From the funds in Specific Appropriation 2616, \$500,000 in nonrecurring funds is appropriated to the Office of Insurance Regulation to procure a study on the benefits and long-term effects of specifying substantial improvement periods, also known as lookbacks, for counties and municipalities, specifying county and municipality ordinance reporting requirements and setting substantial improvement period maximum durations in Florida. For this study, "substantial improvement period" means the calculated length of time for any repair, reconstruction, rehabilitation, or improvement of a structure to harden a home for purposes of resiliency, as a preventative measure rather than in a response to storm. This study shall analyze the impact of substantial improvement periods on community rating system discounts and insurance rates as calculated by FEMA and Florida's local floodplain managers. In addition, the study should address any concerns with local ordinances that make allowances for the repair or replacement of the elements of a structure that do not directly harden a home. **Section 4** amends s. 1004.6495(10), F.S., to require the State Board of Education to, by August 1, 2024, establish a state Classification of Instructional Program code for the Florida Postsecondary Comprehensive Transition Program.

**Section 5** authorizes the Agency for Health Care Administration (AHCA) to submit a budget amendment to realign funding between the AHCA and the Department of Health (DOH) for the Children's Medical Services (CMS) Network for the implementation of the Statewide Medicaid Managed Care program, to reflect actual enrollment changes due to the transition from fee-for-service into the capitated CMS Network.

**Section 6** authorizes AHCA to submit a budget amendment to realign funding priorities within the Medicaid program appropriation categories to address any projected surpluses and deficits for Fiscal Year 2024-2025.

409.912 Cost-effective purchasing of health care.—The agency shall purchase goods and services for Medicaid recipients in the most cost-effective manner consistent with the delivery of quality medical care. To ensure that medical services are effectively utilized, the agency may, in any case, require a confirmation or second physician's opinion of the

correct diagnosis for purposes of authorizing future services under the Medicaid program. This section does not restrict access to emergency services or poststabilization care services as defined in 42 C.F.R. s. 438.114. Such confirmation or second opinion shall be rendered in a manner approved by the agency. The agency shall maximize the use of prepaid per capita and prepaid aggregate fixed-sum basis services when appropriate and other alternative service delivery and reimbursement methodologies, including competitive bidding pursuant to s. 287.057, designed to facilitate the cost-effective purchase of a case-managed continuum of care. The agency shall also require providers to minimize the exposure of recipients to the need for acute inpatient, custodial, and other institutional care and the inappropriate or unnecessary use of high-cost services. The agency shall contract with a vendor to monitor and evaluate the clinical practice patterns of providers in order to identify trends that are outside the normal practice patterns of a provider's professional peers or the national guidelines of a provider's professional association. The vendor must be able to provide information and counseling to a provider whose practice patterns are outside the norms, in consultation with the agency, to improve patient care and reduce inappropriate utilization. The agency may mandate prior authorization, drug therapy management, or disease management participation for certain populations of Medicaid beneficiaries, certain drug classes, or particular drugs to prevent fraud, abuse, overuse, and possible dangerous drug interactions. The Pharmaceutical and Therapeutics Committee shall make recommendations to the agency on drugs for which prior authorization is required. The agency shall inform the Pharmaceutical and Therapeutics Committee of its decisions regarding drugs subject to prior authorization. The agency is authorized to limit the entities it contracts with or enrolls as Medicaid providers by developing a provider network through provider credentialing. The agency may competitively bid single-source-provider contracts if procurement of goods or services results in demonstrated cost savings to the state without limiting access to care. The agency may limit its network based on the assessment of beneficiary access to care, provider availability, provider quality standards, time and distance standards for access to care, the cultural competence of the provider network, demographic characteristics of Medicaid beneficiaries, practice and provider-to-beneficiary standards, appointment wait times, beneficiary use of services, provider turnover, provider profiling, provider licensure history, previous program integrity investigations and findings, peer review, provider Medicaid policy and billing compliance records, clinical and medical record audits, and other factors. Providers are not entitled to enrollment in the Medicaid provider network. The agency shall determine instances in which allowing Medicaid beneficiaries to purchase durable medical equipment and other goods is less expensive to the Medicaid program than long-term rental of the equipment or goods. The agency may establish rules to facilitate purchases in lieu of long-term rentals in order to protect against fraud and abuse in the Medicaid program as defined in s. 409.913. The agency may seek federal waivers necessary to administer these policies.

