Excused: Senators Lee and Montford

PRAYER

The following prayer was offered by Donny Bennett, an employee with the Office of the Senate Sergeant at Arms:

Dear Heavenly Father, Lord, I try every day to be a better man than I was the day before. I come to you this morning as nothing more than an imperfect man. I am so thankful for the grace and the blessings you have given to me.

I pray for those hurting, alone, afraid, and those that are just lost and drowning in this world. I pray right now, Lord, that you bring peace over that single mother or single father that does not know how they will pay their bills this month and the parents trying to juggle life and work and still be a parent that is there for their children. I pray for broken marriages. I pray that you bring back love in their lives. I pray, Lord, for the children in this world that are going through so much. I pray you give all of us comfort, guidance, and understanding that we are never alone. I thank you for all of our legislative staff because it takes everyone to make this place move.

I pray as we go through this day that we understand we cannot control time, which means we are not promised tomorrow. Give us

strength to forgive; give us strength to listen more and talk less; and to always treat others as if we will never see them again. And everyone says, "Amen."

PLEDGE

Senate Pages, Titus Etters of Tallahassee; Anthony Seaton of Monticello; Javaris Thomas of Live Oak; and Michael Gough of Live Oak, led the Senate in the Pledge of Allegiance to the flag of the United States of America.

Wrap-around services include, but are not limited to, tutorial and after-school programs, student counseling, nutrition education, parental counseling, and adult education. Plans for implementation may also include models that develop a culture of attending college, high academic expectations, character development, dress codes, and an extended school day and school year. At a minimum, a plan for implementation must:*

~~1. Establish wrap-around services that develop family and community partnerships.~~

~~2. Establish clearly defined and measurable high academic and character standards.~~

~~3. Increase parental involvement and engagement in the child's education.~~

~~4. Describe how the school district will identify, recruit, retain, and reward instructional personnel. The state board may waive the requirements of s. 1012.22(1)(c)5., and suspend the requirements of s. 1012.24, to facilitate implementation of the plan.~~

~~5. Identify a knowledge-rich curriculum that the school will use that focuses on developing a student's background knowledge.~~

~~6. Provide professional development that focuses on academic rigor, direct instruction, and creating high academic and character standards.~~

(c) For the 2017-2018 fiscal year, the state board shall:

1. Provide awards for up to 25 schools and prioritize awards for implementation plans submitted pursuant to paragraph (b) that are based on whole school transformation and that are developed in consultation with the school's principal.

2. Annually report on the implementation of this subsection in the report required by s. 1008.345(5), and provide summarized academic performance reports of each traditional public school receiving funds.

Section 5. *The amendments made by this act to s. 1002.33(10)(b)-(c), Florida Statutes, expire July 1, 2019, and the text of those paragraphs shall revert to that in existence on June 30, 2018, except that any amendments to such text enacted other than by this act shall be preserved and continue to operate to the extent that such amendments are not dependent upon the portions of text which expire pursuant to this section.*

Section 6. In order to implement Specific Appropriations 6 and 92 of the 2018-2019 General Appropriations Act, present subsections (16) and (17) of section 1011.62, Florida Statutes, are renumbered as subsections (19) and (20), respectively, new subsections (16) and (17) and subsection (18) are added to that section, and paragraph (a) of subsection (4) and subsection (14) of that section are amended, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) *Estimated taxable value calculations.*—

1.a. Not later than 2 working days before July 19, the Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local property appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or an assessment roll change required by final judicial decisions as specified in paragraph (19)(b) ~~(16)(b)~~. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the

minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district's revenue from required local effort millage will produce more than 90 percent of the district's total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(14) QUALITY ASSURANCE GUARANTEE.—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~, quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~ and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

(16) HOPE SUPPLEMENTAL SERVICES ALLOCATION.—*The hope supplemental services allocation is created to provide district-managed turnaround schools, as required under s. 1008.33(4)(a), and charter schools authorized under s. 1008.33(4)(b), with funds to offer services designed to improve the overall academic and community welfare of the schools' students and their families.*

(a) *Services funded by the allocation may include, but are not limited to, tutorial and after-school programs, student counseling, nutrition education, and parental counseling. In addition, services may also include models that develop a culture that encourages students to complete high school and to attend college or career training, set high academic expectations, inspire character development, and include an extended school day and school year.*

(b) *Prior to distribution of the allocation, a school district, for a district turnaround school, or the charter school governing board for a charter school, as applicable, shall develop and submit a plan for implementation to its respective governing body for approval no later than August 1 of the fiscal year.*

(c) *At a minimum, the plans required under paragraph (b) must:*

1. *Establish comprehensive support services that develop family and community partnerships;*

2. *Establish clearly defined and measurable high academic and character standards;*

3. Increase parental involvement and engagement in the child's education;

4. Describe how instructional personnel will be identified, recruited, retained, and rewarded;

5. Provide professional development that focuses on academic rigor, direct instruction, and creating high academic and character standards; and

6. Provide focused instruction to improve student academic proficiency, which may include additional instruction time beyond the normal school day or school year.

(d) Each school district and hope operator shall submit approved plans to the commissioner by September 1 of each fiscal year.

(e) For the 2018-2019 fiscal year, a school that is selected to receive funding in the 2017-2018 fiscal year pursuant to s. 1002.333(10)(c) shall receive \$2,000 per FTE. A district-managed turnaround school required under s. 1008.33(4)(a) and a charter school authorized under s. 1008.33(4)(b) are eligible for the remaining funds based on the school's unweighted FTE, up to \$2,000 per FTE or as provided in the General Appropriations Act.

This subsection expires July 1, 2019.

(17) **MENTAL HEALTH ASSISTANCE ALLOCATION.**—The mental health assistance allocation is created to provide supplemental funding to assist school districts in establishing or expanding comprehensive school-based mental health programs that increase awareness of mental health issues among children and school-age youth; train educators and other school staff in detecting and responding to mental health issues; and connect children, youth, and families who may experience behavioral health issues with appropriate services. These funds may be allocated annually in the General Appropriations Act to each eligible school district and developmental research school based on each entity's proportionate share of Florida Education Finance Program base funding. The district funding allocation must include a minimum amount as specified in the General Appropriations Act. Upon submission and approval of a plan that includes the elements specified in paragraph (b), charter schools are also entitled to a proportionate share of district funding for this program. The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses.

(a) Prior to distribution of the allocation:

1. The district must annually develop and submit a detailed plan outlining the local program and planned expenditures to the district school board for approval.

2. A charter school must annually develop and submit a detailed plan outlining the local program and planned expenditures of the funds in the plan to its governing body for approval. After the plan is approved by the governing body, it must be provided to its school district for submission to the commissioner.

(b) The plans required under paragraph (a) must include, at a minimum, all of the following elements:

1. A collaborative effort or partnership between the school district and at least one local community program or agency involved in mental health to provide or to improve prevention, diagnosis, and treatment services for students;

2. Programs to assist students in dealing with bullying, trauma, and violence;

3. Strategies or programs to reduce the likelihood of at-risk students developing social, emotional, or behavioral health problems or substance use disorders;

4. Strategies to improve the early identification of social, emotional, or behavioral problems or substance use disorders and to improve the provision of early intervention services;

5. Strategies to enhance the availability of school-based crisis intervention services and appropriate referrals for students in need of mental health services; and

6. Training opportunities for school personnel in the techniques and supports needed to identify students who have trauma histories and who have or are at risk of having a mental illness, and in the use of referral mechanisms that effectively link such students to appropriate treatment and intervention services in the school and in the community.

(c) The districts shall submit approved plans to the commissioner by August 1 of each fiscal year.

This subsection expires July 1, 2019.

(18) **FUNDING COMPRESSION ALLOCATION.**—The Legislature may provide an annual funding compression allocation in the General Appropriations Act. The allocation is created to provide additional funding to school districts and developmental research schools whose total funds per FTE in the prior year were less than the statewide average. Using the most recent prior year FEFP calculation for each eligible school district, the total funds per FTE shall be subtracted from the state average funds per FTE, not including any adjustments made pursuant to paragraph (19)(b). The resulting funds per FTE difference, or a portion thereof, as designated in the General Appropriations Act, shall then be multiplied by the school district's total unweighted FTE to provide the allocation. If the calculated funds are greater than the amount included in the General Appropriations Act, they must be prorated to the appropriation amount based on each participating school district's share.

This subsection expires July 1, 2019.

Section 7. In order to implement Specific Appropriations 6 and 92 of the 2018-2019 General Appropriations Act, paragraph (c) of subsection (3) of section 1012.731, Florida Statutes, is amended to read:

1012.731 The Florida Best and Brightest Teacher Scholarship Program.—

(c) Notwithstanding the requirements of this subsection, for the 2017-2018, ~~2018-2019~~, and 2019-2020 school years, any classroom teacher who:

1. Was evaluated as highly effective pursuant to s. 1012.34 in the school year immediately preceding the year in which the scholarship will be awarded shall receive a scholarship of \$1200, including a classroom teacher who received an award pursuant to paragraph (a).

2. Was evaluated as effective pursuant to s. 1012.34 in the school year immediately preceding the year in which the scholarship will be awarded a scholarship of up to \$800. If the number of eligible classroom teachers under this subparagraph exceeds the total allocation, the department shall prorate the per-teacher scholarship amount.

This paragraph expires July 1, 2020.

Amendment 2 (811876) (with title amendment)—Between lines 503 and 504 insert:

Section 8. Effective October 1, 2018, in order to implement Specific Appropriations 217 and 218 of the 2018-2019 General Appropriations Act, section 8 of chapter 2017-129, Laws of Florida, is amended to read:

Section 8. Effective October 1, 2018, subsection (2) of section 409.908, Florida Statutes, is amended to read:

409.908 Reimbursement of Medicaid providers.—Subject to specific appropriations, the agency shall reimburse Medicaid providers, in accordance with state and federal law, according to methodologies set forth in the rules of the agency and in policy manuals and handbooks incorporated by reference therein. These methodologies may include fee schedules, reimbursement methods based on cost reporting, negotiated fees, competitive bidding pursuant to s. 287.057, and other mechanisms the agency considers efficient and effective for purchasing services or goods on behalf of recipients. If a provider is reimbursed based on cost reporting and submits a cost report late and that cost report would have been used to set a lower reimbursement rate for a rate semester, then the provider's rate for that semester shall be retroactively calculated using the new cost report, and full payment at the recalculated rate shall be effected retroactively. Medicare-granted extensions for filing cost reports, if applicable, shall also apply to Medicaid cost reports. Payment for Medicaid compensable services made on behalf of Medicaid eligible persons is subject to the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216. Further, nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, or number of services, or making any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act, provided the adjustment is consistent with legislative intent.

(2)(a)1. Reimbursement to nursing homes licensed under part II of chapter 400 and state-owned-and-operated intermediate care facilities for the developmentally disabled licensed under part VIII of chapter 400 must be made prospectively.

2. Unless otherwise limited or directed in the General Appropriations Act, reimbursement to hospitals licensed under part I of chapter 395 for the provision of swing-bed nursing home services must be made on the basis of the average statewide nursing home payment, and reimbursement to a hospital licensed under part I of chapter 395 for the provision of skilled nursing services must be made on the basis of the average nursing home payment for those services in the county in which the hospital is located. When a hospital is located in a county that does not have any community nursing homes, reimbursement shall be determined by averaging the nursing home payments in counties that surround the county in which the hospital is located. Reimbursement to hospitals, including Medicaid payment of Medicare copayments, for skilled nursing services shall be limited to 30 days, unless a prior authorization has been obtained from the agency. Medicaid reimbursement may be extended by the agency beyond 30 days, and approval must be based upon verification by the patient's physician that the patient requires short-term rehabilitative and recuperative services only, in which case an extension of no more than 15 days may be approved. Reimbursement to a hospital licensed under part I of chapter 395 for the temporary provision of skilled nursing services to nursing home residents who have been displaced as the result of a natural disaster or other emergency may not exceed the average county nursing home payment for those services in the county in which the hospital is located and is limited to the period of time which the agency considers necessary for continued placement of the nursing home residents in the hospital.

(b) Subject to any limitations or directions in the General Appropriations Act, the agency shall establish and implement a state Title XIX Long-Term Care Reimbursement Plan for nursing home care in order to provide care and services in conformance with the applicable state and federal laws, rules, regulations, and quality and safety standards and to ensure that individuals eligible for medical assistance have reasonable geographic access to such care.

1. The agency shall amend the long-term care reimbursement plan and cost reporting system to create direct care and indirect care sub-components of the patient care component of the per diem rate. These two sub-components together shall equal the patient care component of the per diem rate. Separate prices shall be calculated for each patient care subcomponent, initially based on the September 2016 rate setting cost reports and subsequently based on the most recently audited cost report used during a rebasing year. The direct care subcomponent of the per diem rate for any providers still being reimbursed on a cost basis shall be limited by the cost-based class ceiling, and the indirect care subcomponent may be limited by the lower of the cost-based class ceiling, the target rate class ceiling, or the individual provider target. The ceilings and targets apply only to providers being reimbursed on a cost-based system. Effective October 1, 2018, a prospective payment methodology shall be implemented for rate setting purposes with the following parameters:

a. Peer Groups, including:

(I) North-SMMC Regions 1-9, less Palm Beach and Okeechobee Counties; and

(II) South-SMMC Regions 10-11, plus Palm Beach and Okeechobee Counties.

b. Percentage of Median Costs based on the cost reports used for September 2016 rate setting:

(I) Direct Care Costs 105 ~~100~~ percent.

(II) Indirect Care Costs 92 percent.

(III) Operating Costs 86 percent.

c. Floors:

(I) Direct Care Component 95 percent.

(II) Indirect Care Component 92.5 percent.

(III) Operating Component None.

d. Pass-through Payments . . . Real Estate and Personal Property Taxes and Property Insurance.

e. Quality Incentive Program Payment Pool 7.5 ~~6~~ percent of September 2016 non-property related payments of included facilities.

f. Quality Score Threshold to Quality for Quality Incentive Payment 20th percentile of included facilities.

g. Fair Rental Value System Payment Parameters:

(I) Building Value per Square Foot based on 2018 RS Means.

(II) Land Valuation 10 percent of Gross Building value.

(III) Facility Square Footage Actual Square Footage.

(IV) Moveable Equipment Allowance \$8,000 per bed.

(V) Obsolescence Factor 1.5 percent.

(VI) Fair Rental Rate of Return 8 percent.

(VII) Minimum Occupancy 90 percent.

(VIII) Maximum Facility Age 40 years.

(IX) Minimum Square Footage per Bed 350.

(X) Maximum Square Footage for Bed 500.

(XI) Minimum Cost of a renovation/replacements . . . \$500 per bed.

h. Ventilator Supplemental payment of \$200 per Medicaid day of 40,000 ventilator Medicaid days per fiscal year.

2. The direct care subcomponent shall include salaries and benefits of direct care staff providing nursing services including registered nurses, licensed practical nurses, and certified nursing assistants who deliver care directly to residents in the nursing home facility, allowable therapy costs, and dietary costs. This excludes nursing administration, staff development, the staffing coordinator, and the administrative portion of the minimum data set and care plan coordinators. The direct care subcomponent also includes medically necessary dental care, vision care, hearing care, and podiatric care.

3. All other patient care costs shall be included in the indirect care cost subcomponent of the patient care per diem rate, including complex medical equipment, medical supplies, and other allowable ancillary costs. Costs may not be allocated directly or indirectly to the direct care subcomponent from a home office or management company.

4. On July 1 of each year, the agency shall report to the Legislature direct and indirect care costs, including average direct and indirect care costs per resident per facility and direct care and indirect care salaries and benefits per category of staff member per facility.

5. Every fourth year, the agency shall rebase nursing home prospective payment rates to reflect changes in cost based on the most recently audited cost report for each participating provider.

6. A direct care supplemental payment may be made to providers whose direct care hours per patient day are above the 80th percentile and who provide Medicaid services to a larger percentage of Medicaid patients than the state average.

7. For the period beginning on October 1, 2018, and ending on September 30, 2021, the agency shall reimburse providers the greater of their September 2016 cost-based rate or their prospective payment rate. Effective October 1, 2021, the agency shall reimburse providers the greater of 95 percent of their cost-based rate or their rebased prospective payment rate, using the most recently audited cost report for each facility. This subparagraph shall expire September 30, 2023.

8. Pediatric, Florida Department of Veterans Affairs, and government-owned facilities are exempt from the pricing model established in this subsection and shall remain on a cost-based prospective payment system. Effective October 1, 2018, the agency shall set rates for all facilities remaining on a cost-based prospective payment system using each facility's most recently audited cost report, eliminating retroactive settlements.

It is the intent of the Legislature that the reimbursement plan achieve the goal of providing access to health care for nursing home residents who require large amounts of care while encouraging diversion services as an alternative to nursing home care for residents who can be served within the community. The agency shall base the establishment of any maximum rate of payment, whether overall or component, on the available moneys as provided for in the General Appropriations Act. The agency may base the maximum rate of payment on the results of scientifically valid analysis and conclusions derived from objective statistical data pertinent to the particular maximum rate of payment.

Section 9. Effective October 1, 2018, in order to implement Specific Appropriations 217 and 218 of the 2018-2019 General Appropriations Act, subsection (23) of section 409.908, Florida Statutes, is amended to read:

409.908 Reimbursement of Medicaid providers.—Subject to specific appropriations, the agency shall reimburse Medicaid providers, in accordance with state and federal law, according to methodologies set forth in the rules of the agency and in policy manuals and handbooks incorporated by reference therein. These methodologies may include fee schedules, reimbursement methods based on cost reporting, negotiated fees, competitive bidding pursuant to s. 287.057, and other mechanisms the agency considers efficient and effective for purchasing services or goods on behalf of recipients. If a provider is reimbursed based on cost reporting and submits a cost report late and that cost report would have been used to set a lower reimbursement rate for a rate semester, then

the provider's rate for that semester shall be retroactively calculated using the new cost report, and full payment at the recalculated rate shall be effected retroactively. Medicare-granted extensions for filing cost reports, if applicable, shall also apply to Medicaid cost reports. Payment for Medicaid compensable services made on behalf of Medicaid eligible persons is subject to the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216. Further, nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, or number of services, or making any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act, provided the adjustment is consistent with legislative intent.

(23)(a) The agency shall establish rates at a level that ensures no increase in statewide expenditures resulting from a change in unit costs for county health departments effective July 1, 2011. Reimbursement rates shall be as provided in the General Appropriations Act.

(b)1. Base rate reimbursement for inpatient services under a diagnosis-related group payment methodology shall be provided in the General Appropriations Act.

2.(c) Base rate reimbursement for outpatient services under an enhanced ambulatory payment group methodology shall be provided in the General Appropriations Act.

3. *Prospective payment system reimbursement for nursing home services shall be as provided in subsection (2) and in the General Appropriations Act*

~~(d) This subsection applies to the following provider types:~~

~~1. Nursing homes.~~

~~2. County health departments.~~

~~(e) The agency shall apply the effect of this subsection to the reimbursement rates for nursing home diversion programs.~~

Section 10. *The amendments made by this act to ss. 409.908(2) and (23), Florida Statutes, expire July 1, 2019, and the text of those subsections shall revert to that in existence on October 1, 2018, not including any amendments made by this act, except that any amendments to such text enacted other than by this act shall be preserved and continue to operate to the extent that such amendments are not dependent upon the portions of text which expire pursuant to this section.*

Section 11. *Effective upon this act becoming a law, in order to implement Specific Appropriations 199, 203, 204, 206, 208, and 217 of the 2018-2019 General Appropriations Act, the Agency for Health Care Administration shall seek authorization from the federal Centers for Medicare and Medicaid Services to modify the period of retroactive Medicaid eligibility from 90 days to 30 days in a manner that ensures that the modification becomes effective on July 1, 2018.*

And the title is amended as follows:

Between lines 47 and 48 insert: amending s. 409.908, F.S.; revising parameters relating to the prospective payment methodology for the reimbursement of Medicaid providers to be implemented for rate-setting purposes; requiring the agency to establish prospective payment reimbursement rates for nursing home services as provided in this act and in the General Appropriations Act; providing for the future expiration and reversion of specified statutory text; requiring the Agency for Health Care Administration to seek authorization from the federal Centers for Medicare and Medicaid Services to modify the period of retroactive Medicaid eligibility in a manner that ensures that the modification becomes effective by a certain date;

Senator Grimsley moved the following amendment which was adopted:

Amendment 3 (922878) (with title amendment)—Between lines 1266 and 1267 insert:

Section 37. In order to implement Specific Appropriation 1660 of the 2018-2019 General Appropriations Act, paragraph (r) is added to subsection (4) of section 376.3071, Florida Statutes, to read:

376.3071 Inland Protection Trust Fund; creation; purposes; funding.—

(4) USES.—Whenever, in its determination, incidents of inland contamination related to the storage of petroleum or petroleum products may pose a threat to the public health, safety, or welfare, water resources, or the environment, the department shall obligate moneys available in the fund to provide for:

(r) Notwithstanding paragraph (j), \$10 million is allocated for the 2018-2019 fiscal year for the payment of the repair or the replacement of, or other preventive measures for, storage tanks, piping, or system components. Such costs may include equipment, preventive measures, excavation, electrical work, site restoration, and maintenance protocols. Owners or operators may submit an application for funding on forms developed by the department.

1. The application must include:

a. An affidavit by a petroleum storage system specialty contractor and supporting documentation demonstrating that the storage tank system may have been damaged or is subject to damage by incompatibility with fuel blended with ethanol or biodiesel;

b. A proposed scope of work and cost; and

c. For proposals to replace tanks or piping, a statement from a certified public accountant which indicates the depreciated value of the equipment. The depreciated value is the maximum allowable replacement cost. Tanks and piping that are 20 years old or older are deemed to have no replacement value.

2. The department must review the application for completeness, accuracy, and reasonableness of costs and scope of work. Upon approval of an application, the department must issue a purchase order to the applicant. The department may not issue a purchase order unless funds remain for the current fiscal year. The purchase order must include a deductible of 25 percent of the total cost. Except for preventative maintenance contracts, the specified work must be substantially completed within 180 days after the date of issuance of the purchase order.

