable-in-fact waterways” means waterways that are navigable in their natural or unimproved condition over which useful commerce or public recreation of a substantial and permanent character is or may be conducted in the customary mode of trade and travel on water. The term does not include lakes or streams that are theoretically navigable; have a potential for navigability; or are temporary, precarious, and unprofitable, but the term does include lakes or streams that have practical usefulness to the public as highways for transportation. Each anchoring limitation area must meet all of the following requirements:*

1. *Be less than 100 acres in size. For purposes of this subsection, the calculated size of the anchoring limitation area does not include any portion of the marked channel of the Florida Intracoastal Waterway contiguous to the anchoring limitation area;*

2. *Not include any mooring field or marina; and*

3. *Be clearly marked with all of the following:*

a. *Signs that provide reasonable notice to boaters identifying the duration of time beyond which anchoring is limited and identifying the county ordinance by which the anchoring limitation area was created.*

b. *Buoys. The county that has created an anchoring limitation area shall install and maintain buoys marking the boundary of the anchoring limitation area.*

The signs and buoys must be permitted and installed in accordance with ss. 327.40 and 327.41 and commission rule.

(b) *Except as provided in subsections (4) and (5), a person may not anchor a vessel for more than 45 consecutive days in any 6-month period in an anchoring limitation area established pursuant to this subsection.*

(c) *A county proposing establishment of an anchoring limitation area in accordance with this subsection shall provide notice to the commission at least 30 days before introducing an ordinance to establish the anchoring limitation area. The commission shall publish notice of the proposed ordinance on its website and distribute such notice through the*

commission's Boating and Waterways Section e-mail distribution list for ordinances.

(3)(a) Any coastal waterways within the jurisdiction of a county that is included in an area of critical state concern are designated as anchoring limitation areas. Within such areas, a vessel on waters of the state may be anchored in the same location only for a maximum of 90 days. The commission shall adopt rules to implement this subsection.

(b) The anchoring limitations in this subsection do not apply to approved and permitted moorings or mooring fields.

(c) Notwithstanding the commission rules adopted pursuant to this subsection, this section is not effective for Monroe County until the county approves, permits, and opens new moorings for public use, including at least 250 moorings within 1 mile of the Key West Bight City Dock and at least 50 moorings within the Key West Garrison Bight Mooring Field. Until such time, the commission shall designate the area within 1 mile of the Key West Bight City Dock as a priority for the investigation and removal of derelict vessels.

(4)(3) Notwithstanding subsections (1), ~~subsection (2)~~, and (3), a person may anchor a vessel in an anchoring limitation area:

(a) If the vessel suffers a mechanical failure that poses an unreasonable risk of harm to the vessel or the persons onboard unless the vessel anchors. The vessel may anchor for 3 business days or until the vessel is repaired, whichever occurs first.

(b) If imminent or existing weather conditions in the vicinity of the vessel pose an unreasonable risk of harm to the vessel or the persons onboard unless the vessel anchors. The vessel may anchor until weather conditions no longer pose such risk. During a hurricane or tropical storm, weather conditions are deemed to no longer pose an unreasonable risk of harm when the hurricane or tropical storm warning affecting the area has expired.

(c) During events described in s. 327.48 or other special events, including, but not limited to, public music performances, local government waterfront activities, or fireworks displays. A vessel may anchor for the lesser of the duration of the special event or 3 days.

(5)(4) This section does not apply to:

(a) Vessels owned or operated by a governmental entity for law enforcement, firefighting, military, or rescue purposes.

(b) Construction or dredging vessels on an active job site.

(c) Vessels actively engaged in commercial fishing.

(d) Vessels engaged in recreational fishing if the persons onboard are actively tending hook and line fishing gear or nets.

(6)(a)(5)(a) As used in this subsection, the term "law enforcement officer or agency" means an officer or agency authorized to enforce this section pursuant to s. 327.70.

(b)1. For a vessel in an anchoring limitation area established pursuant to subsection (2), upon an inquiry by a law enforcement officer or agency, a vessel owner or operator must be given an opportunity to provide proof that the vessel has not exceeded the limitations described in subsection (2). Such proof may include any of the following:

a. Documentation showing that the vessel was in another location at least 1 mile away within a period of less than 45 days before the inquiry.

b. Electronic evidence, including, but not limited to, navigational devices or tracking devices that show the vessel was in another location at least 1 mile away within a period of less than 45 days before the inquiry.

2. If a vessel owner or operator fails or refuses to provide proof that the vessel has not exceeded the limitations described in subsection (2), the law enforcement officer or agency may issue a citation for a violation of this section.

