PRAYER

The following prayer was offered by President Benjamin J. Smith, The Church of Jesus Christ of Latter-day Saints, Tallahassee:

Our eternal Father, as we unite on this day to do good work, we join in expressing sincere gratitude for the many choice blessings of this life. We are grateful for the opportunity of comfortably gathering in this place—a place of history, a place where men and women have come to defend the freedoms, rights, and privileges of the people. We express gratitude for this hallowed place where its purposes have been and will continue to be fulfilled so that lives of many will be blessed.

We are grateful for the many good men and women who are here and who have been here in this place in times past. We are grateful for the collective experiences, talents, and abilities that have prepared those chosen for this noble service. We petition that thy watchful eye be over each of the elected officials, their families, their loved ones, and the staff who serve with them. We ask for a blessing of physical capacity, mental endurance, and social influence, openness to learn from thee, and recognition to positively affect the lives of many. We ask a blessing for all who enter this chamber to see the altruistic desires of those who serve. We pray that thy divine inspiration will be constant and easily recognized and felt in clear and distinct ways. May persuasion, long-suffering, gentleness, meekness, love unfeigned, kindness, and pure knowledge reign in all that is done.

On this day, we pray for the citizens, families, and individuals of this great state. We are grateful for the charitable service that is rendered daily—helping and lifting those in need, mourning with those who mourn, comforting those in need of comfort, and standing as a witness of the much good that is being done in ways within our capacity. Strengthen and magnify each of us in these things. We unitedly pray that Florida will be known for inspiring initiatives in the southeast, in this nation, and in the world. We pray that discoveries and advances in all sectors that are being sought throughout the state will progress with thy divine guidance.

We express gratitude for the beauty of this land. We pray for protection of our homes and of these lands from natural disasters and degenerative processes. May we go forth inspired and uplifting one another, ever mindful of thee and thy power. In the name of thy son, Jesus Christ. Amen.

ADOPTION OF RESOLUTIONS

At the request of Senator Truenow—

By Senator Truenow—

SR 1846—A resolution expressing support for a One Water approach to water resource management and the use of collaborative, integrated, and resilience systems approaches to planning for and funding water resource projects.

WHEREAS, water is a vital resource essential for human health, well-being, and economic prosperity, and

WHEREAS, Florida's strong economy and unprecedented growth have resulted in increasing demand for water supply and significant stress to water resources, which necessitate additional efforts to address future projected water shortages and prevent harm to the environment, and

WHEREAS, Florida's residents value clean water, springs, lakes, coastal estuaries, and other environmental resources, and

WHEREAS, Florida's spring, lake, estuary, and wetland systems include some of the most productive and diverse ecosystems in the world, and

WHEREAS, Florida's waterways provide the nation's best recreational destinations and support significant commercial, recreational, and sustenance fisheries which contribute to residents' quality of life, and

WHEREAS, Florida's rank as top national producer of agricultural products depends on adequate water supply, and

WHEREAS, despite Florida's strong water resource protection framework, approximately 67 percent of Florida is categorized as a water resource caution area, and more than 2,000 waterbodies in this state are designated as impaired for water quality, and

WHEREAS, historically, water management practices have addressed water supply, wastewater, and stormwater separately, leading to inefficiencies and missed opportunities for resource optimization, and

WHEREAS, projected water shortages, water quality problems, and environmental impacts can be addressed through integrated planning, infrastructure investments, conservation, and integrated water resource management, and

WHEREAS, Florida's water utilities and other water users are beginning to regionally manage all water resources in ways that balance demand, supply, and environmental protection, and

WHEREAS, water utilities and other users are increasingly turning to the Florida One Water Commission's One Water strategy, which means valuing all water through a collaborative and integrated systems approach to managing fresh and brackish surface and groundwater, stormwater, wastewater, and recycled water in a holistic and sustainable manner that maintains ecosystems while providing reliable and resilient water resources that support the economy, the environment, and the public, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida:

That the Senate encourages a One Water approach to water resource management and the use of collaborative, integrated, and resilience systems approaches to planning for and funding water resource projects.