(6) Notwithstanding the provisions of chapter 287, the agency may, at its discretion, renew a contract or contracts for fiscal intermediary services one or more times for such periods as the agency may decide; however, all such renewals may not combine to exceed a total period longer than the term of the original contract, *with the exception of the fiscal agent contract scheduled to end December 31, 2024, which may be extended by the agency through December 31, 2027.*

Section 39. *In order to implement Specific Appropriations 1150 through 1161 of the 2024-2025 General Appropriations Act:*

(1) *The Department of Juvenile Justice is required to review county juvenile detention payments to ensure that counties fulfill their financial responsibilities required in s. 985.6865, Florida Statutes. If the Department of Juvenile Justice determines that a county has not met its obligations, the department shall direct the Department of Revenue to deduct the amount owed to the Department of Juvenile Justice from the funds provided to the county under s. 218.23, Florida Statutes. The Department of Revenue shall transfer the funds withheld to the Shared County/State Juvenile Detention Trust Fund.*

(2) *As an assurance to holders of bonds issued by counties before July 1, 2024, for which distributions made pursuant to s. 218.23, Florida Statutes, are pledged, or bonds issued to refund such bonds which mature no later than the bonds they refunded and which result in a reduction of debt service payable in each fiscal year, the amount available for distribution to a county shall remain as provided by law and continue to be subject to any lien or claim on behalf of the bondholders. The Department of Revenue must ensure, based on information provided by an affected county, that any reduction in amounts distributed pursuant to subsection (1) does not reduce the amount of distribution to a county below the amount necessary for the timely payment of principal and interest when due on the bonds and the amount necessary to comply with any covenant under the bond resolution or other documents relating to the issuance of the bonds. If a reduction to a county's monthly distribution must be decreased in order to comply with this section, the Department of Revenue must notify the Department of Juvenile Justice of the amount of the decrease, and the Department of Juvenile Justice must send a bill for payment of such amount to the affected county.*

(3) *This section expires July 1, 2025.*

Section 40. In order to implement Specific Appropriations 779 through 801, 950 through 1093, and 1114 through 1149 of the 2024-2025 General Appropriations Act, and notwithstanding the expiration date in section 32 of chapter 2023-240, Laws of Florida, subsection (1), paragraph (a) of subsection (2), paragraph (a) of subsection (3), and subsections (5), (6), and (7) of section 27.40, Florida Statutes, are re-enacted to read:

27.40 Court-appointed counsel; circuit registries; minimum requirements; appointment by court.—

(1) Counsel shall be appointed to represent any individual in a criminal or civil proceeding entitled to court-appointed counsel under the Federal or State Constitution or as authorized by general law. The court shall appoint a public defender to represent indigent persons as authorized in s. 27.51. The office of criminal conflict and civil regional counsel shall be appointed to represent persons in those cases in which provision is made for court-appointed counsel, but only after the public defender has certified to the court in writing that the public defender is unable to provide representation due to a conflict of interest or is not authorized to provide representation. The public defender shall report, in the aggregate, the specific basis of all conflicts of interest certified to the court. On a quarterly basis, the public defender shall submit this information to the Justice Administrative Commission.

(2)(a) Private counsel shall be appointed to represent persons in those cases in which provision is made for court-appointed counsel but only after the office of criminal conflict and civil regional counsel has been appointed and has certified to the court in writing that the criminal conflict and civil regional counsel is unable to provide representation due to a conflict of interest. The criminal conflict and civil regional counsel shall report, in the aggregate, the specific basis of all conflicts of interest certified to the court. On a quarterly basis, the criminal conflict and civil regional counsel shall submit this information to the Justice Administrative Commission.

(3) In using a registry:

(a) The chief judge of the circuit shall compile a list of attorneys in private practice, by county and by category of cases, and provide the list to the clerk of court in each county. The chief judge of the circuit may restrict the number of attorneys on the general registry list. To be included on a registry, an attorney must certify that he or she:

1. Meets any minimum requirements established by the chief judge and by general law for court appointment;
2. Is available to represent indigent defendants in cases requiring court appointment of private counsel; and
3. Is willing to abide by the terms of the contract for services, s. 27.5304, and this section.

