PRAYER

The following prayer was offered by Pastor Nancy Hale, Director, Heritage Christian Academy, Winter Haven:

Creator, sustainer, redeemer, light of the world: we come before you today to acknowledge that our plans and our attempts pale in comparison to your plans and your ways. We plead with you to give us wisdom; we intercede to you to give us humility. Give us love for others in a way that we never thought possible.

God, we lift the people of Florida to you. We know you delight in them, adore them, and see each one—from the most elderly to the youngest child. We desperately need you. As each decision is considered, may we consider your heart, Father, and your people. Empty us of self and fill us with compassion for our state and each other.

May we be quick to listen, slow to speak, and slow to anger. Give us ears that hear, merciful speech, and hearts of peace. We give this beautiful day to you, for you are the kingdom, the power, and the glory, forever and ever. Amen.

PLEDGE

Senate Pages, Lewis Hollingsworth of Sarasota; Sarah Bien-Aime of Orlando; Kaylin Bronson of Orlando; and Sierra Tagman of Orlando, led the Senate in the Pledge of Allegiance to the flag of the United States of America.

During the 2019-2020 school year, a school district that sustained hurricane damage in the 2018-2019 school year may request funding from the Special Facility Construction Account for a new project before the completion of the district's participation requirement for an outstanding project. The department shall encourage a construction program that reduces the average size of schools in the district. The request must meet the following criteria to be considered by the committee:

1. The project must be deemed a critical need and must be recommended for funding by the Special Facility Construction Committee. Before developing construction plans for the proposed facility, the district school board must request a preapplication review by the Special Facility Construction Committee or a project review subcommittee

convened by the chair of the committee to include two representatives of the department and two staff members from school districts not eligible to participate in the program. A school district may request a preapplication review at any time; however, if the district school board seeks inclusion in the department's next annual capital outlay legislative budget request, the preapplication review request must be made before February 1. Within 90 days after receiving the preapplication review request, the committee or subcommittee must meet in the school district to review the project proposal and existing facilities. To determine whether the proposed project is a critical need, the committee or subcommittee shall consider, at a minimum, the capacity of all existing facilities within the district as determined by the Florida Inventory of School Houses; the district's pattern of student growth; the district's existing and projected capital outlay full-time equivalent student enrollment as determined by the demographic, revenue, and education estimating conferences established in s. 216.136; the district's existing satisfactory student stations; the use of all existing district property and facilities; grade level configurations; and any other information that may affect the need for the proposed project.

2. The construction project must be recommended in the most recent survey or survey amendment cooperatively prepared by the district and the department, and approved by the department under the rules of the State Board of Education. If a district employs a consultant in the preparation of a survey or survey amendment, the consultant may not be employed by or receive compensation from a third party that designs or constructs a project recommended by the survey.

3. The construction project must appear on the district's approved project priority list under the rules of the State Board of Education.

4. The district must have selected and had approved a site for the construction project in compliance with s. 1013.36 and the rules of the State Board of Education.

5. The district shall have developed a district school board adopted list of facilities that do not exceed the norm for net square feet occupancy requirements under the State Requirements for Educational Facilities, using all possible programmatic combinations for multiple use of space to obtain maximum daily use of all spaces within the facility under consideration.

6. Upon construction, the total cost per student station, including change orders, must not exceed the cost per student station as provided in subsection (6) ~~unless approved except for cost overruns created by a disaster as defined in s. 252.34 or an unforeseeable circumstance beyond the district's control as determined by the Special Facility Construction Committee. At the discretion of the committee, costs that exceed the cost per student station for special facilities may include legal and administrative fees, the cost of site improvements or related offsite improvements, the cost of complying with public shelter and hurricane hardening requirements, cost overruns created by a disaster as defined in s. 252.34(2), costs of security enhancements approved by the school safety specialist, and unforeseeable circumstances beyond the district's control.~~

7. There shall be an agreement signed by the district school board stating that it will advertise for bids within 30 days of receipt of its encumbrance authorization from the department.

(d) The department shall:

1. Compute for each calendar year the statewide average construction costs for facilities serving each instructional level, for relocatable educational facilities, for administrative facilities, and for other ancillary and auxiliary facilities. The department shall compute the statewide average costs per student station for each instructional level.

2. Annually review the actual completed construction costs of educational facilities in each school district. For any school district in which the total actual cost per student station, including change orders, exceeds the statewide limits established in paragraph (b), the school district shall report to the department the actual cost per student station and the reason for the school district's inability to adhere to the limits established in paragraph (b). Section 6. Present subsection (7) of section 1004.335, Florida Statutes, is redesignated as subsection (8), a new subsection (7) is added to that section, and subsection (1), paragraphs (a) and (g) of subsection (4), subsection (5), and paragraph (a) of subsection (6) of that section are amended, to read:

1004.335 Accreditation consolidation of University of South Florida branch campuses.—

(1) The University of South Florida Consolidation Planning Study and Implementation Task Force is established to develop recommendations to improve service to students by phasing out the separate accreditation of the University of South Florida St. Petersburg branch campus and the University of South Florida Sarasota/Manatee branch campus, which were conferred by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) pursuant to ss. 1004.33 and 1004.34, respectively.

(4) No later than February 15, 2019, the task force must submit a report to the University of South Florida Board of Trustees which includes, at a minimum, recommendations on the following:

(a) Identification of specific degrees in programs of strategic significance, including health care, science, technology, engineering, mathematics, and other program priorities to be offered at the Uni-

versity of South Florida St. Petersburg *branch campus* and the University of South Florida Sarasota/Manatee *branch campus* and the timeline for the development and delivery of programs on each campus;

(g) Developing and delivering integrated academic programs, student and faculty governance, and administrative services to better serve the students, faculty, and staff at the University of South Florida College of Marine Science, the University of South Florida Sarasota/Manatee *branch campus*, and the University of South Florida St. Petersburg *branch campus*.