3. Applications shall be funded on a first-come, first-served basis. Except for preventative maintenance contracts, the specified work must be substantially completed within 180 days after the date of issuance of the purchase order. After such time, the purchase order is void. An owner or operator may not cancel a preventative maintenance contract without cause. Following submission of proof to the department that the approved scope of work; or, in the case of preventative maintenance contracts, the first service event is complete; the applicant may request payment. A petroleum storage system owner or operator may not receive more than \$200,000 per fiscal year for any single facility or \$500,000 per fiscal year for all the facilities it owns or operates.

4. Owners or operators who have incurred costs for repair, replacement, or other preventative measures as described in this paragraph from July 1, 2015, through June 30, 2018, may apply to request payment for such costs from the department using the procedure specified in this paragraph. The department may not disburse payments for approved applications for such work until all purchase orders for previously approved applications submitted after July 1, 2018, have been paid and funds remain available for the fiscal year. Such payment is subject to a deductible of 25 percent of the approved cost.

5. Payment may not be provided for:

a. Any costs for which an application for repair, replacement, or preventative measures is not approved in accordance with this paragraph;

b. Proposal costs or costs related to preparation of the application and required documentation;

c. Costs associated with the services of a certified public accountant;

d. Costs associated with storage tanks, piping, or ancillary equipment that has been previously repaired or replaced with funds that have been paid pursuant to this section;

e. Facilities that are not in compliance with department storage tank rules, until the facility has been brought into compliance with such rules; or

f. Costs associated with damage to petroleum storage systems caused in whole or in part by causes other than the storage of fuels blended with ethanol or biodiesel.

6. This paragraph does not affect the obligations of facility owners or operators or petroleum storage system owners or operators to timely comply with department rules regarding the maintenance, replacement, and repair of petroleum storage systems in order to prevent a release or discharge of pollutants. This paragraph does not prevent the department from issuing a purchase order in accordance with this paragraph based on grounds that work had commenced before the issuance of the purchase order.

7. The department shall ensure that petroleum storage systems approved after July 1, 2018, meet applicable standards for compatibility for ethanol blends, biodiesel blends, and other alternative fuels that are likely to be installed in such systems.

8. This paragraph expires July 1, 2019.

The issuance of a site rehabilitation completion order pursuant to subsection (5) or paragraph (12)(b) for contamination eligible for programs funded by this section does not alter the project's eligibility for state-funded remediation if the department determines that site conditions are not protective of human health under actual or proposed circumstances of exposure under subsection (5). The Inland Protection Trust Fund may be used only to fund the activities in ss. 376.30-376.317 except ss. 376.3078 and 376.3079. Amounts on deposit in the fund in each fiscal year must first be applied or allocated for the payment of amounts payable by the department pursuant to paragraph (n) under a service contract entered into by the department pursuant to s. 376.3075 and appropriated in each year by the Legislature before making or providing for other disbursements from the fund. This subsection does not authorize the use of the fund for cleanup of contamination caused primarily by a discharge of solvents as defined in s. 206.9925(6), or polychlorinated biphenyls when their presence causes them to be hazardous wastes, except solvent contamination which is the result of chemical or physical breakdown of petroleum products and is otherwise eligible. Facilities used primarily for the storage of motor or diesel fuels as defined in ss. 206.01 and 206.86 are not excluded from eligibility pursuant to this section.

And the title is amended as follows:

PRAYER

The following prayer was offered by Deacon Wallace Brown, Pilgrim Rest Missionary Baptist Church, Havana, a long-time employee of the Office of the Senate Sergeant at Arms:

Our Father and Creator, we come to say thank you for all of your help through this world and through this life. Through prayer, we can reach out to you for ourselves and for our loved ones and even for people we do not know. Through you, our knowledge of you is more clear. Forgive us for our wrongdoings and make us ready to forgive others. Save us from temptation and from falling into sinful ways. You rule over all things. Your power supplies all of our needs. Glory to your holy name.

Bless our great state and bless our world and all of the beautiful things in it. Bless our legislators and keep their minds sharp as they take on all of the state's tough problems. Keep your loving hands around them every day. We pray this prayer in your name. Amen.

SR 550—A resolution supporting an extension of the current moratorium on drilling in the Gulf of Mexico east of the Military Mission Line.

WHEREAS, the Florida Legislature represents the military bases and personnel that maintain, manage, and use the Gulf of Mexico Range Complex (GOMEX Range Complex) which provides for the common defense of this state and the nation, and

WHEREAS, defense is the State of Florida’s fourth largest industry, accounting for more than 775,000 jobs, \$80 billion in economic impact, and 65 percent of the regional economy of Northwest Florida, and

WHEREAS, testing and training activities conducted from Florida’s air and sea bases are considerably dependent on unconstrained access to the Eastern Gulf of Mexico airspace and seaspace, and

WHEREAS, the GOMEX Range Complex is a unique national resource, and

WHEREAS, the range is larger than all other training ranges inside the continental United States combined, stretching from the Florida Panhandle south to Key West and encompassing the Eastern Gulf of Mexico, and

WHEREAS, surrounding the GOMEX Range Complex are numerous United States Department of Defense installations, ranges, and airspaces, which make the complex unique, and

WHEREAS, originally a place to practice air-to-air engagements and air-to-surface bombing and strafing, the GOMEX Range Complex has served the nation for over 60 years, and

WHEREAS, after World War II, the GOMEX Range Complex was used to test surface-to-air rockets against drones and, with the advent of fifth-generation aircraft at Tyndall and Eglin Air Force Bases, has been used extensively to test future weapons systems, and

WHEREAS, the military missions require day and night access to the airspace, from the surface up to 60,000 feet, for high-speed flying and maneuvering, as well as day and night access to the seaspace, from the sea surface to the subsurface areas, for use by ships and submarines, and

WHEREAS, the military uses live ammunition and missiles against remotely piloted full-scale targets and drones, resulting in large debris fields of dangerous objects, and

WHEREAS, for well over a decade and through two presidential administrations, the United States Department of Defense policy has been to keep the Eastern Gulf of Mexico free from obstruction, and

WHEREAS, oil exploration and offshore platforms placed in the Eastern Gulf of Mexico could jeopardize military missions and severely reduce the state's appeal in keeping military installations, and

WHEREAS, without access to airspace in order to test modern and emerging weapons systems and train the aircrews that support such systems, Florida would lose its primary reason for hosting the GOMEX Range Complex, and

WHEREAS, the Gulf of Mexico Energy Security Act (GOMESA) of 2006 restricts oil and gas leasing in all areas east of the Military Mission Line established at 86°41' W. longitude and bans oil and gas leasing within 125 miles of the Florida coastline in the Eastern Planning Area and in a portion of the Central Planning Area until 2022, and

WHEREAS, attempts to reduce restrictions on oil and gas exploration and production arose in 2013 and 2015, when the members of the United States Senate and the United States House of Representatives developed and introduced bills to change GOMESA without addressing the military need to maintain the GOMEX Range Complex, and

WHEREAS, in 2013, the Offshore Energy and Jobs Act was introduced by United States Representative Doc Hastings of Washington to propose changes in oil and gas drilling and exploration locations, and

WHEREAS, the Offshore Energy and Jobs Act of 2015 was introduced by United States Senator Bill Cassidy of Louisiana, to increase oil and gas exploration and production, most notably through reducing the exclusion area east of the Military Mission Line from 125 miles to 50 miles offshore and through shortening the time limit of the moratorium from 2022 to 2017, but the bill ultimately did not advance past committee, and GOMESA remained intact for the time being, and

WHEREAS, the United States Secretary of Defense, the Chief of Staff of the United States Air Force, and fifteen members of the United States Congress from Florida have written letters requesting an extension to the moratorium, which is essential for developing and sustaining the military's future capabilities and for guaranteeing long-term capabilities for future test missions that may enable new technologies such as hypersonic fifth-generation fighters, advanced subsurface weapons systems, and other projects that require enlarged testing and training footprints well beyond 2022, and

WHEREAS, without the certainty of an extension to the moratorium, investment in upgrades in telemetry, tracking, and other important improvements are at risk, and

WHEREAS, in March 2017, twenty local county commissions, chambers of commerce, local economic development councils, and military affairs committees drafted resolutions in support of the moratorium and submitted them to the Florida Legislature, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida:

That the State of Florida must maintain a united front in supporting an extension of the current moratorium on drilling in the Gulf of Mexico east of the Military Mission Line.

BE IT FURTHER RESOLVED that to allow drilling east of the Military Mission Line would mean loss of range areas and possible relocation of aircraft and bases to other unrestricted range areas.

BE IT FURTHER RESOLVED that the Florida Senate supports an indefinite extension of the restriction, specified in the Gulf of Mexico Energy Security Act of 2006, oil and gas leasing in all areas east of the Military Mission Line established at 86°41' W. longitude and indefinite extension of the Act's ban oil and gas leasing within 125 miles of the Florida coastline in the Eastern Planning Area and in a portion of the Central Planning Area.

(10) **SCHOOLS OF HOPE PROGRAM.**—The Schools of Hope Program is created within the Department of Education.

(b) A traditional public school that is required to submit a plan for implementation pursuant to s. 1008.33(4) is eligible to receive *funding for services authorized up to \$2,000 per full-time equivalent student from the hope supplemental services allocation established under s. 1011.62(16) Schools of Hope Program based upon the strength of the*

~~school's plan for implementation and its focus on evidence-based interventions that lead to student success by providing wrap-around services that leverage community assets, improve school and community collaboration, and develop family and community partnerships. Wrap-around services include, but are not limited to, tutorial and after-school programs, student counseling, nutrition education, parental counseling, and adult education. Plans for implementation may also include models that develop a culture of attending college, high academic expectations, character development, dress codes, and an extended school day and school year. At a minimum, a plan for implementation must:~~

- ~~1. Establish wrap-around services that develop family and community partnerships.~~
- ~~2. Establish clearly defined and measurable high academic and character standards.~~
- ~~3. Increase parental involvement and engagement in the child's education.~~
- ~~4. Describe how the school district will identify, recruit, retain, and reward instructional personnel. The state board may waive the requirements of s. 1012.22(1)(c)5., and suspend the requirements of s. 1012.34, to facilitate implementation of the plan.~~
- ~~5. Identify a knowledge-rich curriculum that the school will use that focuses on developing a student's background knowledge.~~
- ~~6. Provide professional development that focuses on academic rigor, direct instruction, and creating high academic and character standards.~~

(c) *For the 2017-2018 fiscal year, the state board shall:*

1. Provide awards for up to 25 schools and prioritize awards for implementation plans ~~submitted pursuant to paragraph (b)~~ that are based on whole school transformation and that are developed in consultation with the school's principal.
2. Annually report on the implementation of this subsection in the report required by s. 1008.345(5), and provide summarized academic performance reports of each traditional public school receiving funds.

Section 5. *The amendments made by this act to s. 1002.333(10)(b)-(c), Florida Statutes, expire July 1, 2019, and the text of those paragraphs shall revert to that in existence on June 30, 2018, except that any amendments to such text enacted other than by this act shall be preserved and continue to operate to the extent that such amendments are not dependent upon the portions of text which expire pursuant to this section.*

Section 6. In order to implement Specific Appropriations 6 and 92 of the 2018-2019 General Appropriations Act, present subsections (16) and (17) of section 1011.62, Florida Statutes, are renumbered as subsections (19) and (20), respectively, new subsections (16) and (17) and subsection (18) are added to that section, and paragraph (a) of subsection (4) and subsection (14) of that section are amended, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) *Estimated taxable value calculations.—*

1.a. Not later than 2 working days before July 19, the Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local property

appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or an assessment roll change required by final judicial decisions as specified in paragraph (19)(b) ~~(16)(b)~~. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district's revenue from required local effort millage will produce more than 90 percent of the district's total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(14) QUALITY ASSURANCE GUARANTEE.—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~, quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~ and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

(16) HOPE SUPPLEMENTAL SERVICES ALLOCATION.—*The hope supplemental services allocation is created to provide district-managed turnaround schools, as required under s. 1008.33(4)(a), and charter schools authorized under s. 1008.33(4)(b), with funds to offer services designed to improve the overall academic and community welfare of the schools' students and their families.*

(a) *Services funded by the allocation may include, but are not limited to, tutorial and after-school programs, student counseling, nutrition education, and parental counseling. In addition, services may also include models that develop a culture that encourages students to complete high school and to attend college or career training, set high academic expectations, inspire character development, and include an extended school day and school year.*

(b) *Prior to distribution of the allocation, a school district, for a district turnaround school, or the charter school governing board for a charter school, as applicable, shall develop and submit a plan for im-*

plementation to its respective governing body for approval no later than August 1 of the fiscal year.

(c) At a minimum, the plans required under paragraph (b) must:

1. Establish comprehensive support services that develop family and community partnerships;
2. Establish clearly defined and measurable high academic and character standards;
3. Increase parental involvement and engagement in the child's education;
4. Describe how instructional personnel will be identified, recruited, retained, and rewarded;
5. Provide professional development that focuses on academic rigor, direct instruction, and creating high academic and character standards; and
6. Provide focused instruction to improve student academic proficiency, which may include additional instruction time beyond the normal school day or school year.

(d) Each school district and hope operator shall submit approved plans to the commissioner by September 1 of each fiscal year.

(e) For the 2018-2019 fiscal year, a school that is selected to receive funding in the 2017-2018 fiscal year pursuant to s. 1002.333(10)(c) shall receive \$2,000 per FTE. A district-managed turnaround school required under s. 1008.33(4)(a) and a charter school authorized under s. 1008.33(4)(b) are eligible for the remaining funds based on the school's unweighted FTE, up to \$2,000 per FTE or as provided in the General Appropriations Act.

This subsection expires July 1, 2019.

(17) **MENTAL HEALTH ASSISTANCE ALLOCATION.**—The mental health assistance allocation is created to provide supplemental funding to assist school districts in establishing or expanding comprehensive school-based mental health programs that increase awareness of mental health issues among children and school-age youth; train educators and other school staff in detecting and responding to mental health issues; and connect children, youth, and families who may experience behavioral health issues with appropriate services. These funds may be allocated annually in the General Appropriations Act to each eligible school district and developmental research school based on each entity's proportionate share of Florida Education Finance Program base funding. The district funding allocation must include a minimum amount as specified in the General Appropriations Act. Upon submission and approval of a plan that includes the elements specified in paragraph (b), charter schools are also entitled to a proportionate share of district funding for this program. The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses.

(a) Prior to distribution of the allocation:

1. The district must annually develop and submit a detailed plan outlining the local program and planned expenditures to the district school board for approval.
2. A charter school must annually develop and submit a detailed plan outlining the local program and planned expenditures of the funds in the plan to its governing body for approval. After the plan is approved by the governing body, it must be provided to its school district for submission to the commissioner.

(b) The plans required under paragraph (a) must include, at a minimum, all of the following elements:

1. A collaborative effort or partnership between the school district and at least one local community program or agency involved in mental health to provide or to improve prevention, diagnosis, and treatment services for students;
2. Programs to assist students in dealing with bullying, trauma, and violence;

3. Strategies or programs to reduce the likelihood of at-risk students developing social, emotional, or behavioral health problems or substance use disorders;

4. Strategies to improve the early identification of social, emotional, or behavioral problems or substance use disorders and to improve the provision of early intervention services;

5. Strategies to enhance the availability of school-based crisis intervention services and appropriate referrals for students in need of mental health services; and

6. Training opportunities for school personnel in the techniques and supports needed to identify students who have trauma histories and who have or are at risk of having a mental illness, and in the use of referral mechanisms that effectively link such students to appropriate treatment and intervention services in the school and in the community.

(c) The districts shall submit approved plans to the commissioner by August 1 of each fiscal year.

This subsection expires July 1, 2019.

(18) **FUNDING COMPRESSION ALLOCATION.**—The Legislature may provide an annual funding compression allocation in the General Appropriations Act. The allocation is created to provide additional funding to school districts and developmental research schools whose total funds per FTE in the prior year were less than the statewide average. Using the most recent prior year FEFP calculation for each eligible school district, the total funds per FTE shall be subtracted from the state average funds per FTE, not including any adjustments made pursuant to paragraph (19)(b). The resulting funds per FTE difference, or a portion thereof, as designated in the General Appropriations Act, shall then be multiplied by the school district's total unweighted FTE to provide the allocation. If the calculated funds are greater than the amount included in the General Appropriations Act, they must be prorated to the appropriation amount based on each participating school district's share. This subsection expires July 1, 2019.

Section 7. In order to implement Specific Appropriations 6 and 92 of the 2018-2019 General Appropriations Act, paragraph (c) of subsection (3) of section 1012.731, Florida Statutes, is amended to read:

1012.731 The Florida Best and Brightest Teacher Scholarship Program.—

1. Was evaluated as highly effective pursuant to s. 1012.34 in the school year immediately preceding the year in which the scholarship will be awarded shall receive a scholarship of \$1200, including a classroom teacher who received an award pursuant to paragraph (a).

2. Was evaluated as effective pursuant to s. 1012.34 in the school year immediately preceding the year in which the scholarship will be awarded a scholarship of up to \$800. If the number of eligible classroom teachers under this subparagraph exceeds the total allocation, the department shall prorate the per-teacher scholarship amount.

This paragraph expires July 1, 2020.

Section 8. In order to implement Specific Appropriation 200 of the 2018-2019 General Appropriations Act, the calculations for the Medicaid Disproportionate Share Hospital program for the 2018-2019 fiscal year contained in the document titled "Medicaid Hospital Funding Program," dated January 26, 2018, and filed with the Secretary of the Senate, are incorporated by reference for the purpose of displaying the calculations used by the Legislature, consistent with the requirements of state law, in making appropriations for the Medicaid Disproportionate Share Hospital program. This section expires July 1, 2019.

Section 9. In order to implement Specific Appropriations 193 through 220 and 524 of the 2018-2019 General Appropriations Act, and notwithstanding ss. 216.181 and 216.292, Florida Statutes, the Agency for Health Care Administration, in consultation with the Department of

Health, may submit a budget amendment, subject to the notice, review, and objection procedures of s. 216.177, Florida Statutes, to realign funding within and between agencies based on implementation of the Managed Medical Assistance component of the Statewide Medicaid Managed Care program for the Children's Medical Services program of the Department of Health. The funding realignment shall reflect the actual enrollment changes due to the transfer of beneficiaries from fee-for-service to the capitated Children's Medical Services Network. The Agency for Health Care Administration may submit a request for non-operating budget authority to transfer the federal funds to the Department of Health pursuant to s. 216.181(12), Florida Statutes. This section expires July 1, 2019.

Section 10. *In order to implement Specific Appropriation 242 of the 2018-2019 General Appropriations Act:*

(1) *If during the 2018-2019 fiscal year, the Agency for Persons with Disabilities ceases to have an allocation algorithm and methodology adopted by valid rule pursuant to s. 393.0662, Florida Statutes, the agency shall use the following until it adopts a new allocation algorithm and methodology:*

(a) *Each client's iBudget in effect as of the date the agency ceases to have an allocation algorithm and methodology adopted by valid rule pursuant to s. 393.0662, Florida Statutes, shall remain at that funding level.*

(b) *The Agency for Persons with Disabilities shall determine the iBudget for a client newly enrolled in the home and community-based services waiver program using the same allocation algorithm and methodology used for the iBudgets determined between January 1, 2017, and December 31, 2017.*

(2) *After a new allocation algorithm and methodology is adopted by final rule, a client's new iBudget shall be determined based on the new allocation algorithm and methodology and shall take effect as of the client's next support plan update.*

(3) *Funding allocated under subsections (1) and (2) may be increased pursuant to s. 393.0662(1)(b), Florida Statutes, or as necessary to comply with federal regulations.*

(4) *This section expires July 1, 2019.*

Section 11. Effective October 1, 2018, in order to implement Specific Appropriations 217 and 218 of the 2018-2019 General Appropriations Act, section 8 of chapter 2017-129, Laws of Florida, is amended to read:

Section 8. Effective October 1, 2018, subsection (2) of section 409.908, Florida Statutes, is amended to read:

409.908 Reimbursement of Medicaid providers.—Subject to specific appropriations, the agency shall reimburse Medicaid providers, in accordance with state and federal law, according to methodologies set forth in the rules of the agency and in policy manuals and handbooks incorporated by reference therein. These methodologies may include fee schedules, reimbursement methods based on cost reporting, negotiated fees, competitive bidding pursuant to s. 287.057, and other mechanisms the agency considers efficient and effective for purchasing services or goods on behalf of recipients. If a provider is reimbursed based on cost reporting and submits a cost report late and that cost report would have been used to set a lower reimbursement rate for a rate semester, then the provider's rate for that semester shall be retroactively calculated using the new cost report, and full payment at the recalculated rate shall be effected retroactively. Medicare-granted extensions for filing cost reports, if applicable, shall also apply to Medicaid cost reports. Payment for Medicaid compensable services made on behalf of Medicaid eligible persons is subject to the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216. Further, nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, or number of services, or making any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act, provided the adjustment is consistent with legislative intent.

(2)(a)1. Reimbursement to nursing homes licensed under part II of chapter 400 and state-owned-and-operated intermediate care facilities for the developmentally disabled licensed under part VIII of chapter 400 must be made prospectively.

2. Unless otherwise limited or directed in the General Appropriations Act, reimbursement to hospitals licensed under part I of chapter 395 for the provision of swing-bed nursing home services must be made on the basis of the average statewide nursing home payment, and reimbursement to a hospital licensed under part I of chapter 395 for the provision of skilled nursing services must be made on the basis of the average nursing home payment for those services in the county in which the hospital is located. When a hospital is located in a county that does not have any community nursing homes, reimbursement shall be determined by averaging the nursing home payments in counties that surround the county in which the hospital is located. Reimbursement to hospitals, including Medicaid payment of Medicare copayments, for skilled nursing services shall be limited to 30 days, unless a prior authorization has been obtained from the agency. Medicaid reimbursement may be extended by the agency beyond 30 days, and approval must be based upon verification by the patient's physician that the patient requires short-term rehabilitative and recuperative services only, in which case an extension of no more than 15 days may be approved. Reimbursement to a hospital licensed under part I of chapter 395 for the temporary provision of skilled nursing services to nursing home residents who have been displaced as the result of a natural disaster or other emergency may not exceed the average county nursing home payment for those services in the county in which the hospital is located and is limited to the period of time which the agency considers necessary for continued placement of the nursing home residents in the hospital.