To be included on a registry, an attorney must enter into a contract for services with the Justice Administrative Commission. Failure to comply with the terms of the contract for services may result in termination of the contract and removal from the registry. Each attorney on the registry is responsible for notifying the clerk of the court and the Justice Administrative Commission of any change in his or her status. Failure to comply with this requirement is cause for termination of the contract for services and removal from the registry until the requirement is fulfilled.

(5) The Justice Administrative Commission shall approve uniform contract forms for use in procuring the services of private court-appointed counsel and uniform procedures and forms for use by a court-appointed attorney in support of billing for attorney's fees, costs, and related expenses to demonstrate the attorney's completion of specified duties. Such uniform contracts and forms for use in billing must be consistent with s. 27.5304, s. 216.311, and the General Appropriations Act and must contain the following statement: "The State of Florida's performance and obligation to pay under this contract is contingent upon an annual appropriation by the Legislature."

(6) After court appointment, the attorney must immediately file a notice of appearance with the court indicating acceptance of the appointment to represent the defendant and of the terms of the uniform contract as specified in subsection (5).

(7)(a) A private attorney appointed by the court from the registry to represent a client is entitled to payment as provided in s. 27.5304 so long as the requirements of subsection (1) and paragraph (2)(a) are met. An attorney appointed by the court who is not on the registry list may be compensated under s. 27.5304 only if the court finds in the order of appointment that there were no registry attorneys available for re-

presentation for that case and only if the requirements of subsection (1) and paragraph (2)(a) are met.

(b)1. The flat fee established in s. 27.5304 and the General Appropriations Act shall be presumed by the court to be sufficient compensation. The attorney shall maintain appropriate documentation, including contemporaneous and detailed hourly accounting of time spent representing the client. If the attorney fails to maintain such contemporaneous and detailed hourly records, the attorney waives the right to seek compensation in excess of the flat fee established in s. 27.5304 and the General Appropriations Act. These records and documents are subject to review by the Justice Administrative Commission and audit by the Auditor General, subject to the attorney-client privilege and work-product privilege. The attorney shall maintain the records and documents in a manner that enables the attorney to redact any information subject to a privilege in order to facilitate the commission's review of the records and documents and not to impede such review. The attorney may redact information from the records and documents only to the extent necessary to comply with the privilege. The Justice Administrative Commission shall review such records and shall contemporaneously document such review before authorizing payment to an attorney. Objections by or on behalf of the Justice Administrative Commission to records or documents or to claims for payment by the attorney shall be presumed correct by the court unless the court determines, in writing, that competent and substantial evidence exists to justify overcoming the presumption.

2. If an attorney fails, refuses, or declines to permit the commission or the Auditor General to review documentation for a case as provided in this paragraph, the attorney waives the right to seek, and the commission may not pay, compensation in excess of the flat fee established in s. 27.5304 and the General Appropriations Act for that case.

3. A finding by the commission that an attorney has waived the right to seek compensation in excess of the flat fee established in s. 27.5304 and the General Appropriations Act, as provided in this paragraph, shall be presumed to be correct, unless the court determines, in writing, that competent and substantial evidence exists to justify overcoming the presumption.

Section 41. *The text of s. 27.40(1), (2)(a), (3)(a), (5), (6), and (7), Florida Statutes, as carried forward from chapter 2019-116, Laws of Florida, by this act, expires July 1, 2025, and the text of those subsections and paragraphs, as applicable, shall revert to that in existence on June 30, 2019, except that any amendments to such text enacted other than by this act shall be preserved and continue to operate to the extent that such amendments are not dependent upon the portions of text which expire pursuant to this section.*

Section 42. In order to implement Specific Appropriations 779 through 801, 950 through 1093, and 1114 through 1149 of the 2024-2025 General Appropriations Act, and notwithstanding the expiration date in section 34 of chapter 2023-240, Laws of Florida, subsection (13) of section 27.5304, Florida Statutes, is amended, and subsections (1), (3), (6), (7), and (11), and paragraphs (a) through (e) of subsection (12) of that section are reenacted, to read:

27.5304 Private court-appointed counsel; compensation; notice.—

(1) Private court-appointed counsel appointed in the manner prescribed in s. 27.40(1) and (2)(a) shall be compensated by the Justice Administrative Commission only as provided in this section and the General Appropriations Act. The flat fees prescribed in this section are limitations on compensation. The specific flat fee amounts for compensation shall be established annually in the General Appropriations Act. The attorney also shall be reimbursed for reasonable and necessary expenses in accordance with s. 29.007. If the attorney is representing a defendant charged with more than one offense in the same case, the attorney shall be compensated at the rate provided for the most serious offense for which he or she represented the defendant. This section does not allow stacking of the fee limits established by this section.