(5) No later than March 15, 2019, the Board of Trustees of the University of South Florida, after considering the recommendations of the task force, must adopt and submit to the Board of Governors an implementation plan that:

(a) Establishes a timeline for each step that is necessary to terminate the separate accreditation for each campus no later than June 30, 2020, *while maintaining branch campus status for both campuses*, so that there is no lapse in institutional accreditation for any campus during the phasing-out process.

(b) Minimizes disruption to students attending ~~any~~ the University of South Florida *or any of its branch campuses campus* so that the consolidation of SACSCOC accreditation does not impede a student's ability to graduate within 4 years after initial first-time-in-college enrollment.

(c) Requires that, on or before July 1, 2020, the entirety of the University of South Florida, including all *branch campuses* and other component units of the university, operate under a single institutional accreditation from the SACSCOC.

(d) Requires that, on each regularly scheduled submission date subsequent to July 1, 2020, the University of South Florida report consolidated data for all of the university's campuses and students to the Integrated Postsecondary Education Data System and to the Board of Governors. The Board of Governors shall use the consolidated data for purposes of determining eligibility for funding pursuant to ss. 1001.7065 and 1001.92. *However, if the University of South Florida meets the deadline outlined in paragraph (c) and the University of South Florida Sarasota/Manatee and the University of South Florida St. Petersburg maintain branch campus status as defined in subsection (7), the Board of Governors may not use the consolidated data for purposes of determining eligibility for funding pursuant to s. 1001.7065 until July 1, 2022.*

The Board of Governors shall monitor the fidelity of the implementation of the plan.

(6) Notwithstanding ss. 1001.7065 and 1001.92 or any Board of Governors regulation to the contrary relating to the calculation of graduation rates and retention rates, a student who meets all of the following criteria may not be counted by the Board of Governors when calculating or confirming the graduation rate or the retention rate of the University of South Florida under those sections:

(a) The student was admitted to and initially enrolled before the spring 2020 semester as a first-time-in-college student at the University of South Florida St. Petersburg *branch campus* or the University of South Florida Sarasota/Manatee *branch campus*.

(7) *For purposes of this section, a branch campus is an instructional site located geographically apart and independent of the main campus of the institution. A location is independent of the main campus if the location:*

- (a) *Is permanent in nature;*
- (b) *Offers courses in educational programs leading to a degree, diploma, certificate, or other recognized educational credential;*
- (c) *Has its own faculty and administrative or supervisory organization; and*
- (d) *Has its own budgetary and hiring authority.*

And the title is amended as follows:

(b) *A program loan must have a term of:*

1. *At least 120 days, but not more than 60 months, for a loan with a principal balance upon origination of at least \$300, but not more than \$3,000.*

2. *At least 12 months, but not more than 60 months, for a loan with a principal balance upon origination of more than \$3,000.*

(c) *A borrower may not receive a program loan for a principal balance exceeding \$5,000 unless:*

1. *The borrower has paid in full the outstanding principal, interest, and fees on a program loan;*

2. *The borrower's credit score increased from the time of application for the borrower's first consummated program loan; and*

3. *The borrower was never delinquent for more than 7 days on the program loan.*

(d) *A program loan must not impose a prepayment penalty. Installments must be due every 2 weeks, semimonthly, or monthly.*

In determining compliance with the maximum annual interest rates in this paragraph,*

the computations used must be simple interest through the application of a daily periodic rate to the actual unpaid principal balance each day and may not be added-on interest or any other computations.

(g) *If two or more interest rates are applied to the principal amount of a program loan, the program licensee may charge, contract for, and receive interest at that single annual percentage rate that, if applied according to the actuarial method to each of the scheduled periodic balances of principal, would produce at maturity the same total amount of interest as would result from the application of the two or more rates otherwise permitted, based upon the assumption that all payments are made as agreed.*

(h) *The program licensee shall reduce the interest rates specified in paragraph (f) on each subsequent program loan to the same borrower by a minimum of 1 percent, up to a maximum of 6 percent, if all of the following conditions are met:*

(j) *The program licensee may not refinance a program loan unless all of the following conditions are met at the time the borrower submits an application to refinance:*

1. *The principal amount payable may not include more than 60 days' unpaid interest accrued on the previous program loan pursuant to s. 516.031(5).*

2. *For a program loan with an original term up to and including 25 months, the borrower has repaid at least 60 percent of the outstanding principal remaining on his or her existing program loan.*

(k) *In lieu of the provisions of s. 687.08, the program licensee or, if applicable, its approved access partner shall make available to the borrower by electronic or physical means a plain and complete receipt of payment at the time that a payment is made by the borrower. For audit purposes, the program licensee must maintain an electronic record for each receipt made available to a borrower, which must include a copy of the receipt and the date and time that the receipt was generated. Each receipt made available to the borrower must show all of the following:*

(3) **ORIGINATION FEES.—**Notwithstanding s. 516.031, a program licensee may:

(a) Contract for and receive an origination fee from a borrower on a program loan. The program licensee may either deduct the origination fee from the principal amount of the loan disbursed to the borrower or capitalize the origination fee into the principal balance of the loan. The origination fee is fully earned and nonrefundable immediately upon the making of the program loan and may not exceed the lesser of 6 percent of the principal amount of the program loan made to the borrower, exclusive of the origination fee, or \$90.

(b) Not charge a borrower an origination fee more than twice in any 12-month period.

