PRAYER

The following prayer was offered by Rabbi Mendel Danow, Chabad Pensacola:

Honorable Senators, esteemed guests, and all those gathered in the Chamber of the Florida Senate,

With profound humility and reverence, we turn our hearts and minds in prayer to the Almighty, the Master of the Universe. Almighty G-D, in your infinite wisdom, we implore you to bestow upon each Senator and every honorable guest present in this esteemed assembly the gift of wisdom, understanding, and knowledge. May their dedicated service to the great State of Florida be blessed and guided by your divine wisdom. As we come together in unity and shared purpose, we humbly request that you extend your benevolent blessings to each soul in this chamber. May their efforts and decisions bring about a flourishing Florida, where the principles of justice, compassion, and unity are upheld. Grant, Almighty G-D, that the members of this house constantly realize that by enacting just laws, they are doing your will.

Our hearts are heavy with concern for our brothers and sisters in Israel, who are facing turmoil and adversity. In this moment of reflection, we pray for the 1,400 men, women, and children who were mercilessly slaughtered. We join in prayer for the safety and well-being of the people of the Land of Israel, millions of Jewish people who are being

attacked daily by violence and terror, and for the 239 men, women, children, and even tiny babies who were brutally kidnapped.

G-D Almighty, we beseech you to provide comfort and support to the families who have suffered the loss of loved ones. Extend your divine protection to those held captive, granting them a swift and safe return to their homes and families. Bring healing to the wounded, and strength and courage to the soldiers of the Israeli Defense Force, who are sacrificing their lives daily to protect the people of the Holy Land, the Land of Israel. We pray for the leaders of Israel, along with the leaders of the United States of America, beseeching you to grant them the wisdom, courage, and resolve to bring about swift and just victory to the challenges they face.

The medieval Biblical commentator known as Rashi taught that the Bible begins with the account of creation in order to express that you, G-D alone, created the world and chose to give the Land of Israel to the children of Israel. In the timeless words of King David in the Book of Psalms: “May there be peace within your walls, tranquility within your palaces.”

May we merit to see the fulfillment of Isaiah’s promise speedily, “Nation shall not lift the sword against nation, neither shall they learn war anymore.” With the coming of the righteous Moshiach, may it be speedily in our days. Amen.

PLEDGE

Senator Book led the Senate in the Pledge of Allegiance to the flag of the United States of America.

Dear Secretary Byrd:

By the authority vested in me as Governor of the State of Florida, under the provisions of Article III, Section 8 of the Constitution of Florida, I do hereby veto and transmit my objection to Committee Substitute for Committee Substitute for Senate Bill 1188 (CS/CS/SB 1188), enacted during the 125th Session of the Legislature of Florida during the Regular Session 2023 and entitled:

An act related to Contract Liability

Establishing a statutory cap on vendor liability unnecessarily hampers agencies in contract negotiations, potentially putting taxpayers at risk of harm at the hands of irresponsible vendors.

The Department of Management Services has existing authority to establish standard contract terms for use by state agencies which is outlined in the Florida Administrative Code. Current rules limit vendor liability as a starting point while giving agencies the flexibility to alter such terms when in the best interest of the state, protecting taxpayer funds.

Given that these rules have not been updated in some time, I am directing the Department to immediately initiate rulemaking to modernize these provisions. Doing so will allow the vendor community and impacted state agencies to provide feedback.

For these reasons, I withhold my approval of CS/CS/SB 1188 and do hereby veto the same.

Sincerely,

Ron DeSantis
Governor

The bill, together with the Governor's objections thereto, was referred to the Committee on Rules.

June 15, 2023

Dear Secretary Byrd:

I presented my recommended budget in February of this year, laying out a blueprint for the Free State of Florida. Since then, I have signed monumental legislation that promises Floridians will enjoy fundamental freedoms for years to come. The Fiscal Year 2023-24 Framework for Freedom Budget invests historic funding in Educational Freedom, Florida's natural resources, and the safety of all Floridians.

Florida parents now have the choice of what educational environment is best for their children. This year, we provided \$2.7 billion in tax relief to Florida families, the largest amount of tax relief in our state's history, and includes permanent tax cuts on baby and toddler items, such as cribs, strollers and diapers. \$4 billion is provided for the Moving Florida Forward Initiative to accelerate transportation projects across the state. These record investments, despite record inflationary levels at the hands of the federal government, are a testament to the strength of Florida's economy. In addition to these significant investments, the Framework for Freedom Budget maintains major reserves in excess of \$15 billion, which includes the \$510.9 million in line-item vetoes I am issuing, to ensure that our State remains resilient and responsive to unforeseen emergencies.

Florida leads. We prioritize the rights of our families to earn a living, go to school, and worship in church. We work together to produce results. Bridges are built in days. Schools are open. Our economy is strong. This framework for freedom will serve as Florida's blueprint for success for generations to come.

By the authority vested in me as Governor of Florida, under the provisions of Article III, Section 8, of the Constitution of Florida, I do

hereby withhold my approval of portions of Senate Bill 2500, enacted during the 125th Session of the Legislature, and entitled:

EXECUTIVE ORDER NUMBER 23-160 (Executive Order of Suspension)

WHEREAS, Article IV of the Florida Constitution vests the State's supreme executive power in the Governor and requires the Governor to take care that the laws of Florida are faithfully executed. Art. IV, § 1(a), Fla. Const.; and

WHEREAS, in furtherance of the Governor's executive responsibility, the Governor may suspend from office any state officer not subject to impeachment for that officer's malfeasance, misfeasance, neglect of duty, drunkenness, incompetence, permanent inability to perform official duties, or commission of a felony. Art. IV, § 7(a), Fla. Const.; and

WHEREAS, state attorneys are state officers constitutionally elected to serve as the prosecuting officers of all trial courts within each judicial circuit. Art. V, § 17, Fla. Const.; and

WHEREAS, state attorneys are not subject to impeachment, *see* Art. III, § 17, Fla. Const., and thus are eligible for suspension by the Governor and removal by the Senate, *see* Art. IV, § 7(a), (b), Fla. Const.; and

WHEREAS, "neglect of duty" refers to "the neglect or failure on the part of a public officer to do and perform some duty or duties laid on him as such by virtue of his office or which is required of him by law." *Israel v. DeSantis*, 269 So. 3d 491, 496 (Fla. 2019) (quoting *State ex rel. Hardie v. Coleman*, 155 So. 129, 132 (Fla. 1934)). "It is not material whether the neglect be willful, through malice, ignorance, or oversight." *Id.* But "[w]hen such neglect is grave and the frequency of it is such as to endanger or threaten the public welfare it is gross." *Id.*; and

WHEREAS, "incompetence" may arise from "gross ignorance of official duties or gross carelessness in the discharge of them" or from "lack of judgment and discretion." *Id.* (quoting *Hardie*, 155 So. at 133); and

WHEREAS, the power vested in the Governor to suspend an officer under the Constitution is "executive" and "in no sense judicial or quasi judicial"; it "involves judgment and discretion on the part of the Governor." *Hardie*, 155 So. at 133; and

WHEREAS, the Legislature has enacted a comprehensive code of criminal offenses and corresponding penalties designed to best promote safety, order, and liberty in our State; and

WHEREAS, Florida law provides that the "provision of criminal penalties and of limitations upon the application of such penalties is a matter of predominantly substantive law and, as such, is a matter properly addressed by the Legislature." § 921.002(1), Fla. Stat.; and

WHEREAS, state attorneys have a "duty to prosecute violations of the law," *State ex rel. Hardee v. Allen*, 172 So. 222, 225 (Fla. 1937), and it is neglect of duty "to knowingly permit [criminal conduct] and prefer no charges therefor," *id.* at 224. *See also id.* at 223-24 (concluding that the Governor's suspension of a Tampa prosecutor for "neglect of duty" was sufficiently based on the prosecutor's alleged unwillingness to prosecute gambling offenses); and

WHEREAS, Monique Worrell ("Worrell") is the State Attorney for the Ninth Judicial Circuit of the State of Florida (hereafter, "Ninth Circuit"), which includes Orange and Osceola Counties, and has been in that office since January 5, 2021; and

WHEREAS, during Worrell's tenure in office, the administration of criminal justice in the Ninth Circuit has been so clearly and fundamentally derelict as to constitute both neglect of duty and incompetence;

WHEREAS, Worrell has authorized or allowed practices or policies that have systematically permitted violent offenders, drug traffickers, serious juvenile offenders, and pedophiles to evade incarceration when otherwise warranted under Florida law. These practices or policies include non-filing or dropping meritorious charges or declining to allege

otherwise provable facts to avoid triggering applicable lengthy sentences, minimum mandatory sentences, or other sentencing enhancements, especially for offenders under the age of 25, except in the most extreme cases. Worrell's practices or policies contravene the policies of the Florida Legislature as expressed in statute and undermine the safety, security, and welfare of the communities that Worrell has been elected to serve; and

WHEREAS, specifically, Worrell has authorized or allowed practices or policies whereby her assistant state attorneys are generally prevented or discouraged from obtaining meritorious minimum mandatory sentences for gun crimes; and

WHEREAS, Florida has enacted, for example, section 775.087(2), Florida Statutes, which prescribes the following minimum mandatory sentences for the use of a firearm during a violent felony: 10 years for any person who actually possesses a firearm during the attempt or commission of certain serious felonies; 20 years for any person who discharges a firearm during the attempt or commission of certain serious felonies; and 25 years for any person who discharges a firearm during the attempt or commission of certain serious felonies, and the discharge results in death or great bodily harm. *See also* § 775.087(3), Fla. Stat. (establishing similar minimum mandatory sentences for certain semiautomatic firearms and machine guns); and

WHEREAS, section 775.087(2)(a)1., Florida Statutes, also provides for a three-year minimum mandatory sentence for any person who has actual possession of a firearm and has been convicted of a felony; and

WHEREAS, Florida law states that "[i]t is the intent of the Legislature that offenders who actually possess, carry, display, use, threaten to use, or attempt to use firearms or destructive devices be punished to the fullest extent of the law, and the minimum terms of imprisonment imposed pursuant to this subsection shall be imposed for each qualifying felony count for which the person is convicted." § 775.087(2)(d), Fla. Stat.; *see also* § 775.087(3)(d), Fla. Stat. Also, in cases where a firearm is "used in furtherance of the crime, used in order to commit the crime, or used in preparation to commit the crime," prosecutors lack discretion to deviate from the minimum mandatory sentence, as it is "the intent of the Legislature to establish zero tolerance of criminals who use, threaten to use, or avail themselves of firearms in order to commit crimes and thereby demonstrate their lack of value for human life." § 27.366, Fla. Stat.; and

WHEREAS, despite the Legislature's policy reflected in sections 775.087(2)(d), (3)(d), and 27.366, Florida Statutes; to subject felons who use a firearm in the commission of a violent felony to minimum mandatory sentences, assistant state attorneys in the Ninth Circuit have been prevented or discouraged from pursuing such minimum mandatory sentences; and

WHEREAS, Worrell's practices or policies of evading minimum mandatory sentences for gun crimes are corroborated by her prosecutorial record. For instance, the Osceola County Sheriff's Office reports that it referred 58 non-homicide Robbery with a Firearm cases to the Ninth Circuit in 2021 and 2022. As of May 2023, only one of those cases had resulted in the minimum mandatory sentence of ten years. Similarly, during that same two-year period, the Osceola County Sheriff's Office referred 11 non-homicide Carjacking with a Firearm cases to the Ninth Circuit, but only one had resulted in the minimum mandatory sentence of ten years. The Ninth Circuit also received 14 non-homicide cases involving Home Invasion Robbery with a Firearm from the Osceola County Sheriff's Office, yet not one of those arrests resulted in the minimum mandatory sentence. Finally, of the 130 cases involving Possession of a Firearm by a Convicted Felon referred to the Ninth Circuit in 2021 and 2022 by the Osceola County Sheriff's Office, only five had resulted in a minimum mandatory sentence; and

WHEREAS, Worrell's practices or policies of evading minimum mandatory sentences for gun crimes are further corroborated by data from the Florida Department of Corrections. With respect to prison admissions from January 1, 2022, to March 31, 2023, the Ninth Circuit, on a per capita basis, had among the lowest prison admission rates relative to the other circuits for the following crimes: robbery with a weapon, armed burglary, and weapons possession. *See* Exhibit A; and

WHEREAS, Worrell's practices or policies of avoiding minimum mandatory sentences for gun crimes not only defies the expressed will of

the Florida Legislature, it also subjects the residents of Orange and Osceola Counties and surrounding areas to increased risk of harm as violent criminals in the community are too often left on the streets or prematurely returned to the streets to cause further violence and mischief; and

WHEREAS, Worrell has similarly authorized or allowed practices or policies whereby her assistant state attorneys are generally prevented or discouraged from obtaining meritorious minimum mandatory sentences for drug trafficking offenses; and