(b) Subject to any limitations or directions in the General Appropriations Act, the agency shall establish and implement a state Title XIX Long-Term Care Reimbursement Plan for nursing home care in order to provide care and services in conformance with the applicable state and federal laws, rules, regulations, and quality and safety standards and to ensure that individuals eligible for medical assistance have reasonable geographic access to such care.

1. The agency shall amend the long-term care reimbursement plan and cost reporting system to create direct care and indirect care subcomponents of the patient care component of the per diem rate. These two subcomponents together shall equal the patient care component of the per diem rate. Separate prices shall be calculated for each patient care subcomponent, initially based on the September 2016 rate setting cost reports and subsequently based on the most recently audited cost report used during a rebasing year. The direct care subcomponent of the per diem rate for any providers still being reimbursed on a cost basis shall be limited by the cost-based class ceiling, and the indirect care subcomponent may be limited by the lower of the cost-based class ceiling, the target rate class ceiling, or the individual provider target. The ceilings and targets apply only to providers being reimbursed on a cost-based system. Effective October 1, 2018, a prospective payment methodology shall be implemented for rate setting purposes with the following parameters:

a. Peer Groups, including:

(I) North-SMMC Regions 1-9, less Palm Beach and Okeechobee Counties; and

(II) South-SMMC Regions 10-11, plus Palm Beach and Okeechobee Counties.

b. Percentage of Median Costs based on the cost reports used for September 2016 rate setting:

(I) Direct Care Costs 105 ~~100~~ percent.

(II) Indirect Care Costs 92 percent.

(III) Operating Costs 86 percent.

c. Floors:

(I) Direct Care Component 95 percent.

(II) Indirect Care Component 92.5 percent.

(III) Operating Component None.

d. Pass-through Payments . . . Real Estate and Personal Property Taxes and Property Insurance.

e. Quality Incentive Program Payment Pool . . 7.5 6 percent of September 2016 non-property related payments of included facilities.

f. Quality Score Threshold to Quality for Quality Incentive Payment 20th percentile of included facilities.

g. Fair Rental Value System Payment Parameters:

(I) Building Value per Square Foot based on 2018 RS Means.

(II) Land Valuation 10 percent of Gross Building value.

(III) Facility Square Footage Actual Square Footage.

(IV) Moveable Equipment Allowance \$8,000 per bed.

(V) Obsolescence Factor 1.5 percent.

(VI) Fair Rental Rate of Return 8 percent.

(VII) Minimum Occupancy 90 percent.

(VIII) Maximum Facility Age 40 years.

(IX) Minimum Square Footage per Bed 350.

(X) Maximum Square Footage for Bed 500.

(XI) Minimum Cost of a renovation/replacements . . . \$500 per bed.

h. Ventilator Supplemental payment of \$200 per Medicaid day of 40,000 ventilator Medicaid days per fiscal year.

2. The direct care subcomponent shall include salaries and benefits of direct care staff providing nursing services including registered nurses, licensed practical nurses, and certified nursing assistants who deliver care directly to residents in the nursing home facility, allowable therapy costs, and dietary costs. This excludes nursing administration, staff development, the staffing coordinator, and the administrative portion of the minimum data set and care plan coordinators. The direct care subcomponent also includes medically necessary dental care, vision care, hearing care, and podiatric care.

3. All other patient care costs shall be included in the indirect care cost subcomponent of the patient care per diem rate, including complex medical equipment, medical supplies, and other allowable ancillary costs. Costs may not be allocated directly or indirectly to the direct care subcomponent from a home office or management company.

4. On July 1 of each year, the agency shall report to the Legislature direct and indirect care costs, including average direct and indirect care costs per resident per facility and direct care and indirect care salaries and benefits per category of staff member per facility.

5. Every fourth year, the agency shall rebase nursing home prospective payment rates to reflect changes in cost based on the most recently audited cost report for each participating provider.

6. A direct care supplemental payment may be made to providers whose direct care hours per patient day are above the 80th percentile and who provide Medicaid services to a larger percentage of Medicaid patients than the state average.

7. For the period beginning on October 1, 2018, and ending on September 30, 2021, the agency shall reimburse providers the greater of their September 2016 cost-based rate or their prospective payment rate. Effective October 1, 2021, the agency shall reimburse providers the greater of 95 percent of their cost-based rate or their rebased prospective payment rate, using the most recently audited cost report for each facility. This subparagraph shall expire September 30, 2023.

8. Pediatric, Florida Department of Veterans Affairs, and government-owned facilities are exempt from the pricing model established in this subsection and shall remain on a cost-based prospective payment system. Effective October 1, 2018, the agency shall set rates for all

facilities remaining on a cost-based prospective payment system using each facility's most recently audited cost report, eliminating retroactive settlements.

It is the intent of the Legislature that the reimbursement plan achieve the goal of providing access to health care for nursing home residents who require large amounts of care while encouraging diversion services as an alternative to nursing home care for residents who can be served within the community. The agency shall base the establishment of any maximum rate of payment, whether overall or component, on the available moneys as provided for in the General Appropriations Act. The agency may base the maximum rate of payment on the results of scientifically valid analysis and conclusions derived from objective statistical data pertinent to the particular maximum rate of payment.

Section 12. Effective October 1, 2018, in order to implement Specific Appropriations 217 and 218 of the 2018-2019 General Appropriations Act, subsection (23) of section 409.908, Florida Statutes, is amended to read:

409.908 Reimbursement of Medicaid providers.—Subject to specific appropriations, the agency shall reimburse Medicaid providers, in accordance with state and federal law, according to methodologies set forth in the rules of the agency and in policy manuals and handbooks incorporated by reference therein. These methodologies may include fee schedules, reimbursement methods based on cost reporting, negotiated fees, competitive bidding pursuant to s. 287.057, and other mechanisms the agency considers efficient and effective for purchasing services or goods on behalf of recipients. If a provider is reimbursed based on cost reporting and submits a cost report late and that cost report would have been used to set a lower reimbursement rate for a rate semester, then the provider's rate for that semester shall be retroactively calculated using the new cost report, and full payment at the recalculated rate shall be effected retroactively. Medicare-granted extensions for filing cost reports, if applicable, shall also apply to Medicaid cost reports. Payment for Medicaid compensable services made on behalf of Medicaid eligible persons is subject to the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216. Section 41. (1) *In order to implement specific appropriations from the land acquisition trust funds within the Department of Agriculture and Consumer Services, the Department of Environmental Protection, the Department of State, and the Fish and Wildlife Conservation Commission, which are contained in the 2018-2019 General Appropriations Act, the Department of Environmental Protection shall transfer revenues from the Land Acquisition Trust Fund within the department to the land*

acquisition trust funds within the Department of Agriculture and Consumer Services, the Department of State, and the Fish and Wildlife Conservation Commission, as provided in this section. As used in this section, the term "department" means the Department of Environmental Protection.

(2) *After subtracting any required debt service payments, the proportionate share of revenues to be transferred to each land acquisition trust fund shall be calculated by dividing the appropriations from each of the land acquisition trust funds for the fiscal year by the total appropriations from the Land Acquisition Trust Fund within the department and the land acquisition trust funds within the Department of Agriculture and Consumer Services, the Department of State, and the Fish and Wildlife Conservation Commission for the fiscal year. The department shall transfer the proportionate share of the revenues in the Land Acquisition Trust Fund within the department on a monthly basis to the appropriate land acquisition trust funds within the Department of Agriculture and Consumer Services, the Department of State, and the Fish and Wildlife Conservation Commission and shall retain its proportionate share of the revenues in the Land Acquisition Trust Fund within the department. Total distributions to a land acquisition trust fund within the Department of Agriculture and Consumer Services, the Department of State, and the Fish and Wildlife Conservation Commission may not exceed the total appropriations from such trust fund for the fiscal year.*

(3) *In addition, the department shall transfer from the Land Acquisition Trust Fund to land acquisition trust funds within the Department of Agriculture and Consumer Services, the Department of State, and the Fish and Wildlife Conservation Commission amounts equal to the difference between the amounts appropriated in chapter 2017-70, Laws of Florida, to the department's Land Acquisition Trust Fund and the other land acquisition trust funds, and the amounts actually transferred between those trust funds during the 2017-2018 fiscal year.*

(4) *The department may advance funds from the beginning unobligated fund balance in the Land Acquisition Trust Fund to the Land Acquisition Trust Fund within the Fish and Wildlife Conservation Commission needed for cash flow purposes based on a detailed expenditure plan. The department shall prorate amounts transferred quarterly to the Fish and Wildlife Conservation Commission to recoup the amount of funds advanced by June 30, 2019.*

(5) *This section expires July 1, 2019.*

Section 42. *In order to implement Specific Appropriations 1393A, 1393B, 1549, 1549A, 1549B, 1550A, 1681A, 1681B, 1686A, and 1802A of the 2018-2019 General Appropriations Act, the Department of Environmental Protection shall distribute any moneys transferred from the Land Acquisition Trust Fund into the Florida Forever Trust Fund using the distribution formula specified in s. 259.105(3), Florida Statutes. This section expires July 1, 2019.*

Section 43. In order to implement Specific Appropriation 1686A of the 2018-2019 General Appropriations Act, subsection (5) is added to section 375.075, Florida Statutes, to read:

375.075 Outdoor recreation; financial assistance to local governments.—

(5)(a) *For the 2018-2019 fiscal year:*

1. *Notwithstanding any other provision of this section, \$4 million of funds for projects must be used exclusively for projects that provide recreational enhancements and opportunities for children. The department shall conduct a separate grant application process exclusively for such projects. The department shall establish the schedule for the grant application process for projects that provide publicly available recreational enhancements and opportunities for children and shall award the grants for such projects by December 31, 2018, and each year thereafter.*

2. *Notwithstanding subsection (3), a local government may submit up to three grant applications for projects if at least one of those projects provides recreational enhancements and opportunities for children. The maximum project grant for each project application that provides recreational enhancements and opportunities for children may not exceed*

\$250,000 in state funds, which the local government must match on a dollar-for-dollar basis.

(b) The selection criteria used by the department for grant applications submitted pursuant to this subsection must give priority to projects geared toward children under the age of 12, but which also provide educational opportunities and have established safety standards. The department shall give the highest priority to those project applications that further demonstrate they will serve the needs of children with unique abilities and will be accessible and usable to those with physical and developmental disabilities. All projects must be required to have playground equipment and lighting that is adequate for evening use.

(c) The playground equipment should be designed in a manner to serve children under the age of 12 with unique abilities, including those with physical and developmental disabilities. The criteria must also establish a minimum lot size for such project.

(d) This subsection expires July 1, 2019.

Section 44. In order to implement Specific Appropriation 1660 of the 2018-2019 General Appropriations Act, paragraph (r) is added to subsection (4) of section 376.3071, Florida Statutes, to read:

376.3071 Inland Protection Trust Fund; creation; purposes; funding.—

(4) USES.—Whenever, in its determination, incidents of inland contamination related to the storage of petroleum or petroleum products may pose a threat to the public health, safety, or welfare, water resources, or the environment, the department shall obligate moneys available in the fund to provide for:

(r) Notwithstanding paragraph (j), \$10 million is allocated for the 2018-2019 fiscal year for the payment of the repair or the replacement of, or other preventive measures for, storage tanks, piping, or system components. Such costs may include equipment, preventive measures, excavation, electrical work, site restoration, and maintenance protocols. Owners or operators may submit an application for funding on forms developed by the department.

1. The application must include:

a. An affidavit by a petroleum storage system specialty contractor and supporting documentation demonstrating that the storage tank system may have been damaged or is subject to damage by incompatibility with fuel blended with ethanol or biodiesel;

b. A proposed scope of work and cost; and

c. For proposals to replace tanks or piping, a statement from a certified public accountant which indicates the depreciated value of the equipment. The depreciated value is the maximum allowable replacement cost. Tanks and piping that are 20 years old or older are deemed to have no replacement value.

2. The department must review the application for completeness, accuracy, and reasonableness of costs and scope of work. Upon approval of an application, the department must issue a purchase order to the applicant. The department may not issue a purchase order unless funds remain for the current fiscal year. The purchase order must include a deductible of 25 percent of the total cost. Except for preventative maintenance contracts, the specified work must be substantially completed within 180 days after the date of issuance of the purchase order.

3. Applications shall be funded on a first-come, first-served basis. Except for preventative maintenance contracts, the specified work must be substantially completed within 180 days after the date of issuance of the purchase order. After such time, the purchase order is void. An owner or operator may not cancel a preventative maintenance contract without cause. Following submission of proof to the department that the approved scope of work; or, in the case of preventative maintenance contracts, the first service event is complete; the applicant may request payment. A petroleum storage system owner or operator may not receive more than \$200,000 per fiscal year for any single facility or \$500,000 per fiscal year for all the facilities it owns or operates.

4. Owners or operators who have incurred costs for repair, replacement, or other preventative measures as described in this paragraph

from July 1, 2015, through June 30, 2018, may apply to request payment for such costs from the department using the procedure specified in this paragraph. The department may not disburse payments for approved applications for such work until all purchase orders for previously approved applications submitted after July 1, 2018, have been paid and funds remain available for the fiscal year. Such payment is subject to a deductible of 25 percent of the approved cost.

5. Payment may not be provided for:

a. Any costs for which an application for repair, replacement, or preventative measures is not approved in accordance with this paragraph;

b. Proposal costs or costs related to preparation of the application and required documentation;

c. Costs associated with the services of a certified public accountant;

d. Costs associated with storage tanks, piping, or ancillary equipment that has been previously repaired or replaced with funds that have been paid pursuant to this section;

e. Facilities that are not in compliance with department storage tank rules, until the facility has been brought into compliance with such rules; or

f. Costs associated with damage to petroleum storage systems caused in whole or in part by causes other than the storage of fuels blended with ethanol or biodiesel.

6. This paragraph does not affect the obligations of facility owners or operators or petroleum storage system owners or operators to timely comply with department rules regarding the maintenance, replacement, and repair of petroleum storage systems in order to prevent a release or discharge of pollutants. This paragraph does not prevent the department from issuing a purchase order in accordance with this paragraph based on grounds that work had commenced before the issuance of the purchase order.

7. The department shall ensure that petroleum storage systems approved after July 1, 2018, meet applicable standards for compatibility for ethanol blends, biodiesel blends, and other alternative fuels that are likely to be installed in such systems.

8. This paragraph expires July 1, 2019.

The issuance of a site rehabilitation completion order pursuant to subsection (5) or paragraph (12)(b) for contamination eligible for programs funded by this section does not alter the project's eligibility for state-funded remediation if the department determines that site conditions are not protective of human health under actual or proposed circumstances of exposure under subsection (5). The Inland Protection Trust Fund may be used only to fund the activities in ss. 376.30-376.317 except ss. 376.3078 and 376.3079. Amounts on deposit in the fund in each fiscal year must first be applied or allocated for the payment of amounts payable by the department pursuant to paragraph (n) under a service contract entered into by the department pursuant to s. 376.3075 and appropriated in each year by the department before making or providing for other disbursements from the fund. This subsection does not authorize the use of the fund for cleanup of contamination caused primarily by a discharge of solvents as defined in s. 206.9925(6), or polychlorinated biphenyls when their presence causes them to be hazardous wastes, except solvent contamination which is the result of chemical or physical breakdown of petroleum products and is otherwise eligible. Facilities used primarily for the storage of motor or diesel fuels as defined in ss. 206.01 and 206.86 are not excluded from eligibility pursuant to this section.

PRAYER

The following prayer was offered by Rabbi Daniel Hadar, Director, Sephardic Foundation and Spiritual Leader of Temple Moses, Miami Beach:

This morning we have a few, very precious moments to come together, pray together, and reflect together before you begin the first Senate session since the tragedy in Parkland that has devastated all of us one week ago. In these extremely challenging times, let us pray together to G-d Almighty for wisdom, for togetherness, and for healing. Above all — let us ask the Almighty for light. This morning we ask G-d to help us see light in the darkness, to see hope in a world of despair, and vision in a sea of confusion.

Please G-d, help us find the inner strength to reflect our positive light in the world to help illuminate the darkness caused by the extinguishing of seventeen special flames. Please G-d, help us build unity, support, and love with each other and for each other. As we say, “Hazak u Baruch,” which means, “Please G-d, give strength,” to the Senators, legislators, and all our leaders to have insight into the issues and the fortitude to lift us all up and navigate these waters as the nation’s eyes look to you for guidance and solidarity. Please G-d, may we pull out the kindness in each of our hearts so that we may see the good in everyone. Please G-d, lift us all up. Amen.

PLEDGE

Senate Pages, Haleigh Howell of Panama City; Savannah Parker of Panama City; Steven Prutsman of Tallahassee; and Sarah Stewart of Jacksonville, led the Senate in the Pledge of Allegiance to the flag of the United States of America.

PRAYER

The following prayer was offered by Major Derek M. Boucher, MSC Chaplain of the Florida Army National Guard 83rd Troop Command located in Tallahassee:

Gracious and merciful God, we give you thanks for giving us another day. Give to us, and all people, a vivid sense of your presence, that we may respect each other, work with each other, learn to understand each other, and live with each other. So shall we make our state great in goodness and good in its greatness.

We ask for your grace to shine upon the leaders of our government, that they may be blessed with the wisdom needed to carry out their tasks and important responsibilities. Grant them the knowledge needed to govern the business of the great State of Florida justly and fairly. Assist them in their work to preserve the dignity and the rights of the citizens who have entrusted to them these positions of authority. Assist the people of our state, along with our Governor and our legislators, to work together to put an end to all that blemishes our social life or causes misery.

As we honor and appreciate our citizen soldiers and airmen today, we are mindful of the sacrifices made by each member of the Florida National Guard. May we not take for granted what so many have sacrificed

and died for—freedom for all. Help us to be citizens who strive constantly to make liberty and justice a reality for all.

May all that is done this day be for your greater honor and glory. Amen.

WHEREAS, as the military arm of the Governor and the people of this state, the Florida National Guard stands ready to immediately respond to a call to duty in times of crisis or emergency, and

WHEREAS, the Florida National Guard traces its lineage back 453 years to 1565 when the first muster of a civilian militia took place in Saint Augustine, making Florida’s militia the oldest in the nation, and

WHEREAS, today’s Florida National Guard stands strong with approximately 11,500 of the best soldiers and airmen this nation has ever known, and

PRAYER

The following prayer was offered by Senior Pastor Matt Hall, Canopy Roads Baptist Church, Tallahassee:

Dear Heavenly Father, we come before you today proclaiming your majesty, power, and glory. You are the creator and sustainer of life, and we thank you for our life and breath today. You are the holy one, sinless and perfect in all your ways. You are the righteous judge. We are all subject to your law, and to you, we each must give account for our words and deeds. So, as we begin this day, I ask you to search us and know our hearts. Try us and know our anxious thoughts, and see if there be any sinful way in us. Convict us of any sin, that we may confess it to you, and be forgiven. Thank you for the gift of forgiveness by your grace.

Father, your word instructs us in 1 Timothy 2 to offer, "Supplications, prayers, intercessions, and thanksgivings for all people, for kings, and all who are in high positions, that we may lead a peaceful and quiet life, godly and dignified in every way." In accordance with your word, I thank you for these Senators and their staff members who serve the great State of Florida, and I ask your blessings on their personal lives and public service.

Their jobs here are difficult. On a personal level, they make sacrifices to serve, spending many hours, sometimes days and weeks, away from family and personal businesses. Please bless their families and businesses in their absence. Help them guard their hearts and protect their

integrity while they work long hours away from home. Deliver them from evil, and lead them away from temptation.

The issues they debate in this chamber are often contentious as we have seen so vividly the past two weeks. Each of these Senators is under intense pressure from constituents, lobbyists, special interest groups, and influential donors who pull them in different directions. Frequently, they are pressured to take actions that would compromise their convictions and violate your truth. Make them strong and courageous to stand for what is right. Let them fear only you. Grant them wisdom to know your will, determination to follow it, and clarity to communicate it this day. May the legislation they enact bless the citizens of this state in accordance with your divine purposes.

Now, to him who is able to do immeasurably more than we can ask or imagine, according to the power that works within us, to him be the glory forevermore. In the name of Jesus, we pray. Amen.

PLEDGE

Senate Pages, Kiya Herron of Tallahassee; Dawson Hulme of Celebration; and Catherine Kelly and Olivia Kelly of Lake Placid, nieces of Senator Benacquisto, led the Senate in the Pledge of Allegiance to the flag of the United States of America.

DOCTOR OF THE DAY

The President recognized Dr. Daniel Patrick Montero of Ponte Vedra, sponsored by Senator Hutson, as the doctor of the day. Dr. Montero specializes in primary care sports medicine.

PRAYER

The following prayer was offered by Mother Abi Moon, Assistant Rector, St. John's Episcopal Church, Tallahassee:

Oh Lord, our Governor, bless the leaders of our land, that we may be a people at peace among ourselves and a blessing to other nations of the earth. To the Senators, Representatives, and those who make our laws in this state: give courage, wisdom, and foresight to provide for the needs of all of our people and to fulfill our obligations in the community.

Teach our people to rely on your strength and to accept their responsibilities to their fellow citizens; that they may elect trustworthy leaders and make wise decisions for the well-being of our society; that we may serve you faithfully in our generation and honor your holy name. Give us the strength to live as your children, and be makers of peace and unity. Grant that all peoples might put aside their differences and seek the unity of your kingdom. SPECIAL PRESENTATION

On behalf of the entire Senate, Senator Simpson presented President Negron with a Louisville Slugger baseball bat that had been signed by all of the Senators. President Negron was also presented a first edition of the book, *Letters and Papers from Prison* by Dietrich Bonhoeffer.

Senator Simpson: This year, as our colleagues in the Senate know, we spent a great deal of time seeking out what would be the perfect gift. We all know the President loves baseball. We know how many times the President has said, “If it’s got a ball and a bat, or a ball, and we keep score, the Negrons are involved in it.” The first opportunity for your gift that you will treasure for your entire life is an official Louisville Slugger with all of your Senators’ signatures on it.

Since the President was a young boy, he has been a persistent student of history. He has shared with us small bits of his personal life. We are not allowed to know too much, as everyone here knows. Senator Galvano has the scoop, just in case. We’ve got seven more days. All of the stories were marked by one central tenet: a firm responsibility toward others and doing what is right, no matter what the personal cost. It is from these studies that he came to value so deeply the quiet voice of courage that is steadfast in resisting evil. It is a quality we have all seen in the way that you live your life. You, Mr. President, are a man of great resolve and intelligence, a little quirky or a lot quirky, very humorous but always uber loyal. For that, each of us is grateful.