(3) The court retains primary authority and responsibility for determining the reasonableness of all billings for attorney fees, costs, and related expenses, subject to statutory limitations and the requirements of s. 27.40(7). Private court-appointed counsel is entitled to compensation upon final disposition of a case.

(6) For compensation for representation pursuant to a court appointment in a proceeding under chapter 39:

(a) At the trial level, compensation for representation for dependency proceedings shall not exceed \$1,450 for the first year following the date of appointment and shall not exceed \$700 each year thereafter. Compensation shall be paid based upon representation of a parent irrespective of the number of case numbers that may be assigned or the number of children involved, including any children born during the pendency of the proceeding. Any appeal, except for an appeal from an adjudication of dependency, shall be completed by the trial attorney and is considered compensated by the flat fee for dependency proceedings.

1. Counsel may bill the flat fee not exceeding \$1,450 following disposition or upon dismissal of the petition.

2. Counsel may bill the annual flat fee not exceeding \$700 following the first judicial review in the second year following the date of appointment and each year thereafter as long as the case remains under protective supervision.

3. If the court grants a motion to reactivate protective supervision, the attorney shall receive the annual flat fee not exceeding \$700 following the first judicial review and up to an additional \$700 each year thereafter.

4. If, during the course of dependency proceedings, a proceeding to terminate parental rights is initiated, compensation shall be as set forth in paragraph (b). If counsel handling the dependency proceeding is not authorized to handle proceedings to terminate parental rights, the counsel must withdraw and new counsel must be appointed.

(b) At the trial level, compensation for representation in termination of parental rights proceedings shall not exceed \$1,800 for the first year following the date of appointment and shall not exceed \$700 each year thereafter. Compensation shall be paid based upon representation of a parent irrespective of the number of case numbers that may be assigned or the number of children involved, including any children born during the pendency of the proceeding. Any appeal, except for an appeal from an order granting or denying termination of parental rights, shall be completed by trial counsel and is considered compensated by the flat fee for termination of parental rights proceedings. If the individual has dependency proceedings ongoing as to other children, those proceedings are considered part of the termination of parental rights proceedings as long as that termination of parental rights proceeding is ongoing.

1. Counsel may bill the flat fee not exceeding \$1,800 30 days after rendition of the final order. Each request for payment submitted to the Justice Administrative Commission must include the trial counsel's certification that:

a. Counsel discussed grounds for appeal with the parent or that counsel attempted and was unable to contact the parent; and

b. No appeal will be filed or that a notice of appeal and a motion for appointment of appellate counsel, containing the signature of the parent, have been filed.

2. Counsel may bill the annual flat fee not exceeding \$700 following the first judicial review in the second year after the date of appointment and each year thereafter as long as the termination of parental rights proceedings are still ongoing.

(c) For appeals from an adjudication of dependency, compensation may not exceed \$1,800.

1. Counsel may bill a flat fee not exceeding \$1,200 upon filing the initial brief or the granting of a motion to withdraw.

2. If a brief is filed, counsel may bill an additional flat fee not exceeding \$600 upon rendition of the mandate.

(d) For an appeal from an adjudication of termination of parental rights, compensation may not exceed \$3,500.

1. Counsel may bill a flat fee not exceeding \$1,750 upon filing the initial brief or the granting of a motion to withdraw.

2. If a brief is filed, counsel may bill an additional flat fee not exceeding \$1,750 upon rendition of the mandate.

(7) Counsel eligible to receive compensation from the state for representation pursuant to court appointment made in accordance with the requirements of s. 27.40(1) and (2)(a) in a proceeding under chapter 384, chapter 390, chapter 392, chapter 393, chapter 394, chapter 397, chapter 415, chapter 743, chapter 744, or chapter 984 shall receive compensation not to exceed the limits prescribed in the General Appropriations Act. Any such compensation must be determined as provided in s. 27.40(7).