(c)(b) A law enforcement officer or agency may remove a vessel from an anchoring limitation area designated under subsection (1) or estab-

lished pursuant to subsection (2) and impound the vessel for up to 48 hours, or cause such removal and impoundment, if the vessel operator, after being issued a citation for a violation of this section:

1. Anchors the vessel in violation of this section within 12 hours after being issued the citation; or

2. Refuses to leave the anchoring limitation area after being directed to do so by a law enforcement officer or agency.

(d) A vessel that is the subject of more than three violations within 12 months which result in dispositions other than acquittal or dismissal shall be declared to be a public nuisance and subject to s. 705.103, or for a derelict vessel, subject to s. 823.11.

(e)(e) A law enforcement officer or agency acting under this subsection to remove or impound a vessel, or to cause such removal or impoundment, shall be held harmless for any damage to the vessel resulting from such removal or impoundment unless the damage results from gross negligence or willful misconduct.

(f)(d) A contractor performing removal or impoundment services at the direction of a law enforcement officer or agency pursuant to this subsection must:

1. Be licensed in accordance with United States Coast Guard regulations, as applicable.

2. Obtain and carry a current policy issued by a licensed insurance carrier in this state to insure against any accident, loss, injury, property damage, or other casualty caused by or resulting from the contractor's actions.

3. Be properly equipped to perform such services.

(g)(e) In addition to the civil penalty imposed under s. 327.73(1)(z), the operator of a vessel that is removed and impounded pursuant to paragraph (c) (b) must pay all removal and storage fees before the vessel is released. A vessel removed pursuant to paragraph (c) (b) may not be impounded for longer than 48 hours.

(7)(6) A violation of this section is punishable as provided in s. 327.73(1)(z).

~~(7) This section shall remain in effect notwithstanding the Legislature's adoption of the commission's recommendations for the regulation of mooring vessels outside of public mooring fields pursuant to s. 327.4105.~~

Section 2. For the purpose of incorporating the amendment made by this act to section 327.4108, Florida Statutes, in a reference thereto, paragraph (z) of subsection (1) of section 327.73, Florida Statutes, is reenacted to read:

327.73 Noncriminal infractions.—

(1) Violations of the following provisions of the vessel laws of this state are noncriminal infractions:

(z) Section 327.4108, relating to the anchoring of vessels in anchoring limitation areas, for which the penalty is:

1. For a first offense, up to a maximum of \$50.

2. For a second offense, up to a maximum of \$100.

3. For a third or subsequent offense, up to a maximum of \$250.

Any person cited for a violation of any provision of this subsection shall be deemed to be charged with a noncriminal infraction, shall be cited for such an infraction, and shall be cited to appear before the county court. The civil penalty for any such infraction is \$50, except as otherwise provided in this section. Any person who fails to appear or otherwise properly respond to a uniform boating citation shall, in addition to the charge relating to the violation of the boating laws of this state, be charged with the offense of failing to respond to such citation and, upon conviction, be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. A written warning to this effect shall be provided at the time such uniform boating citation is issued.

Section 3. This act shall take effect upon becoming a law.

House Amendment 1 (101923) (with title amendment)—Remove everything after the enacting clause and insert:

Section 1. Subsection (17) of section 403.064, Florida Statutes, is renumbered as subsection (18) and amended, and a new subsection (17) is added to that section, to read:

403.064 Reuse of reclaimed water.—

(17) *By November 1, 2021, domestic wastewater utilities that dispose of effluent, reclaimed water, or reuse water by surface water discharge shall submit to the department for review and approval a plan for eliminating nonbeneficial surface water discharge by January 1, 2032, subject to the requirements of this section. The plan must include the average gallons per day of effluent, reclaimed water, or reuse water that will no longer be discharged into surface waters and the date of such elimination, the average gallons per day of surface water discharge which will continue in accordance with the alternatives provided for in subparagraphs (a)2. and 3., and the level of treatment that the effluent, reclaimed water, or reuse water will receive before being discharged into a surface water by each alternative.*

(a) *The department shall approve a plan that includes all of the information required under this subsection as meeting the requirements of this section if one or more of the following conditions are met:*

1. *The plan will result in eliminating the surface water discharge.*
2. *The plan will result in meeting the requirements of s. 403.086(10).*
3. *The plan does not provide for a complete elimination of the surface water discharge but does provide an affirmative demonstration that any of the following conditions apply to the remaining discharge:*
 - a. *The discharge is associated with an indirect potable reuse project;*
 - b. *The discharge is a wet weather discharge that occurs in accordance with an applicable department permit;*
 - c. *The discharge is into a stormwater management system and is subsequently withdrawn by a user for irrigation purposes;*
 - d. *The utility operates domestic wastewater treatment facilities with reuse systems that reuse a minimum of 90 percent of a facility's annual average flow, as determined by the department using monitoring data for the prior 5 consecutive years, for reuse purposes authorized by the department; or*
 - e. *The discharge provides direct ecological or public water supply benefits, such as rehydrating wetlands or implementing the requirements of minimum flows and minimum water levels or recovery or prevention strategies for a waterbody.*

The plan may include conceptual projects under sub-subparagraphs 3.a. and 3.e.; however, such inclusion does not extend the time within which the plan must be implemented.