WHEREAS, section 893.135, Florida Statutes, sets forth minimum mandatory sentences for drug crimes. Under Florida law, drug “trafficking” offenses are determined solely by the quantity of drugs at issue—prosecutors need not establish any intent to sell or distribute drugs to secure a conviction for a drug trafficking crime. For each illegal drug, the Florida Legislature has established a threshold quantity that constitutes “trafficking” in that substance as well as a minimum mandatory sentence that must result as a consequence of such trafficking. *See generally* § 893.135, Fla. Stat. For example, anyone knowingly possessing 28 grams or more of cocaine has committed the felony of “trafficking in cocaine” and must serve a mandatory term of imprisonment of at least 3 years. § 893.135(l)(b), Fla. Stat.; and

WHEREAS, despite the Legislature’s policy reflected in section 893.135, Florida Statutes, assistant state attorneys in the Ninth Circuit have been prevented or discouraged from pursuing minimum mandatory sentences for drug trafficking; and

WHEREAS, Worrell’s practices or policies of evading minimum mandatory sentences for drug trafficking are corroborated by her prosecutorial record. For instance, the Osceola County Sheriff’s Office reports that it referred 32 drug trafficking cases to Worrell’s office in 2021, but as of March 2023, only three have resulted in a minimum mandatory sentence. Of the 64 drug trafficking cases referred in 2022, none have resulted in a minimum mandatory sentence; and

WHEREAS, Worrell’s practices or policies of evading minimum mandatory sentences for drug trafficking are further corroborated by data from the Florida Department of Corrections. According to data compiled for the period from January 1, 2022, through March 31, 2023, the Ninth Circuit ranks last among all circuits, on a per capita basis, in the number of people who are incarcerated for drug trafficking offenses. During this period, the Ninth Circuit sent 39 per million residents to prison for the crime of drug trafficking whereas the statewide average was 114.3. *See Exhibit A*; and

WHEREAS, the foregoing practices or policies, which avoid minimum mandatory sentences for gun crimes and drug trafficking, constitute “neglect of duty” and “incompetence”; and

WHEREAS, Worrell has also been derelict in prosecuting serious crimes committed by juvenile offenders. State attorneys have a responsibility to incarcerate violent criminals, including juveniles, but Worrell has pursued practices or adopted policies whereby assistant state attorneys in her office are generally prevented or discouraged from incarcerating or even charging serious juvenile offenders; and

WHEREAS, under Worrell’s direction, the Ninth Circuit has used a variety of techniques to allow serious juvenile offenders to evade incarceration where it would otherwise be appropriate. Assistant state attorneys are generally prevented or discouraged from “direct filing” cases (whereby juveniles are charged as adults) and are encouraged to effectively drop charges against juvenile defendants, either by not filing the charges in the first place (“non-files”) or by voluntarily abandoning the charges after they have been filed (“nolle prosequi”); and

WHEREAS, Worrell’s practices or policies with respect to serious juvenile offenders are corroborated by data compiled by the Florida Department of Juvenile Justice (“DJJ”). This data establishes that during Worrell’s tenure as the State Attorney, the Ninth Circuit is last of all 20 circuits in Florida in the percentage of juvenile felony cases, including firearm-related felonies and violent felonies, that are direct filed based on the most serious offense disposed. *See Exhibit B*. In addition, the Ninth Circuit has consistently been first among all circuits in the percentage of juvenile felony cases, including firearm-related felonies and violent felonies, dropped as a result of a non-file or a nolle prosequi; and

WHEREAS, the Ninth Circuit under Worrell’s leadership has also ranked last—in many cases by a considerable distance—in terms of juvenile case processing times. As DJJ has explained in a recent report on case processing times across the State, *see Exhibit C*: “Long case processing times mean that juveniles are not being held accountable for their actions in a timely manner. Delays in case processing may negatively impact public safety by preventing access to necessary treatments and services to address the juveniles’ behavior.” DJJ has also warned: “Excessive case processing times delay the opportunity for the department to identify and address the youth’s risks and needs through evidence-based treatments and interventions. This delays the opportunity for earlier intervention and leaves the youth’s criminogenic needs unaddressed for an extended period of time. Such delays permit the underlying problems to continue or even to spin out of control, and do not serve the interest of public safety or youth in need of treatment”; and

WHEREAS, according to the recent DJJ report on case processing times, for Fiscal Year 2021-22, the Ninth Circuit had an average case processing time of 212 days in the juvenile justice system. This ranks the Ninth Circuit last among Florida’s 20 judicial circuits. The average case processing time in the juvenile justice system was 106 days—exactly half of the Ninth Circuit’s output—and the next worst circuit (the Seventeenth) had an average case processing time of 188 days; and

WHEREAS, for Fiscal Year 2021-22, the Ninth Circuit had an average case processing time of 225 days for first-time offenders in the juvenile justice system. Once again, this ranks the Ninth Circuit last among Florida’s 20 judicial circuits. The average case processing time for first time offenders in the juvenile justice system was 78 days—about one third of the Ninth Circuit and the next worst circuit (this time the Eleventh) had an average case processing time of 140 days. As DJJ has explained, “[f]irst-time offenders are a critical population to reach early on to prevent their further involvement with the juvenile justice system”; and

WHEREAS, this inexcusable delay in processing juvenile offenses cannot reasonably be attributed to any inherent structural issues with the Ninth Circuit. For Fiscal Year 2019-20—the last full reporting period before Worrell assumed office—the Ninth Circuit had an average juvenile case processing time of 116 days. For the most recent reporting period of Fiscal Year 2021-22, that number went up to 212 days, an increase of 96 days. This is the largest increase for any circuit in the State during the same period. The statewide average increase was 18 days, with only the Seventeenth Circuit seeing a comparable increase in case processing times (90 days); and

WHEREAS, the DJJ data demonstrates that, since taking office, Worrell has kept serious juvenile offenders on the streets and out of incarceration. The Ninth Circuit is an outlier and uniformly ranks last (or first in terms of poor performance) on each key metric related to juvenile justice accountability, consistently below (or above in terms of poor performance) the statewide average. No other circuit in the State has a similarly dismal record on juvenile justice over the past two years; and

WHEREAS, the foregoing practices or policies, which have the effect of avoiding incarceration or accountability for serious juvenile offenders, constitute “neglect of duty” and “incompetence”; and

WHEREAS, Worrell has authorized or allowed practices or policies whereby her assistant state attorneys are generally prevented or discouraged from seeking certain sentencing enhancements, such as for prison release reoffenders (PRRs) and habitual violent felony offenders (HVFOs). These enhancements were enacted by the Florida Legislature to ensure that repeat violent offenders are subject to sufficiently stringent minimum mandatory sentences; and

WHEREAS, under Florida law, a PRR is a defendant who: (1) attempts or commits an enumerated felony; (2) within 3 years of release from federal or state prison or while serving a prison sentence or on escape status; (3) for a crime punishable by at least 1 year in prison in the State of Florida. § 775.082(9)(a)1., (9)(a)2., Fla. Stat. PRRs are taken out of the sentencing guidelines and are subject to more stringent minimum mandatory sentences. For instance, a PRR who is convicted of a third-degree felony will be sentenced to a minimum of five years in prison, *see* § 775.082(9)(a)3.d., Fla. Stat., whereas without the PRR designation, a five-year sentence would ordinarily be the maximum possible sentence for a felon in the third degree, *see* § 775.082(3)(e), Fla.

Stat. While state attorneys have discretion whether to seek a PRR designation, the Legislature has clearly stated its intent that eligible PRRs are “punished to the fullest extent of the law and as provided in this subsection, unless the state attorney determines that extenuating circumstances exist which preclude the just prosecution of the offender, including whether the victim recommends that the offender not be sentenced as provided in this subsection,” § 775.082(9)(d), Fla. Stat.; and

WHEREAS, under Florida law, an HVFO is a defendant who meets two conditions: (1) has previously been convicted of attempting or committing an enumerated felony (including, but not limited to, sexual battery, robbery, or manslaughter), and (2) has been convicted of a subsequent felony that occurred either when the defendant was in prison for the previous enumerated felony, within five years of the conviction date of the previous enumerated felony, or within five years of release from a prison sentence for the previous enumerated felony. § 775.084(1)(b), Fla. Stat. As with PRRs, HVFOs are taken out of the sentencing guidelines and are subject to more stringent minimum mandatory sentences. *See* § 775.084(4)(b), Fla. Stat.; and

WHEREAS, the Florida Legislature enacted sentencing enhancements, such as the PRR and HVFO enhancements, to provide uniformity of sentencing across the State as well as to ensure that repeat, violent offenders are subjected to sufficiently lengthy prison terms; and

WHEREAS, since taking office, Worrell has thwarted the will of the Legislature by preventing or discouraging assistant state attorneys in her office from seeking sentencing enhancements for otherwise eligible defendants; and

WHEREAS, the foregoing practices or policies, which evade minimum mandatory sentencing enhancements for eligible defendants, constitute “neglect of duty” and “incompetence”; and

WHEREAS, section 827.071(5)(a), Florida Statutes, makes it unlawful “for any person to knowingly possess, control, or intentionally view a photograph, motion picture, exhibition, show, representation image, data, computer depiction, or other presentation which, in whole or in part, he or she knows to include child pornography” and specifies that the possession, control, or intentional viewing of each image is a separate offense; and

WHEREAS, Worrell has authorized or allowed practices or policies that limit the number of charges for Possession of Child Pornography on which the assistant state attorneys in her office may obtain a conviction, even when additional counts could be charged and proven at trial; and

WHEREAS, Worrell’s practice or policy of arbitrarily limiting the number of counts for Possession of Child Pornography that may be prosecuted against a defendant is corroborated by data from the Florida Department of Corrections. With respect to prison admissions from January 1, 2022, to March 31, 2023, the Ninth Circuit, on a per capita basis, had among the lowest prison admission rates relative to the other circuits for crimes involving lewd and lascivious behavior, which includes Possession of Child Pornography and other sex crimes against children. *See* Exhibit A; and

WHEREAS, Worrell’s practice or policy of arbitrarily limiting the number of counts for Possession of Child Pornography that may be prosecuted against a defendant endangers vulnerable children in the Ninth Circuit and across the State and constitutes both “neglect of duty” and “incompetence”; and

WHEREAS, under Worrell’s supervision, her subordinates have authorized or required assistant state attorneys in the Ninth Circuit to seek the withholding of adjudication in cases where such disposition is not permitted by Florida law; and

WHEREAS, under Florida law, prosecutors may not seek or obtain the withholding of adjudication in certain circumstances. Specifically, Florida law prohibits the withholding of adjudication for a third-degree felony if the defendant has two or more prior withholdings of adjudication for a felony, § 775.08435(1)(d), Fla. Stat., and for a second-degree felony if the defendant has a single prior withholding of adjudication for a felony, § 775.08435(1)(b), Fla. Stat.; and

WHEREAS, Worrell’s subordinates have permitted or required assistant state attorneys in the Ninth Circuit to disregard the foregoing statutory limitations on withholding adjudication and to seek additional withholdings, even when in violation of Florida law; and

WHEREAS, the foregoing practice or policy of permitting or requiring withholdings of adjudication in contravention of Florida law constitutes “neglect of duty” and “incompetence”; and

WHEREAS, it is the job of the Legislature to establish criminal penalties and the job of the state attorneys to ensure that those penalties are faithfully enforced; and

WHEREAS, the Legislature has made clear that the “primary purpose of sentencing is to punish the offender” and that “[r]ehabilitation is a desired goal of the criminal justice system but is subordinate to the goal of punishment,” § 921.002(1)(b), Fla. Stat.; and

WHEREAS, the Legislature has further directed that the “[u]se of incarcerative sanctions is prioritized toward offenders convicted of serious offenses and certain offenders who have long prior records,” § 921.002(1)(i), Fla. Stat.; and

WHEREAS, Worrell’s practices or policies generally prevent or discourage the use of incarcerative sanctions when otherwise appropriate for violent offenders, drug traffickers, serious juvenile offenders, and pedophiles and have resulted in the systemic poor performance of the Ninth Circuit reflected in the various metrics described above; and

WHEREAS, Worrell’s practices or policies are an abuse of prosecutorial discretion and reflect a systemic failure to enforce incarcerative penalties called for by Florida law. Prison admission data provided by the Florida Department of Corrections from January 1, 2022, to March 31, 2023, for example, show that prison admission rates for the Ninth Circuit are below—often far below—the statewide average across all 54 categories of criminal offenses, except three. The Ninth Circuit’s total prison admission rate is the lowest by far in the State and is less than half of the statewide average. *See* Exhibit A; and

WHEREAS, Worrell’s practices or policies of avoiding incarceration of serious offenders when otherwise warranted under Florida law constitute “neglect of duty” and “incompetence”; and

WHEREAS, Worrell’s actions have resulted in a critical loss of experienced prosecutors, and her inability to maintain such personnel further constitutes “neglect of duty” and “incompetence”; and

WHEREAS, Worrell’s neglect of duty and incompetence endanger the public safety and welfare; and

WHEREAS, it is in the best interests of the residents of the Ninth Circuit that they immediately have a new state attorney who will faithfully execute Florida’s criminal laws and will respect and faithfully carry out the criminal penalties set forth by our Legislature.

NOW, THEREFORE, I, RON DESANTIS, Governor of Florida, pursuant to the Constitution and the laws of the State of Florida, do hereby find, and for the purposes of Article IV, section 7 of the Florida Constitution, determine as follows:

- A. Monique Worrell is, and at all material times was, the State Attorney for the Ninth Judicial Circuit of Florida.
- B. The Office of State Attorney is within the purview of the suspension powers of the Governor, pursuant to Article IV, section 7 of the Florida Constitution.
- C. The actions and omissions of Monique Worrell as referenced above constitute “neglect of duty” and “incompetence” for the purposes of Article IV, section 7 of the Florida Constitution.
- D. If, after execution of this suspension, additional facts are discovered that illustrate further neglect of duty, incompetence, or other constitutional grounds for suspension of Monique Worrell, this Executive Order may be amended to allege those additional facts.

BEING FULLY ADVISED in the premises, and in accordance with the Constitution and the Laws of the State of Florida, this Executive Order is issued, effective immediately:

Section 1. Monique Worrell is hereby suspended from the public office that she now holds, to wit: State Attorney for the Ninth Judicial Circuit of Florida.

Section 2. Monique Worrell is hereby prohibited from performing any official act, duty, or function of public office; from receiving any pay or allowance; from being entitled to any of the emoluments or privileges of public office during the period of this suspension, which period shall be from the effective date hereof, until a further executive order is issued, or as otherwise provided by law.

Section 3. As of the signing of this Executive Order, the Florida Department of Law Enforcement, assisted by the Orange County Sheriff's Office and other law enforcement agencies as necessary, is requested to: (i) assist in the immediate transition of Monique Worrell from the Office of the State Attorney for the Ninth Judicial Circuit of Florida; (ii) if requested by the newly appointed State Attorney for the Ninth Judicial Circuit, ensure that no files, papers, documents, notes, records, computers, or removable storage media are removed from the Office of the State Attorney for the Ninth Judicial Circuit of Florida by Monique Worrell or any of her staff; and (iii) coordinate with the newly appointed State Attorney for the Ninth Judicial Circuit for Monique Worrell to retrieve her personal belongings.

Section 4. Andrew A. Bain is hereby appointed forthwith, effective August 9, 2023, to fill the position of State Attorney for the Ninth Judicial Circuit of Florida in accordance with Article IV, section 7, subsection (a) of the Florida Constitution for the duration of the suspension.

IN TESTIMONY WHEREOF, I have here unto set my hand and caused the Great Seal of the State of Florida to be affixed at Tallahassee, this 9th day of August 2023.

Re: Executive Order of Suspension, Executive Order No. 23-160

Dear Secretary Cantella:

State Attorney Worrell is in receipt of your August 11, 2023, certified letter correspondence, enclosed, notifying her of Executive Order No. 23-160, and informing her of her right to a hearing in the Florida Senate ("Notice Letter"). Zuckerman Spaeder intends to represent Ms. Worrell in response to that Executive Order and responds to the Notice Letter, as follows.

State Attorney Worrell intends to initiate a court proceeding in due course, which she understands will result in the Senate holding her hearing in abeyance until the exhaustion of her appellate remedies pursuant to Senate Rule 12.9. Ms. Worrell does not intend to waive or forego any rights she has under law. When the Senate's abeyance is lifted, assuming it remains appropriate, Ms. Worrell requests a hearing before the Florida Senate.

Although State Attorney Worrell will continue to provide the Senate with updated contact information, I respectfully request that all future correspondence be addressed to Jack Fernandez, Jr., 101 E. Kennedy Blvd., Suite 1200, Tampa, FL 33602, email jfernandez@zuckerman.com.

Thank you for your attention to this matter.

Dear Mr. Fernandez:

I am in receipt of your letter dated August 18, 2023, in which you conveyed the intention of your client, Ms. Worrell, to initiate a court proceeding regarding Executive Order No. 23-160.

As your letter notes, Senate Rules require the process to be held in abeyance until the conclusion of all litigation, including the exhaustion

of all appellate remedies. As such, should Ms. Worrell initiate a court proceeding, it is President Passidomo's intention to hold the Senate process in abeyance until the conclusion of the litigation, or until (pursuant to Senate Rules 12.9) the Senate receives written consent from both Ms. Worrell and counsel for the Governor stating that you wish to proceed.

The Senate respectfully requests that you keep Mr. Rey apprised as to any developments with regard to this matter.

immediately suspended from the public office which he now holds, upon the grounds set forth in this Executive Order;

NOW, THEREFORE, I, RON DESANTIS, Governor of Florida, pursuant to Article IV, section 7(a) of the Florida Constitution, find as follows:

- A. Kirk B. Reams is, and at all times material was, Clerk of the Courts for Jefferson County, Florida.

PRAYER

The following prayer was offered by Senator Polsky:

Thank you, Madam President, for the opportunity to open this special session with a Jewish prayer: Baruch atah Adonai Eloheinu, Melech ha'olam, shehecheyanu v'kiy'manu v'higi'anu lazman hazeh. Blessed are you, O Lord our God, King of the universe, who has granted us life, sustained us, and enabled us to reach this moment.

God, grant us the strength to make decisions that promote the security, well-being, and prosperity of both our State of Florida and the people of Israel. May we be inspired by the values of justice, unity, and compassion.

As we embark on this session, we ask for your presence and your blessings to be with us, that our discussions may be constructive, and our decisions may reflect the principles of justice and fairness. We also pray for the State of Israel, its leaders, and its people. May they find safety, security, and a lasting peace. May the nation of Israel continue to thrive and be a beacon of hope for the world. In your name, we offer this prayer, seeking your guidance and your grace.

I'd like to close with the ancient Hebrew prayer for peace and healing called Mi Sheberach: May the source of strength who blessed the ones before us be filled with compassion to bless those in need of healing with refuah shlema—the renewal of body and spirit—and let us say Amen.

On motion by Senator Berman—

SR 8-C—A resolution expressing support for the State of Israel and condemning the attacks and hateful actions by the Hamas terrorist group.

WHEREAS, beginning on October 7, 2023, Hamas, a United States-designated Foreign Terrorist Organization, commenced an unprovoked attack on the State of Israel, killing more than 1,400 innocent individuals, including Israelis, Americans, and citizens of other nations, among whom were babies, young children, and the elderly, and raping or torturing countless defenseless individuals, and

WHEREAS, Hamas indiscriminately launched thousands of rockets at private homes, schools, and hospitals and took hundreds of individuals hostage, including young children and the elderly, and

WHEREAS, this breach of Israel’s borders represents the most significant threat to its security since the Yom Kippur War in 1973, and

WHEREAS, following the initial attack by Hamas, the Lebanese militant group Hezbollah, backed by the Iranian regime and sharing Hamas’ goal of destroying the Jewish state, has also waged a savage and unprovoked attack on the State of Israel and on October 22, 2023, launched antitank missiles into three areas in Israel, and

WHEREAS, the United States also suffered senseless losses, with many Americans brutally murdered and many more missing or taken hostage, and

WHEREAS, Hamas and the Iranian regime have called for the deaths of Israelis, Americans, Jews, and Christians and have sought to incite acts of domestic terrorism against Jewish people and communities around the world, including in the State of Florida, and

WHEREAS, the Iranian regime provides financial and logistical support to such terrorist groups as Hamas and Hezbollah and has praised these recent unconscionable atrocities committed against innocent civilians, and

WHEREAS, the State of Florida recognizes the right of the State of Israel to exist as a sovereign and independent nation, and the right and obligation to defend itself, with the full rights and privileges afforded to all nations under international law, and

WHEREAS, the citizens and residents of Israel have the right to live a peaceful existence without the threat of indiscriminate violence and without fear of being attacked or persecuted simply because they are Jewish, and

WHEREAS, the State of Florida has a long-standing bond and alliance with the State of Israel and is proud to have the third-largest Jewish population in the United States, and

WHEREAS, the State of Florida prays for the people of the State of Israel and all those affected by this unjustified and heinous attack, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida:

That the Senate of the State of Florida does hereby:

(5) Reject and condemn persistent threats against Jewish people, institutions, and communities in the State of Florida, the United States, and abroad, including those from individuals and organizations committed to the extermination of the Jewish people.

BE IT FURTHER RESOLVED that a copy of this resolution, with the Seal of the Senate affixed, be presented to each member of the Florida Delegation to the United States Congress and the Ambassador of the State of Israel to the United States as a tangible token of the sentiments of the Florida Senate.

MOTION

On motion by Senator Hutson, by two-thirds vote, the following remarks were ordered spread upon the Journal.

Senator Berman: Thank you Madam President and thank you for hearing this resolution today in our special session. Madam President, the actions of Hamas on October 7 dramatically altered the world for all people of the Jewish faith, and you have been incredibly supportive, and it is greatly appreciated.

As many of you know, I had plans to travel to Israel on October 15 for a week trip; I was going with 80 of my friends and neighbors from South Palm Beach County Jewish Federation to celebrate the 75th anniversary of the founding of the State of Israel. On October 7, I quickly realized that it would not be happening because of the beyond imaginable unprovoked attack by Hamas. On that day, I started drafting the resolution we are discussing today.

Let me tell you a little bit about what it is like, and you've heard, to be Jewish in the world right now. Many of you are of the Christian faith, and wear crucifixes, and don't think twice about it. But before a Jewish person puts on a Star of David or a Lion of Judah, we have to weigh whether we are going to be verbally or physically attacked for wearing a piece of jewelry. You've heard we have to think twice about where we are going, and what security will be in place. Many synagogues have metal detectors as well as armed guards, and you don't see that in many churches.

We have to stay away from public places like the Sydney Opera House, Trafalgar Square in London, and even the Brooklyn Bridge when there are protests occurring, so that we don't become the targets. Just this past Monday, an elderly man, Paul Kessler, was attending a peaceful pro-Israel rally in Los Angeles, when he was assaulted by a counter protester. He was pushed over and struck his head. He is now dead.

We worry about our college students away from home who, just for being Jewish, have been subject to intimidation, harassment, physical violence, and even death threats at my husband and daughters' alma mater. We obsessively watch the news, probably too much, and we find ourselves repeatedly calling and texting our friends and relatives in Israel as we are fearful for their safety. Social media continues to inflict wounds showing people taking down posters of hostages and gleefully tearing them up as well as many anti-Semitic chants and jeers. We are full of conflicting emotions: anger, disbelief, pride, depression, devastation, horror, grief, defiance. The fears of pogroms and the Holocaust that our parents and grandparents lived through and that we thought we would never ever have to be worried about, have now become a part of our world.

I know that I can't believe how society has seemingly transformed overnight. How have we failed so badly that people can justify the killing of a baby in an oven? How can it be acceptable to rape women and parade them around? How can it be okay to take children and babies hostage? No reasonable person can condone such barbarity. Nothing can excuse the cruelty of Hamas and their flagrant violation of international law.

To the Palestinian people who do not support Hamas, my heart is heavy, and I do grieve the loss of women, children, and men in Gaza. I regret that the Arab nations have not stepped up to offer refuge to Gazans at a time when they need it. I fear that Hamas is martyring innocent Palestinian lives to advance their political narrative. Their disregard for civilian lives further underscores the need for Hamas' destruction.

As Golda Meir, the former Israeli prime minister, said so clearly 50 years ago and with such relevance today: "When peace comes, we will perhaps, in time, be able to forgive the Arabs for killing our sons, but it will be harder for us to forgive them for having forced us to kill their sons."

In my fourteen years in the legislature, I have proudly supported the United States Constitution and have stood with minority and marginalized communities. I have repeatedly said that an attack against one is an attack against all of us. My world view has been shaped by the Holocaust and the lack of support for my Jewish forebears. I have always been guided and taken to heart the words of Nobel Peace Prize winner, author, and Holocaust survivor Elie Weisel, "To remain silent and indifferent is the greatest sin of all." I also agree with Sir Edmund Burke's well-known statement, "The only thing necessary for the triumph of evil is for good men to do nothing."

I am now asking you, my colleagues, to stand with me and support this resolution. We all know words matter. Words can breed hate. Words can incite violence. But words can also show love and compassion. Words can reflect humanity and our values. Our words through this resolution speak loudly. Today, we show all Floridians that we condemn Hamas and its actions. That we support the right of the sovereign State of Israel to exist and to defend itself. That we will not financially support terrorist organizations, and that we condemn the anti-Semitic attacks against Jewish people. Let us be the good people who are not silent and indifferent. Let our words resonate throughout Florida, the United States, and the world.

Thank you to all my colleagues for your love, compassion, humanity, and support.

Excused: Senator Gruters

PRAYER

The following prayer was offered by Senator Rouson:

Good morning. As a preface to prayer, let me suggest the words of Dr. W.E.B. Du Bois, "Now is the accepted time, not tomorrow, not some more convenient season. It is today that our best work can be done and not some future day or future year. It is today that we fit ourselves for the greater usefulness of tomorrow. Today is the seed time, now are the hours of work, and tomorrow comes the harvest."

Dear God, we come to you humbly in a posture of thanksgiving. Thank you for the change that is already happening. Thank you for bringing us through yet another year. Thank you for the call on our lives to continue doing your service for your people. Let us work collaboratively for another successful legislative session, one that will be productive and demonstrate strong advocacy for the citizens of this great state.

We ask that you continue to bless and cover us with your protection; guide us with your wisdom as we travel to and from Tallahassee doing the great faithful work of the state. We invoke your spirit of decorum and mercy. We pray for peace and a healing in the land, and across the world. Place in us, officials whom the people elected, a light that shines before them so that your good works in us be shown brightest. Knowing that your grace is sufficient and believing that we can do all things through you, the source that gives us strength. We pray this prayer knowing that your will be done. Thank you, God. And the people of God said, "Amen."

COLOR GUARD

At the direction of the President, the Sergeant at Arms opened the doors of the chamber, and the Capitol Police Color Guard marched into the chamber bearing flags of the United States of America and the State of Florida.

DOCTOR OF THE DAY

The President recognized Dr. Stephanie Haridopolos, of Indian Harbor Beach, as the doctor of the day, here at her invitation. Dr. Haridopolos specializes in family medicine and currently serves as the Chair of the Board of Directors for Florida Healthy Kids Corporation.

—was taken up instanter and read the first time by title. On motion by Senator Mayfield, **SCR 1302** was read the second time in full, adopted, and, by two-thirds vote, immediately certified to the House.

ADDRESS BY PRESIDENT KATHLEEN PASSIDOMO

Senators and families, friends and visitors, good morning, happy New Year, and welcome back. Thank you to all our families and guests for being here today in spite of the weather.

I think tropical storm force winds on opening day mean good luck—kind of like the rain on your wedding day. It poured on our wedding day, and John and I have been married for nearly 45 years. Rain has certainly been good luck for me. For all of us, I hope the old adage, “In like a lion, out like a lamb,” will ring true this session.

As I finish out my term as President, it is particularly special to see our Senate families, having watched them grow and change over the years.

When my old seatmate, Senator Powell, and I came to the Senate in 2016, he was a single man. Then he met and married Whitney, and then Chandler came along. It has been so much fun to see her grow up (and run circles around her father).

It’s amazing to think that Leader Book was expecting when she was elected to the Senate. What a joy it has been to watch her twins, Hudson and Kennedy, grow up here.

Senator Hutson and Tanya have kept us guessing which “T” name they will use after their next child—Taylor, Tyler, Turner, Tucker. I’ve got a few more if you need them.

And they aren’t the only ones. Over the last few years, it seems that we have welcomed more and more children to the Senate family, which brings us much joy.

We have watched the Pizzo twins grow into young men who are just as dapper as their father. Actually, I think they’re more dapper. I look forward to seeing them later in session.

Senator Calatayud—we are so honored that your grandmother could join us today. Bienvenida! Is that right—did I do that right? I only know it in Italian.

Senators Baxley, Boyd, Broxson, Burton, Hooper, Stewart, Thompson, Harrell, Osgood, Torres, and others are blessed with grandkids. Some days I know it’s tough to keep up with all of them, and other days, we just hope for more. I think Senator Broxson is currently leading the field in numbers. President Designate Albritton and Chair Mayfield are more recent additions to the grandparents club, which I know we agree is absolutely the best.

In my own family, we had an exciting development last weekend. Due to the weather, John and Francesca couldn’t make it up from Naples this morning, and Catarina couldn’t get out of Oxford, Mississippi. However, we are excited to announce the engagement of our youngest daughter, Gabriella, who is here with us today. We love her fiancé, Wilson Smith, and his family. Gabby, thank you for being here.

While the Senate family has had many blessings to celebrate, we’ve also experienced some profound losses in recent weeks and months: Senator Gruters’ mother, Senator Yarborough’s father, Senator Avila’s mother, Senator Burton’s father, Senator Osgood’s grandfather, and my own father, last fall. We have our parents to thank for shaping us. Even those who are no longer with us have left an imprint on this chamber.

We have our spouses to thank for their support. Because of their love, encouragement, and sacrifice, we have the opportunity to serve. We have our children and grandchildren to thank for keeping us grounded. Family reminds us of where we came from, where we are going, and what we are fighting for. As we begin this new session, it is our families who inspire us to work for a better future for all families throughout Florida, to always follow our “True North.”

While we will spend a lot of time together this session, I know we will also continue to spend a lot of time with our constituents. Many citizens from throughout the state travel to Tallahassee during session to make their voices heard. They deserve our attention, and they receive it. When developing legislation, I always advocate for a “big tent approach.” Everyone is invited to help develop, revise, and improve legislation. Whether we hear from constituents in committee, in our district office, or walking through the grocery store during a weekend at home, their feedback is very important.

As you know, my number one priority last session was our Workforce Housing initiative—Live Local. Keeping that theme in mind, this session the Senate incorporated the big tent approach to legislation in both the Live Healthy and Learn Local initiatives. Throughout the summer and fall, we met with people from all over the state to hear their thoughts and ideas, and I feel really good about our work products.

LIVE HEALTHY

We know that access to health care is important at every phase of life. Insurance—even Medicaid—does not guarantee access. I want to be clear. I am not going to spend the next 60 days re-litigating Medicaid expansion. I understand the arguments both for and against. We’ve had the debate several times over the last decade. Medicaid expansion is not going to happen in Florida. It is not a quick fix. It is not a panacea. In fact, if you cannot actually schedule an appointment with a health care provider, Medicaid expansion is nothing more than a false government promise.

If we do not take steps now to grow our health care workforce, all Floridians—even those with great insurance, and certainly those on Medicaid—will continue to face barriers to care. My goal is to make sure our health care system is growing and innovating to better serve all Floridians.

The robust package that Senator Burton, Senator Harrell, and I have been working on will expand Florida’s health care workforce with new opportunities for education, training, and retention. This includes enhancing partnerships between hospitals and colleges and universities that train health care workers, and residency slots and loan repayment options that drive providers to underserved areas. We want to make sure our medical school graduates stay in Florida and also attract more out-of-state residents to build their lives and medical practices here in our communities.

We are funding provider increases that will incentivize health care workers to continue serving in needed fields like mental health, labor and delivery, and helping Floridians with disabilities. And we are expanding clinical training to include more rural, remote, or other locations difficult to access.

We know hospital emergency rooms are the most expensive real estate in Florida. Live Healthy will help create partnerships with other primary care settings so care that is urgent, but not life-threatening, can be handled in a more efficient and appropriate setting. Live Healthy also expands access to preventative health screenings to ensure early diagnosis and better management of chronic disease. That is the concept my dad, an ophthalmologist, advocated for many, many years.

I'm a believer in the free market. I know the private sector can innovate in ways government could never imagine. What government can do is facilitate the exploration and implementation of new technologies. The Live Healthy Innovation Council will examine solutions to improve the delivery and quality of health care in our state, and develop a loan program to support implementation, with a focus on underserved areas.

We will also consider legislation by Senator Collins to create a streamlined, yet sound, pathway for out-of-state providers moving to Florida. Senator Boyd has legislation to establish a new category of teaching hospitals focused on behavioral health. Senator Brodeur is working on legislation to expand services to Floridians with disabilities. And Senator Collins is also working on a priority of Speaker Renner to expand price transparency. This is a robust package of bills. It is complex, but it is critically important. In order to care for our growing population and meet the increased demand for health care, we must expand our workforce, increase efficiencies, and elevate quality. I look forward to continued feedback and suggestions from the entire Senate.

LEARN LOCAL

Tomorrow we will take up our public school deregulation package that I call Learn Local. Those bills are by Senators Calatayud, Hutson, and Simon. I am so proud of this first-in-the-nation effort to cut red tape and reduce bureaucracy in our neighborhood public schools, while maintaining high academic standards and school safety. For decades now, we have rejected the idea that neighborhoods and zip codes alone should govern how and where a child is educated. We created and implemented rigorous standards across every aspect of the public school system as a way to make certain every child has access to a great education, regardless of where they live. As part of that effort, every year, more and more regulations are placed on our school districts, which leads to more paperwork, and more tasks in an already packed school day. Telling districts what to do and how to do it was supposed to ensure quality, but it can also stifle innovation.

With Learn Local, we do not lose one inch of accountability measures instituted over the last thirty years. These metrics and measurements provide information to help parents make the best decisions for their children. Parents are more involved than ever before. Parents are the ultimate arbiters of performance. Parents will hold neighborhood schools, charter schools, and private schools accountable with their voices and their feet.

With universal school choice now a reality for Florida families, reducing bureaucratic red tape will give neighborhood public schools—that have served our communities and families for generations—a meaningful chance to compete right alongside other school choice options.

WILDLIFE CORRIDOR / LAND MANAGEMENT

Finally, I am very proud of the work we have undertaken on our Wildlife Corridor. Starting under President Simpson's leadership, we have made historic, once-in-a-generation investments that will preserve the natural beauty of our state—what makes our state so special—for future Floridians to enjoy. This year, we will take that commitment to the next level.

Senator Hutson is sponsoring legislation to use revenues available through the Gaming Compact that Governor DeSantis signed with the Seminole Tribe in 2021 to establish dedicated funding for continuing acquisition and management of our conservation lands. We know con-

servation and preservation of Florida's land and water resources is essential to maintaining the quality of life enjoyed by Floridians, as well as sustaining and growing a thriving economy, including legacy industries like tourism and agriculture. These investments preserve working farmland and ranchland, allow for strategic expansion of the Wildlife Corridor, and help protect endangered native species, including the Florida panther.

Additional funding for land management will expand public access to state recreation lands, including Florida's state parks, greenways and trails, and game lands. It will also help protect against wildfire damage and infiltration of dangerous non-native species. Using these new revenues to acquire and manage conservation lands and invest in our clean water infrastructure will be a phenomenal return on investment for our state. I hope this legislation will earn your support.

In closing, my gift for you this session is a mirror, which our multimedia staff has personalized for each of you. Just as our families keep us grounded, mirrors keep us honest.

Tallahassee is an easy place to find fair-weather—or as I call them, “temporary”—friends, who compliment our looks and laugh at all of our jokes. But when we look in the mirror, we see ourselves for who we really are. We remember where we came from and what we are fighting for. I hope the mirrors will be beautiful, yet practical, additions to your office and home. Thank you again, and I look forward to working with each of you this session.

ADDRESS BY GOVERNOR RON DESANTIS

Mr. Speaker, Madam President, members of the Legislature, and fellow citizens:

We are in the midst of a great upheaval throughout the nation. Under the Biden administration, homelessness is at record levels, 62 percent of Americans are living paycheck-to-paycheck, and the federal budget deficit is expected to hit \$2 trillion this year. More than 8 million illegal aliens have entered the United States across the southern border in the past three years alone, and deaths due to fentanyl that has come across the border have reached record levels. Cities throughout the land have decayed. Washington, D.C. has experienced its deadliest year in more than two decades, and San Francisco has fallen into a “doom loop” whereby crime, homelessness, and drug abuse have eviscerated the quality of life.

Other states have enacted policies that have sparked an exodus of residents out of their states. In Illinois, residents are saddled with high taxes, while spendthrift politicians continue to spend and borrow at some of the highest rates in the nation—with massive unfunded liabilities that will require even higher taxes in the future. Of course, soft-on-crime policies have devastated public safety in Chicago. California’s per capita spending is triple our state’s, and they now face a \$68

billion budget deficit. Violent crime is up, robberies are up, and a recent Stanford University study shows that businesses are leaving in droves.

Florida now has millions more residents than New York, yet New York’s budget is twice the size of Florida’s. They have a \$4.3 billion budget deficit. Florida now has more manufacturing jobs than New York, and added twice as many jobs as New York in the past year, and our unemployment rate is 1.4 percentage points lower. It is not surprising that we have witnessed—and continue to witness—a great migration of Americans away from cities and states pursuing these failed policies, with Florida serving as a refuge for freedom and sanity. The failures are not a result of chance but of choices made by elected officials to put ideology over sound policy.

In this time for choosing, Florida has chosen well. We have chosen facts over fear, education over indoctrination, law and order over rioting and disorder, and fiscal responsibility over debt and profligacy. Our choices have produced results that are second to none: number one in education; number one in education freedom; number one for parental involvement in education; number one for talent development; number one for higher education; number one for net domestic in-migration for the third consecutive year; number one in new business formation; number one in GDP growth among large states, and better than most countries in the world; and number one for entrepreneurship. We have set the standard for limited government. Florida has the fewest state employees per capita and the lowest state government cost per capita. Florida’s crime rate is at a 50-year low. And we have the lowest unemployment rate of all large states.

The 2023 Legislative Session was monumental, and it is incumbent upon us to build upon those accomplishments as we continue to deliver results. My message is simple: stay the course. The state of our state is strong. Let’s keep doing what works. Let’s continue to make Florida the envy of the nation.

We lead the nation in school choice. Last session, under the leadership of Speaker Renner, we enacted the largest expansion of school choice in American history. Florida has close to 1.5 million students enrolled full-time in various choice programs—from private scholarships to charter schools to choice options within school districts. Through these programs, we have delivered for people like Hera Varmah. Hera has 11 brothers and sisters, making education hard to afford for their parents, but because of our school choice scholarships, she and her siblings have been able to attend high-quality schools. Today, she is a college graduate, her three older brothers are college graduates, two of her younger sisters are in college, and the rest are on track to follow in her footsteps. As she likes to say in her own words “When people say that school choice doesn’t work, I simply show them my family.”

We also lead the nation in protecting the rights of parents. School systems are important, but they exist to serve the students, parents, and the community, not to supersede the rights of parents to direct the education and upbringing of their children. We were one of the first states to enact a Parents’ Bill of Rights and curriculum transparency.

We protected women’s sports. As the father of two daughters, I think it is important that they have the opportunity to compete with fairness and integrity. We protected our children from indoctrination and sexualized curriculum, and we stood up for parents against the woke mob. This includes parents like Tia Bess, a mom of three, who has fought for her children to be educated without having an agenda imposed on them. We must always protect the innocence of our children. Let kids be kids!

As we deliver win after win for parents, we have also provided historic support for our teachers. Over the past four years, we have invested a record \$3 billion to raise teacher pay. My budget proposal for this year includes another \$1.25 billion for even more pay increases. Our teacher pay initiatives help us recruit and retain great teachers, including Teacher of the Year, Adrianna Swearingen, who is with us today. It is thanks to teachers like Adrianna that our 4th graders are first in the nation on their NAEP scores.

On October 7, Israel suffered one of the worst terrorist attacks in modern history. We knew the effects would reverberate here in Florida. Many Floridians were stranded in Israel after the war broke out and were not receiving adequate assistance from the U.S. Embassy or the State Department, so we stepped up by organizing evacuation flights to bring Floridians home. Allison Zur, her husband, and two children were

on one of those flights out of Israel and have joined us here today. But we didn't stop there. With your help, we called a Special Session of the Legislature at the first opportunity to pass expanded sanctions on Iran—which was clearly behind the heinous attacks. As threats of violence continued here at home, we stood up to protect our Jewish day schools, synagogues, and Jewish students on university campuses.

But we realize that many universities outside of Florida have failed. This week, Jewish students across the country are returning to campuses that have condoned antisemitism. Over the coming months, they will have a tough decision to make—pack up and leave or stay and endure continued hatred—and if they do decide to come to Florida, we will welcome them with open arms. This includes waiving minimum credit hour requirements for transfers, waiving application deadlines for transfers, and encouraging universities and colleges to use their existing statutory authority to provide in-state tuition for students with a financial hardship.

The pro-Hamas activities and rampant antisemitism on college campuses exposed the intellectual rot that has developed on so many college campuses. In Florida, our universities must be dedicated to the pursuit of truth, the promotion of academic rigor and integrity, and the preparation of students to be citizens of our republic.

We reject the modern trend of universities that subordinate high academic standards in favor of promoting an ideological agenda. To this end, we have eliminated so-called DEI from our public universities. DEI is a highly ideological agenda—in practice it stands for discrimination, exclusion, and indoctrination—and it has no place in our public universities. We have also overhauled faculty hiring to avoid ideological litmus tests and required all tenured professors to undergo review every five years so poor performers can be terminated. JT Leanos is a freshman and baseball player at New College in Sarasota, which is well on its way to being the premier classical public liberal arts college in America. The reforms instituted by the New College board of trustees and by President Richard Corcoran have transformed the college from an outpost of ideological indoctrination into an institution rooted in truth.

We have ensured that higher education in Florida is affordable—freezing tuition for the past decade. We also have supported Bright Futures scholarships that make it even more affordable for our top students.

While higher education is important, a degree from a four-year brick-and-ivy university is not the only path to success—and for many, it is not the best path to success. When I took office in 2019, I set the goal to make Florida number one in workforce education by 2030, and with the support of the Legislature, we are well on our way. Since 2019, Florida students have earned more than 365,000 rapid credentials, and just last year more than 235,000 students earned an industry certificate before they graduated high school. We have more than tripled our state's capacity to train truck drivers with a CDL license, and this year set a record for CDL program completion. We have now set a record of 229,000 students enrolled in career and technical education programs at Florida colleges. There is no question that on this trajectory Florida will soon be number one in workforce education!

The recklessness of spending, borrowing, and printing of money over the past four years by the federal government has driven up the costs of everything from groceries to housing—and has saddled Americans with high interest rates. The national debt now stands at \$34 trillion dollars. In NYC, there is a famous debt clock that shows the national debt going up in real time. I'd like to see one of those made for Florida's debt—only a Florida debt clock would be counting down, not up, because we have paid down nearly 25 percent of our state's debt over the past five years. Americans' share of national debt: \$100k; Floridians' share of state debt: \$661. We are able to reduce debt because we have been fiscally responsible but also because we have embraced smaller government. Florida has the lowest number of state employees per capita at 96 per 10,000 (82 full time), and the lowest cost per state resident at \$40.

This year, my budget proposal reduces the budget by \$4 billion from the previous year, placing \$16.3 billion in reserves and paying down another \$455 million in state debt ahead of schedule. We have run budget surpluses and paid down debt while also enacting record-setting tax reductions, and even with these tax savings given to our residents, we have brought in \$1.3 billion over projections since the start of the fiscal year.

Last year I asked the Legislature to reduce taxes on families as a way to mitigate the effects of the federal government-induced inflation, and you delivered. We have made it tax free to raise a child in Florida by permanently removing taxes on baby items—cribs, strollers, diapers, baby wipes, clothing, and children's shoes, among other items.

We also provided relief for Florida commuters. The Toll Relief Program reduced commuter costs by \$470 million, helping nearly 1.2 million Floridians save as much as \$400 each. Mike Honeycutt, who joined us here today, is the founder and owner of Jet I.C.U., an air ambulance company that recently relocated to Tampa from Hernando County. Since their business moved, Mike and many of his employees are still commuting to Tampa while in the process of relocation. Mike has taken on the burden of paying not only his tolls, but the tolls of his staff as well, and through our toll relief program, he has saved \$3,936.

In the Governor's budget recommendations, I am proposing that we return \$1.1 billion to the people through sweeping tax cuts that will provide even more relief to families, individuals, and retirees just trying to get by during these uncertain times. Let's reduce the cost of homeowners insurance, continue our record-setting sales tax holidays, and provide permanent tax relief for small businesses.

In D.C., they are failing to get inflation under control, and while we cannot control federal monetary policy here in Florida, we can take what is already one of the lowest per-capita tax burdens in the country and make our taxes even lower. Our low tax burden, AAA credit rating, and great business environment have attracted families, businesses, and retirees alike, but so too has the fact that Florida is the law and order state.

Our policies to support law enforcement officers, eliminate riots, keep criminals off the streets, and remove lawless prosecutors from office have kept Florida at a 50-year crime low and have brought new law enforcement recruits to Florida from all 50 states. Law enforcement officers like Rachel Richardson. Officer Richardson left her home in Illinois to come to Florida for a new career with the Venice Police Department. She wanted to work for a state that valued the difficult work police officers do every day to protect and serve. Officer Richardson, welcome to Florida. My budget proposal for this year includes \$20 million to bring even more officers to the Sunshine State. To help our police officers achieve their dreams of homeownership while here, we also created the Hometown Heroes program. Recipients of this program include Detective Frank Jones. In 2020, when the "Defund the Police" movement was at its peak, Detective Jones moved from Chicago to Collier County to work in a state where he would be respected and supported. Thanks to our Hometown Heroes program, Detective Jones was able to achieve his dream of homeownership. And thanks to the leadership of President Passidomo through the Live Local Act and record housing funding, countless police officers (as well as other staples of the community like teachers and nurses) will now be able to live in the communities they serve.

Still, with all our successful efforts to provide law and order, the impacts of the Biden administration's open border policies have made their way to Florida. Here today is Bryan Ramos, who was the victim of a hit and run that tragically also took the life of his friend, Nico Bagalihog, at the age of 28. The driver who ran over Bryan and Nico was an illegal alien, and when the suspect was arrested by FHP, they found he had been previously deported three times and had no right to be in this country.

Also, here today is Paula Fredrick, the mother of Amy Fredrick who was killed by fentanyl at just 25 years old. Fentanyl that undoubtedly was trafficked across our porous southern border. We refuse to sit idly by while Biden's border crisis ruins lives across the nation. Since President Biden won't stop the flow of illegal immigrants and dangerous drugs across the border, Florida has been forced to pick up the slack. We've now sent over 100 Florida State Troopers and dozens of FWC officers to help Texas with border operations, banned sanctuary cities, and instituted policies to deter illegal immigration into our state. The Biden Border Crisis has made every state a border state—and Florida is fighting back!

Last year, hundreds of Floridians had their homes destroyed or rendered uninhabitable by Hurricane Idalia. We rallied resources to the Big Bend region before, during, and after this powerful Category 3 storm made landfall. At my direction, nearly 30,000 utility linemen

were staged in preparation for the storm, and among the thousands of first responders and National Guard who prepared to respond, there were members of our newly reformed Florida State Guard that deployed for the first time since 1947. As a result of our preparations, in less than one week, ninety-six percent of power was restored, a record for such a rural part of the state. We have Citrus County Sheriff Mike Prendergast with us here today. We stood side-by-side with the sheriff in the immediate aftermath of the storm, and we will continue to stand with Citrus County and the Big Bend as the community rebuilds. And as the Big Bend recovers from this year's storm, we remain focused on the long-term recovery that is still ongoing in Southwest Florida after Hurricane Ian. While the news cameras have long since left, we are still there to support residents like Rachel Pierce, a Sanibel-based artist whose art gallery was destroyed by the storm. After receiving a grant from the Florida Disaster Fund just a few months ago, Rachel was able to reopen her art gallery in November.

With your support, we have made good on our promise to leave Florida to God better than we found it. As the Fishing Capital of the World and home to more than 1,300 miles of world-renowned coastline, Florida's economic success is tied to our environment. Since 2019, we have invested \$5 billion to support Everglades restoration and water quality, and I am calling for another \$1.1 billion to continue our efforts. In much of our state, the great outdoors is a way of life, and we must preserve that way of life for generations to come, which is why I am calling for \$125 million to protect Florida's conservation lands and waterways. While across the nation, leftist activists have attempted to take away our God-given rights to hunt, fish, and enjoy our great outdoors, in Florida, we will continue to honor and protect those traditions.

Before I close, it is worth pointing out some more accomplishments that we have been able to deliver: we protected Floridians against COVID authoritarianism; expanded Second Amendment rights; knee-capped ESG; protected the sanctity of life; banned China from buying land in Florida; provided hundreds of millions of dollars in relief for homeowners; instituted long-needed reforms that have, against all odds, attracted new insurance companies into Florida; enacted a digital bill of rights; passed the best election integrity measures in America; created a program to accelerate repayment of state debt; protected Floridians against the imposition of a central bank digital currency; authorized the death penalty for pedophiles; brought accountability and transparency to pharmacy middlemen to lower drug costs for consumers; won the fight with the federal government to purchase less expensive drugs from Canada; and passed the Moving Florida Forward initiative to accelerate road projects to alleviate traffic. Let's see some other state match that list of achievements!

Just outside of this Capitol building, there sits a replica of the Liberty Bell that rang in what is now known as Independence Hall, where our founding fathers signed the Declaration of Independence and later crafted the U.S. Constitution. On that bell is inscribed a verse from Leviticus: "Proclaim liberty throughout all the land unto all the inhabitants thereof." This replica sits here in Tallahassee, a thousand miles away from Philadelphia, reminding us of our task: to proclaim liberty. Here in the Sunshine State, we have delivered good government that protects liberty and maintains order. We have won the unprecedented backing of a populace reflective of our country at large. And we have put forth a blueprint for America's revival that has instilled hope into the hearts of millions that a new birth of freedom can emanate from this land once more. We are the heirs to the spirit of 1776 represented by the Liberty Bell. Over the next two months, let's enact policies that focus on Florida's future and that keep faith with our nation's founding ideals. Together, we will keep Florida free and provide hope for a revival of the American spirit throughout these United States.

June 2, 2023

Dear Secretary Byrd:

June 30, 2023

Dear Secretary Byrd:

By the authority vested in me as Governor of the State of Florida, under the provisions of Article III, Section 8 of the Constitution of Florida, I do hereby veto and transmit my objection to Committee Substitute for Committee Substitute for Senate Bill 1188 (CS/CS/SB 1188), enacted during the 125th Session of the Legislature of Florida during the Regular Session 2023 and entitled:

An act related to Contract Liability

Establishing a statutory cap on vendor liability unnecessarily hampers agencies in contract negotiations, potentially putting taxpayers at risk of harm at the hands of irresponsible vendors.

The Department of Management Services has existing authority to establish standard contract terms for use by state agencies which is outlined in the Florida Administrative Code. Current rules limit vendor liability as a starting point while giving agencies the flexibility to alter such terms when in the best interest of the state, protecting taxpayer funds.

Given that these rules have not been updated in some time, I am directing the Department to immediately initiate rulemaking to modernize these provisions. Doing so will allow the vendor community and impacted state agencies to provide feedback.

For these reasons, I withhold my approval of CS/CS/SB 1188 and do hereby veto the same.

Sincerely,

Ron DeSantis
Governor

The bill, together with the Governor's objections thereto, was referred to the Committee on Rules.

Secretary of State
Florida Department of State
R.A. Gray Building

June 15, 2023

Dear Secretary Byrd:

I presented my recommended budget in February of this year, laying out a blueprint for the Free State of Florida. Since then, I have signed monumental legislation that promises Floridians will enjoy fundamental freedoms for years to come. The Fiscal Year 2023-24 Framework for Freedom Budget invests historic funding in Educational Freedom, Florida's natural resources, and the safety of all Floridians.

Florida parents now have the choice of what educational environment is best for their children. This year, we provided \$2.7 billion in tax relief to Florida families, the largest amount of tax relief in our state's history, and includes permanent tax cuts on baby and toddler items, such as cribs, strollers and diapers. \$4 billion is provided for the Moving Florida Forward Initiative to accelerate transportation projects across the state. These record investments, despite record inflationary levels at the

hands of the federal government, are a testament to the strength of Florida's economy. In addition to these significant investments, the Framework for Freedom Budget maintains major reserves in excess of \$15 billion, which includes the \$510.9 million in line-item vetoes I am issuing, to ensure that our State remains resilient and responsive to unforeseen emergencies.

Florida leads. We prioritize the rights of our families to earn a living, go to school, and worship in church. We work together to produce results. Bridges are built in days. Schools are open. Our economy is strong. This framework for freedom will serve as Florida's blueprint for success for generations to come.

By the authority vested in me as Governor of Florida, under the provisions of Article III, Section 8, of the Constitution of Florida, I do hereby withhold my approval of portions of Senate Bill 2500, enacted during the 125th Session of the Legislature, and entitled:

An act making appropriations; providing monies for the annual period beginning July 1, 2023, and ending June 30, 2024, to pay salaries, and other expenses, capital outlay – buildings, and other improvements, and for other specified purposes of the various agencies of State government; providing an effective date.

I do hereby withhold my approval of the following line items in the 2023-24 General Appropriations Act:

SUPREME COURT OF FLORIDA

The following certificate was received:

No. SC2023-1586

IN RE: CERTIFICATION OF NEED FOR ADDITIONAL JUDGES.

November 30, 2023

PER CURIAM.

This opinion addresses the need to increase or decrease the number of judges in fiscal year 2024-25 and certifies our "findings and recommendations concerning such need" to the Florida Legislature.¹ Certification is "the sole mechanism established by our constitution for a systematic and uniform assessment of this need." *In re Certification of Need for Additional Judges*, 889 So. 2d 734, 735 (Fla. 2004). A separate opinion, to be released on a future date, will address the Court's findings as to whether there is a need to decrease the number of judicial circuits.²

In this opinion, we certify the need for one additional circuit court judgeship (in the Twentieth Judicial Circuit) and five additional county court judgeships (three in Orange County and two in Hillsborough County). We certify no need for additional district court of appeal judgeships. We certify the need to decrease two county court judgeships (one each in Alachua and Brevard Counties) and certify that there is no need to decrease the number of circuit court judgeships. Although we certify there is no need to decrease the number of district court of appeal judgeships, we acknowledge excess judicial capacity in the First District Court of Appeal and the Second District Court of Appeal. As we explain, the Court recommends that the Legislature address this excess appellate judicial capacity over time by reducing the number of statutorily authorized judgeships based on attrition, without requiring a judge to vacate his or her position involuntarily.

Trial Courts

The Court continues to use a verified objective weighted caseload methodology as a primary basis for assessing judicial need for the trial courts.³ The case weighting system distinguishes the types of cases and

addresses the differences in the amount of time that must be spent on cases of each type, producing a total judicial need for each circuit. Additionally, the methodology includes adjustments for differing jury trial rates, chief judge responsibilities, and canvassing boards in each circuit and county. The trial courts also submit judgeship needs applications that supplement the objective weighted caseload data, including descriptions of how secondary factors⁴ are affecting those courts. The secondary factors identified by each chief judge reflect local differences in support of their requests for more judgeships or in support of their requests for this Court not to certify the need to decrease judgeships in situations in which the objective case weights alone would indicate excess judicial capacity.

For more than two decades, Florida's trial courts have used a weighted caseload method to determine the need for judges in each of their circuit and county courts. The original recommendations of the 2000 *Florida Delphi-Based Weighted Caseload Project: Final Report*, and the subsequently modified Florida Rule of General Practice and Judicial Administration 2.240, call for the weighted caseload method to be updated every five years. Recommendations from the last formal judicial workload assessment were published in May 2016. Given the impacts of the Coronavirus Disease 2019 pandemic and recent jurisdictional threshold changes⁵ within the trial courts, that cyclical review was necessarily delayed. It is important for any new trial court case weights developed to be valid and reliable and have a "shelf-life" to substantiate determinations of judicial need until the next formal methodology review. The Court is mindful that we are now seven years removed from updating the case weights used to evaluate trial court judicial workload. The Court has determined it appropriate to take a cautious approach to certifying the need to decrease judgeships until the new weights become available in summer 2024.

In early 2023, the Office of the State Courts Administrator began the process of updating all trial court case weights. This is a statewide effort involving all circuit court judges, county court judges, senior judges, magistrates, child support enforcement hearing officers, and civil traffic infraction hearing officers. Total annual workload is calculated by multiplying the annual filings for each case type by the corresponding case weight, then summing the workload across all case types. Each court's workload is then divided by a judge year value to determine the total number of full-time equivalent judges needed to handle the workload. This workload assessment is comprehensive and will be carefully validated. As with previous workload studies, the Legislature is apprised through communication of study status to the Office of Program Policy Analysis and Government Accountability. Oversight of this initiative is being conducted by a Judicial Needs Assessment Committee and the Commission on Trial Court Performance and Accountability.⁶ As with previous studies, we have contracted with the National Center for State Courts⁷ to conduct the study with assistance from the Office of the State Courts Administrator. The study formally began in January 2023 and is expected to conclude by June 2024.

Based on the analysis under the weighted caseload methodology, and using the existing case weights pending completion of the updated study, we conclude that there is a demonstrable need for an additional circuit court judge in the Twentieth Judicial Circuit. Additionally, under this same methodology, we conclude there is a demonstrable need for three additional county court judges for Orange County and two additional county court judges for Hillsborough County.⁸ The two-step analysis and consideration of other factors suggested the need to decrease circuit court judgeships in the Eleventh Judicial Circuit and the need to decrease county court judgeships in Alachua County and Brevard County. However, the Court determines that other relevant circumstances further explained below, coupled with the secondary-factor analysis, militate against certifying the need to decrease all but two of those county court judgeships, one judgeship in Alachua County and one judgeship in Brevard County. We base this recommendation on a demonstrated, multi-year trend of excess judicial capacity in those two counties.

The judicial needs applications submitted by the chief judges noted some limitations of the existing case weights to capture a complete picture of case complexity addressed by trial court judges. Since the last case weight update in 2016, state laws have changed significantly, affecting the courts' work in interpreting and applying those laws. Court operations have also changed significantly as a result of the pandemic. Further, trial court jurisdictional thresholds⁹ have changed, affecting workload in the circuit and county courts.

The Court also considered other significant factors, including the anticipated cases resulting from recent hurricanes that have affected the state and judicial time related to the implementation of civil case management requirements.¹⁰ These factors contributed to the Court's cautious approach to certifying the need to decrease trial court judgeships.

District Courts of Appeal

In furtherance of our constitutional obligation to determine the State's need for additional judges in fiscal year 2024-25,¹¹ this opinion certifies the need for no additional district court judgeships.

At our direction,¹² and pursuant to rule 2.240, the Commission on District Court of Appeal Performance and Accountability reviewed the workload trends of the district courts of appeal and considered adjustments in the relative case weights. As in other district court workload assessments, the Commission conducted a review of the existing case types, identified the median case by which all other cases would be measured, and administered a survey to district court judges to gather data on the workload associated with disposing cases by type. Case weights were then developed and applied to each court's dispositions on the merits to determine the weighted caseload value. The weighted caseload model is a more accurate representation of judicial workload in that it addresses differences in the amount of judicial time that must be spent on each type of case. The Court approved the updated weights in June 2023, and this certification opinion is based on those new case weights.

The Court also recently directed¹³ the Commission on District Court of Appeal Performance and Accountability to examine the factors used to determine the need to certify increasing or decreasing the number of judges on a district court, the language regarding a presumption of need for an additional judgeship, and a means for evaluating if a district court has surplus judicial capacity. Given this ongoing review, the recent adjustment in district court case weights, and the excess district court of appeal capacity discussed below, the Court determined it would not be appropriate to certify the need for additional district court judgeships at this time.

As addressed in previous certifications of need for additional judges,¹⁴ the Court recognizes excess judicial capacity in the First District and the Second District based on the addition of a sixth district, corresponding jurisdictional boundary changes in three existing districts, and the policy decision not to require judges to relocate. However, the Court continues to recommend that this excess capacity be addressed over time through attrition and therefore is not certifying the need to decrease any district court judgeships.

Based on a current workload analysis,¹⁵ and as was noted in last year's judicial certification opinion, we have determined that there is estimated excess judicial capacity in the First District and Second District. To address this situation, this Court recommends that during the 2024 Regular Session the Legislature consider enacting legislation that provides for reduction in the number of statutorily authorized district court judgeships based on attrition and without requiring a judge to vacate his or her position involuntarily. Such legislation could specify that, upon each occurrence of an event that otherwise would have resulted in a vacancy in the office of judge of the First District or Second District, the number of authorized judges shall be reduced by one, until a specified number of judges remain on each court. We recommend that eventually, after attrition, there be 12 judges authorized for each of those courts.¹⁶ The goal of the Court's recommended approach, consistent with last year's opinion, is to address excess district court judicial capacity without prematurely ending an existing judge's judicial career.

The Court continues to use a verified objective weighted caseload methodology as a primary basis for assessing judicial need in the district courts of appeal,¹⁷ as well as considering qualitative factors and other factors analogous to those it considers in assessing trial court workload. Based on that analysis, the Court does not certify the need to increase or decrease judgeships in the district courts of appeal at this time. As the Court noted in its previous certification opinions, it will take some time to fully assess the effect of the jurisdictional boundary changes on workload and judicial need for any given district court and statewide.

Conclusion

We have conducted a quantitative and a qualitative assessment of trial court and appellate court judicial workload. Using the case-weighted methodology and the application of other factors identified in Florida Rule of General Practice and Judicial Administration 2.240, we certify the need for one additional circuit court judgeship in the Twentieth Judicial Circuit, three additional county court judges for Orange County, and two additional county court judges for Hillsborough County. We recommend no decrease in circuit court judgeships, a decrease of one county court judgeship in Alachua County, and a decrease of one county court judgeship in Brevard County. We certify no need for additional judgeships in the district courts of appeal. Finally, we recommend legislation to reduce the number of statutorily authorized judgeships in the First District and the Second District based on attrition and without requiring a judge to vacate his or her position involuntarily, as noted in this certification.

It is so ordered.

MUÑIZ, C.J., and CANADY, COURIEL, and FRANCIS, JJ., concur. LABARGA, J., concurs in part and dissents in part with an opinion. SASSO, J., concurs in part and dissents in part with an opinion, in which GROSSHANS, J., concurs.

LABARGA, J., concurring in part and dissenting in part.

For the reasons expressed in Justice Sasso's concurring in part and dissenting in part opinion, I dissent from the majority's opinion to the extent it decertifies judgeships in Alachua and Brevard counties.

However, I concur with the majority in all other respects, including its decision to decline to certify the need for an additional judge in the Sixth District Court of Appeal.

SASSO, J., concurring in part and dissenting in part.

I agree with the majority's decision to certify the need for additional judgeships in the Twentieth Judicial Circuit and in Orange and Hillsborough Counties. For the reasons I will explain though, I disagree with both the decision to certify a decreased need in Alachua and Brevard Counties and the decision not to certify the need for an additional judgeship in the Sixth District.

Trial Courts

Florida Rule of General Practice and Judicial Administration 2.240 guides our determination of the need for additional judges and provides that we may consider two categories of data. The first and primary category is the quantitative data, based chiefly upon a workload measurement derived from the application of case weights to circuit and county court caseload statistics. *See* Fla. R. Gen. Prac. & Jud. Admin. 2.240(b)(1)(A). The second is the qualitative data, which includes several factors that, while more difficult to quantify, help fully measure judicial workload. *See* Fla. R. Gen. Prac. & Jud. Admin. 2.240(b)(1)(B), (c). To assess the qualitative factors, we largely rely on the annual reports and requests provided by the chief judge of each circuit.

This year, there is a considerable disconnect between the determination that flows from application of the quantitative measurement (the weighted caseload methodology) and the determination that flows from consideration of the chief judges' reports and requests. For example, the weighted caseload methodology results in the determination that only one circuit, the Twentieth Circuit, has the need for an additional circuit judge. But eleven out of the state's twenty circuits have requested at least one additional circuit judge, with some circuits requesting up to four additional judges. Similarly, the weighted caseload methodology results in the conclusion that eighteen county courts should have judicial positions decertified. But the chief judges do not agree, citing inter alia population growth, the increased request for interpreters, the number of county court judges performing circuit court work, and the substantial resources county court judges commit to community endeavors.