(11) It is the intent of the Legislature that the flat fees prescribed under this section and the General Appropriations Act comprise the full and complete compensation for private court-appointed counsel. It is further the intent of the Legislature that the fees in this section are prescribed for the purpose of providing counsel with notice of the limit on the amount of compensation for representation in particular proceedings and the sole procedure and requirements for obtaining payment for the same.

(a) If court-appointed counsel moves to withdraw prior to the full performance of his or her duties through the completion of the case, the court shall presume that the attorney is not entitled to the payment of the full flat fee established under this section and the General Appropriations Act.

(b) If court-appointed counsel is allowed to withdraw from representation prior to the full performance of his or her duties through the completion of the case and the court appoints a subsequent attorney, the total compensation for the initial and any and all subsequent attorneys may not exceed the flat fee established under this section and the General Appropriations Act, except as provided in subsection (12).

This subsection constitutes notice to any subsequently appointed attorney that he or she will not be compensated the full flat fee.

(12) The Legislature recognizes that on rare occasions an attorney may receive a case that requires extraordinary and unusual effort.

(a) If counsel seeks compensation that exceeds the limits prescribed by law, he or she must file a motion with the chief judge for an order approving payment of attorney fees in excess of these limits.

1. Before filing the motion, the counsel shall deliver a copy of the intended billing, together with supporting affidavits and all other necessary documentation, to the Justice Administrative Commission.

2. The Justice Administrative Commission shall review the billings, affidavit, and documentation for completeness and compliance with contractual and statutory requirements and shall contemporaneously document such review before authorizing payment to an attorney. If the Justice Administrative Commission objects to any portion of the proposed billing, the objection and supporting reasons must be communicated in writing to the private court-appointed counsel. The counsel may thereafter file his or her motion, which must specify whether the commission objects to any portion of the billing or the sufficiency of documentation, and shall attach the commission's letter stating its objection.

(b) Following receipt of the motion to exceed the fee limits, the chief judge or a single designee shall hold an evidentiary hearing. The chief judge may select only one judge per circuit to hear and determine motions pursuant to this subsection, except multicounty circuits and the eleventh circuit may have up to two designees.

1. At the hearing, the attorney seeking compensation must prove by competent and substantial evidence that the case required extraordinary and unusual efforts. The chief judge or single designee shall consider criteria such as the number of witnesses, the complexity of the factual and legal issues, and the length of trial. The fact that a trial was conducted in a case does not, by itself, constitute competent substantial evidence of an extraordinary and unusual effort. In a criminal case, relief under this section may not be granted if the number of work hours does not exceed 75 or the number of the state's witnesses deposed does not exceed 20.

2. Objections by or on behalf of the Justice Administrative Commission to records or documents or to claims for payment by the at-

torney shall be presumed correct by the court unless the court determines, in writing, that competent and substantial evidence exists to justify overcoming the presumption. The chief judge or single designee shall enter a written order detailing his or her findings and identifying the extraordinary nature of the time and efforts of the attorney in the case which warrant exceeding the flat fee established by this section and the General Appropriations Act.

(c) A copy of the motion and attachments shall be served on the Justice Administrative Commission at least 20 business days before the date of a hearing. The Justice Administrative Commission has standing to appear before the court, and may appear in person or telephonically, including at the hearing under paragraph (b), to contest any motion for an order approving payment of attorney fees, costs, or related expenses and may participate in a hearing on the motion by use of telephonic or other communication equipment. The Justice Administrative Commission may contract with other public or private entities or individuals to appear before the court for the purpose of contesting any motion for an order approving payment of attorney fees, costs, or related expenses. The fact that the Justice Administrative Commission has not objected to any portion of the billing or to the sufficiency of the documentation is not binding on the court.

(d) If the chief judge or a single designee finds that counsel has proved by competent and substantial evidence that the case required extraordinary and unusual efforts, the chief judge or single designee shall order the compensation to be paid to the attorney at a percentage above the flat fee rate, depending on the extent of the unusual and extraordinary effort required. The percentage must be only the rate necessary to ensure that the fees paid are not confiscatory under common law. The percentage may not exceed 200 percent of the established flat fee, absent a specific finding that 200 percent of the flat fee in the case would be confiscatory. If the chief judge or single designee determines that 200 percent of the flat fee would be confiscatory, he or she shall order the amount of compensation using an hourly rate not to exceed \$75 per hour for a noncapital case and \$100 per hour for a capital case. However, the compensation calculated by using the hourly rate shall be only that amount necessary to ensure that the total fees paid are not confiscatory, subject to the requirements of s. 27.40(7).

(e) Any order granting relief under this subsection must be attached to the final request for a payment submitted to the Justice Administrative Commission and must satisfy the requirements of subparagraph (b)2.

(13) Notwithstanding the limitation set forth in subsection (5) and for the 2024-2025 ~~2023-2024~~ fiscal year only, the compensation for representation in a criminal proceeding may not exceed the following:

(a) For misdemeanors and juveniles represented at the trial level: \$2,000 ~~\$1,000~~.

(b) For noncapital, nonlife felonies represented at the trial level: \$15,000.

(c) For life felonies represented at the trial level: \$15,000.

(d) For capital cases represented at the trial level: \$25,000. For purposes of this paragraph, a "capital case" is any offense for which the potential sentence is death and the state has not waived seeking the death penalty.

(e) For representation on appeal: \$9,000.

(f) This subsection expires July 1, 2025 ~~2024~~.

5. ~~3.~~ The Department of Law Enforcement is authorized, and all conditions are deemed met, to adopt emergency rules under s. 120.54(4) for the purpose of implementing the drone replacement grant program. Notwithstanding any other law, emergency rules adopted under this section are effective for 12 months after adoption and may be renewed during the pendency of procedures to adopt permanent rules addressing the subject of the emergency rules.

282.709 State agency law enforcement radio system and interoperability network.—

(3) In recognition of the critical nature of the statewide law enforcement radio communications system, the Legislature finds that there is an immediate danger to the public health, safety, and welfare, and that it is in the best interest of the state to continue partnering with the system's current operator. The Legislature finds that continuity of coverage is critical to supporting law enforcement, first responders, and other public safety users. The potential for a loss in coverage or a lack of interoperability between users requires emergency action and is a serious concern for officers' safety and their ability to communicate and respond to various disasters and events.

(a) The department, pursuant to s. 287.057(11) ~~§. 287.057(10)~~, shall enter into a 15-year contract with the entity that was operating the statewide radio communications system on January 1, 2021. The contract must include:

1. The purchase of radios;
2. The upgrade to the Project 25 communications standard;
3. Increased system capacity and enhanced coverage for system users;
4. Operations, maintenance, and support at a fixed annual rate;
5. The conveyance of communications towers to the department; and
6. The assignment of communications tower leases to the department.

(b) The State Agency Law Enforcement Radio System Trust Fund is established in the department and funded from surcharges collected under ss. 318.18, 320.0802, and 328.72. Moneys in the trust fund from surcharges shall be used to help fund the costs of the system. Upon completion of the system, moneys in the trust fund may also be used by the department for payment of the recurring maintenance costs of the system.

The administrative law judge in such proceedings shall award attorney fees and other relief pursuant to ss. 57.105 and 768.79. Section 59. Effective upon this act becoming law, and in order to implement Specific Appropriations 2955 through 2964 of the Fiscal Year 2024-2025 General Appropriations Act, notwithstanding the proviso language for Specific Appropriation 2966 in chapter 2023-239, Laws of Florida, section 110.116, Florida Statutes, is amended to read:

110.116 Personnel information system; payroll procedures.— (1) The Department of Management Services shall establish and maintain, in coordination with the payroll system of the Department of Financial Services, a complete personnel information system for all authorized and established positions in the state service, with the exception of employees of the Legislature, unless the Legislature chooses to participate. The department may contract with a vendor to provide the personnel information system. The specifications shall be developed in conjunction with the payroll system of the Department of Financial Services and in coordination with the Auditor General. The Department of Financial Services shall determine that the position occupied by each employee has been authorized and established in accordance with the provisions of s. 216.251. The Department of Management Services shall develop and maintain a position numbering system that will identify each established position, and such information shall be a part of the payroll system of the Department of Financial Services. With the exception of employees of the Legislature, unless the Legislature chooses to participate, this system shall include all career service positions and

those positions exempted from career service provisions, notwithstanding the funding source of the salary payments, and information regarding persons receiving payments from other sources. Necessary revisions shall be made in the personnel and payroll procedures of the state to avoid duplication insofar as is feasible. A list shall be organized by budget entity to show the employees or vacant positions within each budget entity. This list shall be available to the Speaker of the House of Representatives and the President of the Senate upon request.