(b) *The department shall approve or deny a plan within 9 months after receiving the plan. A utility may modify the plan by submitting such modification to the department; however, the plan may not be modified such that the requirements of this subsection are not met, and the department may not extend the time within which a plan will be implemented. The approval of the plan or a modification by the department does not constitute final agency action.*

(c) *A utility shall fully implement the approved plan by January 1, 2032.*

(d) *If a plan is not timely submitted by a utility or approved by the department, the utility's domestic wastewater treatment facilities may not dispose of effluent, reclaimed water, or reuse water by surface water discharge after January 1, 2028. A violation of this paragraph is subject to administrative and civil penalties pursuant to ss. 403.121, 403.131, and 403.141.*

(e) *A domestic wastewater utility applying for a permit for a new or expanded surface water discharge shall prepare a plan in accordance with this subsection as part of that permit application. The department may not approve a permit for a new or expanded surface water discharge*

unless the plan meets one or more of the conditions provided in paragraph (a).

(f) By December 31, 2021, and annually thereafter, the department shall submit a report to the President of the Senate and the Speaker of the House of Representatives which provides the average gallons per day of effluent, reclaimed water, or reuse water that will no longer be discharged into surface waters by the utility and the dates of such elimination; the average gallons per day of surface water discharges that will continue in accordance with the alternatives provided in subparagraphs (a)2. and 3., and the level of treatment that the effluent, reclaimed water, or reuse water will receive before being discharged into a surface water by each alternative and utility; and any modified or new plans submitted by a utility since the last report.

(g) This subsection does not apply to any of the following:

1. A domestic wastewater treatment facility that is located in a fiscally constrained county as described in s. 218.67(1).

2. A domestic wastewater treatment facility that is located in a municipality that is entirely within a rural area of opportunity as designated pursuant to s. 288.0656.

3. A domestic wastewater treatment facility that is located in a municipality that has less than \$10 million in total revenue, as determined by the municipality's most recent annual financial report submitted to the Department of Financial Services in accordance with s. 218.32.

4. A domestic wastewater treatment facility that is operated by an operator of a mobile home park as defined in s. 723.003 and has a permitted capacity of less than 300,000 gallons per day.

(h) This subsection does not prohibit the inclusion of a plan for backup discharges under s. 403.086(8)(a).

(i) This subsection may not be deemed to exempt a utility from requirements that prohibit the causing of or contributing to violations of water quality standards in surface waters, including groundwater discharges that affect water quality in surface waters.

(18)(a)(47) By December 31, 2020, the department shall initiate rule revisions based on the recommendations of the Potable Reuse Commission's 2020 report "Advancing Potable Reuse in Florida: Framework for the Implementation of Potable Reuse in Florida." Rules for potable reuse projects must address contaminants of emerging concern and meet or exceed federal and state drinking water quality standards and other applicable water quality standards. Reclaimed water is deemed a water source for public water supply systems.

(b) The Legislature recognizes that sufficient water supply is imperative to the future of the state and that potable reuse is a source of water which may assist in meeting future demand for water supply.

(c) The department may convene and lead one or more technical advisory groups to coordinate the rulemaking and review of rules for potable reuse as required under this section. The technical advisory group, which shall assist in the development of such rules, must be composed of knowledgeable representatives of a broad group of interested stakeholders, including, but not limited to, representatives from the water management districts, the wastewater utility industry, the water utility industry, the environmental community, the business community, the public health community, the agricultural community, and the consumers.

(d) Potable reuse is an alternative water supply as defined in s. 373.019, and potable reuse projects are eligible for alternative water supply funding. The use of potable reuse water may not be excluded from regional water supply planning under s. 373.709.

(e) The department and the water management districts shall develop and execute, by December 31, 2023, a memorandum of agreement providing for the procedural requirements of a coordinated review of all permits associated with the construction and operation of an indirect potable reuse project. The memorandum of agreement must provide that the coordinated review will occur only if requested by a permittee. The purpose of the coordinated review is to share information, avoid the redundancy of information requested from the permittee, and ensure

consistency in the permit for the protection of the public health and the environment.