The cause for the disconnect is somewhat speculative, but there are a few things we know for sure. As the majority notes, the metrics underlying the weighted caseload methodology have not been evaluated since 2016, despite our determination that they should be reevaluated

every five years. And as the majority notes, there is a good and valid explanation for that delay, but the fact remains that it has not been done. We also know that Florida's court system has undergone considerable changes since 2016, including subject matter jurisdiction changes, a reconfiguration of the district courts, and lasting operational modifications resulting from the global pandemic.

Given the clear disconnect between the quantitative and qualitative data, and what is likely an outdated mode of producing quantitative results, I agree with the majority's cautious approach. However, in my view, it is not cautious enough. Until we have the benefit of a refined weighted caseload methodology, I believe we should maintain the status quo except where the formula results in a recommendation for additional judgeships. This approach better reflects the reports from the chief judges, which I find more persuasive than the results produced by applying the case weight methodology. For that reason, I respectfully dissent from the majority's opinion to the extent that it certifies a decreased need for judgeships in Brevard and Alachua Counties.

District Courts

Only one district court, the newly created Sixth District, has requested an additional judge. This request would bring the number of judges serving the Sixth District to ten, which is the number of judges that this Court initially determined would accurately reflect the needs of the district. *See In re Redefinition of App. Dists. & Certif. of Need for Add'l App. Judges*, 345 So. 3d 703, 706 (Fla. 2021). And while the Sixth District only has about a year of experience on which it can draw, the judges of that district have provided a thoughtful analysis outlining the inherent limitations of the current methodology's ability to produce an accurate picture of the Sixth District's needs. To fill the gap, the Sixth District draws on existing data to provide a more representative view of the district's current and future needs. In doing so, the Sixth District makes a strong case for why this Court's initial assessment was correct. For that reason, I would certify the need for an additional judge in the Sixth District, and I respectfully dissent from the portion of the majority's opinion declining to do so.

GROSSHANS, J., concurs.

Original Proceeding – Certification of Need for Additional Judges

¹ Article V, section 9 of the Florida Constitution provides in pertinent part:

Determination of number of judges.—The supreme court shall establish by rule uniform criteria for the determination of the need for additional judges except supreme court justices, the necessity for decreasing the number of judges and for increasing, decreasing, or redefining appellate districts and judicial circuits. If the supreme court finds that a need exists for increasing or decreasing the number of judges or increasing, decreasing or redefining appellate districts and judicial circuits, it shall, prior to the next regular session of the legislature, certify to the legislature its findings and recommendations concerning such need.

² *See In re Judicial Circuit Assessment Committee*, Florida Administrative Order No. AOSC23-35 (June 30, 2023), which establishes a committee to study whether consolidation of the state's existing judicial circuits is warranted. The committee's findings and recommendations are due to the chief justice by December 1, 2023.

³ Our certification methodology relies primarily on case weights and calculations of available judge time to determine the need for additional trial court judges. *See* Fla. R. Gen. Prac. & Jud. Admin. 2.240.

⁴ Other factors that may be utilized in the determination of judicial need are prescribed in Florida Rule of General Practice and Judicial Administration 2.240.

⁵ Under chapter 2019-58, section 9, Laws of Florida, county court monetary jurisdiction increased to an upper limit of \$30,000 on January 1, 2020, and increased to \$50,000 on January 1, 2023.

⁶ *In re Commission on Trial Court Performance and Accountability*, Fla. Admin. Order No. AOSC22-36 (July 28, 2022).

⁷ Staff of the National Center for State Courts are subject matter experts in evaluating judicial workload and have conducted similar workload studies in more than 30 states throughout the country. *See Workload assessment*, Nat'l Ctr. for State Cts., <http://www.ncsc.org/workload-assessment> (last visited November 20, 2023).

⁸ Applying the weighted caseload methodology, Walton County would appear to be eligible for an additional county court judgeship. However, if the Court were to certify the need for that judgeship, the county would immediately fall below the workload threshold suggesting the need to decrease that same judgeship.

⁹ *See supra* note 5.

¹⁰ *See In re COVID-19 Health and Safety Protocols and Emergency Operational Measures for Florida Appellate and Trial Courts*, Florida Administrative Order No. AOSC21-17, Amendment 3 (Jan. 8, 2022), which requires presiding judges to actively manage civil cases, including issuing case management orders that address deadlines for serving complaints and extensions, adding new parties, completing discovery, resolving objections to pleadings, and resolving pretrial motions.

¹¹ *See supra* note 1.

¹² *See In re Commission on District Court of Appeal Performance and Accountability*, Fla. Admin. Order No. AOSC20-55 (June 24, 2020).

¹³ *See In re Commission on District Court of Appeal Performance and Accountability*, Fla. Admin. Order No. AOSC22-24 (July 12, 2022).

¹⁵ Cases disposed on the merits by the district courts of appeal were historically realigned, based on the current six district boundary lines, for the purpose of the workload calculations. Six months of actual data were available for use for the new Sixth District Court of Appeal, and that data was combined with the historical re-creation of that district court's caseload for purposes of analysis.

¹⁶ *See* Fla. SB 490 (2024) (proposed amendment to § 35.06, Fla. Stat.); Fla. HB 457 (2024) (same).

¹⁷ Our certification methodology relies primarily on the relative weight of cases disposed on the merits to determine the need for additional district court judges. *See* Fla. R. Gen. Prac. & Jud. Admin. 2.240.

PRAYER

The following prayer was offered by Pastor Earl Glisson, Anchor Faith Church, St. Augustine:

Let us pray. Dear Heavenly Father, the Creator of heaven and earth. We place ourselves in remembrance that you are the ruler of all and that you, above all, understand the need in the governance of humanity. For in the beginning, you created man, both male and female, in your image and likeness and entrusted to man the mandate of dominion. A dominion that rests solely on the obedience to your will and purpose. In essence, you desire to rule from your realm into this realm through man submitted to your spirit. We humbly come today in prayer seeking your will in accordance with your written word, "Your kingdom come, your will be done on earth as it is in heaven."

We are thankful that you desire not to be absent from government proceedings but rather be consulted. You have given us examples within your historical documents of how you worked with men and women to be influencers in government. As a result, through their prayers and their actions, they saved and benefitted the lives of many. Such is the case with the man you used to save a nation from financial collapse in a time of famine or the woman you used to enact an amended law for the defense of a nation who had been set for destruction. These actions and many others have left us with the reminder of what the scriptures declare, "Blessed is the nation whose God is the Lord."

With all this in mind I pray for your wisdom—the wisdom from above which is pure, then peaceable, gentle, reasonable, full of mercy and good fruits, unwavering, without hypocrisy—to come to these great men and women that are before me in the Senate. May they seek your purpose and not the purpose of another. For where selfish ambitions exist, there is disorder and every evil thing. I pray that they would receive divine understanding and moral clarity to enact legislation and pass laws that benefit all Floridians, and continue to serve as a model to the rest of our nation. By doing so, in years to come, the work they accomplish together today will aid in the safety and advancement of humanity and magnify your great name. Lord, equip them in the responsibility of their elected position. I pray blessings and protection towards them, their families, and staff members. In the name of Jesus, Amen.

PLEDGE

Senate Pages, Sudan Eubanks of Pembroke Pines; Lucas Fernandez of Orlando; and Ellie Johnson of Bristol, led the Senate in the Pledge of Allegiance to the flag of the United States of America.

DOCTOR OF THE DAY

The President recognized Dr. Sean McCann of Winter Garden, sponsored by Senator Burton, as the doctor of the day. Dr. McCann specializes in family medicine.

Section 26. Paragraph (a) of subsection (2), paragraphs (a) and (b) of subsection (3), paragraph (c) of subsection (4), paragraphs (a), (b), and (d) of subsection (5), paragraphs (a), (b), and (c) of subsection (6), paragraph (b) of subsection (7), and subsection (9) of section 1008.25, Florida Statutes, are amended, and paragraph (h) is added to subsection (2) of that section, to read:

1008.25 Public school student progression; student support; coordinated screening and progress monitoring; reporting requirements.—

(2) STUDENT PROGRESSION PLAN.—Each district school board shall establish a comprehensive plan for student progression which must provide for a student's progression from one grade to another based on the student's mastery of the standards in s. 1003.41, specifically English Language Arts, mathematics, science, and social studies standards. The plan must:

(a) Include criteria that emphasize student reading proficiency in kindergarten through grade 3 and provide targeted instructional support for students with identified deficiencies in English Language Arts, mathematics, science, and social studies, *including students who have been referred to the district from the Voluntary Prekindergarten Education Program consistent with paragraph (5)(b)*. High schools shall use all available assessment results, including the results of statewide, standardized English Language Arts assessments and end-of-course assessments for Algebra I and Geometry, to advise students of any identified deficiencies and to provide appropriate postsecondary preparatory instruction before high school graduation. The results of evaluations used to monitor a student's progress in grades K-12 must be provided to the student's teacher in a timely manner and as otherwise required by law. Thereafter, evaluation results must be provided to the student's parent in a timely manner. When available, instructional personnel must be provided with information on student achievement of standards and benchmarks in order to improve instruction.

(h) *Specify retention requirements for students in kindergarten through grade 2 based upon each student's performance in English Language Arts and mathematics. For students who are retained in kindergarten through grade 2, the plan must incorporate the parental*

notification requirements provided in subsections (5) and (6), include an opportunity for parental input on the retention decision, and include information on the importance of students mastering early literacy and communication skills in order to be reading at or above grade level by the end of grade 3.

(3) ALLOCATION OF RESOURCES.—District school boards shall allocate remedial and supplemental instruction resources to students in the following priority:

(a) Students in the *Voluntary Prekindergarten Education Program* ~~kindergarten~~ through grade 3 who have a substantial deficiency in reading or the characteristics of dyslexia as determined in paragraph (5)(a).

(b) Students in the *Voluntary Prekindergarten Education Program* ~~kindergarten~~ through grade 4 who have a substantial deficiency in mathematics or the characteristics of dyscalculia as determined in paragraph (6)(a).

(4) ASSESSMENT AND SUPPORT.—

(c) A student who has a substantial reading deficiency as determined in paragraph (5)(a) or a substantial mathematics deficiency as determined in paragraph (6)(a) must be covered by a federally required student plan, such as an individual education plan or an individualized progress monitoring plan, or both, as necessary. The individualized progress monitoring plan *must be developed within 30 days after the results of the coordinated screening and progress monitoring system become available. The plan must* ~~shall include~~, at a minimum, include:

1. The student's specific, identified reading or mathematics skill deficiency.
2. Goals and benchmarks for student growth in reading or mathematics.
3. A description of the specific measures that will be used to evaluate and monitor the student's reading or mathematics progress.
4. For a substantial reading deficiency, the specific evidence-based literacy instruction grounded in the science of reading which the student will receive.
5. Strategies, resources, and materials that will be provided to the student's parent to support the student to make reading or mathematics progress.
6. Any additional services the student's teacher deems available and appropriate to accelerate the student's reading or mathematics skill development.

(5) READING DEFICIENCY AND PARENTAL NOTIFICATION.—

(a) Any student in a *Voluntary Prekindergarten Education Program* provided by a public school ~~kindergarten~~ through grade 3 who exhibits a substantial deficiency in reading or the characteristics of dyslexia based upon screening, diagnostic, progress monitoring, or assessment data; statewide assessments; or teacher observations must be provided intensive, explicit, systematic, and multisensory reading interventions immediately following the identification of the reading deficiency or the characteristics of dyslexia to address his or her specific deficiency or dyslexia. *For the purposes of this subsection, a Voluntary Prekindergarten Education Program student is deemed to exhibit a substantial deficiency in early literacy skills based upon the results of the midyear or final administration of the coordinated screening and progress monitoring under subsection (9).*

1. The department shall provide a list of state examined and approved comprehensive reading and intervention programs. The intervention programs shall be provided in addition to the comprehensive core reading instruction that is provided to all students in the general education classroom. Dyslexia-specific interventions, as defined by rule of the State Board of Education, shall be provided to students who have the characteristics of dyslexia. The reading intervention programs must do all of the following:

- a. Provide explicit, direct instruction that is systematic, sequential, and cumulative in language development, phonological awareness, phonics, fluency, vocabulary, and comprehension, as applicable.
- b. Provide daily targeted small group reading interventions based on student need in phonological awareness, phonics, including decoding and encoding, sight words, vocabulary, or comprehension.
- c. Be implemented during regular school hours.

2. A school may not wait for a student to receive a failing grade at the end of a grading period or wait until a plan under paragraph (4)(b) is developed to identify the student as having a substantial reading deficiency and initiate intensive reading interventions. In addition, a school may not wait until an evaluation conducted pursuant to s. 1003.57 is completed to provide appropriate, evidence-based interventions for a student whose parent submits documentation from a professional licensed under chapter 490 which demonstrates that the student has been diagnosed with dyslexia. Such interventions must be initiated upon receipt of the documentation and based on the student's specific areas of difficulty as identified by the licensed professional.

3. A student's reading proficiency must be monitored and the intensive interventions must continue until the student demonstrates grade level proficiency in a manner determined by the district, which may include achieving a Level 3 on the statewide, standardized English Language Arts assessment. The State Board of Education shall identify by rule guidelines for determining whether a student in a *Voluntary Prekindergarten Education Program* provided by a public school ~~kindergarten~~ through grade 3 has a substantial deficiency in reading.