(2) *In recognition of the critical nature of the statewide personnel and payroll system commonly known as People First, the Legislature finds that it is in the best interest of the state to continue partnering with the current People First third-party operator. The People First System annually processes 500,000 employment applications, 455,000 personnel actions, and the state's \$9.5-billion payroll. The Legislature finds that the continuity of operations of the People First System and the critical functions it provides such as payroll, employee health insurance benefit records, and other critical services must not be interrupted. Presently, the Chief Financial Officer is undertaking the development of a new statewide accounting and financial management system, commonly known as the Planning, Accounting, and Ledger, Management System (PALM), scheduled to be operational in the year 2026. The procurement and implementation of an entire replacement of the People First System will impede the timeframe needed to successfully integrate the state's payroll system with the PALM System. In order to maintain continuity of operations and to ensure the successful completion of the PALM System, the Legislature directs that:*

(a) *The department, pursuant to s. 287.057(11), shall enter into a 3-year contract extension with the entity operating the People First System on January 1, 2024. The contract extension must:*

1. *Provide for the integration of the current People First System with PALM.*

2. *Exclude major functionality updates or changes to the People First System prior to completion of the PALM System. This does not include:*

a. *Routine system maintenance such as code updates following open enrollment; or*

b. *The technical remediation necessary to integrate the system with PALM within the PALM project's planned implementation schedule.*

3. *Include project planning and analysis deliverables necessary to:*

a. *Detail and document the state's functional requirements.*

b. *Estimate the cost of transitioning the current People First System to a cloud computing infrastructure within the contract extension and after the successful integration with PALM. The project cost evaluation shall estimate the annual cost and capacity growth required to host the system in a cloud environment.*

*The department shall develop these system specifications in conjunction with the Department of Financial Services and the Auditor General.*

4. *Include technical support for state agencies that may need assistance in remediating or integrating current financial shadow systems with People First in order to integrate with PALM or the cloud version of People First.*

5. *Include organizational change management and training deliverables needed to support the implementation of PALM payroll functionality and the People First System cloud upgrade. Responsibilities of the operator and the department shall be outlined in a project role and responsibility assignment chart within the contract.*

6. *Include an option to renew the contract for one additional year.*

(b) *The department shall submit, no later than June 30, 2026, its project planning and detailed cost estimate to upgrade the current People First System to the chair of the Senate Committee on Appropriations, the chair of the House of Representatives Appropriations Committee, and the Executive Office of the Governor's Office of Policy and Budget, for preliminary review and consideration of funding the department's Fiscal Year 2026-2027 legislative budget request to update the system.*

(c) *This subsection expires July 1, 2025.*

Section 60. In order to implement the appropriation of funds in the appropriation category “Northwest Regional Data Center” in the 2024-2025 General Appropriations Act, and pursuant to the notice, review, and objection procedures of s. 216.177, Florida Statutes, the Executive Office of the Governor may transfer funds appropriated in that category between departments in order to align the budget authority granted based on the estimated costs for data processing services for the 2024-2025 fiscal year. This section expires July 1, 2025.

Section 61. In order to implement appropriations authorized in the 2024-2025 General Appropriations Act for state data center services, auxiliary assessments charged to state agencies related to contract management services provided to Northwest Regional Data Center shall not exceed 3 percent. This section expires July 1, 2025.