(f) To encourage investment in the development of potable reuse projects by private entities, a potable reuse project developed as a qualifying project under s. 255.065 is:

1. Beginning January 1, 2026, eligible for expedited permitting under s. 403.973.

2. Consistent with s. 373.707, eligible for priority funding in the same manner as other alternative water supply projects from the Drinking Water State Revolving Fund, under the Water Protection and Sustainability Program, and for water management district cooperative funding.

(g) This subsection is not intended and may not be construed to supersede s. 373.250(3).

Section 2. Section 403.892, Florida Statutes, is created to read:

403.892 Incentives for the use of graywater technologies.—

(1) As used in this section, the term:

(a) "Developer" has the same meaning as in s. 380.031(2).

(b) "Graywater" has the same meaning as in s. 381.0065(2)(e).

(2) To promote the beneficial reuse of water in the state, a county, municipality, or special district shall:

(a) Authorize the use of residential graywater technologies in their respective jurisdictions which meet the requirements of this section, the Florida Building Code, and applicable requirements of the Department of Health and for which a developer or homebuilder has received all applicable regulatory permits or authorizations.

(b) Provide a 25 percent density or intensity bonus to a developer or homebuilder if at least 75 percent of a proposed or existing development will have a graywater system installed or a 35 percent bonus if 100 percent of a proposed or an existing development will have a graywater system installed. The bonus under this paragraph is in addition to any bonus provided by a county, municipality, or special district ordinance in effect on July 1, 2021.

(3) To qualify for the incentives under subsection (2), the developer or homebuilder must certify to the applicable governmental entity as part of its application for development approval or amendment of a development order that all of the following conditions are met:

(a) The proposed or existing development has at least 25 single-family residential homes that are either detached or multifamily dwellings. This paragraph does not apply to multifamily projects over five stories in height.

(b) Each single-family residential home or residence will have its own residential graywater system that is dedicated for its use.

(c) The developer or homebuilder has submitted a manufacturer's warranty or data providing reasonable assurance that the residential graywater system will function as designed and includes an estimate of anticipated potable water savings for each system. A submission of the manufacturer's warranty or data from a building code official, governmental entity, or research institute that has monitored or measured the residential graywater system that is proposed to be installed for such development shall be accepted as reasonable assurance and no further information or assurance is needed.

(d) The required maintenance of the graywater system will be the responsibility of the residential homeowner.

(e) An operation and maintenance manual for the graywater system will be supplied to the initial homeowner of each home. The manual shall provide a method of contacting the installer or manufacturer and shall include directions to the residential homeowner that the manual shall remain with the residence throughout the life cycle of the system.

(4) *If the requirements of subsection (3) have been met, the county or municipality must include the incentives provided for in subsection (2) when it approves the development or amendment of a development order. The approval must also provide for the process that the developer or homebuilder will follow to verify that such systems have been purchased. Proof of purchase must be provided within 180 days after the issuance of a certificate of occupancy for single-family residential homes that are either detached or multifamily projects under five stories in height.*

(5) *The installation of residential graywater systems in a county or municipality in accordance with this section shall qualify as a water conservation measure in a public water utility's water conservation plan under s. 373.227. The efficiency of such measures shall be commensurate with the amount of potable water savings estimated for each system provided by the developer or homebuilder under paragraph (3)(c).*

Section 3. *To further promote the reuse of reclaimed water for irrigation purposes, the rules that apply when reclaimed water is injected into a receiving groundwater that has 1,000 to 3,000 mg/L total dissolved solids are applicable to reclaimed water aquifer storage and recovery wells injecting into a receiving groundwater of less than 1,000 mg/L total dissolved solids if the applicant demonstrates that it is injecting into a confined aquifer, that there are no potable water supply wells within 3,500 feet of the aquifer storage and recovery wells, that it has implemented institutional controls to prevent the future construction of potable water supply wells within 3,500 feet of the aquifer storage and recovery wells, and that the recovered water is being used for irrigation purposes. The injection of reclaimed water that meets the requirements of this section is not potable reuse. This section may not be construed to exempt the reclaimed water aquifer storage and recovery wells from requirements that prohibit the causing of or contribution to violations of water quality standards in surface waters, including groundwater discharges that flow by interflow and affect water quality in surface waters.*

Section 4. *The Legislature determines and declares that this act fulfills an important state interest.*

Section 5. This act shall take effect upon becoming a law.

And the title is amended as follows:
