SECTION 26. The following guidelines have been adopted by the Senate for using funds paid to the State of Florida as a result of settling its landmark suit with the tobacco companies:

The Legislature must assert its rights to appropriate all funds awarded to the State through the tobacco settlement. Before any funds are released, the Legislature must approve all program and funding proposals.

Funds received from the tobacco settlement should not be deposited in the General Revenue fund. Instead, a Trust Fund should be created solely for the purpose of receiving and managing settlement funds, so that a full and complete record of all budget and expenditure actions is maintained.

Some portion of settlement funds received each year should be placed in escrow to create a long-term funding stream.

Administrative costs associated with programs and providers that receive funds from the tobacco settlement should be set at a reasonable level, consistent with best management practices.

Funds should be spent on children's health services as provided for in the settlement, including using settlement funds to match federal funds available under Title XXI.

Local law enforcement agencies, businesses and school districts should be involved in enforcement efforts as appropriate to the mission of each organization.

No funds received from the tobacco settlement may be used for advertising that includes the name, voice or likeness of any elected or appointed public official.

Greater emphasis should be placed on funding education, training and enforcement programs such as classroom programs, after-school programs, "tobacco-free" sports programs, peer mentoring programs, and museums, science and discovery programs, than on advertising.

Reimbursement should be provided to local governments that have borne costs of tobacco-related Medicaid patient care.

Tobacco use should be treated as substance abuse for purposes of providing cessation and counseling programs. Youth and adult smoking cessation programs with appropriate incentives should be supported by tobacco funds.

No state funds are to be used to support a national ("global") settlement.

County health departments must administer funds provided to all Local Coalitions that are not specifically granted exemptions by the Legislature. Exemptions to administration of coalition programs by county health departments will be limited to established administrative entities which meet a test of several criteria established by the Department of Health, and may not include provider agencies that could receive funding from the settlement.

Consideration should be given to providing additional funding for public and not-for-profit hospitals, clinics and medical schools that treat patients with tobacco-related illnesses, and to investing in the Med Access/Medical Buy-In Program for uninsured/underinsured employees of small businesses.