(4) **INSUFFICIENT FUNDS FEES AND DELINQUENCY CHARGES.—**A program licensee may:

(b) Notwithstanding s. 516.031(3)(a)9., contract for and receive a delinquency charge for each payment in default for at least 7 days if the charge is agreed upon, in writing, between the program licensee and the borrower before it is imposed. Delinquency charges may be imposed as follows:

The program licensee, or any wholly owned subsidiary of the program licensee, may not sell or assign an unpaid debt to a third party for collection purposes unless the debt has been delinquent for at least 30 days.

(5) **ADDITIONAL FEES PROHIBITED.—**Notwithstanding any fees authorized in this chapter, a program licensee may not charge a borrower any fees other than those authorized in subsections (3) and (4) for a program loan.

(6) **CREDIT EDUCATION.—**Before disbursement of program loan proceeds to the borrower, the program licensee must:

(a) Direct the borrower to the consumer credit counseling services offered by an independent third party; or

(c) The program licensee shall provide each borrower with the name or names of the consumer reporting agency or agencies to which it will report the borrower's payment history.

(8) **PROGRAM LOAN UNDERWRITING.—**

(a) The program licensee must underwrite each program loan to determine a borrower's ability and willingness to repay the program loan pursuant to the program loan terms. The program licensee may not make a program loan if it determines that the borrower's total monthly debt service payments at the time of origination, including the program loan for which the borrower is being considered and all outstanding forms of credit that can be independently verified by the program licensee, exceed 50 percent of the borrower's gross monthly income for a loan of not more than \$3,000, or exceed 36 percent of the borrower's gross monthly income for a loan of more than \$3,000.

(b)1. The program licensee must seek information and documentation pertaining to all of a borrower's outstanding debt obligations during the loan application and underwriting process, including loans that are self-reported by the borrower but not available through independent verification. The program licensee must verify such information using a credit report from at least one consumer reporting agency or through other available electronic debt verification services that provide reliable evidence of a borrower's outstanding debt obligations.

2. The program licensee is not required to consider loans made to a borrower by friends or family in determining the borrower's debt-to-income ratio.

(c) The program licensee must verify the borrower's income to determine the debt-to-income ratio using information from:

1. Electronic means or services that provide reliable evidence of the borrower's actual income; or

2. The Internal Revenue Service Form W-2, tax returns, payroll receipts, bank statements, or other third-party documents that provide reasonably reliable evidence of the borrower's actual income.

(9) **WAIVERS.—**

(a) A program licensee may not require, as a condition of providing the program loan, that the borrower:

1. Waive any right, penalty, remedy, forum, or procedure provided for in any law applicable to the program loan, including the right to file and pursue a civil action or file a complaint with or otherwise communicate with the office, a court, or any other governmental entity.

2. Agree to the application of laws other than those of this state.

3. Agree to resolve disputes in a jurisdiction outside of this state.

(b) A waiver that is required as a condition of doing business with the program licensee is presumed involuntary, unconscionable, against public policy, and unenforceable.

(c) A program licensee may not refuse to do business with or discriminate against a borrower or an applicant on the basis of the borrower's or applicant's refusal to waive any right, penalty, remedy, forum, or procedure, including the right to file and pursue a civil action or complaint with, or otherwise communicate with, the office, a court, or any other governmental entity. The exercise of a person's right to refuse to waive any right, penalty, remedy, forum, or procedure, including a rejection of a contract requiring a waiver, does not affect any otherwise legal terms of a contract or an agreement.

(d) This subsection does not apply to any agreement to waive any right, penalty, remedy, forum, or procedure, including any agreement to arbitrate a claim or dispute after a claim or dispute has arisen. This subsection does not affect the enforceability or validity of any other provision of the contract.

(5) CREDIT EDUCATION.—Before disbursement of program loan proceeds to the borrower, the program licensee must:

(a) Direct the borrower to the consumer credit counseling services offered by an independent third party; or

(b) Provide a credit education program or seminar to the borrower. The borrower is not required to participate in such education program or seminar. A credit education program or seminar offered pursuant to this paragraph must be provided at no cost to the borrower.

(7) PROGRAM LOAN UNDERWRITING.—

(a) The program licensee must underwrite each program loan to determine a borrower's ability and willingness to repay the program loan pursuant to the program loan terms. The program licensee may not make a program loan if it determines that the borrower's total monthly debt service payments at the time of origination, including the program loan for which the borrower is being considered and all outstanding forms of credit that can be independently verified by the program licensee, exceed 50 percent of the borrower's gross monthly income for a loan of not more than \$3,000, or exceed 36 percent of the borrower's gross monthly income for a loan of more than \$3,000.

The program licensee must verify such information using a credit report from at least one consumer reporting agency or through other available electronic debt verification services that provide reliable evidence of a borrower's outstanding debt obligations.

2. The program licensee is not required to consider loans made to a borrower by friends or family in determining the borrower's debt-to-income ratio.

(c) The program licensee must verify the borrower's income to determine the debt-to-income ratio using information from:

1. Electronic means or services that provide reliable evidence of the borrower's actual income; or

2. The Internal Revenue Service Form W-2, tax returns, payroll receipts, bank statements, or other third-party documents that provide reasonably reliable evidence of the borrower's actual income.

(8) WAIVERS.—

(a) A program licensee may not require, as a condition of providing the program loan, that the borrower:

1. Waive any right, penalty, remedy, forum, or procedure provided for in any law applicable to the program loan, including the right to file and pursue a civil action or file a complaint with or otherwise communicate with the office, a court, or any other governmental entity.

2. Agree to the application of laws other than those of this state.

(b) A waiver that is required as a condition of doing business with the program licensee is presumed involuntary, unconscionable, against public policy, and unenforceable.

The exercise of a person's right to refuse to waive any right, penalty, remedy, forum, or procedure, including a rejection of a contract requiring a waiver, does not affect any otherwise legal terms of a contract or an agreement.

(d) This subsection does not apply to any agreement to waive any right, penalty, remedy, forum, or procedure, including any agreement to arbitrate a claim or dispute after a claim or dispute has arisen. This subsection does not affect the enforceability or validity of any other provision of the contract.

At a minimum, such rules must address staffing, equipment, physical plant, operating protocols, the provision of services to Medicaid and charity care patients, accreditation, licensure periods and fees, and enforcement of minimum standards.

(14) In establishing rules for adult cardiovascular services, the agency shall include provisions that allow for:

(a) The establishment of two hospital program licensure levels, a Level I program that authorizes the performance of adult percutaneous cardiac intervention without onsite cardiac surgery and a Level II program that authorizes the performance of percutaneous cardiac intervention with onsite cardiac surgery.

The agreement must include written transport protocols to ensure the safe and efficient transfer of a patient, taking into consideration the patient's clinical and physical characteristics, road and weather conditions, and viability of ground and air ambulance service to transfer the patient.

3. At a minimum, the rules for adult cardiovascular services must require nursing and technical staff to have demonstrated experience in handling acutely ill patients requiring intervention, based on the staff member's previous experience in dedicated cardiac interventional laboratories or surgical centers. If a staff member's previous experience is in a dedicated cardiac interventional laboratory at a hospital that does not have an approved adult open heart surgery program, the staff member's previous experience qualifies only if, at the time the staff member acquired his or her experience, the dedicated cardiac interventional laboratory:

3. The applicant does not have a license denial or revocation action pending with the agency at the time of the request.
4. The applicant's request is for the same service type, district, service area, and site for which the applicant was previously licensed.
5. The applicant's request, if applicable, includes the same number and type of beds as were previously licensed.
6. The applicant agrees to the same conditions that were previously imposed on the certificate of need or on an exemption related to the applicant's previously licensed health care facility or project.
7. The applicant applies for initial licensure as required under s. 408.806 within 21 days after the agency approves the exemption request. If the applicant fails to apply in a timely manner, the exemption expires on the 22nd day following the agency's approval of the exemption.

(2) PROJECTS SUBJECT TO EXPEDITED REVIEW.—Unless exempt pursuant to subsection (3), the following projects are subject to expedited review:

(a) Transfer of a certificate of need, ~~except that when an existing hospital is acquired by a purchaser, all certificates of need issued to the hospital which are not yet operational shall be acquired by the purchaser without need for a transfer.~~

(5) NOTIFICATION.—Health care facilities and providers must provide to the agency notification of:

~~(a)~~ replacement of a health care facility when the proposed project site is located in the same district and on the existing site or within a 1-mile radius of the replaced health care facility, if the number and type of beds do not increase.

~~(b) The termination of a health care service, upon 30 days' written notice to the agency.~~

~~(c) The addition or delicensure of beds. Notification under this subsection may be made by electronic, facsimile, or written means at any time before the described action has been taken.~~

Section 15. *Section 408.0361, Florida Statutes, is repealed.*

Section 16. Section 408.037, Florida Statutes, is amended to read:

408.037 Application content.—

(1) ~~Except as provided in subsection (2) for a general hospital,~~ An application for a certificate of need must contain:

- (a) A detailed description of the proposed project and statement of its purpose and need in relation to the district health plan.
- (b) A statement of the financial resources needed by and available to the applicant to accomplish the proposed project. This statement must include:

1. A complete listing of all capital projects, including new health facility development projects and health facility acquisitions applied for, pending, approved, or underway in any state at the time of application, regardless of whether or not that state has a certificate-of-need program or a capital expenditure review program pursuant to s. 1122 of the Social Security Act. The agency may, by rule, require less-detailed information from major health care providers. This listing must include the applicant's actual or proposed financial commitment to those pro-

jects and an assessment of their impact on the applicant's ability to provide the proposed project.

2. A detailed listing of the needed capital expenditures, including sources of funds.

3. A detailed financial projection, including a statement of the projected revenue and expenses for the first 2 years of operation after completion of the proposed project. This statement must include a detailed evaluation of the impact of the proposed project on the cost of other services provided by the applicant.

(c) An audited financial statement of the applicant or the applicant's parent corporation if audited financial statements of the applicant do not exist. In an application submitted by an existing health care facility, health maintenance organization, or hospice, financial condition documentation must include, but need not be limited to, a balance sheet and a profit-and-loss statement of the 2 previous fiscal years' operation.

~~(2) An application for a certificate of need for a general hospital must contain a detailed description of the proposed general hospital project and a statement of its purpose and the needs it will meet. The proposed project's location, as well as its primary and secondary service areas, must be identified by zip code. Primary service area is defined as the zip codes from which the applicant projects that it will draw 75 percent of its discharges. Secondary service area is defined as the zip codes from which the applicant projects that it will draw its remaining discharges. If, subsequent to issuance of a final order approving the certificate of need, the proposed location of the general hospital changes or the primary service area materially changes, the agency shall revoke the certificate of need. However, if the agency determines that such changes are deemed to enhance access to hospital services in the service district, the agency may permit such changes to occur. A party participating in the administrative hearing regarding the issuance of the certificate of need for a general hospital has standing to participate in any subsequent proceeding regarding the revocation of the certificate of need for a hospital for which the location has changed or for which the primary service area has materially changed. In addition, the application for the certificate of need for a general hospital must include a statement of intent that, if approved by final order of the agency, the applicant shall within 120 days after issuance of the final order or, if there is an appeal of the final order, within 120 days after the issuance of the court's mandate on appeal, furnish satisfactory proof of the applicant's financial ability to operate. The agency shall establish documentation requirements, to be completed by each applicant, which show anticipated provider revenues and expenditures, the basis for financing the anticipated cash flow requirements of the provider, and an applicant's access to contingency financing. A party participating in the administrative hearing regarding the issuance of the certificate of need for a general hospital may provide written comments concerning the adequacy of the financial information provided, but such party does not have standing to participate in an administrative proceeding regarding proof of the applicant's financial ability to operate. The agency may require a licensee to provide proof of financial ability to operate at any time if there is evidence of financial instability, including, but not limited to, unpaid expenses necessary for the basic operations of the provider.~~

~~(2)(3)~~ The applicant must certify that it will license and operate the health care facility. For an existing health care facility, the applicant must be the licenseholder of the facility.

Section 17. Paragraphs (c) and (d) of subsection (3), paragraphs (b) and (c) of subsection (5), and paragraph (d) of subsection (6) of section 408.039, Florida Statutes, are amended to read:

408.039 Review process.—The review process for certificates of need shall be as follows:

(3) APPLICATION PROCESSING.—

~~(c) Except for competing applicants, in order to be eligible to challenge the agency decision on a general hospital application under review pursuant to paragraph (5)(c), existing hospitals must submit a detailed written statement of opposition to the agency and to the applicant. The detailed written statement must be received by the agency and the applicant within 21 days after the general hospital application is deemed complete and made available to the public.~~

~~(d) In those cases where a written statement of opposition has been timely filed regarding a certificate of need application for a general hospital, the applicant for the general hospital may submit a written response to the agency. Such response must be received by the agency within 10 days of the written statement due date.~~

(5) ADMINISTRATIVE HEARINGS.—

~~(b) Hearings shall be held in Tallahassee unless the administrative law judge determines that changing the location will facilitate the proceedings. The agency shall assign proceedings requiring hearings to the Division of Administrative Hearings of the Department of Management Services within 10 days after the time has expired for requesting a hearing. Except upon unanimous consent of the parties or upon the granting by the administrative law judge of a motion of continuance, hearings shall commence within 60 days after the administrative law judge has been assigned. For an application for a general hospital, administrative hearings shall commence within 6 months after the administrative law judge has been assigned, and a continuance may not be granted absent a finding of extraordinary circumstances by the administrative law judge. All parties, except the agency, shall bear their own expense of preparing a transcript. In any application for a certificate of need which is referred to the Division of Administrative Hearings for hearing, the administrative law judge shall complete and submit to the parties a recommended order as provided in ss. 120.569 and 120.57. The recommended order shall be issued within 30 days after the receipt of the proposed recommended orders or the deadline for submission of such proposed recommended orders, whichever is earlier. The division shall adopt procedures for administrative hearings which shall maximize the use of stipulated facts and shall provide for the admission of prepared testimony.~~

~~(c) In administrative proceedings challenging the issuance or denial of a certificate of need, only applicants considered by the agency in the same batching cycle are entitled to a comparative hearing on their applications. Existing health care facilities may initiate or intervene in an administrative hearing upon a showing that an established program will be substantially affected by the issuance of any certificate of need, whether reviewed under s. 408.036(1) or (2), to a competing proposed facility or program within the same district. With respect to an application for a general hospital, competing applicants and only those existing hospitals that submitted a detailed written statement of opposition to an application as provided in this paragraph may initiate or intervene in an administrative hearing. Such challenges to a general hospital application shall be limited in scope to the issues raised in the detailed written statement of opposition that was provided to the agency. The administrative law judge may, upon a motion showing good cause, expand the scope of the issues to be heard at the hearing. Such motion shall include substantial and detailed facts and reasons for failure to include such issues in the original written statement of opposition.~~

(6) JUDICIAL REVIEW.—

~~(d) The party appealing a final order that grants a general hospital certificate of need shall pay the appellee's attorney's fees and costs, in an amount up to \$1 million, from the beginning of the original administrative action if the appealing party loses the appeal, subject to the following limitations and requirements:~~

~~1. The party appealing a final order must post a bond in the amount of \$1 million in order to maintain the appeal.~~

~~2. Except as provided under s. 120.595(5), in no event shall the agency be held liable for any other party's attorney's fees or costs.~~

Section 18. Subsection (1) of section 408.043, Florida Statutes, is amended to read:

408.043 Special provisions.—

~~(1) OSTEOPATHIC ACUTE CARE HOSPITALS.—When an application is made for a certificate of need to construct or to expand an osteopathic acute care hospital, the need for such hospital shall be determined on the basis of the need for and availability of osteopathic services and osteopathic acute care hospitals in the district. When a prior certificate of need to establish an osteopathic acute care hospital has been issued in a district, and the facility is no longer used for that~~

~~purpose, the agency may continue to count such facility and beds as an existing osteopathic facility in any subsequent application for construction of an osteopathic acute care hospital.~~

Section 19. Section 408.0455, Florida Statutes, is amended to read:

408.0455 Rules; pending proceedings.—The rules of the agency in effect on June 30, 2004, shall remain in effect and shall be enforceable by the agency with respect to ss. 408.031-408.045 until such rules are repealed or amended by the agency. *Rules 59C-1.039 through 59C-1.044, F.A.C., remain in effect for the sole purpose of maintaining licensure requirements for the applicable services until the agency has adopted rules for the corresponding services pursuant to s. 395.1055(1)(i), Florida Statutes 2018.*

Section 20. Subsection (3) of section 408.808, Florida Statutes, is amended to read:

408.808 License categories.—

(3) INACTIVE LICENSE.—An inactive license may be issued to a hospital or a health care provider subject to the certificate-of-need provisions in part I of this chapter when the provider is currently licensed, does not have a provisional license, and will be temporarily unable to provide services but is reasonably expected to resume services within 12 months. Such designation may be made for a period not to exceed 12 months but may be renewed by the agency for up to 12 additional months upon demonstration by the licensee of the provider's progress toward reopening. However, if after 20 months in an inactive license status, a statutory rural hospital, as defined in s. 395.602, has demonstrated progress toward reopening, but may not be able to reopen prior to the inactive license expiration date, the inactive designation may be renewed again by the agency for up to 12 additional months. For purposes of such a second renewal, if construction or renovation is required, the licensee must have had plans approved by the agency and construction must have already commenced pursuant to s. 408.032(4); however, if construction or renovation is not required, the licensee must provide proof of having made an enforceable capital expenditure greater than 25 percent of the total costs associated with the hiring of staff and the purchase of equipment and supplies needed to operate the facility upon opening. A request by a licensee for an inactive license or to extend the previously approved inactive period must be submitted to the agency and must include a written justification for the inactive license with the beginning and ending dates of inactivity specified, a plan for the transfer of any clients to other providers, and the appropriate licensure fees. The agency may not accept a request that is submitted after initiating closure, after any suspension of service, or after notifying clients of closure or suspension of service, unless the action is a result of a disaster at the licensed premises. For the purposes of this section, the term "disaster" means a sudden emergency occurrence beyond the control of the licensee, whether natural, technological, or manmade, which renders the provider inoperable at the premises. Upon agency approval, the provider shall notify clients of any necessary discharge or transfer as required by authorizing statutes or applicable rules. The beginning of the inactive license period is the date the provider ceases operations. The end of the inactive license period shall become the license expiration date. All licensure fees must be current, must be paid in full, and may be prorated. Reactivation of an inactive license requires the approval of a renewal application, including payment of licensure fees and agency inspections indicating compliance with all requirements of this part, authorizing statutes, and applicable rules.

Section 21. *The Office of Program Policy Analysis and Government Accountability shall review federal requirements and other states' licensure statutes and rules governing the provision of tertiary health services as defined in s. 408.032, Florida Statutes 2018, and shall make recommendations to the President of the Senate and the Speaker of the House of Representatives on best practices, including recommendations on minimum volume requirements, as applicable, regarding the establishment of licensure standards for such programs by November 1, 2019.*

Section 22. Except as otherwise expressly provided in this act, this act shall take effect July 1, 2019.

And the title is amended as follows:

THE PRESIDENT PRESIDING

Senator Harrell moved the following amendment:

Amendment 1 (623018) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. *It is the intent of the Legislature to promote programs and initiatives that help make available preventive and educational dental services for the residents of the state, as well as provide quality dental treatment services. The geographic characteristics among the residents of the state are distinctive and vary from region to region, with such residents having unique needs regarding access to dental care. The Legislature recognizes that maintaining good oral health is integral to the overall health status of individuals and that the good health of the residents of this state is an important contributing factor in economic development. Better health, including better oral health, increases workplace productivity, reduces the burden of health care costs, and improves the cognitive development of children, resulting in a reduction of missed school days.*

Section 2. Section 381.4019, Florida Statutes, is created to read:

381.4019 Dental Student Loan Repayment Program.—*The Dental Student Loan Repayment Program is established to promote access to dental care by supporting qualified dentists who treat medically underserved populations in dental health professional shortage areas or medically underserved areas.*

(1) *As used in this section, the term:*

For purposes of this paragraph, the term “reasonable compliance” means the ability to select alternative solutions to ensure that the property meets the level of firesafety required by the Florida Fire Prevention Code. As to a residential condominium building that is a high-rise building as defined under the Florida Fire Prevention Code, the association may either retrofit a fire sprinkler system or install an engineered life safety system as specified in the Florida Fire Prevention Code Certificate of compliance. A provision that a certificate of compliance from a licensed electrical contractor or electrician may be accepted by the association’s board as evidence of compliance of the condominium units with the applicable fire and life safety code must be included. Notwithstanding chapter 633 or of any other code, statute, ordinance, administrative rule, or regulation, or any interpretation of the foregoing, an association, residential condominium, or unit owner is not obligated to retrofit the common elements, association property, or units of a residential condominium with a fire sprinkler system in a building that has been certified for occupancy by the applicable governmental entity if the unit owners have voted to forego such retrofitting by the affirmative vote of a majority of all voting interests in the affected condominium.~~

1. The local authority having jurisdiction may not require completion of retrofitting with a fire sprinkler system or completion of installation of an engineered life safety system before January 1, 2024 2020. ~~By December 31, 2016, a residential condominium association that is not in compliance with the requirements for a fire sprinkler system and has not voted to forego retrofitting of such a system must initiate an application for a building permit for the required installation with the local government having jurisdiction demonstrating that the association will become compliant by December 31, 2019.~~

1. ~~A vote to forego retrofitting may be obtained by limited proxy or by a ballot personally cast at a duly called membership meeting, or by execution of a written consent by the member, and is effective upon recording a certificate attesting to such vote in the public records of the county where the condominium is located. The association shall mail or hand deliver to each unit owner written notice at least 14 days before the membership meeting in which the vote to forego retrofitting of the required fire sprinkler system is to take place. Within 30 days after the association’s opt out vote, notice of the results of the opt out vote must be mailed or hand delivered to all unit owners. Evidence of compliance with this notice requirement must be made by affidavit executed by the person providing the notice and filed among the official records of the association. After notice is provided to each owner, a copy must be provided by the current owner to a new owner before closing and by a unit owner to a renter before signing a lease.~~