In your designation speech, you committed to make sure everyone has an opportunity to be heard. You have fulfilled this commitment to us as Senators. You have given the Floridians a true voice, diverse at times, but united in one true aim of doing what is best for those we all serve. That speech also laid out guiding policy principles that address universities, environmental crises, juvenile justice, and individual rights. From these principles, you have not wavered. Moreover, we have enacted laws in all of these areas of which we can easily be proud.

Mr. President has quoted many Bible verses to us. Because of the importance of religion to your life, we sought a gift that would be of special personal meaning to you within the context of your faith. Our gift is precious and most rare—a first edition of Bonhoeffer’s *Letters and Papers from Prison*. It was from this volume that the poem you read during your designation speech first appeared. It showed a true window into the true Joe Negron and what you have valued most. It is a complete honor to present this to you.

In closing, I would like to read another brief passage from the book, one that has special meaning to people like us, who through their work, form true bonds of friendship. “Man seeks, in his manhood, not orders, not laws and peremptory dogmas, but counsel from one who is earnest in goodness and faithful in friendship, making man free.” “Distant or near, in joy or in sorrow, each in the other sees his true helper to brotherly freedom.” Mr. President, we are deeply grateful for your sound stewardship of this great office, for what you have done to bring us together, and most importantly, for what you have done for citizens of this great state and for whose interests you have labored so fully and faithfully. Thank you.

PRAYER

The following prayer was offered by Rabbi Schneur Z. Oirechman, Chabad Lubavitch of the Panhandle, Tallahassee:

Almighty G-d, master of the universe in a world very much divided, we stand together. Our strength today comes from our common purpose to heal our grieving state. We ask for your blessings and wisdom, both to the Honorable Senate President, Joe Negron, and our distinguished state Senators.

Let us remember that evil has a long history. In fact, yesterday the Jewish people celebrated the holiday of Purim, and today is celebrated in some places in Israel as Sushan Purim, the day after Purim. We are commemorating an event—almost 2,400 years ago—when evil wanted to kill more than students and teachers; it demanded genocide. Haman, the Prime Minister of ancient Persia, had access to greater firepower than any rifle or gun. He had the king's ring, and with it, he planned on murdering every Jew—man, woman, and child—in the empire. But, there were other voices in the government. Heroes like Queen Esther and the righteous Mordechai who, with the help of G-d, brought upon this great miracle of Purim. There were many lessons taught then; here is one: The queen did not request that the wicked Haman be punished; she merely asked the king to pause and consider his actions. She asked him for a moment of silence; a moment to think; a moment to reflect on the difference between right and wrong.

Almighty G-d, grant all of us assembled here today, the wisdom of Esther. Give us the courage to be heroes. More importantly, make sure that our young men and women still in school do not have to be heroes. May our schools be safe, a sanctuary against all violence. Let us provide our children a moment of silence in our most sacred of institutions, our schools; a moment to reflect on a higher power, on the source of light and goodness that will help them overcome any darkness in their lives. Let us, in this hallowed chamber, be the inspiration to our youth that although we were all created to look, think, and feel different, we can all make a positive difference. Let us all recognize heaven's blessings and may we humbly answer, "Amen."

PLEDGE

Senate Pages, Ben Bodkin of Tallahassee; Hayley DiMinno of Tallahassee; Jamison Godwin of Port St. Joe; and Rodney Wells II of Jacksonville, led the Senate in the Pledge of Allegiance to the flag of the United States of America.

A sponsor shall receive and consider charter school applications received on or before August 1 of each calendar year for charter schools to be opened at the beginning of the school district's next school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before August 1 and may receive an application submitted later than August 1 if it chooses. Beginning in 2018 and thereafter, a sponsor shall receive and consider charter school applications received on or before February 1 of each calendar year for charter schools to be opened 18 months later at the beginning of the school district's school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before February 1 and may receive an application submitted later than February 1 if it chooses. A sponsor may not charge an applicant for a charter any fee for the processing or consideration of an application, and a sponsor may not base its consideration or approval of a final application upon the promise of future payment of any kind. Before approving or denying any application, the

sponsor shall allow the applicant, upon receipt of written notification, at least 7 calendar days to make technical or nonsubstantive corrections and clarifications, including, but not limited to, corrections of grammatical, typographical, and like errors or missing signatures, if such errors are identified by the sponsor as cause to deny the final application.

1. In order to facilitate an accurate budget projection process, a sponsor shall be held harmless for FTE students who are not included in the FTE projection due to approval of charter school applications after the FTE projection deadline. In a further effort to facilitate an accurate budget projection, within 15 calendar days after receipt of a charter school application, a sponsor shall report to the Department of Education the name of the applicant entity, the proposed charter school location, and its projected FTE.

2. In order to ensure fiscal responsibility, an application for a charter school shall include a full accounting of expected assets, a projection of expected sources and amounts of income, including income derived from projected student enrollments and from community support, and an expense projection that includes full accounting of the costs of operation, including start-up costs.

3.a. A sponsor shall by a majority vote approve or deny an application no later than 90 calendar days after the application is received, unless the sponsor and the applicant mutually agree in writing to temporarily postpone the vote to a specific date, at which time the sponsor shall by a majority vote approve or deny the application. If the sponsor fails to act on the application, an applicant may appeal to the State Board of Education as provided in paragraph (c). If an application is denied, the sponsor shall, within 10 calendar days after such denial, articulate in writing the specific reasons, based upon good cause, supporting its denial of the application and shall provide the letter of denial and supporting documentation to the applicant and to the Department of Education.

b. An application submitted by a high-performing charter school identified pursuant to s. 1002.331 or a high-performing charter school system identified pursuant to s. 1002.332 may be denied by the sponsor only if the sponsor demonstrates by clear and convincing evidence that:

(I) The application of a high-performing charter school does not materially comply with the requirements in paragraph (a) or, for a high-performing charter school system, the application does not materially comply with s. 1002.332(2)(b);

(II) The charter school proposed in the application does not materially comply with the requirements in paragraphs (9)(a)-(f);

(III) The proposed charter school's educational program does not substantially replicate that of the applicant or one of the applicant's high-performing charter schools;

(IV) The applicant has made a material misrepresentation or false statement or concealed an essential or material fact during the application process; or

(V) The proposed charter school's educational program and financial management practices do not materially comply with the requirements of this section.

Material noncompliance is a failure to follow requirements or a violation of prohibitions applicable to charter school applications, which failure is quantitatively or qualitatively significant either individually or when aggregated with other noncompliance. An applicant is considered to be replicating a high-performing charter school if the proposed school is substantially similar to at least one of the applicant's high-performing charter schools and the organization or individuals involved in the establishment and operation of the proposed school are significantly involved in the operation of replicated schools.

c. If the sponsor denies an application submitted by a high-performing charter school or a high-performing charter school system, the sponsor must, within 10 calendar days after such denial, state in writing the specific reasons, based upon the criteria in sub-subparagraph b., supporting its denial of the application and must provide the letter of denial and supporting documentation to the applicant and

to the Department of Education. The applicant may appeal the sponsor's denial of the application in accordance with paragraph (c).

4. For budget projection purposes, the sponsor shall report to the Department of Education the approval or denial of an application within 10 calendar days after such approval or denial. In the event of approval, the report to the Department of Education shall include the final projected FTE for the approved charter school.

5. Upon approval of an application, the initial startup shall commence with the beginning of the public school calendar for the district in which the charter is granted. A charter school may defer the opening of the school's operations for up to 3 ½ years to provide time for adequate facility planning. The charter school must provide written notice of such intent to the sponsor and the parents of enrolled students at least 30 calendar days before the first day of school.

(7) CHARTER.—The terms and conditions for the operation of a charter school shall be set forth by the sponsor and the applicant in a written contractual agreement, called a charter. The sponsor and the governing board of the charter school shall use the standard charter contract pursuant to subsection (21), which shall incorporate the approved application and any addenda approved with the application. Any term or condition of a proposed charter contract that differs from the standard charter contract adopted by rule of the State Board of Education shall be presumed a limitation on charter school flexibility. The sponsor may not impose unreasonable rules or regulations that violate the intent of giving charter schools greater flexibility to meet educational goals. The charter shall be signed by the governing board of the charter school and the sponsor, following a public hearing to ensure community input.

(a) The charter shall address and criteria for approval of the charter shall be based on:

1. The school's mission, the students to be served, and the ages and grades to be included.

2. The focus of the curriculum, the instructional methods to be used, any distinctive instructional techniques to be employed, and identification and acquisition of appropriate technologies needed to improve educational and administrative performance which include a means for promoting safe, ethical, and appropriate uses of technology which comply with legal and professional standards.

The charter shall ensure that reading is a primary focus of the curriculum and that resources are provided to identify and provide specialized instruction for students who are reading below grade level. The curriculum and instructional strategies for reading must be consistent with the Next Generation Sunshine State Standards and grounded in scientifically based reading research.

b. In order to provide students with access to diverse instructional delivery models, to facilitate the integration of technology within traditional classroom instruction, and to provide students with the skills they need to compete in the 21st century economy, the Legislature encourages instructional methods for blended learning courses consisting of both traditional classroom and online instructional techniques. Charter schools may implement blended learning courses which combine traditional classroom instruction and virtual instruction. At a minimum, such instructional personnel must hold an active state or school district adjunct certification under s. 1012.57 for the subject area of the blended learning course. The funding and performance accountability requirements for blended learning courses are the same as those for traditional courses.

3. The current incoming baseline standard of student academic achievement, the outcomes to be achieved, and the method of measurement that will be used. The criteria listed in this subparagraph shall include a detailed description of:

a. How the baseline student academic achievement levels and prior rates of academic progress will be established.

b. How these baseline rates will be compared to rates of academic progress achieved by these same students while attending the charter school.

c. To the extent possible, how these rates of progress will be evaluated and compared with rates of progress of other closely comparable student populations.

The district school board is required to provide academic student performance data to charter schools for each of their students coming from the district school system, as well as rates of academic progress of comparable student populations in the district school system.

4. The methods used to identify the educational strengths and needs of students and how well educational goals and performance standards are met by students attending the charter school. 12. The term of the charter which shall provide for cancellation of the charter if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter. In order to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a municipality or other public entity as provided by law are eligible for up to a 15-year charter, subject to approval by the district school board. A charter lab school is eligible for a charter for a term of up to 15 years. In addition, to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a private, not-for-profit, s. 501(c)(3) status corporation are eligible for up to a 15-year charter, subject to approval by the district school board. Such long-term charters remain subject to annual review and may be terminated during the term of the charter, but only according to the provisions set forth in subsection (8).

However, alternative arrangements shall not be required for current teachers who choose not to teach in a charter lab school, except as authorized by the employment policies of the state university which grants the charter to the lab school.

18. Full disclosure of the identity of all relatives employed by the charter school who are related to the charter school owner, president, chairperson of the governing board of directors, superintendent, governing board member, principal, assistant principal, or any other person employed by the charter school who has equivalent decisionmaking authority. Modification during any term may include, but is not limited to, consolidation of multiple charters into a single charter if the charters are operated under the same governing board and physically located on the same campus, regardless of the renewal cycle. A charter school with a grade of "C" or higher that closes as part of a consolidation shall be reported by the school district as a consolidation.

(e) A charter may be terminated by a charter school's governing board through voluntary closure. The decision to cease operations must be determined at a public meeting. The governing board shall notify the parents and sponsor of the public meeting in writing before the public meeting. The governing board must notify the sponsor, parents of enrolled students, and the department in writing within 24 hours after the public meeting of its determination. The notice shall state the charter school's intent to continue operations or the reason for the closure and acknowledge that the governing board agrees to follow the procedures for dissolution and reversion of public funds pursuant to paragraphs (8)(d)-(f) and (9)(o) ~~paragraphs (8)(e)-(g) and (9)(e).~~

(8) CAUSES FOR NONRENEWAL OR TERMINATION OF CHARTER.—

(a) The sponsor shall make student academic achievement for all students the most important factor when determining whether to renew or terminate the charter. The sponsor may also choose not to renew or may terminate the charter if the sponsor finds that one of the grounds

set forth below exists by clear and convincing evidence ~~for any of the following grounds:~~

1. Failure to participate in the state's education accountability system created in s. 1008.31, as required in this section, or failure to meet the requirements for student performance stated in the charter.

3. *Material* violation of law.

4. Other good cause shown.

(b) At least 90 days before renewing, nonrenewing, or terminating a charter, the sponsor shall notify the governing board of the school of the proposed action in writing. The notice shall state in reasonable detail the grounds for the proposed action and stipulate that the school's governing board may, within 14 calendar days after receiving the notice, request a hearing. The hearing shall be conducted ~~at the sponsor's election in accordance with one of the following procedures:~~

~~1. A direct hearing conducted by the sponsor within 60 days after receipt of the request for a hearing. The hearing shall be conducted in accordance with ss. 120.569 and 120.57. The sponsor shall decide upon nonrenewal or termination by a majority vote. The sponsor's decision shall be a final order; or~~

~~2. A hearing conducted by an administrative law judge assigned by the Division of Administrative Hearings. The hearing shall be conducted within 90 60 days after receipt of the request for a hearing and in accordance with chapter 120. The administrative law judge's final recommended order shall be submitted to the sponsor. The administrative law judge shall award the prevailing party reasonable attorney fees and costs incurred during the administrative proceeding and any appeals. A majority vote by the sponsor shall be required to adopt or modify the administrative law judge's recommended order. The sponsor shall issue a final order.~~

~~(c) The final order shall state the specific reasons for the sponsor's decision. The sponsor shall provide its final order to the charter school's governing board and the Department of Education no later than 10 calendar days after its issuance. The charter school's governing board may, within 30 calendar days after receiving the sponsor's final order, appeal the decision pursuant to s. 120.68.~~

(9) CHARTER SCHOOL REQUIREMENTS.—

(n)1. The director and a representative of the governing board of a charter school that has earned a grade of "D" or "F" pursuant to s. 1008.34 shall appear before the sponsor to present information concerning each contract component having noted deficiencies. The director and a representative of the governing board shall submit to the sponsor for approval a school improvement plan to raise student performance. Upon approval by the sponsor, the charter school shall begin implementation of the school improvement plan. The department shall offer technical assistance and training to the charter school and its governing board and establish guidelines for developing, submitting, and approving such plans.

2.a. If a charter school earns three consecutive grades below a "C," the charter school governing board shall choose one of the following corrective actions:

(I) Contract for educational services to be provided directly to students, instructional personnel, and school administrators, as prescribed in state board rule;

(II) Contract with an outside entity that has a demonstrated record of effectiveness to operate the school;

(III) Reorganize the school under a new director or principal who is authorized to hire new staff; or

(IV) Voluntarily close the charter school.

b. The charter school must implement the corrective action in the school year following receipt of a third consecutive grade below a "C."

c. The sponsor may annually waive a corrective action if it determines that the charter school is likely to improve a letter grade if additional time is provided to implement the intervention and support strategies prescribed by the school improvement plan. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of “F” is subject to subparagraph 3.

d. A charter school is no longer required to implement a corrective action if it improves to a “C” or higher. However, the charter school must continue to implement strategies identified in the school improvement plan. The sponsor must annually review implementation of the school improvement plan to monitor the school’s continued improvement pursuant to subparagraph 4.

e. A charter school implementing a corrective action that does not improve to a “C” or higher after 2 full school years of implementing the corrective action must select a different corrective action. Implementation of the new corrective action must begin in the school year following the implementation period of the existing corrective action, unless the sponsor determines that the charter school is likely to improve to a “C” or higher if additional time is provided to implement the existing corrective action. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of “F” while implementing a corrective action is subject to subparagraph 3.

3. A charter school’s charter contract is automatically terminated if the school earns two consecutive grades of “F” after all school grade appeals are final unless:

a. The charter school is established to turn around the performance of a district public school pursuant to s. 1008.33(4)(b)2. Such charter schools shall be governed by s. 1008.33;

b. The charter school serves a student population the majority of which resides in a school zone served by a district public school subject to s. 1008.33(4) and the charter school earns at least a grade of “D” in its third year of operation. The exception provided under this sub-subparagraph does not apply to a charter school in its fourth year of operation and thereafter; or

c. The state board grants the charter school a waiver of termination. The charter school must request the waiver within 15 days after the department’s official release of school grades. The state board may waive termination if the charter school demonstrates that the Learning Gains of its students on statewide assessments are comparable to or better than the Learning Gains of similarly situated students enrolled in nearby district public schools. The waiver is valid for 1 year and may only be granted once. Charter schools that have been in operation for more than 5 years are not eligible for a waiver under this sub-subparagraph.

The sponsor shall notify the charter school’s governing board, the charter school principal, and the department in writing when a charter contract is terminated under this subparagraph. ~~The letter of termination must meet the requirements of paragraph (8)(c). A charter terminated under this subparagraph must follow the procedures for dissolution and reversion of public funds pursuant to paragraphs (8)(d)-(f) and (9)(o) paragraphs (8)(c)-(g) and (9)(e).~~

4. The director and a representative of the governing board of a graded charter school that has implemented a school improvement plan under this paragraph shall appear before the sponsor at least once a year to present information regarding the progress of intervention and support strategies implemented by the school pursuant to the school improvement plan and corrective actions, if applicable. The sponsor shall communicate at the meeting, and in writing to the director, the services provided to the school to help the school address its deficiencies.

5. Notwithstanding any provision of this paragraph except sub-subparagraphs 3.a.-c., the sponsor may terminate the charter at any time pursuant to subsection (8).

(20) SERVICES.—

(b) If goods and services are made available to the charter school through the contract with the school district, they shall be provided to the charter school at a rate no greater than the district’s actual cost unless mutually agreed upon by the charter school and the sponsor in a

contract negotiated separately from the charter. When mediation has failed to resolve disputes over contracted services or contractual matters not included in the charter, an appeal may be made to *an administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge has final order authority to rule on the dispute. The administrative law judge shall award the prevailing party reasonable attorney fees and costs incurred during the mediation process, administrative proceeding, and any appeals, to be paid by the party whom the administrative law judge rules against for a dispute resolution hearing before the Charter School Appeal Commission.* To maximize the use of state funds, school districts shall allow charter schools to participate in the sponsor’s bulk purchasing program if applicable.

Section 9. Subsection (1), paragraph (a) of subsection (2), and paragraph (b) of subsection (3) of section 1002.331, Florida Statutes, are amended to read:

1002.331 High-performing charter schools.—

(1) A charter school is a high-performing charter school if it:

(a) Received at least two school grades of “A” and no school grade below “B,” pursuant to s. 1008.34, during each of the previous 3 school years or received at least two consecutive school grades of “A” in the most recent 2 school years.

(b) Received an unqualified opinion on each annual financial audit required under s. 218.39 in the most recent 3 fiscal years for which such audits are available.

(c) Did not receive a financial audit that revealed one or more of the financial emergency conditions set forth in s. 218.503(1) in the most recent 3 fiscal years for which such audits are available. However, this requirement is deemed met for a charter school-in-the-workplace if there is a finding in an audit that the school has the monetary resources available to cover any reported deficiency or that the deficiency does not result in a deteriorating financial condition pursuant to s. 1002.345(1)(a)3.

For purposes of determining initial eligibility, the requirements of paragraphs (b) and (c) only apply to the most recent 2 fiscal years if the charter school earns two consecutive grades of “A.” A virtual charter school established under s. 1002.33 is not eligible for designation as a high-performing charter school.

(2) A high-performing charter school is authorized to:

(a) Increase its student enrollment once per school year to more than the capacity identified in the charter, but student enrollment may not exceed the ~~current facility~~ capacity of the facility at the time of enrollment. *Facility capacity for purposes of grade level expansion shall include any improvements to an existing facility or any new facility in which a majority of the students of the high-performing charter school will enroll.*

A high-performing charter school shall notify its sponsor in writing by March 1 if it intends to increase enrollment or expand grade levels the following school year. The written notice shall specify the amount of the enrollment increase and the grade levels that will be added, as applicable. If a charter school notifies the sponsor of its intent to expand, the sponsor shall modify the charter within 90 days to include the new enrollment maximum and may not make any other changes. The sponsor may deny a request to increase the enrollment of a high-performing charter school if the commissioner has declassified the charter school as high-performing. If a high-performing charter school requests to consolidate multiple charters, the sponsor shall have 40 days after receipt of that request to provide an initial draft charter to the charter school. The sponsor and charter school shall have 50 days thereafter to negotiate and notice the charter contract for final approval by the sponsor.

(3)

(b) A high-performing charter school may not establish more than ~~two one charter schools school~~ within the state under paragraph (a) in any year. A subsequent application to establish a charter school under paragraph (a) may not be submitted unless each charter school established in this manner achieves high-performing charter school status.

However, a high-performing charter school may establish more than one charter school within the state under paragraph (a) in any year if it operates in the area of a persistently low-performing school and serves students from that school.

Section 10. Present subsections (11) and (12) of section 1002.333, Florida Statutes, are redesignated as subsections (12) and (13), respectively, a new subsection (11) is added to that section, and subsections (1) and (2), paragraph (a) of subsection (4), paragraphs (b), (g), and (i) of subsection (5), paragraph (a) of subsection (7), subsection (9), and paragraphs (b) and (d) of subsection (10) of that section are amended, to read:

(8) COMMISSIONER OF EDUCATION AUTHORITY AND OBLIGATIONS.—

(a) The Commissioner of Education:

1. Shall deny, suspend, or revoke a private school's participation in the program if it is determined that the private school has failed to comply with the provisions of this section. However, if the noncompliance is correctable within a reasonable amount of time and if the health, safety, or welfare of the students is not threatened, the commissioner may issue a notice of noncompliance which provides the private school with a timeframe within which to provide evidence of compliance before taking

action to suspend or revoke the private school's participation in the program.

2. May deny, suspend, or revoke a private school's participation in the program if the commissioner determines that an owner or operator of the private school is operating or has operated an educational institution in this state or in another state or jurisdiction in a manner contrary to the health, safety, or welfare of the public.

a. In making such a determination, the commissioner may consider factors that include, but are not limited to, acts or omissions by an owner or operator which led to a previous denial or revocation of participation in an education scholarship program; an owner's or operator's failure to reimburse the department for scholarship funds improperly received or retained by a school; imposition of a prior criminal sanction related to an owner's or operator's management or operation of an educational institution; imposition of a civil fine or administrative fine, license revocation or suspension, or program eligibility suspension, termination, or revocation related to an owner's or operator's management or operation of an educational institution; or other types of criminal proceedings in which an owner or operator was found guilty of, regardless of adjudication, or entered a plea of *nolo contendere* or guilty to, any offense involving fraud, deceit, dishonesty, or moral turpitude.

The notification shall include the reasons for the proposed action and notice of the timelines and procedures set forth in this paragraph.

2. The private school that is adversely affected by the proposed action shall have 15 days after receipt of the notice of proposed action to file with the department's agency clerk a request for a proceeding pursuant to ss. 120.569 and 120.57. If the private school is entitled to a hearing under s. 120.57(1), the department shall refer the request to the Division of Administrative Hearings.

3. Upon receipt of a request referred pursuant to this paragraph, the director of the Division of Administrative Hearings shall expedite the hearing and assign an administrative law judge who shall commence a hearing within 30 days after the receipt of the formal written request by the division and enter a recommended order within 30 days after the hearing or within 30 days after receipt of the hearing transcript, whichever is later. Each party shall be allowed 10 days in which to submit writen exceptions to the recommended order. A final order shall be entered by the agency within 30 days after the entry of a recommended order. The provisions of this subparagraph may be waived upon stipulation by all parties.

(c) The commissioner may immediately suspend payment of scholarship funds if it is determined that there is probable cause to believe that there is:

1. An imminent threat to the health, safety, or welfare of the students; or

2. Fraudulent activity on the part of the private school. Notwithstanding s. 1002.22, in incidents of alleged fraudulent activity pursuant to this section, the department's Office of Inspector General is authorized to release personally identifiable records or reports of students to the following persons or organizations:

1003.26 Enforcement of school attendance.—The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(1) CONTACT, REFER, AND ENFORCE.—

(f)1. If the parent of a child who has been identified as exhibiting a pattern of nonattendance enrolls the child in a home education program pursuant to chapter 1002, the district school superintendent shall provide the parent a copy of s. 1002.41 and the accountability requirements of this paragraph. The district school superintendent shall also refer the parent to a home education review committee composed of the district contact for home education programs and at least two home educators selected by the parent from a district list of all home educators who have conducted a home education program for at least 3 years and who have indicated a willingness to serve on the committee. The home education review committee shall review the portfolio of the student, as defined by s. 1002.41, every 30 days during the district’s regular school terms until the committee is satisfied that the home education program is in compliance with s. 1002.41(1)(b). The first

portfolio review must occur within the first 30 calendar days of the establishment of the program. The provisions of subparagraph 2. do not apply once the committee determines the home education program is in compliance with s. 1002.41(1)(b).

2. If the parent fails to provide a portfolio to the committee, the committee shall notify the district school superintendent. The district school superintendent shall then terminate the home education program and require the parent to enroll the child in an attendance option that meets the definition of “regular school attendance” under s. 1003.01(13)(a) or (b) ~~s. 1003.01(13)(a), (b), (c), or (e)~~, within 3 days. Upon termination of a home education program pursuant to this subparagraph, the parent shall not be eligible to reenroll the child in a home education program for 180 calendar days. Failure of a parent to enroll the child in an attendance option as required by this subparagraph after termination of the home education program pursuant to this subparagraph shall constitute noncompliance with the compulsory attendance requirements of s. 1003.21 and may result in criminal prosecution under s. 1003.27(2). Nothing contained herein shall restrict the ability of the district school superintendent, or the ability of his or her designee, to review the portfolio pursuant to s. 1002.41(1)(b).

Such university or institution must meet the requirements specified under subsections (2) ~~(3)~~ and (3). *A charter school may execute a contract directly with the local Florida College System institution or another institution as authorized under this section to establish a structured program at a mutually agreed upon location (4).*

(5) FUNDING.—

(a)~~(6)~~ The ~~structured collegiate high school~~ program shall be funded pursuant to ss. 1007.271 and 1011.62. The State Board of Education shall enforce compliance with this section by withholding the transfer of funds for the school districts ~~and the Florida College System institutions~~ in accordance with s. 1008.32. *Annually, by December 31, the State*

Board of Education shall enforce compliance with this section by withholding the transfer of funds for the Florida College System institutions in accordance with s. 1008.32

(b) A student who enrolls in the structured program and successfully completes at least 30 college credit hours during a school year through the dual enrollment program under s. 1007.271 generates a 0.5 full-time equivalent (FTE) bonus. A student who enrolls in the structured program and successfully completes an additional 30 college credit hours during a school year, resulting in at least 60 college credit hours through the dual enrollment program under s. 1007.271 applicable toward fulfilling the requirements for an associate in arts degree or an associate in science degree or a baccalaureate degree pursuant to the student performance contract under subsection (3), before graduating from high school, generates an additional 0.5 FTE bonus. Each district school board that is a contractual partner with a Florida College System institution or other eligible postsecondary institution shall report to the commissioner the total FTE bonus for each structured program for the students from that school district. The total FTE bonus shall be added to each school district's total weighted FTE for funding in the subsequent fiscal year.

(c) For any industry certification a student attains under this section, the FTE bonus shall be calculated and awarded in accordance with s. 1011.62(1)(o).

(6) REPORTING REQUIREMENTS.—

(a) By September 1 of each school year, each district school superintendent shall report to the commissioner, at a minimum, the following information on each structured program administered during the prior school year:

1. The number of students in public schools within the school district who enrolled in the structured program, and the partnering postsecondary institutions pursuant to subsections (2) and (4);

2. The total and average number of dual enrollment courses completed, high school and college credits earned, standard high school diplomas and associate and baccalaureate degrees awarded, and the number of industry certifications attained, if any, by the students who enrolled in the structured program;

3. The projected student enrollment in the structured program during the next school year; and

4. Any barriers to executing contracts to establish one or more structured programs.

(b) By November 30 of each school year, the commissioner must report to the Governor, the President of the Senate, and the Speaker of the House of Representatives the status of structured programs, including, at a minimum, a summary of student enrollment and completion information pursuant to this subsection; barriers, if any, to establishing such programs; and recommendations for expanding access to such programs statewide.

Section 35. Paragraph (c) of subsection (3) and subsection (4) of section 1008.33, Florida Statutes, are amended to read:

1008.33 Authority to enforce public school improvement.—

(3)

(c) The state board shall adopt by rule a differentiated matrix of intervention and support strategies for assisting traditional public schools identified under this section and rules for implementing s. 1002.33(9)(n), relating to charter schools.

1. The intervention and support strategies must address efforts to improve student performance through one or more of the following strategies: ~~and may include~~

- Improvement planning;
- Leadership quality improvement;
- Educator quality improvement;

- d. Professional development;
- e. Curriculum review, pacing, and alignment across grade levels to improve background knowledge in social studies, science, and the arts; and
- f. The use of continuous improvement and monitoring plans and processes.

2. ~~In addition,~~ The state board may prescribe reporting requirements to review and monitor the progress of the schools. The rule must define the intervention and support strategies for school improvement for schools earning a grade of "D" or "F" and the roles for the district and department.

(4)(a) The state board shall apply intensive intervention and support strategies tailored to the needs of schools earning two consecutive grades of "D" or a grade of "F." In the first full school year after a school initially earns two consecutive grades of "D" or a grade of "F," the school district must immediately implement intervention and support strategies prescribed in rule under paragraph (3)(c) and, by September 1, provide the department with the memorandum of understanding negotiated pursuant to s. 1001.42(21) and, by October 1, a district-managed turnaround plan for approval by the state board. *The district-managed turnaround plan may include a proposal for the district to implement an extended school day, a summer program, or a combination of an extended school day and summer program.* Upon approval by the state board, the school district must implement the plan for the remainder of the school year and continue the plan for 1 full school year. The state board may allow a school an additional year of implementation before the school must implement a turnaround option required under paragraph (b) if it determines that the school is likely to improve to a grade of "C" or higher after the first full school year of implementation.

(b) Unless an additional year of implementation is provided pursuant to paragraph (a), a school that *has completed 2 school years of a district-managed turnaround plan required under paragraph (a) and has not improved its school grade to a "C" or higher, pursuant to s. 1008.34,* ~~earns three consecutive grades below a "C"~~ must implement one of the following options:

1. Reassign students to another school and monitor the progress of each reassigned student;
2. Close the school and reopen the school as one or more charter schools, each with a governing board that has a demonstrated record of effectiveness. *Such charter schools are eligible for funding from the hope supplemental services allocation established by s. 1011.62(16);* ~~or~~
3. Contract with an outside entity that has a demonstrated record of effectiveness to operate the school. An outside entity may include:
 - a. A district-managed charter school in which all instructional personnel are not employees of the school district, but are employees of an independent governing board composed of members who did not participate in the review or approval of the charter. *A district-managed charter school is eligible for funding from the hope supplemental services allocation established by s. 1011.62(16); or*
 - b. *A hope operator that submits to a school district a notice of intent of a performance-based agreement pursuant to s. 1002.333. A school of hope established pursuant to this sub-subparagraph is eligible for funding from the hope supplemental services allocation for up to 5 years, beginning in the school year in which the school of hope is established, if the school of hope:*
 - (I) *Is established at the district-owned facilities of the persistently low-performing school;*
 - (II) *Gives priority enrollment to students who are enrolled in, or are eligible to attend and are living in the attendance area of, the persistently low-performing school that the school of hope operates, consistent with the enrollment lottery exemption provided under s. 1002.333(5)(c); and*
 - (III) *Meets the requirements of its performance-based agreement pursuant to s. 1002.333.*

4. *Implement a franchise model school in which a highly effective principal, pursuant to s. 1012.34, leads the persistently low-performing school in addition to the principal's currently assigned school. The franchise model school principal may allocate resources and personnel between the schools he or she leads. The persistently low-performing school is eligible for funding from the hope supplemental services allocation established under s. 1011.62(16).*

(c) Implementation of the turnaround option is no longer required if the school improves to a grade of "C" or higher.

(d) If a school ~~earning two consecutive grades of "D" or a grade of "F"~~ does not improve to a grade of "C" or higher after 2 full school years of implementing the turnaround option selected by the school district under paragraph (b), the school district must implement another turnaround option. Implementation of the turnaround option must begin the school year following the implementation period of the existing turnaround option, unless the state board determines that the school is likely to improve to a grade of "C" or higher if additional time is provided to implement the existing turnaround option.

Section 36. Present subsections (16) and (17) of section 1011.62, Florida Statutes, are redesignated as subsections (19) and (20), respectively, new subsections (16) and (17) and subsection (18) are added to that section, and paragraphs (o) and (t) of subsection (1), paragraph (a) of subsection (4), and subsection (14) of that section are amended, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(1) COMPUTATION OF THE BASIC AMOUNT TO BE INCLUDED FOR OPERATION.—The following procedure shall be followed in determining the annual allocation to each district for operation:

(o) *Calculation of additional full-time equivalent membership based on successful completion of a career-themed course pursuant to ss. 1003.491, 1003.492, and 1003.493, or courses with embedded CAPE industry certifications or CAPE Digital Tool certificates, and issuance of industry certification identified on the CAPE Industry Certification Funding List pursuant to rules adopted by the State Board of Education or CAPE Digital Tool certificates pursuant to s. 1003.4203.—*

1.a. A value of 0.025 full-time equivalent student membership shall be calculated for CAPE Digital Tool certificates earned by students in elementary and middle school grades.

b. A value of 0.1 or 0.2 full-time equivalent student membership shall be calculated for each student who completes a course as defined in s. 1003.493(1)(b) or courses with embedded CAPE industry certifications and who is issued an industry certification identified annually on the CAPE Industry Certification Funding List approved under rules adopted by the State Board of Education. A value of 0.2 full-time equivalent membership shall be calculated for each student who is issued a CAPE industry certification that has a statewide articulation agreement for college credit approved by the State Board of Education. For CAPE industry certifications that do not articulate for college credit, the Department of Education shall assign a full-time equivalent value of 0.1 for each certification. Middle grades students who earn additional FTE membership for a CAPE Digital Tool certificate pursuant to sub-subparagraph a. may not use the previously funded examination to satisfy the requirements for earning an industry certification under this sub-subparagraph. Additional FTE membership for an elementary or middle grades student may not exceed 0.1 for certificates or certifications earned within the same fiscal year. The State Board of Education shall include the assigned values on the CAPE Industry Certification Funding List under rules adopted by the state board. Such value shall be added to the total full-time equivalent student membership for grades 6 through 12 in the subsequent year. CAPE industry certifications earned through dual enrollment must be reported and funded pursuant to s. 1011.80. However, if a student earns a certification through a dual enrollment course and the certification is not a fundable certification on the postsecondary certification funding list, or the dual enrollment certification is earned as a result of an

agreement between a school district and a nonpublic postsecondary institution, the bonus value shall be funded in the same manner as other non dual enrollment course industry certifications. In such cases, the school district may provide for an agreement between the high school and the technical center, or the school district and the postsecondary institution may enter into an agreement for equitable distribution of the bonus funds.

c. A value of 0.3 full-time equivalent student membership shall be calculated for student completion of the courses and the embedded certifications identified on the CAPE Industry Certification Funding List and approved by the commissioner pursuant to ss. 1003.4203(5)(a) and 1008.44.

d. A value of 0.5 full-time equivalent student membership shall be calculated for CAPE Acceleration Industry Certifications that articulate for 15 to 29 college credit hours, and 1.0 full-time equivalent student membership shall be calculated for CAPE Acceleration Industry Certifications that articulate for 30 or more college credit hours pursuant to CAPE Acceleration Industry Certifications approved by the commissioner pursuant to ss. 1003.4203(5)(b) and 1008.44.

2. Each district must allocate at least 80 percent of the funds provided for CAPE industry certification, in accordance with this paragraph, to the program that generated the funds. This allocation may not be used to supplant funds provided for basic operation of the program.

3. For CAPE industry certifications earned in the 2013-2014 school year and in subsequent years, the school district shall distribute to each classroom teacher who provided direct instruction toward the attainment of a CAPE industry certification that qualified for additional full-time equivalent membership under subparagraph 1.:

a. A bonus of \$25 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.1.

b. A bonus of \$50 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.2.

c. A bonus of \$75 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.3.

d. A bonus of \$100 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.5 or 1.0.

Bonuses awarded pursuant to this paragraph shall be provided to teachers who are employed by the district in the year in which the additional FTE membership calculation is included in the calculation. Bonuses shall be calculated based upon the associated weight of a CAPE industry certification on the CAPE Industry Certification Funding List for the year in which the certification is earned by the student. Any bonus awarded to a teacher pursuant to ~~under~~ this paragraph is in addition to any regular wage or other bonus the teacher received or is scheduled to receive. *A bonus may not be awarded to a teacher who fails to maintain the security of any CAPE industry certification examination or who otherwise violates the security or administration protocol of any assessment instrument that may result in a bonus being awarded to the teacher under this paragraph.*

(t) *Computation for funding through the Florida Education Finance Program.*—The State Board of Education may adopt rules establishing programs, industry certifications, and courses for which the student may earn credit toward high school graduation *and the criteria under which a student's industry certification or grade may be rescinded.*

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance

Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) *Estimated taxable value calculations.*—

1.a. Not later than 2 working days before July 19, the Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local property appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or an assessment roll change required by final judicial decisions as specified in paragraph (19)(b) ~~(16)(b)~~. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district's revenue from required local effort millage will produce more than 90 percent of the district's total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(14) QUALITY ASSURANCE GUARANTEE.—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~, quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~ and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

(16) HOPE SUPPLEMENTAL SERVICES ALLOCATION.—*The hope supplemental services allocation is created to provide district-managed turnaround schools, as required under s. 1008.33(4)(a), charter schools authorized under s. 1008.33(4)(b)2., district-managed charter schools authorized under s. 1008.33(4)(b)3.a., schools of hope authorized under s. 1008.33(4)(b)3.b., and franchise model schools as authorized under s. 1008.33(4)(b)4., with funds to offer services designed to improve*

the overall academic and community welfare of the schools' students and their families.

(a) Services funded by the allocation may include, but are not limited to, tutorial and after-school programs, student counseling, nutrition education, and parental counseling. In addition, services may also include models that develop a culture that encourages students to complete high school and to attend college or career training, set high academic expectations, inspire character development, and include an extended school day and school year.

(b) Prior to distribution of the allocation, a school district, for a district turnaround school and persistently low-performing schools that use a franchise model; a hope operator, for a school of hope; or the charter school governing board for a charter school, as applicable, shall develop and submit a plan for implementation to its respective governing body for approval no later than August 1 of the fiscal year.

(c) At a minimum, the plans required under paragraph (b) must:

1. Establish comprehensive support services that develop family and community partnerships;
2. Establish clearly defined and measurable high academic and character standards;
3. Increase parental involvement and engagement in the child's education;
4. Describe how instructional personnel will be identified, recruited, retained, and rewarded;
5. Provide professional development that focuses on academic rigor, direct instruction, and creating high academic and character standards; and
6. Provide focused instruction to improve student academic proficiency, which may include additional instruction time beyond the normal school day or school year.

(d) Each school district and hope operator shall submit approved plans to the commissioner by September 1 of each fiscal year.

(e) For the 2018-2019 fiscal year, a school that is selected to receive funding in the 2017-2018 fiscal year pursuant to s. 1002.333(10)(c) shall receive \$2,000 per FTE. A district-managed turnaround school required under s. 1008.33(4)(a), charter school authorized under s. 1008.33(4)(b) 2., district-managed charter school authorized under s. 1008.33(4)(b) 3.a., school of hope authorized under s. 1008.33(4)(b) 3.b., and franchise model school authorized under s. 1008.33(4)(b) 4. are eligible for the remaining funds based on the school's unweighted FTE, up to \$2,000 per FTE or as provided in the General Appropriations Act.

(f) For the 2019-2020 fiscal year and thereafter, each school district's allocation shall be based on the unweighted FTE student enrollment at the eligible schools and a per-FTE funding amount of up to \$2,000 per FTE or as provided in the General Appropriations Act. If the calculated funds for unweighted FTE student enrollment at the eligible schools exceed the per-FTE funds appropriated, the allocation of funds to each school district must be prorated based on each school district's share of the total unweighted FTE student enrollment for the eligible schools.

(17) **MENTAL HEALTH ASSISTANCE ALLOCATION.**—The mental health assistance allocation is created to provide funding to assist school districts and charter schools in their compliance with the requirements and specifications established in s. 1006.05. These funds must be allocated annually in the General Appropriations Act to each entity's proportionate share of Florida Education Finance Program base funding. The district funding allocation must include a minimum amount, as provided in the General Appropriations Act. Eligible charter schools are entitled to a proportionate share of district funding for the program. The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses, except for personnel hired to implement the plans required by s. 1006.05. School districts and schools must maximize third-party funding from Medicaid and private insurance when appropriate.

(18) **FUNDING COMPRESSION ALLOCATION.**—The Legislature may provide an annual funding compression allocation in the General Appropriations Act. The allocation is created to provide additional funding to school districts and developmental research schools whose total funds per FTE in the prior year were less than the statewide average. Using the most recent prior year FEFP calculation for each eligible school district, the total funds per FTE shall be subtracted from the state average funds per FTE, not including any adjustments made pursuant to paragraph (19)(b). The resulting funds per FTE difference, or a portion thereof, as designated in the General Appropriations Act, shall then be multiplied by the school district's total unweighted FTE to provide the allocation. If the calculated funds are greater than the amount included in the General Appropriations Act, they must be prorated to the appropriation amount based on each participating school district's share.

Section 37. Subsection (5) of section 1011.69, Florida Statutes, is amended to read:

1011.69 Equity in School-Level Funding Act.—

(5) After providing Title I, Part A, Basic funds to schools above the 75 percent poverty threshold, which may include high schools above the 50 percent threshold as allowed by federal law, school districts shall provide any remaining Title I, Part A, Basic funds directly to all eligible schools as provided in this subsection. For purposes of this subsection, an eligible school is a school that is eligible to receive Title I funds, including a charter school. The threshold for identifying eligible schools may not exceed the threshold established by a school district for the 2016-2017 school year or the statewide percentage of economically disadvantaged students, as determined annually.

(a) Prior to the allocation of Title I funds to eligible schools, a school district may withhold funds only as follows:

 - b. Supplemental academic and enrichment services, staff development, and planning and curriculum, as well as wrap-around services.

(b) All remaining Title I funds shall be distributed to all eligible schools in accordance with federal law and regulation. To maximize the efficient use of resources, school districts may allow eligible schools, not including charter schools, to ~~An eligible school may use funds under this subsection for district-level to participate in discretionary educational services provided by the school district.~~

Section 38. Subsection (5) of section 1011.71, Florida Statutes, is amended to read:

As used in this paragraph, casualty insurance has the same meaning as in s. 624.605(1)(d), (f), (g), (h), and (m). Operating revenues that are made available through the payment of property and casualty insurance premiums from revenues generated under this subsection may be expended only for nonrecurring operational expenditures of the school district.

Section 39. Subsection (4) of section 1012.2315, Florida Statutes, is amended to read:

Section 1. Section 212.1832, Florida Statutes, is created to read:

212.1832 Credit for contributions to the Hope Scholarship Program.—

(1) *Upon adoption of rules, the purchaser of a motor vehicle shall be granted a credit of 100 percent of an eligible contribution made to an eligible nonprofit scholarship-funding organization under s. 1002.40 against any tax imposed by the state and collected from the purchaser by a dealer, designated agent, or private tag agent as a result of the purchase or acquisition of a motor vehicle. For purposes of this subsection, the term “purchase” does not include the lease or rental of a motor vehicle.*

(2) *A dealer shall take a credit against any tax imposed by the state under this chapter on the purchase of a motor vehicle in an amount equal to the credit granted to the purchaser under subsection (1).*

The provisions of s. 1002.40 apply to the credit authorized by this section.*

Section 2. Subsection (21) is added to section 213.053, Florida Statutes, to read:

The eligible nonprofit scholarship-funding organization may use the information for purposes of recovering eligible contributions designated for that organization that were collected by the dealer but never remitted to the organization.*

(b) *Nothing in this subsection authorizes the disclosure of information if such disclosure is prohibited by federal law. (b) A sponsor shall receive and review all applications for a charter school using the evaluation instrument developed by the Department of Education. A sponsor shall receive and consider charter school applications received on or before August 1 of each calendar year for charter schools to be opened at the beginning of the school district's next school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before August 1 and may receive an application submitted later than August 1 if it chooses. Beginning in 2018 and thereafter, a sponsor shall receive and consider charter school applications received on or before February 1 of each calendar year for charter schools to be opened 18 months later at the beginning of the school district's school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before February 1 and may receive an application submitted later than February 1 if it chooses. A sponsor may not charge an applicant for a charter any fee for the processing or consideration of an application, and a sponsor may not base its consideration or approval of a final application upon the promise of future payment of any kind. Before approving or denying any application, the sponsor shall allow the applicant, upon receipt of written notification, at least 7 calendar days to make technical or nonsubstantive corrections and clarifications, including, but not limited to, corrections of grammatical, typographical, and like errors or missing signatures, if such errors are identified by the sponsor as cause to deny the final application.

1. In order to facilitate an accurate budget projection process, a sponsor shall be held harmless for FTE students who are not included in the FTE projection due to approval of charter school applications after the FTE projection deadline. In a further effort to facilitate an accurate budget projection, within 15 calendar days after receipt of a charter school application, a sponsor shall report to the Department of Education the name of the applicant entity, the proposed charter school location, and its projected FTE.

2. In order to ensure fiscal responsibility, an application for a charter school shall include a full accounting of expected assets, a projection of expected sources and amounts of income, including income derived from projected student enrollments and from community support, and an expense projection that includes full accounting of the costs of operation, including start-up costs.

3.a. A sponsor shall by a majority vote approve or deny an application no later than 90 calendar days after the application is received, unless the sponsor and the applicant mutually agree in writing to temporarily postpone the vote to a specific date, at which time the sponsor shall by a majority vote approve or deny the application. If the sponsor fails to act on the application, an applicant may appeal to the State Board of Education as provided in paragraph (c). If an application is denied, the sponsor shall, within 10 calendar days after such denial,

articulate in writing the specific reasons, based upon good cause, supporting its denial of the application and shall provide the letter of denial and supporting documentation to the applicant and to the Department of Education.

b. An application submitted by a high-performing charter school identified pursuant to s. 1002.331 or a high-performing charter school system identified pursuant to s. 1002.332 may be denied by the sponsor only if the sponsor demonstrates by clear and convincing evidence that:

(I) The application does not materially comply with the requirements in paragraph (a);

(II) The charter school proposed in the application does not materially comply with the requirements in paragraphs (9)(a)-(f);

(III) The proposed charter school's educational program does not substantially replicate that of the applicant or one of the applicant's high-performing charter schools;

(IV) The applicant has made a material misrepresentation or false statement or concealed an essential or material fact during the application process; or

(V) The proposed charter school's educational program and financial management practices do not materially comply with the requirements of this section.

Material noncompliance is a failure to follow requirements or a violation of prohibitions applicable to charter school applications, which failure is quantitatively or qualitatively significant either individually or when aggregated with other noncompliance. An applicant is considered to be replicating a high-performing charter school if the proposed school is substantially similar to at least one of the applicant's high-performing charter schools and the organization or individuals involved in the establishment and operation of the proposed school are significantly involved in the operation of replicated schools.

c. If the sponsor denies an application submitted by a high-performing charter school or a high-performing charter school system, the sponsor must, within 10 calendar days after such denial, state in writing the specific reasons, based upon the criteria in sub-subparagraph b., supporting its denial of the application and must provide the letter of denial and supporting documentation to the applicant and to the Department of Education. The applicant may appeal the sponsor's denial of the application in accordance with paragraph (c).

4. For budget projection purposes, the sponsor shall report to the Department of Education the approval or denial of an application within 10 calendar days after such approval or denial. In the event of approval, the report to the Department of Education shall include the final projected FTE for the approved charter school.

5. Upon approval of an application, the initial startup shall commence with the beginning of the public school calendar for the district in which the charter is granted. A charter school may defer the opening of the school's operations for up to 3 2 years to provide time for adequate facility planning. The charter school must provide written notice of such intent to the sponsor and the parents of enrolled students at least 30 calendar days before the first day of school.

Section 9. Subsection (1) of section 1002.331, Florida Statutes, is amended to read:

1002.331 High-performing charter schools.—

(1) A charter school is a high-performing charter school if it:

(a) Received at least two school grades of "A" and no school grade below "B," pursuant to s. 1008.34, during each of the previous 3 school years or received at least two consecutive school grades of "A" in the most recent 2 school years.

(c) Did not receive a financial audit that revealed one or more of the financial emergency conditions set forth in s. 218.503(1) in the most

recent 3 fiscal years for which such audits are available. However, this requirement is deemed met for a charter school-in-the-workplace if there is a finding in an audit that the school has the monetary resources available to cover any reported deficiency or that the deficiency does not result in a deteriorating financial condition pursuant to s. 1002.345(1)(a)3.

For purposes of determining initial eligibility, the requirements of paragraphs (b) and (c) only apply to the most recent 2 fiscal years if the charter school earns two consecutive grades of "A." A virtual charter school established under s. 1002.33 is not eligible for designation as a high-performing charter school.

Section 10. (b) Annually verify the eligibility of private schools that meet the requirements of subsection (6).

(c) Require an annual notarized and sworn compliance statement by participating private schools certifying compliance with state laws and retain such records.

(e) Maintain a list of nationally norm-referenced tests identified for purposes of satisfying the testing requirement in paragraph (9)(f). The tests must meet industry standards of quality in accordance with State Board of Education rule.

(f) Require quarterly reports by an eligible nonprofit scholarship-funding organization regarding the number of students participating in the scholarship program, the private schools in which the students are enrolled, and other information deemed necessary by the department.

(g) Contract with an independent entity to provide an annual evaluation of the program by:

1. Reviewing the school climate and code of student conduct of each public school that reported the occurrence of a monthly average of 10 or more substantiated incidents to determine areas in the school or school district procedures involving reporting, investigating, and communicating a parent's and student's rights which are in need of improvement. At a minimum, the review must include:

3. Reviewing the performance of participating students enrolled in a private school in which the majority of the school's total enrolled students in the prior school year participated in one or more scholarship programs, as defined in s. 1002.01, in which there are at least 10 participating students who have scores for tests administered; and reviewing the school climate and code of student conduct of the private school if one or more scholarship participants were involved in a reported incident at the school during the prior school year.

4. Surveying the parents of participating students to determine academic, safety, and school climate satisfaction and to identify any challenges or obstacles in addressing the incident or relating to the use of the scholarship.

(h) Upon the request of a participating private school, provide at no cost to the school the statewide assessments administered under s.

1008.22 and any related materials for administering the assessments. Students at a private school may be assessed using the statewide assessments if the addition of those students and the school does not cause the state to exceed its contractual caps for the number of students tested and the number of testing sites. The state shall provide the same materials and support to a private school that it provides to a public school. A private school that chooses to administer statewide assessments under s. 1008.22 shall follow the requirements set forth in ss. 1008.22 and 1008.24, rules adopted by the State Board of Education to implement those sections, and district-level testing policies established by the district school board.

The department shall conduct an inquiry or make a referral to the appropriate agency for an investigation of any written complaint of a violation of this section if the complaint is signed by the complainant and is legally sufficient. A complaint is legally sufficient if such complaint contains ultimate facts that show that a violation of this section or any rule adopted by the State Board of Education pursuant to this section has occurred. In order to determine legal sufficiency, the department may require supporting information or documentation from the complainant. A department inquiry is not subject to the requirements of chapter 120.

(j)1. Conduct site visits to participating private schools. The purpose of the site visits is solely to verify the information reported by the schools concerning the enrollment and attendance of students, the credentials of teachers, background screening of teachers, teachers' fingerprinting results, and other conditions required pursuant to s. 1002.421 and this section. The department may not make more than seven site visits each year; however, the department may make additional site visits at any time to a school that is the subject of a violation complaint submitted pursuant to paragraph (i), is identified by an organization for a known or suspected violation, or has received a notice of noncompliance or a notice of proposed action within the current year or the previous 2 years.

2. Annually, by December 15, report to the Governor, the President of the Senate, and the Speaker of the House of Representatives the department's actions with respect to implementing accountability in the program under this section and s. 1002.421, any substantiated allegations or violations of law or rule by an eligible private school under this program, and the corrective action taken by the department.

(8) COMMISSIONER OF EDUCATION AUTHORITY AND OBLIGATIONS.—

(a) The Commissioner of Education:

1. Shall deny, suspend, or revoke a private school's participation in the program if it is determined that the private school has failed to comply with the provisions of this section. However, if the noncompliance is correctable within a reasonable amount of time and if the health, safety, or welfare of the students is not threatened, the commissioner may issue a notice of noncompliance which provides the private school with a timeframe within which to provide evidence of compliance before taking action to suspend or revoke the private school's participation in the program.

2. May deny, suspend, or revoke a private school's participation in the program if the commissioner determines that an owner or operator of the private school is operating or has operated an educational institution in this state or in another state or jurisdiction in a manner contrary to the health, safety, or welfare of the public.

a. In making such a determination, the commissioner may consider factors that include, but are not limited to, acts or omissions by an owner or operator which led to a previous denial or revocation of participation in an education scholarship program; an owner's or operator's failure to reimburse the department for scholarship funds improperly received or retained by a school; imposition of a prior criminal sanction related to an owner's or operator's management or operation of an educational institution; imposition of a civil fine or administrative fine, license revocation or suspension, or program eligibility suspension, termination, or revocation related to an owner's or operator's management or operation of an educational institution; or other types of criminal proceedings in which an owner or operator was found guilty of, regardless of ad-

judication, or entered a plea of *nolo contendere* or guilty to, any offense involving fraud, deceit, dishonesty, or moral turpitude.

b. For purposes of this subparagraph, the term “owner or operator” includes an owner, operator, superintendent, or principal of, or a person who has equivalent decisionmaking authority over, a private school participating in the scholarship program.

(b) The commissioner’s determination is subject to the following:

1. If the commissioner intends to deny, suspend, or revoke a private school’s participation in the program, the department shall notify the private school of such proposed action in writing by certified mail and regular mail to the private school’s address of record with the department. The notification shall include the reasons for the proposed action and notice of the timelines and procedures set forth in this paragraph.

2. The private school that is adversely affected by the proposed action shall have 15 days after receipt of the notice of proposed action to file with the department’s agency clerk a request for a proceeding pursuant to ss. 120.569 and 120.57. If the private school is entitled to a hearing under s. 120.57(1), the department shall refer the request to the Division of Administrative Hearings.

3. Upon receipt of a request referred pursuant to this paragraph, the director of the Division of Administrative Hearings shall expedite the hearing and assign an administrative law judge who shall commence a hearing within 30 days after the receipt of the formal written request by the division and enter a recommended order within 30 days after the hearing or within 30 days after receipt of the hearing transcript, whichever is later. Each party shall be allowed 10 days in which to submit written exceptions to the recommended order. A final order shall be entered by the agency within 30 days after the entry of a recommended order. The provisions of this subparagraph may be waived upon stipulation by all parties.

(c) The commissioner may immediately suspend payment of scholarship funds if it is determined that there is probable cause to believe that there is:

1. An imminent threat to the health, safety, or welfare of the students; or

2. Fraudulent activity on the part of the private school. Notwithstanding s. 1002.22, in incidents of alleged fraudulent activity pursuant to this section, the department’s Office of Inspector General is authorized to release personally identifiable records or reports of students to the following persons or organizations:

a. A court of competent jurisdiction in compliance with an order of that court or the attorney of record in accordance with a lawfully issued subpoena, consistent with the Family Educational Rights and Privacy Act, 20 U.S.C. s. 1232g.

b. A person or entity authorized by a court of competent jurisdiction in compliance with an order of that court or the attorney of record pursuant to a lawfully issued subpoena, consistent with the Family Educational Rights and Privacy Act, 20 U.S.C. s. 1232g.

c. Any person, entity, or authority issuing a subpoena for law enforcement purposes when the court or other issuing agency has ordered that the existence or the contents of the subpoena or the information furnished in response to the subpoena not be disclosed, consistent with the Family Educational Rights and Privacy Act, 20 U.S.C. s. 1232g, and 34 C.F.R. s. 99.31.

(f) The parent must ensure that the student participating in the program takes the norm-referenced assessment offered by the private school. The parent may also choose to have the student participate in the statewide assessments pursuant to s. 1008.22. If the parent requests that the student participating in the program take the statewide assessments pursuant to s. 1008.22 and the private school has not chosen to offer and administer the statewide assessments, the parent is responsible for transporting the student to the assessment site designated by the school district.

(g) Upon receipt of a scholarship warrant, the parent to whom the warrant is made must restrictively endorse the warrant to the private school for deposit into the account of the private school. The parent may not designate any entity or individual associated with the participating private school as the parent’s attorney in fact to endorse a scholarship warrant. A parent who fails to comply with this paragraph forfeits the scholarship.

(10) **OBLIGATIONS OF NONPROFIT SCHOLARSHIP-FUNDING ORGANIZATIONS.**—An organization may establish scholarships for eligible students by:

(a) Receiving applications and determining student eligibility in accordance with the requirements of this section.

(b) Notifying parents of their receipt of a scholarship on a first-come, first-served basis, based upon available funds.

The initial payment shall be made after verification of admission acceptance, and subsequent payments shall be made upon verification of continued enrollment and attendance at the private school.

(d) *Payment of the scholarship by the eligible nonprofit scholarship-funding organization may be by individual warrant made payable to the student's parent or by funds transfer made by debit cards, electronic payment cards, or other means of payment which the department deems to be commercially viable or cost-effective. If payment is made by warrant, the warrant must be delivered by the eligible nonprofit scholarship-funding organization to the private school of the parent's choice, and the parent shall restrictively endorse the warrant to the private school. Such administrative expenses must be reasonable and necessary for the organization's management and distribution of eligible contributions under this section. Funds authorized under this paragraph may not be used for lobbying or political activity or expenses related to lobbying or political activity. Up to one-third of the funds authorized for administrative expenses under this paragraph may be used for expenses related to the recruitment of contributions from taxpayers. Section 20. Paragraph (f) of subsection (1) of section 1003.26, Florida Statutes, is amended to read:

1003.26 Enforcement of school attendance.—The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(1) CONTACT, REFER, AND ENFORCE.—

(f)1. If the parent of a child who has been identified as exhibiting a pattern of nonattendance enrolls the child in a home education program pursuant to chapter 1002, the district school superintendent shall provide the parent a copy of s. 1002.41 and the accountability requirements of this paragraph. The district school superintendent shall also refer the parent to a home education review committee composed of the district contact for home education programs and at least two home educators selected by the parent from a district list of all home educators who have conducted a home education program for at least 3 years and who have indicated a willingness to serve on the committee. The home education review committee shall review the portfolio of the student, as defined by s. 1002.41, every 30 days during the district’s regular school terms until the committee is satisfied that the home education program is in compliance with s. 1002.41(1)(b). The first portfolio review must occur within the first 30 calendar days of the establishment of the program. The provisions of subparagraph 2. do not apply once the committee determines the home education program is in compliance with s. 1002.41(1)(b).

2. If the parent fails to provide a portfolio to the committee, the committee shall notify the district school superintendent. The district school superintendent shall then terminate the home education program and require the parent to enroll the child in an attendance option that meets the definition of “regular school attendance” under s. 1003.01(13)(a) or (b) ~~s. 1003.01(13)(a), (b), (c), or (e)~~, within 3 days. Upon termination of a home education program pursuant to this subparagraph, the parent shall not be eligible to reenroll the child in a home education program for 180 calendar days. Failure of a parent to enroll the child in an attendance option as required by this subparagraph after termination of the home education program pursuant to this subparagraph shall constitute noncompliance with the compulsory attendance requirements of s. 1003.21 and may result in criminal prosecution under s. 1003.27(2). Nothing contained herein shall restrict the ability of the district school superintendent, or the ability of his or her designee, to review the portfolio pursuant to s. 1002.41(1)(b).

f. The use of continuous improvement and monitoring plans and processes.

2. ~~In addition,~~ The state board may prescribe reporting requirements to review and monitor the progress of the schools. The rule must define the intervention and support strategies for school improvement for schools earning a grade of “D” or “F” and the roles for the district and department.

(4)(a) The state board shall apply intensive intervention and support strategies tailored to the needs of schools earning two consecutive grades of “D” or a grade of “F.” In the first full school year after a school initially earns two consecutive grades of “D” or a grade of “F,” the school district must immediately implement intervention and support strategies prescribed in rule under paragraph (3)(c) and, by September 1, provide the department with the memorandum of understanding negotiated pursuant to s. 1001.42(21) and, by October 1, a district-managed turnaround plan for approval by the state board. *The district-managed turnaround plan may include a proposal for the district to implement an extended school day, a summer program, or a combination of an extended school day and summer program.* Upon approval by the state board, the school district must implement the plan for the remainder of the school year and continue the plan for 1 full school year. The state board may allow a school an additional year of implementation before the school must implement a turnaround option required under paragraph (b) if it determines that the school is likely to improve to a grade of “C” or higher after the first full school year of implementation.

(b) Unless an additional year of implementation is provided pursuant to paragraph (a), a school that *has completed 2 school years of a district-managed turnaround plan required under paragraph (a) and has not improved its school grade to a “C” or higher, pursuant to s. 1008.34,* ~~earns three consecutive grades below a “C”~~ must implement one of the following options:

1. Reassign students to another school and monitor the progress of each reassigned student.;

2. Close the school and reopen the school as one or more charter schools, each with a governing board that has a demonstrated record of effectiveness. *Such charter schools are eligible for funding from the hope supplemental services allocation established by s. 1011.62(16).* ~~;~~

3. Contract with an outside entity that has a demonstrated record of effectiveness to operate the school. An outside entity may include:

a. A district-managed charter school in which all instructional personnel are not employees of the school district, but are employees of an independent governing board composed of members who did not participate in the review or approval of the charter. *A district-managed charter school is eligible for funding from the hope supplemental services allocation established by s. 1011.62(16); or*

b. *A hope operator that submits to a school district a notice of intent of a performance-based agreement pursuant to s. 1002.333. A school of hope established pursuant to this sub-subparagraph is eligible for funding from the hope supplemental services allocation for up to 5 years, beginning in the school year in which the school of hope is established, if the school of hope:*

(I) *Is established at the district-owned facilities of the persistently low-performing school;*

(II) *Gives priority enrollment to students who are enrolled in, or are eligible to attend and are living in the attendance area of, the persistently low-performing school that the school of hope operates, consistent with the enrollment lottery exemption provided under s. 1002.333(5)(c); and*

(III) *Meets the requirements of its performance-based agreement pursuant to s. 1002.333.*

4. *Implement a franchise model school in which a highly effective principal, pursuant to s. 1012.34, leads the persistently low-performing school in addition to the principal's currently assigned school. The franchise model school principal may allocate resources and personnel between the schools he or she leads. The persistently low-performing school is eligible for funding from the hope supplemental services allocation established under s. 1011.62(16).*

(c) Implementation of the turnaround option is no longer required if the school improves to a grade of “C” or higher.