(b) A Voluntary Prekindergarten Education Program student who exhibits a substantial deficiency in early literacy skills based upon the results of the administration of the *midyear or final* coordinated screening and progress monitoring under subsection (9) shall be referred to the local school district and may be eligible to receive instruction in early literacy skills before participating in kindergarten. A student with an individual education plan who has been retained pursuant to paragraph (2)(g) and has demonstrated a substantial deficiency in early literacy skills must receive instruction in early literacy skills.

(d) The parent of any student who exhibits a substantial deficiency in reading, as described in paragraph (a), must be notified in writing, *in a timely manner*, of the following:

1. That his or her child has been identified as having a substantial deficiency in reading, including a description and explanation, in terms understandable to the parent, of the exact nature of the student's difficulty in learning and lack of achievement in reading.
2. A description of the current services that are provided to the child.
3. A description of the proposed intensive interventions and supports that will be provided to the child that are designed to remediate the identified area of reading deficiency.
4. *The student progression requirements under paragraph (2)(h) and that if the child's reading deficiency is not remediated by the end of grade 3, the child must be retained unless he or she is exempt from mandatory retention for good cause.*
5. Strategies, including multisensory strategies and programming, through a read-at-home plan the parent can use in helping his or her child succeed in reading. The read-at-home plan must provide access to the resources identified in paragraph (f).
6. That the statewide, standardized English Language Arts assessment is not the sole determiner of promotion and that additional evaluations, portfolio reviews, and assessments are available to the child to assist parents and the school district in knowing when a child is reading at or above grade level and ready for grade promotion.
7. The district's specific criteria and policies for a portfolio as provided in subparagraph (7)(b)4. and the evidence required for a student to demonstrate mastery of Florida's academic standards for English Language Arts. A school must immediately begin collecting evidence for a portfolio when a student in grade 3 is identified as being at risk of retention or upon the request of the parent, whichever occurs first.

8. The district's specific criteria and policies for midyear promotion. Midyear promotion means promotion of a retained student at any time during the year of retention once the student has demonstrated ability to read at grade level.

9. Information about the student's eligibility for the New Worlds Reading Initiative under s. 1003.485 and the New Worlds Scholarship Accounts under s. 1002.411 and information on parent training modules and other reading engagement resources available through the initiative.

After initial notification, the school shall apprise the parent at least monthly of the student's progress in response to the intensive interventions and supports. Such communications must be in writing and must explain any additional interventions or supports that will be implemented to accelerate the student's progress if the interventions and supports already being implemented have not resulted in improvement. *After receiving the initial notification, a parent may request additional meetings with the teacher or the school's reading coach to discuss the student's progress and may request additional services currently provided by the school district. The additional services must include, but are not limited to, the interventions in paragraph (8)(a).*

(6) MATHEMATICS DEFICIENCY AND PARENTAL NOTIFICATION.—

(a) Any student in a *Voluntary Prekindergarten Education Program provided by a public school kindergarten* through grade 4 who exhibits a substantial deficiency in mathematics or the characteristics of dyscalculia based upon screening, diagnostic, progress monitoring, or assessment data; statewide assessments; or teacher observations must:

1. Immediately following the identification of the mathematics deficiency, be provided systematic and explicit mathematics instruction to address his or her specific deficiencies through either:

- a. Daily targeted small group mathematics intervention based on student need; or
- b. Supplemental, evidence-based mathematics interventions before or after school, or both, delivered by a highly qualified teacher of mathematics or a trained tutor.

2. The performance of a student receiving mathematics instruction under subparagraph 1. must be monitored, and instruction must be adjusted based on the student's need.

3. The department shall provide a list of state examined and approved mathematics intervention programs, curricula, and high-quality supplemental materials that may be used to improve a student's mathematics deficiencies. In addition, the department shall work, at a minimum, with the Florida Center for Mathematics and Science Education Research established in s. 1004.86 to disseminate information to school districts and teachers on effective evidence-based explicit mathematics instructional practices, strategies, and interventions.

4. A school may not wait for a student to receive a failing grade at the end of a grading period or wait until a plan under paragraph (4)(b) is developed to identify the student as having a substantial mathematics deficiency and initiate intensive mathematics interventions. In addition, a school may not wait until an evaluation conducted pursuant to s. 1003.57 is completed to provide appropriate, evidence-based interventions for a student whose parent submits documentation from a professional licensed under chapter 490 which demonstrates that the student has been diagnosed with dyscalculia. Such interventions must be initiated upon receipt of the documentation and based on the student's specific areas of difficulty as identified by the licensed professional.

5. The mathematics proficiency of a student receiving additional mathematics supports must be monitored and the intensive interventions must continue until the student demonstrates grade level proficiency in a manner determined by the district, which may include achieving a Level 3 on the statewide, standardized Mathematics assessment. The State Board of Education shall identify by rule guidelines for determining whether a student in a *Voluntary Prekindergarten Education Program provided by a public school kindergarten* through grade 4 has a substantial deficiency in mathematics.

For the purposes of this paragraph, a Voluntary Prekindergarten Education Program student is deemed to exhibit a substantial deficiency in mathematics skills based upon the results of the midyear or final administration of the coordinated screening and progress monitoring under subsection (9).

(b) A Voluntary Prekindergarten Education Program student who exhibits a substantial deficiency in early math skills based upon the results of the administration of the *midyear or final* coordinated screening and progress monitoring under subsection (8) shall be referred to the local school district and may be eligible to receive intensive mathematics interventions before participating in kindergarten.

(c) The parent of a student who exhibits a substantial deficiency in mathematics, as described in paragraph (a), must be notified in writing of the following:

1. That his or her child has been identified as having a substantial deficiency in mathematics, including a description and explanation, in terms understandable to the parent, of the exact nature of the student's difficulty in learning and lack of achievement in mathematics.

2. A description of the current services that are provided to the child.

3. A description of the proposed intensive interventions and supports that will be provided to the child that are designed to remediate the identified area of mathematics deficiency.

4. Strategies, including multisensory strategies and programming, through a home-based plan the parent can use in helping his or her child succeed in mathematics. The home-based plan must provide access to the resources identified in paragraph (e).

After the initial notification, the school shall apprise the parent at least monthly of the student's progress in response to the intensive interventions and supports. Such communications must be in writing and must explain any additional interventions or supports that will be implemented to accelerate the student's progress if the interventions and supports already being implemented have not resulted in improvement. *After receiving the initial notification, a parent may request additional meetings with the teacher or school's math coach to discuss the student's progress and may request additional services that are currently provided by the school district.*

(7) ELIMINATION OF SOCIAL PROMOTION.—

(b) The district school board may only exempt students from mandatory retention, as provided in paragraph (5)(c), for good cause. A student ~~who is~~ promoted to grade 4 with a good cause exemption shall be provided intensive reading instruction and intervention that include specialized diagnostic information and specific reading strategies to meet the needs of each student so promoted. The school district shall assist schools and teachers with the implementation of explicit, systematic, and multisensory reading instruction and intervention strategies for students promoted with a good cause exemption which research has shown to be successful in improving reading among students who have reading difficulties. *A parent may request additional interventions that are currently provided by the school district and can include, but are not limited, to the interventions identified in paragraph (8)(a).* Good cause exemptions are limited to the following:

1. Limited English proficient students who have had less than 2 years of instruction in an English for Speakers of Other Languages program based on the initial date of entry into a school in the United States.

2. Students with disabilities whose individual education plan indicates that participation in the statewide assessment program is not appropriate, consistent with the requirements of s. 1008.212.

3. Students who demonstrate an acceptable level of performance on *the beginning or midyear administration of the English Language Arts coordinated screening and progress monitoring system under subsection (9), or an alternative standardized reading or English Language Arts assessment, approved by the State Board of Education.*

4. A student who demonstrates through a student portfolio that he or she is performing at least at Level 2 on the statewide, standardized English Language Arts assessment.

5. Students with disabilities who take the statewide, standardized English Language Arts assessment and who have an individual education plan or a Section 504 plan that reflects that the student has received intensive instruction in reading or English Language Arts for more than 2 years but still demonstrates a deficiency and was previously retained in prekindergarten, kindergarten, grade 1, grade 2, or grade 3.

6. Students who have received intensive reading intervention for 2 or more years but still demonstrate a deficiency in reading and who were previously retained in kindergarten, grade 1, grade 2, or grade 3 for a total of 2 years. A student may not be retained more than once in grade 3.

And the title is amended as follows:

Delete lines 117-122 and insert: course assessment; amending s. 1008.25, F.S.; revising the criteria for the student progression plan to include instructional support for students referred from a specified program; requiring school districts to specify retention requirements for students in kindergarten through grade 2; requiring that the plan incorporate specified parental notification requirements, include an opportunity for parental input on the retention decision, and include certain information; requiring district school boards to include the Voluntary Prekindergarten Education Program in a certain allocation of resources; requiring that the individualized progress monitoring plan for specified students be developed within a specified timeframe; providing conditions for parents to request supports for students identified as having a substantial deficiency in reading or mathematics; requiring the department to adopt additional alternative assessments for good cause promotion; requiring two administrations of the coordinated screening and progress monitoring system for students in a summer prekindergarten program; conforming cross-references; amending s.

PRAYER

The following prayer was offered by Pastor Quincy Devon Griffin, Sr., Family Worship and Praise Center, Tallahassee:

Good morning. Let us pray. Let us bow our heads. First, I'd like to give you, Lord, glory, honor, and praise because if it had not been for you, we wouldn't have the ability to celebrate the 200 years of victory you have given our great city, Tallahassee, Florida. Lord, we appreciate, and we are appreciative because we are all in some way, or in some capacity, recipients of the grace you have given this municipality. From the glistening waters of Lake Jackson to the hovering canopies of Old St. Augustine Road, we can proudly say you have privileged us to have one of the most beautiful capital cities in this country, and for that we say thank you. We praise you for this city because it's pivotal for education when we look at the institutions of higher learning. Florida State, TCC, and on the highest of seven hills, Florida A & M University. We are thankful for the ability to have adequate healthcare facilities that service all of North Florida and the Panhandle. We are thankful that you blessed this city, but Lord, even though we look at our landmarks, we realize that we are on the brink of something new. So now by your authority and your hand of mercy, touch every leader that you have called to this city by your mighty power. Although they are here to make decisions, they have stepped into a celebration of our 200th year, and Lord, we always say when praises go up, blessings come down. So bless these leaders. Bless them to bless their cities. Bless them to bless their regions, and Lord, let the blessings on Tallahassee flourish throughout the state. Let it flow up to North Florida all the way down to South

Florida. And we declare that the next 200 years of this city will be greater than the former 200 years. We are excited about what you are going to do. We are thankful for being able to say that we are still here and that Tallahassee is still strong. It's in your Son's mighty name we pray; let everybody say, "Amen."

PLEDGE

Senate Pages, Jeremiah Belinsky of Daytona Beach; Janae Brown of Orlando; and Patrick Jones of Jacksonville, led the Senate in the Pledge of Allegiance to the flag of the United States of America.

PRAYER

The following prayer was offered by Rabbi Schneur Z. Oirechman, Chabad Lubavitch of the Panhandle, Tallahassee and FSU, Tallahassee:

Almighty G-d, Creator of the Universe, as we convene the 2024 Session of the Florida Senate, we pray that you should bestow your blessings upon our illustrious Governor Ron DeSantis, the honorable Senate President Kathleen Passidomo, all of our distinguished Senators and Representatives, and all of our state leaders. Bless them for their shining leadership of the Sunshine State, and for their strong support of our Jewish brothers and sisters, both here and in the Holy Land. We pray that you bestow your peace and safety upon those currently serving in the armed forces of Israel, including my nephews, who stand to defend the innocent. We pray for the redemption of our hostages by your helping hand. We pray for the strength to respond to darkness with more light, more faith, and more happiness as taught to us by the Lubavitcher Rebbe, Rabbi Menachem Schneersohn of blessed memory.

Almighty G-d, as the Torah portion of this week teaches us, darkness is most extreme just before dawn. And so, when the Hebrew slaves of Egypt cried out to G-d, at the first sign of relief G-d set them free.

Likewise, we pause today to pray to be personally set free, to escape the confines of our own exile by performing ever-more acts of goodness and kindness. G-d gave the evil Pharaoh many chances to mend his ways, even though he made it hard for him and hardened his heart, yet it was possible, but he chose not to. G-d does not place challenges or obstacles in our way without giving us the strength and ability to overcome them; we just have to believe in ourselves that we can.

We pray today that G-d should instill within our distinguished Senators the infinite G-dly power to overcome any internal or external struggles, so they can change our Sunshine State and the world for the good. When we perform acts of goodness and kindness, we become partners with the Almighty to transform darkness into light and to fulfill the entire purpose of creation to bring about the ultimate redemption. As we commemorate the start of the Lubavitcher Rebbe's leadership this weekend 74 years ago, we pray for your light to shine at this time of darkness—that we see our way to the dawn of a new day here, in Israel, and around the world, with the full redemption speedily in our days. Amen.

PLEDGE