2. ~~If there has been a previous vote to forego retrofitting, a vote to require retrofitting may be obtained at a special meeting of the unit owners called by a petition of at least 10 percent of the voting interests. Such a vote may only be called once every 3 years. Notice shall be provided as required for any regularly called meeting of the unit owners, and must state the purpose of the meeting. Electronic transmission may not be used to provide notice of a meeting called in whole or in part for this purpose.~~

3. ~~As part of the information collected annually from condominiums, the division shall require condominium associations to report the membership vote and recording of a certificate under this subsection and, if retrofitting has been undertaken, the per unit cost of such work. The division shall annually report to the Division of State Fire Marshal~~

~~of the Department of Financial Services the number of condominiums that have elected to forego retrofitting.~~

2.4. Notwithstanding s. 553.509, a residential association may not be obligated to, and may forego the retrofitting of, any improvements required by s. 553.509(2) upon an affirmative vote of a majority of the voting interests in the affected condominium.

Section 5. *By July 1, 2019, the State Fire Marshal shall issue a data call to all local fire officials to collect data regarding high-rise condominiums greater than 75 feet in height which have not retrofitted with a fire sprinkler system or an engineered life safety system in accordance with ss. 633.208(5) and 718.112(2)(l), Florida Statutes. Local fire officials shall submit such data to the State Fire Marshal and shall include, for each individual building, the address, the number of units, and the number of stories. By July 1, 2020, all data must be received and compiled into a report by city and county. By September 1, 2020, the report must be sent to the Governor, the President of the Senate, and the Speaker of the House of Representatives.*

Section 6. This act shall take effect upon becoming a law.

And the title is amended as follows:

Delete everything before the enacting clause and insert: A bill to be entitled An act relating to firesafety systems; amending s. 553.792, F.S.; requiring, beginning on a certain date, that a uniform fire alarm permit application, along with certain other information, be used and submitted to the local enforcement agency for any project requiring a fire alarm permit; providing that such application may be submitted by certain means; providing a signature requirement; specifying information required in, and a form for, such applications; providing applicability of certain building permit application procedures; authorizing contractors, under certain circumstances, to begin fire alarm system repairs upon filing the uniform fire alarm permit application; amending s. 633.216, F.S.; conforming a cross-reference; amending s. 633.312, F.S.; authorizing local authorities having jurisdiction to accept uniform summary inspection reports of certain fire hydrants and fire protection systems by certain means; requiring the State Fire Marshal to adopt rules implementing a uniform summary inspection report and certain submission procedures; providing requirements for such uniform report and procedures; providing that such procedures may not require a contractor to submit certain information; amending s. 718.112, F.S.; requiring that condominium association bylaws provide requirements for the association’s reasonable compliance with the Florida Fire Prevention Code; defining the term “reasonable compliance”; specifying authorized means of compliance for certain residential condominiums; deleting a requirement for association bylaws to contain a certain certificate of compliance provision; deleting an exemption from a requirement to retrofit certain condominium property with a fire sprinkler system; deleting obsolete provisions; extending the date before which a local authority having jurisdiction may not require completion of a condominium’s retrofitting with a fire sprinkler system; specifying the date before which such local authority having jurisdiction may not require completion of installation of an engineered life safety system; requiring the State Fire Marshal, by a certain date, to issue a data call to all local fire officials to collect data on certain high-rise condominiums; specifying data that local fire officials must submit; requiring that all data be received and compiled into a certain report by a certain date; requiring that the report be sent to the Governor and the Legislature by a certain date; providing an effective date.

PRAYER

The following prayer was offered by Rabbi Moshe Matz, Executive Director, Agudath Israel of Florida, Miami Beach:

In Jewish tradition, prayer is a formal and structured expression of our relationship and reliance on our Father in heaven. We gather together three times a day in prayer: once in the morning to begin our day with the right focus; once again in the middle of the afternoon to ensure we have not been distracted; and finally in the evening to conclude the day by reaffirming the recognition of G-d in our lives. The key to successful prayer is humility. With this in mind, we would like to beseech the almighty creator with sincere humility through a prayer that we say three times a day: "You graciously endow man with wisdom and teach insight to a frail mortal. Endow us graciously from yourself with wisdom, insight, and discernment. Blessed are you, Hashem, gracious giver of wisdom."

We should be able to use our G-d given wisdom to promote his values and to practice his will. And in these challenging days, people of faith are targeted for their beliefs and practices like we witnessed just this week in the hate-filled attack in a synagogue in Poway, California. We beg the almighty for his divine protection and guidance to be true ambassadors of love and respect.

May G-d bless you and all the selfless government officials that work on our behalf and the citizens of our beautiful State of Florida. May G-d

continue to bless and bestow bounty on the beacon of freedom that we know as the United States of America.

MOMENT OF SILENCE

At the request of the President, the Senate observed a moment of silence for the Chabad of Poway congregation following a shooting at the synagogue on April 27 and to honor Lori Gilbert-Kaye, who was killed in the shooting.

PLEDGE

Senate Pages, Malia Brown of Tallahassee; Aziza Davis of Tallahassee; Elon Davis of Tallahassee; and Timothy Glass of Tallahassee, led the Senate in the Pledge of Allegiance to the flag of the United States of America.

Section 2. Subsection (1) of section 633.216, Florida Statutes, is amended to read:

633.216 Inspection of buildings and equipment; orders; firesafety inspection training requirements; certification; disciplinary action.—The State Fire Marshal and her or his agents or persons authorized to enforce laws and rules of the State Fire Marshal shall, at any reasonable hour, when the State Fire Marshal has reasonable cause to believe that a violation of this chapter or s. 509.215, or a rule adopted thereunder, or a minimum firesafety code adopted by the State Fire Marshal or a local authority, may exist, inspect any and all buildings and structures which are subject to the requirements of this chapter or s. 509.215 and rules adopted thereunder. The authority to inspect shall extend to all equipment, vehicles, and chemicals which are located on or within the premises of any such building or structure.