(d) ~~If a school earning two consecutive grades of “D” or a grade of “F” does not improve to a grade of “C” or higher after 2 full school years of implementing the turnaround option selected by the school district under paragraph (b), the school district must implement another turnaround option. Implementation of the turnaround option must begin the school year following the implementation period of the existing turnaround option, unless the state board determines that the school is likely to improve to a grade of “C” or higher if additional time is provided to implement the existing turnaround option.~~

Section 30. Present subsections (16) and (17) of section 1011.62, Florida Statutes, are redesignated as subsections (19) and (20), respectively, new subsections (16) and (17) and subsection (18) are added to that section, and paragraph (a) of subsection (4) and subsection (14) of that section are amended, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) *Estimated taxable value calculations.—*

1.a. Not later than 2 working days before July 19, the Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local property appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or an assessment roll change required by final judicial decisions as specified in paragraph (19)(b) ~~(16)(b)~~. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district's revenue from required local effort millage will produce more than 90 percent of the district's total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(14) **QUALITY ASSURANCE GUARANTEE.**—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~, quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~ and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

(16) **HOPE SUPPLEMENTAL SERVICES ALLOCATION.**—*The hope supplemental services allocation is created to provide district-managed turnaround schools, as required under s. 1008.33(4)(a), charter schools authorized under s. 1008.33(4)(b)2., district-managed charter schools authorized under s. 1008.33(4)(b)3.a., schools of hope authorized under s. 1008.33(4)(b)3.b., and franchise model schools as authorized under s. 1008.33(4)(b)4., with funds to offer services designed to improve the overall academic and community welfare of the schools' students and their families.*

(a) *Services funded by the allocation may include, but are not limited to, tutorial and after-school programs, student counseling, nutrition education, and parental counseling. In addition, services may also include models that develop a culture that encourages students to complete high school and to attend college or career training, set high academic expectations, inspire character development, and include an extended school day and school year.*

(b) *Prior to distribution of the allocation, a school district, for a district turnaround school and persistently low-performing schools that use a franchise model; a hope operator, for a school of hope; or the charter school governing board for a charter school, as applicable, shall develop and submit a plan for implementation to its respective governing body for approval no later than August 1 of the fiscal year.*

(c) *At a minimum, the plans required under paragraph (b) must:*

1. *Establish comprehensive support services that develop family and community partnerships;*
2. *Establish clearly defined and measurable high academic and character standards;*
3. *Increase parental involvement and engagement in the child's education;*
4. *Describe how instructional personnel will be identified, recruited, retained, and rewarded;*
5. *Provide professional development that focuses on academic rigor, direct instruction, and creating high academic and character standards; and*
6. *Provide focused instruction to improve student academic proficiency, which may include additional instruction time beyond the normal school day or school year.*

(d) *Each school district and hope operator shall submit approved plans to the commissioner by September 1 of each fiscal year.*

(e) *For the 2018-2019 fiscal year, a school that is selected to receive funding in the 2017-2018 fiscal year pursuant to s. 1002.333(10)(c) shall receive \$2,000 per FTE. A district-managed turnaround school required under s. 1008.33(4)(a), charter school authorized under s. 1008.33(4)(b) 2., district-managed charter school authorized under s. 1008.33(4)(b) 3.a., school of hope authorized under s. 1008.33(4)(b)3.b., and franchise model school authorized under s. 1008.33(4)(b)4. are eligible for the remaining funds based on the school's unweighted FTE, up to \$2,000 per FTE or as provided in the General Appropriations Act.*

(f) *For the 2019-2020 fiscal year and thereafter, each school district's allocation shall be based on the unweighted FTE student enrollment at the eligible schools and a per-FTE funding amount of up to \$2,000 per FTE or as provided in the General Appropriations Act. If the calculated funds for unweighted FTE student enrollment at the eligible schools exceed the per-FTE funds appropriated, the allocation of funds to each school district must be prorated based on each school district's share of the total unweighted FTE student enrollment for the eligible schools.*

(17) **MENTAL HEALTH ASSISTANCE ALLOCATION.**—*The mental health assistance allocation is created to provide supplemental funding to assist school districts in establishing or expanding comprehensive school-based mental health programs that increase awareness of mental health issues among children and school-age youth; train educators and other school staff in detecting and responding to mental health issues; and connect children, youth, and families who may experience behavioral health issues with appropriate services. These funds may be allocated annually in the General Appropriations Act to each eligible school district and developmental research school based on each entity's proportionate share of Florida Education Finance Program base funding. The district funding allocation must include a minimum amount as specified in the General Appropriations Act. Upon submission and approval of a plan that includes the elements specified in paragraph (b), charter schools are also entitled to a proportionate share of district funding for this program. The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses.*

(a) *Prior to the distribution of the allocation:*

1. *The district must annually develop and submit a detailed plan outlining the local program and planned expenditures to the district school board for approval.*

2. *A charter school must annually develop and submit a detailed plan outlining the local program and planned expenditures of the funds in the plan to its governing body for approval. After the plan is approved by the governing body, it must be provided to its school district for submission to the commissioner.*

(b) *The plans required under paragraph (a) must include, at a minimum, all of the following elements:*

1. *A collaborative effort or partnership between the school district and at least one local community program or agency involved in mental health to provide or to improve prevention, diagnosis, and treatment services for students;*
2. *Programs to assist students in dealing with bullying, trauma, and violence;*
3. *Strategies or programs to reduce the likelihood of at-risk students developing social, emotional, or behavioral health problems or substance use disorders;*
4. *Strategies to improve the early identification of social, emotional, or behavioral problems or substance use disorders and to improve the provision of early intervention services;*
5. *Strategies to enhance the availability of school-based crisis intervention services and appropriate referrals for students in need of mental health services; and*
6. *Training opportunities for school personnel in the techniques and supports needed to identify students who have trauma histories and who have or are at risk of having a mental illness, and in the use of referral mechanisms that effectively link such students to appropriate treatment and intervention services in the school and in the community.*

(c) *The districts shall submit approved plans to the commissioner by August 1 of each fiscal year.*

(d) *Beginning September 30, 2019, and by each September 30 thereafter, each entity that receives an allocation under this subsection shall submit to the commissioner, in a format prescribed by the department, a final report on its program outcomes and its expenditures for each element of the program.*

(18) **FUNDING COMPRESSION ALLOCATION.**—*The Legislature may provide an annual funding compression allocation in the General Appropriations Act. The allocation is created to provide additional funding to school districts and developmental research schools whose total funds per FTE in the prior year were less than the statewide average. Using the most recent prior year FEFP calculation for each eligible school district, the total funds per FTE shall be subtracted from the state average funds per FTE, not including any adjustments made pursuant to paragraph (19)(b). The resulting funds per FTE difference, or a portion thereof, as designated in the General Appropriations Act, shall then be multiplied by the school district's total unweighted FTE to provide the allocation. If the calculated funds are greater than the amount included in the General Appropriations Act, they must be prorated to the appropriation amount based on each participating school district's share.*

Section 38. Paragraph (e) is added to subsection (2) of section 1013.385, Florida Statutes, to read:

1013.385 School district construction flexibility.—

(2) A resolution adopted under this section may propose implementation of exceptions to requirements of the uniform statewide building code for the planning and construction of public educational and ancillary plants adopted pursuant to ss. 553.73 and 1013.37 relating to:

(e) *Any other provisions that limit the ability of a school to operate in a facility on the same basis as a charter school pursuant to s. 1002.33(18) if the regional planning council determines that there is sufficient shelter capacity within the school district as documented in the Statewide Emergency Shelter Plan.*

Section 39. Subsection (3) of section 1013.62, Florida Statutes, is amended, and paragraph (c) is added to subsection (1) of that section, to read:

1013.62 Charter schools capital outlay funding.—

(1) Charter school capital outlay funding shall consist of revenue resulting from the discretionary millage authorized in s. 1011.71(2) and state funds when such funds are appropriated in the General Appropriations Act.

(c) *It is the intent of the Legislature that the public interest be protected by prohibiting personal financial enrichment by owners, operators, managers, real estate developers, and other affiliated parties of charter schools. Therefore, a charter school is not eligible for a funding allocation unless the chair of the governing board and the chief administrative officer of the charter school annually certify under oath that the funds will be used solely and exclusively for constructing, renovating, or improving charter school facilities that are:*

1. *Owned by a school district, a political subdivision of the state, a municipality, a Florida College System institution, or a state university;*
2. *Owned by an organization that is qualified as an exempt organization under s. 501(c)(3) of the Internal Revenue Code whose articles of incorporation specify that, upon the organization's dissolution, the subject property will be transferred to a school district, a political subdivision of the state, a municipality, a Florida College System institution, or a state university; or*
3. *Owned by and leased, at a fair market value in the school district in which the charter school is located, from a person or entity that is not an affiliated party of the charter school. For the purposes of this subparagraph, the term "affiliated party of the charter school" means the applicant for the charter school pursuant to s. 1002.33; the governing board of the charter school or a member of the governing board; the charter school owner; the charter school principal; an employee of the charter school; an independent contractor of the charter school or the governing board of the charter school; a relative, as defined in s. 1002.33(24)(a)2., of a charter school governing board member, a charter school owner, a charter school principal, a charter school employee, or an independent contractor of a charter school or charter school governing board; a subsidiary corporation, a service corporation, an affiliated corporation, a parent corporation, a limited liability company, a limited partnership, a trust, a partnership, or a related party that, individually or through one or more entities, shares common ownership or control and directly or indirectly manages, administers, controls, or oversees the operation of the charter school; or any person or entity, individually or through one or more entities that share common ownership, which directly or indirectly manages, administers, controls, or oversees the operation of any of the foregoing.*

(3) If the school board levies the discretionary millage authorized in s. 1011.71(2), the department shall use the following calculation methodology to determine the amount of revenue that a school district must distribute to each eligible charter school:

(a) Reduce the total discretionary millage revenue by the school district's annual debt service obligation incurred as of March 1, 2017, and any amount of participation requirement pursuant to s. 1013.64(2)(a)8. that is being satisfied by revenues raised by the discretionary millage.

(b) Divide the school district's adjusted discretionary millage revenue by the district's total capital outlay full-time equivalent membership and the total number of unweighted full-time equivalent students of each eligible charter school to determine a capital outlay allocation per full-time equivalent student.

(c) Multiply the capital outlay allocation per full-time equivalent student by the total number of full-time equivalent students for all of each eligible charter schools within the district school to determine the total charter school capital outlay allocation for each district charter school.

(d) If applicable, reduce the capital outlay allocation identified in paragraph (c) by the total amount of state funds allocated pursuant to subsection (2) to all each eligible charter schools within a district school in subsection (2) to determine the net total maximum calculated capital outlay allocation from local funds. If state funds are not allocated pursuant to subsection (2), the amount determined in paragraph (c) is equal to the net total calculated capital outlay allocation from local funds for each district.

(e) For each charter school within each district, the net capital outlay amount from local funds shall be calculated in the same manner as the state funds in paragraphs (2)(a)-(d), except that the base charter school per weighted FTE allocation amount shall be determined by dividing the net total capital outlay amount from local funds by the total weighted FTE for all eligible charter schools within the district. The per weighted FTE allocation amount from local funds shall be multiplied by the weighted FTE for each charter school to determine each charter school's capital outlay allocation from local funds.

(f)(e) School districts shall distribute capital outlay funds to charter schools no later than February 1 of each year, ~~beginning on February 1, 2018, for the 2017-2018 fiscal year.~~

Section 1. Section 212.099, Florida Statutes, is created to read:

212.099 Florida Sales Tax Credit Scholarship Program.—

(1) *As used in this section, the term:*

(a) *"Eligible business" means a tenant or person actually occupying, using, or entitled to the use of any property from which the rental or license fee is subject to taxation under s. 212.031.*

(b) “Eligible contribution” or “contribution” means a monetary contribution from an eligible business to an eligible nonprofit scholarship-funding organization to be used pursuant to s. 1002.385 or s. 1002.395. The eligible business making the contribution may not designate a specific student as the beneficiary of the contribution.

(c) “Eligible nonprofit scholarship-funding organization” or “organization” has the same meaning as provided in s. 1002.395(2)(f).

(2) An eligible business shall be granted a credit against the tax imposed under s. 212.031 and collected from the eligible business by a dealer. The credit shall be in an amount equal to 100 percent of an eligible contribution made to an organization.

(3) A dealer shall take a credit against the tax imposed under s. 212.031 in an amount equal to the credit taken by the eligible business under subsection (2).

(4)(a) An eligible business must apply to the department for an allocation of tax credits under this section. The eligible business must specify in the application the state fiscal year during which the contribution will be made, the organization that will receive the contribution, the planned amount of the contribution, the address of the property from which the rental or license fee is subject to taxation under s. 212.031, and the federal employer identification number of the dealer who collects the tax imposed under s. 212.031 from the eligible business and who will reduce collection of taxes from the eligible business pursuant to this section. The department shall approve allocations of tax credits on a first-come, first-served basis and shall provide to the eligible business a separate approval or denial letter for each dealer for which the eligible business applied for an allocation of tax credits. Within 10 days after approving or denying an application, the department shall provide a copy of its approval or denial letter to the organization specified by the eligible business in the application. An approval letter must include the name and federal employer identification number of the dealer from whom a credit under this section can be taken and the amount of tax credits approved for use with that dealer.

(b) Upon receipt of an eligible contribution, the organization shall provide the eligible business that made the contribution with a separate certificate of contribution for each dealer from whom a credit can be taken as approved under paragraph (a). A certificate of contribution must include the contributor's name and, if available, federal employer identification number, the amount contributed, the date of contribution, the name of the organization, and the name and federal employer identification number of the dealer.

(5) Each dealer that receives from an eligible business a copy of the department's approval letter and a certificate of contribution, both of which identify the dealer as the dealer who collects the tax imposed under s. 212.031 from the eligible business and who will reduce collection of taxes from the eligible business pursuant to this section, shall reduce the tax collected from the eligible business under s. 212.031 by the total amount of contributions indicated in the certificate of contribution. The reduction may not exceed the amount of credit allocation approved by the department and may not exceed the amount of tax that would otherwise be collected from the eligible business by a dealer when a payment is made under the rental or license fee arrangement. However, payments by an eligible business to a dealer may not be reduced before October 1, 2018.

(a) If the total amount of credits an eligible business may take cannot be fully used within any period that a payment is due under the rental or license fee arrangement because of an insufficient amount of tax that the dealer would collect from the eligible business during that period, the unused amount may be carried forward for a period not to exceed 10 years.

(b) A tax credit may not be claimed on an amended return or through a refund.

(c) A dealer that claims a tax credit must file returns and pay taxes by electronic means under s. 213.755.

(d) An eligible business may not convey, assign, or transfer an approved tax credit or a carryforward tax credit to another entity unless all of the assets of the eligible business are conveyed, assigned, or trans-

ferred in the same transaction and the successor business continues the same lease with the dealer.

(e) Within any state fiscal year, an eligible business may rescind all or part of a tax credit approved under this section. The amount rescinded shall become available for that state fiscal year to another eligible business as approved by the department if the business receives notice from the department that the rescindment has been accepted by the department. Any amount rescinded under this subsection shall become available to an eligible business on a first-come, first-served basis based on tax credit applications received after the date the rescindment is accepted by the department.

(f) Within 10 days after the rescindment of a tax credit under paragraph (e) of this subsection is accepted by the department, the department shall notify the eligible nonprofit scholarship-funding organization specified by the eligible business. The department shall also include the eligible nonprofit scholarship-funding organization specified by the eligible business on all letters or correspondence of acknowledgment for tax credits under this section.

(6) An organization shall report to the department, on or before the 20th day of each month, the total amount of contributions received pursuant to subsection (4) in the preceding calendar month on a form provided by the department. Such report shall include the amount of contributions received during that reporting period and the federal employer identification number of each dealer associated with the contribution.

(7)(a) Eligible contributions may be used to fund the program established under s. 1002.385 if funds appropriated in a state fiscal year for the program are insufficient to fund eligible students.

(b) If the conditions in paragraph (a) are met, the organization shall first use eligible contributions received during a state fiscal year to fund scholarships for students in the priority set forth in s. 1002.385(12)(d). Remaining contributions may be used to fund scholarships for students eligible pursuant to s. 1002.395(3)(b)1. or 2.

(c) The organization shall separately account for each scholarship funded pursuant to this section.

(d) Notwithstanding s. 1002.385(6)(b), any funds remaining from a closed scholarship account funded pursuant to this section shall be used to fund other scholarships pursuant to s. 1002.385.

(e) The organization may, subject to the limitations of s. 1002.395(6)(j)1., use up to 3 percent of eligible contributions received during the state fiscal year in which such contributions are collected for administrative expenses.

(8) The sum of tax credits that may be approved by the department in any state fiscal year is \$57.5 million.

(9) For purposes of the distributions of tax revenue under s. 212.20, the department shall disregard any tax credits allowed under this section to ensure that any reduction in tax revenue received that is attributable to the tax credits results only in a reduction in distributions to the General Revenue Fund.

(10) The department may adopt rules to administer this section.

Section 2. Section 212.1831, Florida Statutes, is amended to read:

212.1831 Credit for contributions to eligible nonprofit scholarship-funding organizations.—There is allowed a credit of 100 percent of an eligible contribution made to an eligible nonprofit scholarship-funding organization under s. 1002.395 against any tax imposed by the state and due under this chapter from a direct pay permit holder as a result of the direct pay permit held pursuant to s. 212.183. For purposes of the dealer's credit granted for keeping prescribed records, filing timely tax returns, and properly accounting and remitting taxes under s. 212.12, the amount of tax due used to calculate the credit shall include any eligible contribution made to an eligible nonprofit scholarship-funding organization from a direct pay permit holder. For purposes of the distributions of tax revenue under s. 212.20, the department shall disregard any tax credits allowed under this section to ensure that any reduction in tax revenue received that is attributable to the tax credits results only in a reduction in distributions to the General Revenue

For purposes of this subsection, the term “purchase” does not include the lease or rental of a motor vehicle.*

(2) *A dealer shall take a credit against any tax imposed by the state under this chapter on the purchase of a motor vehicle in an amount equal to the credit granted to the purchaser under subsection (1).*

(3) *For purposes of the distributions of tax revenue under s. 212.20, the department shall disregard any tax credits allowed under this section to ensure that any reduction in tax revenue received that is attributable to the tax credits results only in a reduction in distributions to the General Revenue Fund. The provisions of s. 1002.40 apply to the credit authorized by this section.*

Section 4. Effective upon this act becoming a law, subsection (21) is added to section 213.053, Florida Statutes, to read:

2. *“Taxpayer” has the same meaning as in s. 220.03, unless disclosure of the taxpayer’s name and address would violate any term of an information-sharing agreement between the department and an agency of the Federal Government.*

(b) *The department, upon request, shall provide to an eligible nonprofit scholarship-funding organization that provides scholarships under s. 1002.395 a list of the 200 taxpayers with the greatest total corporate income or franchise tax due as reported on the taxpayer’s return filed pursuant to s. 220.22 during the previous calendar year. The list must be in alphabetical order based on the taxpayer’s name and shall contain the taxpayer’s address. The list may not disclose the amount of tax owed by any taxpayer.*

(c) *An eligible nonprofit scholarship-funding organization may request the list once each calendar year. The department shall provide the list within 45 days after the request is made.*

(d) *Any taxpayer information contained in the list may be used by the eligible nonprofit scholarship-funding organization only to notify the taxpayer of the opportunity to make an eligible contribution to the Florida Tax Credit Scholarship Program under s. 1002.395. Any information furnished to an eligible nonprofit scholarship-funding organization under this subsection may not be further disclosed by the organization except as provided in this paragraph.*

(e) *An eligible nonprofit scholarship-funding organization, its officers, and employees are subject to the same requirements of confidentiality and the same penalties for violating confidentiality as the department and its employees. Breach of confidentiality is a misdemeanor of the first degree, punishable as provided by s. 775.082 or s. 775.083.*

(22)(a) *The department may provide to an eligible nonprofit scholarship-funding organization, as defined in s. 1002.40, a dealer’s name, address, federal employer identification number, and information related to differences between credits taken by the dealer pursuant to s. 212.1832(2) and amounts remitted to the eligible nonprofit scholarship-funding organization under s. 1002.40(13)(b)3. The eligible nonprofit scholarship-funding organization may use the information for purposes of recovering eligible contributions designated for that organization that were collected by the dealer but never remitted to the organization.*

(b) *Nothing in this subsection authorizes the disclosure of information if such disclosure is prohibited by federal law. An eligible nonprofit scholarship-funding organization is bound by the same requirements of confidentiality and the same penalties for a violation of the requirements as the department.*

Section 6. Paragraph (a) of subsection (1) of section 220.13, Florida Statutes, is amended to read:

220.13 “Adjusted federal income” defined.—

(1) The term “adjusted federal income” means an amount equal to the taxpayer’s taxable income as defined in subsection (2), or such taxable income of more than one taxpayer as provided in s. 220.131, for the taxable year, adjusted as follows:

(a) *Additions.—*There shall be added to such taxable income:

1.a. *The amount of any tax upon or measured by income, excluding taxes based on gross receipts or revenues, paid or accrued as a liability to the District of Columbia or any state of the United States which is deductible from gross income in the computation of taxable income for the taxable year.*

b. *Notwithstanding sub-subparagraph a., if a credit taken under s. 220.1875 is added to taxable income in a previous taxable year under subparagraph 11. and is taken as a deduction for federal tax purposes in the current taxable year, the amount of the deduction allowed shall not be added to taxable income in the current year. The exception in this sub-subparagraph is intended to ensure that the credit under s. 220.1875 is added in the applicable taxable year and does not result in a duplicate addition in a subsequent year.*

2. *The amount of interest which is excluded from taxable income under s. 103(a) of the Internal Revenue Code or any other federal law, less the associated expenses disallowed in the computation of taxable income under s. 265 of the Internal Revenue Code or any other law, excluding 60 percent of any amounts included in alternative minimum taxable income, as defined in s. 55(b)(2) of the Internal Revenue Code, if the taxpayer pays tax under s. 220.11(3).*

3. *In the case of a regulated investment company or real estate investment trust, an amount equal to the excess of the net long-term capital gain for the taxable year over the amount of the capital gain dividends attributable to the taxable year.*

4. *That portion of the wages or salaries paid or incurred for the taxable year which is equal to the amount of the credit allowable for the taxable year under s. 220.181. This subparagraph shall expire on the date specified in s. 290.016 for the expiration of the Florida Enterprise Zone Act.*

5. *That portion of the ad valorem school taxes paid or incurred for the taxable year which is equal to the amount of the credit allowable for the taxable year under s. 220.182. This subparagraph shall expire on the date specified in s. 290.016 for the expiration of the Florida Enterprise Zone Act.*

6. *The amount taken as a credit under s. 220.195 which is deductible from gross income in the computation of taxable income for the taxable year.*

7. *That portion of assessments to fund a guaranty association incurred for the taxable year which is equal to the amount of the credit allowable for the taxable year.*

9. The amount taken as a credit for the taxable year under s. 220.1895.

10. Up to nine percent of the eligible basis of any designated project which is equal to the credit allowable for the taxable year under s. 220.185.

11. The amount taken as a credit for the taxable year under s. 220.1875. The addition in this subparagraph is intended to ensure that the same amount is not allowed for the tax purposes of this state as both a deduction from income and a credit against the tax. This addition is not intended to result in adding the same expense back to income more than once.

12. The amount taken as a credit for the taxable year under s. 220.192.

13. The amount taken as a credit for the taxable year under s. 220.193.

14. Any portion of a qualified investment, as defined in s. 288.9913, which is claimed as a deduction by the taxpayer and taken as a credit against income tax pursuant to s. 288.9916.

17. The amount taken as a credit for the taxable year under s. 220.196. The addition in this subparagraph is intended to ensure that the same amount is not allowed for the tax purposes of this state as both a deduction from income and a credit against the tax. The addition is not intended to result in adding the same expense back to income more than once.

Section 7. Subsection (1) of section 220.1875, Florida Statutes, is amended, and subsection (4) is added to that section, to read:

220.1875 Credit for contributions to eligible nonprofit scholarship-funding organizations.—

(1) There is allowed a credit of 100 percent of an eligible contribution made to an eligible nonprofit scholarship-funding organization under s. 1002.395 against any tax due for a taxable year under this chapter after the application of any other allowable credits by the taxpayer. *An eligible contribution must be made to an eligible nonprofit scholarship-funding organization on or before the date the taxpayer is required to file a return pursuant to s. 220.222.* The credit granted by this section shall be reduced by the difference between the amount of federal corporate income tax taking into account the credit granted by this section and the amount of federal corporate income tax without application of the credit granted by this section.

(4) *If a taxpayer applies and is approved for a credit under s. 1002.395 after timely requesting an extension to file under s. 220.222(2):*

(a) *The credit does not reduce the amount of tax due for purposes of the department's determination as to whether the taxpayer was in compliance with the requirement to pay tentative taxes under ss. 220.222 and 220.32.*

(b) *The taxpayer's noncompliance with the requirement to pay tentative taxes shall result in the revocation and rescindment of any such credit.*

(a) The Professional Practices' Database of Disciplinary Actions Against Educators; and

(b) The Department of Education's Teacher Certification Database.