(1) Each county, municipality, and special district that has firesafety enforcement responsibilities shall employ or contract with a firesafety inspector. Except as provided in s. 633.312(2), and (3), and (4), the firesafety inspector must conduct all firesafety inspections that are required by law. The governing body of a county, municipality, or special district that has firesafety enforcement responsibilities may provide a schedule of fees to pay only the costs of inspections conducted pursuant to this subsection and related administrative expenses. Two or more counties, municipalities, or special districts that have firesafety enforcement responsibilities may jointly employ or contract with a firesafety inspector.

the applicable uniform summary inspection report established under this chapter. The local authority having jurisdiction may accept uniform summary inspection reports by United States mail, by hand delivery, by electronic submission, or through a third-party vendor that collects the reports on behalf of the local authority having jurisdiction.

(b) The State Fire Marshal shall adopt rules to implement a uniform summary inspection report and submission procedures to be used by all third-party vendors and local authorities having jurisdiction. For purposes of this section, a uniform summary inspection report must record the address where the fire protection system or hydrant is located, the company and person conducting the inspection and their license number, the date of the inspection, and the fire protection system or hydrant inspection status, including a brief summary of each deficiency, critical deficiency, noncritical deficiency, or impairment found. A contractor's detailed inspection report is not required to follow the uniform summary inspection report format. The State Fire Marshal shall establish by rule a submission procedure for each means provided under paragraph (a) by which a local authority having jurisdiction may accept uniform summary inspection reports. Each of the submission procedures must allow a contractor to attach additional documents with the submission of a uniform summary inspection report, including a physical copy of the contractor's detailed inspection report. A submission procedure may not require a contractor to submit information contained within the detailed inspection report unless the information is required to be included in the uniform summary inspection report.

(4) The maintenance of fire hydrant and fire protection systems as well as corrective actions on deficient systems is the responsibility of the owner of the system or hydrant. Equipment requiring periodic testing or operation to ensure its maintenance shall be tested or operated as specified in the Fire Prevention Code, Life Safety Code, National Fire Protection Association standards, or as directed by the appropriate authority, provided that such appropriate authority may not require a sprinkler system not required by the Fire Prevention Code, Life Safety Code, or National Fire Protection Association standards to be removed regardless of its condition. This section does not prohibit governmental entities from inspecting and enforcing firesafety codes.

Section 4. Paragraph (1) of subsection (2) of section 718.112, Florida Statutes, is amended to read:

718.112 Bylaws.—

(2) REQUIRED PROVISIONS.—The bylaws shall provide for the following and, if they do not do so, shall be deemed to include the following:

(1) Certificate of compliance.—A provision that a certificate of compliance from a licensed electrical contractor or electrician may be accepted by the association's board as evidence of compliance of the condominium units with the applicable fire and life safety code must be included. Notwithstanding chapter 633 or of any other code, statute, ordinance, administrative rule, or regulation, or any interpretation of the foregoing, an association, residential condominium, or unit owner is not obligated to retrofit the common elements, association property, or units of a residential condominium with a fire sprinkler system in a building that has been certified for occupancy by the applicable governmental entity if the unit owners have voted to forego such retrofitting by the affirmative vote of a majority of all voting interests in the affected condominium. The local authority having jurisdiction may not require completion of retrofitting with a fire sprinkler system or completion of installation of an engineered life safety system before January 1, 2024 2020. By December 31, 2020 2016, a residential condominium association that is not in compliance with the requirements for a fire sprinkler system and that had ~~has~~ not voted to forego retrofitting of such a system by December 31, 2016, must initiate an application for a building permit for the required installation with the local government having jurisdiction demonstrating that the association will become compliant by December 31, 2023 2019.

1. A vote to forego retrofitting may be obtained by limited proxy or by a ballot personally cast at a duly called membership meeting, or by execution of a written consent by the member, and is effective upon recording a certificate attesting to such vote in the public records of the county where the condominium is located. The association shall mail or hand deliver to each unit owner written notice at least 14 days before the membership meeting in which the vote to forego retrofitting of the required fire sprinkler system is to take place. Within 30 days after the

association's opt-out vote, notice of the results of the opt-out vote must be mailed or hand delivered to all unit owners. Evidence of compliance with this notice requirement must be made by affidavit executed by the person providing the notice and filed among the official records of the association. After notice is provided to each owner, a copy must be provided by the current owner to a new owner before closing and by a unit owner to a renter before signing a lease.

2. If there has been a previous vote to forego retrofitting, a vote to require retrofitting may be obtained at a special meeting of the unit owners called by a petition of at least 10 percent of the voting interests. Such a vote may only be called once every 3 years. Notice shall be provided as required for any regularly called meeting of the unit owners, and must state the purpose of the meeting. Electronic transmission may not be used to provide notice of a meeting called in whole or in part for this purpose.

3. As part of the information collected annually from condominiums, the division shall require condominium associations to report the membership vote and recording of a certificate under this subsection and, if retrofitting has been undertaken, the per-unit cost of such work. The division shall annually report to the Division of State Fire Marshal of the Department of Financial Services the number of condominiums that have elected to forego retrofitting.

4. Notwithstanding s. 553.509, a residential association may not be obligated to, and may forego the retrofitting of, any improvements required by s. 553.509(2) upon an affirmative vote of a majority of the voting interests in the affected condominium.

5. This paragraph does not apply to timeshare condominium associations, which shall be governed by s. 721.24.