This subsection does not require the department to provide these staff with unlimited access to the databases. However, the department shall provide the staff with access to the data necessary for performing employment history checks of the instructional personnel and school administrators included in the databases.

(8) *In the event of an emergency situation, the commissioner may coordinate through the most appropriate means of communication with local school districts, Florida College System institutions, and satellite offices of the Division of Blind Services and the Division of Vocational Rehabilitation to assess the need for resources and assistance to enable each school, institution, or satellite office the ability to reopen as soon as possible after considering the health, safety, and welfare of students and clients.*

1002.33 Charter schools.—

(6) APPLICATION PROCESS AND REVIEW.—Charter school applications are subject to the following requirements:

(b) A sponsor shall receive and review all applications for a charter school using the evaluation instrument developed by the Department of Education. A sponsor shall receive and consider charter school applications received on or before August 1 of each calendar year for charter schools to be opened at the beginning of the school district's next school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before August 1 and may receive an application submitted later than August 1 if it chooses. Beginning in 2018 and thereafter, a sponsor shall receive and consider charter school applications received on or before February 1 of each calendar year for charter schools to be opened 18 months later at the beginning of the school district's school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before February 1 and may receive an application submitted later than February 1 if it chooses. A sponsor may not charge an applicant for a charter any fee for the processing or consideration of an application, and a sponsor may not base its consideration or approval of a final application upon the promise of future payment of any kind. Before approving or denying any application, the sponsor shall allow the applicant, upon receipt of written notification, at least 7 calendar days to make technical or nonsubstantive corrections and clarifications, including, but not limited to, corrections of grammatical, typographical, and like errors or missing signatures, if such

errors are identified by the sponsor as cause to deny the final application.

1. In order to facilitate an accurate budget projection process, a sponsor shall be held harmless for FTE students who are not included in the FTE projection due to approval of charter school applications after the FTE projection deadline. In a further effort to facilitate an accurate budget projection, within 15 calendar days after receipt of a charter school application, a sponsor shall report to the Department of Education the name of the applicant entity, the proposed charter school location, and its projected FTE.

2. In order to ensure fiscal responsibility, an application for a charter school shall include a full accounting of expected assets, a projection of expected sources and amounts of income, including income derived from projected student enrollments and from community support, and an expense projection that includes full accounting of the costs of operation, including start-up costs.

3.a. A sponsor shall by a majority vote approve or deny an application no later than 90 calendar days after the application is received, unless the sponsor and the applicant mutually agree in writing to temporarily postpone the vote to a specific date, at which time the sponsor shall by a majority vote approve or deny the application. If the sponsor fails to act on the application, an applicant may appeal to the State Board of Education as provided in paragraph (c). If an application is denied, the sponsor shall, within 10 calendar days after such denial, articulate in writing the specific reasons, based upon good cause, supporting its denial of the application and shall provide the letter of denial and supporting documentation to the applicant and to the Department of Education.

b. An application submitted by a high-performing charter school identified pursuant to s. 1002.331 or a high-performing charter school system identified pursuant to s. 1002.332 may be denied by the sponsor only if the sponsor demonstrates by clear and convincing evidence that:

(I) The application of a *high-performing charter school* does not materially comply with the requirements in paragraph (a) or, for a *high-performing charter school system*, the application does not materially comply with s. 1002.332(2)(b);

(II) The charter school proposed in the application does not materially comply with the requirements in paragraphs (9)(a)-(f);

(III) The proposed charter school's educational program does not substantially replicate that of the applicant or one of the applicant's high-performing charter schools;

(IV) The applicant has made a material misrepresentation or false statement or concealed an essential or material fact during the application process; or

(V) The proposed charter school's educational program and financial management practices do not materially comply with the requirements of this section.

Material noncompliance is a failure to follow requirements or a violation of prohibitions applicable to charter school applications, which failure is quantitatively or qualitatively significant either individually or when aggregated with other noncompliance. An applicant is considered to be replicating a high-performing charter school if the proposed school is substantially similar to at least one of the applicant's high-performing charter schools and the organization or individuals involved in the establishment and operation of the proposed school are significantly involved in the operation of replicated schools.

c. If the sponsor denies an application submitted by a high-performing charter school or a high-performing charter school system, the sponsor must, within 10 calendar days after such denial, state in writing the specific reasons, based upon the criteria in sub-subparagraph b., supporting its denial of the application and must provide the letter of denial and supporting documentation to the applicant and to the Department of Education. The applicant may appeal the sponsor's denial of the application in accordance with paragraph (c).

4. For budget projection purposes, the sponsor shall report to the Department of Education the approval or denial of an application within 10 calendar days after such approval or denial. In the event of

approval, the report to the Department of Education shall include the final projected FTE for the approved charter school.

5. Upon approval of an application, the initial startup shall commence with the beginning of the public school calendar for the district in which the charter is granted. A charter school may defer the opening of the school's operations for up to 3 2 years to provide time for adequate facility planning. The charter school must provide written notice of such intent to the sponsor and the parents of enrolled students at least 30 calendar days before the first day of school.

(7) CHARTER.—The terms and conditions for the operation of a charter school shall be set forth by the sponsor and the applicant in a written contractual agreement, called a charter. The sponsor and the governing board of the charter school shall use the standard charter contract pursuant to subsection (21), which shall incorporate the approved application and any addenda approved with the application. Any term or condition of a proposed charter contract that differs from the standard charter contract adopted by rule of the State Board of Education shall be presumed a limitation on charter school flexibility. The sponsor may not impose unreasonable rules or regulations that violate the intent of giving charter schools greater flexibility to meet educational goals. The charter shall be signed by the governing board of the charter school and the sponsor, following a public hearing to ensure community input.

(a) The charter shall address and criteria for approval of the charter shall be based on:

1. The school's mission, the students to be served, and the ages and grades to be included.

2. The focus of the curriculum, the instructional methods to be used, any distinctive instructional techniques to be employed, and identification and acquisition of appropriate technologies needed to improve educational and administrative performance which include a means for promoting safe, ethical, and appropriate uses of technology which comply with legal and professional standards.

a. The charter shall ensure that reading is a primary focus of the curriculum and that resources are provided to identify and provide specialized instruction for students who are reading below grade level. The curriculum and instructional strategies for reading must be consistent with the Next Generation Sunshine State Standards and grounded in scientifically based reading research.

b. In order to provide students with access to diverse instructional delivery models, to facilitate the integration of technology within traditional classroom instruction, and to provide students with the skills they need to compete in the 21st century economy, the Legislature encourages instructional methods for blended learning courses consisting of both traditional classroom and online instructional techniques. Charter schools may implement blended learning courses which combine traditional classroom instruction and virtual instruction. Students in a blended learning course must be full-time students of the charter school pursuant to s. 1011.61(1)(a)1. Instructional personnel certified pursuant to s. 1012.55 who provide virtual instruction for blended learning courses may be employees of the charter school or may be under contract to provide instructional services to charter school students. At a minimum, such instructional personnel must hold an active state or school district adjunct certification under s. 1012.57 for the subject area of the blended learning course. The funding and performance accountability requirements for blended learning courses are the same as those for traditional courses.

3. The current incoming baseline standard of student academic achievement, the outcomes to be achieved, and the method of measurement that will be used. The criteria listed in this subparagraph shall include a detailed description of:

a. How the baseline student academic achievement levels and prior rates of academic progress will be established.

b. How these baseline rates will be compared to rates of academic progress achieved by these same students while attending the charter school.

c. To the extent possible, how these rates of progress will be evaluated and compared with rates of progress of other closely comparable student populations.

The district school board is required to provide academic student performance data to charter schools for each of their students coming from the district school system, as well as rates of academic progress of comparable student populations in the district school system.

4. The methods used to identify the educational strengths and needs of students and how well educational goals and performance standards are met by students attending the charter school. The methods shall provide a means for the charter school to ensure accountability to its constituents by analyzing student performance data and by evaluating the effectiveness and efficiency of its major educational programs. Students in charter schools shall, at a minimum, participate in the statewide assessment program created under s. 1008.22.

5. In secondary charter schools, a method for determining that a student has satisfied the requirements for graduation in s. 1002.3105(5), s. 1003.4281, or s. 1003.4282.

6. A method for resolving conflicts between the governing board of the charter school and the sponsor.

7. The admissions procedures and dismissal procedures, including the school's code of student conduct. Admission or dismissal must not be based on a student's academic performance.

8. The ways by which the school will achieve a racial/ethnic balance reflective of the community it serves or within the racial/ethnic range of other public schools in the same school district.

9. The financial and administrative management of the school, including a reasonable demonstration of the professional experience or competence of those individuals or organizations applying to operate the charter school or those hired or retained to perform such professional services and the description of clearly delineated responsibilities and the policies and practices needed to effectively manage the charter school. A description of internal audit procedures and establishment of controls to ensure that financial resources are properly managed must be included. Both public sector and private sector professional experience shall be equally valid in such a consideration.

10. The asset and liability projections required in the application which are incorporated into the charter and shall be compared with information provided in the annual report of the charter school.

11. A description of procedures that identify various risks and provide for a comprehensive approach to reduce the impact of losses; plans to ensure the safety and security of students and staff; plans to identify, minimize, and protect others from violent or disruptive student behavior; and the manner in which the school will be insured, including whether or not the school will be required to have liability insurance, and, if so, the terms and conditions thereof and the amounts of coverage.

12. The term of the charter which shall provide for cancellation of the charter if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter. The initial term of a charter shall be for ~~4 or 5 years, excluding 2 planning years.~~ In order to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a municipality or other public entity as provided by law are eligible for up to a 15-year charter, subject to approval by the district school board. A charter lab school is eligible for a charter for a term of up to 15 years. In addition, to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a private, not-for-profit, s. 501(c)(3) status corporation are eligible for up to a 15-year charter, subject to approval by the district school board. Such long-term charters remain subject to annual review and may be terminated during the term of the charter, but only according to the provisions set forth in subsection (8).

13. The facilities to be used and their location. The sponsor may not require a charter school to have a certificate of occupancy or a temporary certificate of occupancy for such a facility earlier than 15 calendar days before the first day of school.

14. The qualifications to be required of the teachers and the potential strategies used to recruit, hire, train, and retain qualified staff to achieve best value.

15. The governance structure of the school, including the status of the charter school as a public or private employer as required in paragraph (12)(i).

16. A timetable for implementing the charter which addresses the implementation of each element thereof and the date by which the charter shall be awarded in order to meet this timetable.

17. In the case of an existing public school that is being converted to charter status, alternative arrangements for current students who choose not to attend the charter school and for current teachers who choose not to teach in the charter school after conversion in accordance with the existing collective bargaining agreement or district school board rule in the absence of a collective bargaining agreement. However, alternative arrangements shall not be required for current teachers who choose not to teach in a charter lab school, except as authorized by the employment policies of the state university which grants the charter to the lab school.

18. Full disclosure of the identity of all relatives employed by the charter school who are related to the charter school owner, president, chairperson of the governing board of directors, superintendent, governing board member, principal, assistant principal, or any other person employed by the charter school who has equivalent decisionmaking authority. For the purpose of this subparagraph, the term "relative" means father, mother, son, daughter, brother, sister, uncle, aunt, first cousin, nephew, niece, husband, wife, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half brother, or half sister.

19. Implementation of the activities authorized under s. 1002.331 by the charter school when it satisfies the eligibility requirements for a high-performing charter school. A high-performing charter school shall notify its sponsor in writing by March 1 if it intends to increase enrollment or expand grade levels the following school year. The written notice shall specify the amount of the enrollment increase and the grade levels that will be added, as applicable.

(d) A charter may be modified during its initial term or any renewal term upon the recommendation of the sponsor or the charter school's governing board and the approval of both parties to the agreement. Modification *during any term* may include, but is not limited to, consolidation of multiple charters into a single charter if the charters are operated under the same governing board ~~and physically located on the same campus,~~ regardless of the renewal cycle. *A charter school that is not subject to a school improvement plan and that closes as part of a consolidation shall be reported by the school district as a consolidation.*

(e) A charter may be terminated by a charter school's governing board through voluntary closure. The decision to cease operations must be determined at a public meeting. The governing board shall notify the parents and sponsor of the public meeting in writing before the public meeting. The governing board must notify the sponsor, parents of enrolled students, and the department in writing within 24 hours after the public meeting of its determination. The notice shall state the charter school's intent to continue operations or the reason for the closure and acknowledge that the governing board agrees to follow the procedures for dissolution and reversion of public funds pursuant to *paragraphs (8)(d)-(f) and (9)(o) paragraphs (8)(c), (g), and (9)(c).*

(8) CAUSES FOR NONRENEWAL OR TERMINATION OF CHARTER.—

(a) The sponsor shall make student academic achievement for all students the most important factor when determining whether to renew or terminate the charter. The sponsor may also choose not to renew or may terminate the charter *if the sponsor finds that one of the grounds set forth below exists by clear and convincing evidence for any of the following grounds:*

1. Failure to participate in the state's education accountability system created in s. 1008.31, as required in this section, or failure to meet the requirements for student performance stated in the charter.

2. Failure to meet generally accepted standards of fiscal management.
3. *Material* violation of law.
4. Other good cause shown.

(b) At least 90 days before renewing, nonrenewing, or terminating a charter, the sponsor shall notify the governing board of the school of the proposed action in writing. The notice shall state in reasonable detail the grounds for the proposed action and stipulate that the school's governing board may, within 14 calendar days after receiving the notice, request a hearing. The hearing shall be conducted ~~at the sponsor's election in accordance with one of the following procedures:~~

1. ~~A direct hearing conducted by the sponsor within 60 days after receipt of the request for a hearing. The hearing shall be conducted in accordance with ss. 120.569 and 120.57. The sponsor shall decide upon nonrenewal or termination by a majority vote. The sponsor's decision shall be a final order; or~~

2. ~~A hearing conducted by an administrative law judge assigned by the Division of Administrative Hearings. The hearing shall be conducted within 90 60 days after receipt of the request for a hearing and in accordance with chapter 120. The administrative law judge's final recommended order shall be submitted to the sponsor. The administrative law judge shall award the prevailing party reasonable attorney fees and costs incurred during the administrative proceeding and any appeals. A majority vote by the sponsor shall be required to adopt or modify the administrative law judge's recommended order. The sponsor shall issue a final order.~~

(c) ~~The final order shall state the specific reasons for the sponsor's decision. The sponsor shall provide its final order to the charter school's governing board and the Department of Education no later than 10 calendar days after its issuance. The charter school's governing board may, within 30 calendar days after receiving the sponsor's final order, appeal the decision pursuant to s. 120.68.~~

(9) CHARTER SCHOOL REQUIREMENTS.—

(n)1. The director and a representative of the governing board of a charter school that has earned a grade of "D" or "F" pursuant to s. 1008.34 shall appear before the sponsor to present information concerning each contract component having noted deficiencies. The director and a representative of the governing board shall submit to the sponsor for approval a school improvement plan to raise student performance. Upon approval by the sponsor, the charter school shall begin implementation of the school improvement plan. The department shall offer technical assistance and training to the charter school and its governing board and establish guidelines for developing, submitting, and approving such plans.

2.a. If a charter school earns three consecutive grades below a "C," the charter school governing board shall choose one of the following corrective actions:

- (I) Contract for educational services to be provided directly to students, instructional personnel, and school administrators, as prescribed in state board rule;
- (II) Contract with an outside entity that has a demonstrated record of effectiveness to operate the school;
- (III) Reorganize the school under a new director or principal who is authorized to hire new staff; or
- (IV) Voluntarily close the charter school.

b. The charter school must implement the corrective action in the school year following receipt of a third consecutive grade below a "C."

c. The sponsor may annually waive a corrective action if it determines that the charter school is likely to improve a letter grade if additional time is provided to implement the intervention and support strategies prescribed by the school improvement plan. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" is subject to subparagraph 3.

d. A charter school is no longer required to implement a corrective action if it improves to a "C" or higher. However, the charter school must continue to implement strategies identified in the school improvement plan. The sponsor must annually review implementation of the school improvement plan to monitor the school's continued improvement pursuant to subparagraph 4.

e. A charter school implementing a corrective action that does not improve to a "C" or higher after 2 full school years of implementing the corrective action must select a different corrective action. Implementation of the new corrective action must begin in the school year following the implementation period of the existing corrective action, unless the sponsor determines that the charter school is likely to improve to a "C" or higher if additional time is provided to implement the existing corrective action. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" while implementing a corrective action is subject to subparagraph 3.

3. A charter school's charter contract is automatically terminated if the school earns two consecutive grades of "F" after all school grade appeals are final unless:

a. The charter school is established to turn around the performance of a district public school pursuant to s. 1008.33(4)(b)2. Such charter schools shall be governed by s. 1008.33;

b. The charter school serves a student population the majority of which resides in a school zone served by a district public school subject to s. 1008.33(4) and the charter school earns at least a grade of "D" in its third year of operation. The exception provided under this sub-subparagraph does not apply to a charter school in its fourth year of operation and thereafter; or

c. The state board grants the charter school a waiver of termination. The charter school must request the waiver within 15 days after the department's official release of school grades. The state board may waive termination if the charter school demonstrates that the Learning Gains of its students on statewide assessments are comparable to or better than the Learning Gains of similarly situated students enrolled in nearby district public schools. The waiver is valid for 1 year and may only be granted once. Charter schools that have been in operation for more than 5 years are not eligible for a waiver under this sub-subparagraph.

The sponsor shall notify the charter school's governing board, the charter school principal, and the department in writing when a charter contract is terminated under this subparagraph. ~~The letter of termination must meet the requirements of paragraph (8)(c). A charter terminated under this subparagraph must follow the procedures for dissolution and reversion of public funds pursuant to paragraphs (8)(d)-(f) and (9)(o) paragraphs (8)(c)-(g) and (9)(e).~~

4. The director and a representative of the governing board of a graded charter school that has implemented a school improvement plan under this paragraph shall appear before the sponsor at least once a year to present information regarding the progress of intervention and support strategies implemented by the school pursuant to the school improvement plan and corrective actions, if applicable. The sponsor shall communicate at the meeting, and in writing to the director, the services provided to the school to help the school address its deficiencies.

5. Notwithstanding any provision of this paragraph except sub-subparagraphs 3.a.-c., the sponsor may terminate the charter at any time pursuant to subsection (8).

(10) ELIGIBLE STUDENTS.—

(e) A charter school may limit the enrollment process only to target the following student populations:

2. Students considered at risk of dropping out of school or academic failure. Such students shall include exceptional education students.
3. Students enrolling in a charter school-in-the-workplace or charter school-in-a-municipality established pursuant to subsection (15).

4. Students residing within a reasonable distance of the charter school, as described in paragraph (20)(c). Such students shall be subject to a random lottery and to the racial/ethnic balance provisions described in subparagraph (7)(a)8. or any federal provisions that require a school to achieve a racial/ethnic balance reflective of the community it serves or within the racial/ethnic range of other public schools in the same school district.

5. Students who meet reasonable academic, artistic, or other eligibility standards established by the charter school and included in the charter school application and charter or, in the case of existing charter schools, standards that are consistent with the school's mission and purpose. Such standards shall be in accordance with current state law and practice in public schools and may not discriminate against otherwise qualified individuals.

6. Students articulating from one charter school to another pursuant to an articulation agreement between the charter schools that has been approved by the sponsor.

7. (a) Shall deny, suspend, or revoke a private school's participation in a scholarship program if it is determined that the private school has failed to comply with this section or exhibits a previous pattern of failure to comply. However, if the noncompliance is correctable within a reasonable amount of time, not to exceed 45 days, and if the health, safety, or welfare of the students is not threatened, the commissioner may issue a notice of noncompliance which provides the private school with a timeframe within which to provide evidence of compliance before taking action to suspend or revoke the private school's participation in the scholarship program.

(b) May deny, suspend, or revoke a private school's participation in a scholarship program if the commissioner determines that an owner or operator of the private school is operating or has operated an educational institution in this state or in another state or jurisdiction in a manner contrary to the health, safety, or welfare of the public or if the owner or operator has exhibited a previous pattern of failure to comply with this section or specific requirements identified within respective scholarship program laws. For purposes of this subsection, the term "owner or operator" has the same meaning as provided in paragraph (1)(p).

(c)1. In making such a determination, may consider factors that include, but are not limited to, acts or omissions by an owner or operator which led to a previous denial, suspension, or revocation of participation in a state or federal education scholarship program; an owner's or operator's failure to reimburse the department or scholarship-funding organization for scholarship funds improperly received or retained by a school; the imposition of a prior criminal sanction related to an owner's or operator's management or operation of an educational institution; the imposition of a civil fine or administrative fine, license revocation or suspension, or program eligibility suspension, termination, or revocation related to an owner's or operator's management or operation of an edu-

The notification shall include the reasons for the proposed action and notice of the timelines and procedures set forth in this paragraph.

b. The private school that is adversely affected by the proposed action shall have 15 days after receipt of the notice of proposed action to file with the department's agency clerk a request for a proceeding pursuant to ss. 120.569 and 120.57. Upon receipt of a request referred pursuant to this subparagraph, the director of the Division of Administrative Hearings shall expedite the hearing and assign an administrative law judge who shall commence a hearing within 30 days after the receipt of the formal written request by the division and enter a recommended order within 30 days after the hearing or within 30 days after receipt of the hearing transcript, whichever is later. Each party shall be allowed 10 days in which to submit written exceptions to the recommended order. A final order shall be entered by the agency within 30 days after the entry of a recommended order. The provisions of this sub-subparagraph may be waived upon stipulation by all parties.

(d) May immediately suspend payment of scholarship funds if it is determined that there is probable cause to believe that there is:

1. An imminent threat to the health, safety, or welfare of the students;

3. Fraudulent activity on the part of the private school. Notwithstanding s. 1002.22, in incidents of alleged fraudulent activity pursuant to this section, the department's Office of Inspector General is authorized to release personally identifiable records or reports of students to the following persons or organizations:

The commissioner's order suspending payment pursuant to this paragraph may be appealed pursuant to the same procedures and timelines as the notice of proposed action set forth in subparagraph (c)2.

(4)(6) The inclusion of eligible private schools within options available to Florida public school students does not expand the regulatory authority of the state, its officers, or any school district to impose any additional regulation of private schools beyond those reasonably necessary to enforce requirements expressly set forth in this section.