Consideration shall be provided to locations with a large population of first responders and veterans. In addition to traditional eTMS devices, the provider may utilize non-medical Portable Magnetic Stimulation devices to improve access to underserved populations in remote areas or to be used to serve as a pre-post treatment or a stand-alone device. (3) *Notwithstanding subsection (1) and only with respect to a land acquisition trust fund in the Department of Agriculture and Consumer Services, the Department of Environmental Protection, the Department of State, or the Fish and Wildlife Conservation Commission, whenever there is a deficiency in a land acquisition trust fund which would render that trust fund temporarily insufficient to meet its just requirements, including the timely payment of appropriations from that trust fund, and other trust funds in the State Treasury have moneys that are for the time being or otherwise in excess of the amounts necessary to meet the just requirements, including appropriated obligations, of those other trust funds, the Governor may order a temporary transfer of moneys from one or more of the other trust funds to a land acquisition trust fund in the Department of Agriculture and Consumer Services, the Department of Environmental Protection, the Department of State, or the Fish and Wildlife Conservation Commission. Any action proposed pursuant to this subsection is subject to the notice, review, and objection procedures of s. 216.177, and the Governor shall provide notice of such action at least 7 days before the effective date of the transfer of trust funds, except that during July 2024 ~~2023~~, notice of such action shall be provided at least 3 days before the effective date of a transfer unless such 3-day notice is waived by the chair and vice chair of the Legislative Budget Commission. Managers on the part of the House

The Conference Committee Amendment for CS/HB 151, relating to the Florida Retirement System, establishes the contribution rates paid by employers that participate in the Florida Retirement System (FRS) beginning July 1, 2024. These rates are intended to fund the full normal cost and the amortization of the unfunded actuarial liability (UAL) of the FRS and the impact of policy changes included in the amendment.

The amendment authorizes an FRS retiree to be reemployed with an employer participating in the FRS and receive both compensation and retirement benefits, after meeting the definition of termination. This effectively eliminates the "suspension of benefits" period typically applied during months 7 through 12 after the date of termination.

The amendment closes the FRS Preservation of Benefits Plan to new members effective July 1, 2026. The Preservation of Benefits Plan currently provides for FRS members to be eligible to receive a benefit that is in excess of the annual benefit limit established by the Internal Revenue Service (IRS). Effective July 1, 2024, the limitation on an annual benefit under a defined benefit plan is \$275,000.

The amendment takes effect July 1, 2024.

**Conference Committee Amendment (185131) (with title amendment)**—Remove everything after the enacting clause and insert:

Section 1. Subsection (9) of section 121.091, Florida Statutes, is amended to read:

121.091 Benefits payable under the system.—Benefits may not be paid under this section unless the member has terminated employment as provided in s. 121.021(39)(a) or begun participation in the Deferred Retirement Option Program as provided in subsection (13), and a proper application has been filed in the manner prescribed by the department. The department may cancel an application for retirement benefits when the member or beneficiary fails to timely provide the information and documents required by this chapter and the department's rules. The department shall adopt rules establishing procedures for application for retirement benefits and for the cancellation of such application when the required information or documents are not received.

(9) EMPLOYMENT AFTER RETIREMENT; LIMITATION.—

(a) Any person who is retired under this chapter, except under the disability retirement provisions of subsection (4), may be employed by an employer that does not participate in a state-administered retirement system and receive compensation from that employment without limiting or restricting in any way the retirement benefits payable to that person.

(b) Any person whose retirement is effective before July 1, 2010, or whose participation in the Deferred Retirement Option Program terminates before July 1, 2010, except under the disability retirement provisions of subsection (4) or as provided in s. 121.053, may be reemployed by an employer that participates in a state-administered retirement system and receive retirement benefits and compensation from that employer, except that the person may not be reemployed by an employer participating in the Florida Retirement System before meeting the definition of termination in s. 121.021 and may not receive both a salary from the employer and retirement benefits for 12 calendar months immediately subsequent to the date of retirement. However, a DROP participant shall continue employment and receive a salary during the period of participation in the Deferred Retirement Option Program, as provided in subsection (13).

1. A retiree who violates such reemployment limitation before completion of the 12-month limitation period must give timely notice of this fact in writing to the employer and to the Division of Retirement or the state board and shall have his or her retirement benefits suspended for the months employed or the balance of the 12-month limitation period as required in sub-subparagraphs b. and c. A retiree employed in violation of this paragraph and an employer who employs or appoints such person are jointly and severally liable for reimbursement to the retirement trust fund, including the Florida Retirement System Trust Fund and the Florida Retirement System Investment Plan Trust Fund, from which the benefits were paid. The employer must have a written statement from the retiree that he or she is not retired from a state-administered retirement system. Retirement benefits shall remain suspended until repayment has been made. Benefits suspended beyond the reemployment limitation shall apply toward repayment of benefits received in violation of the reemployment limitation.

a. A district school board may reemploy a retiree as a substitute or hourly teacher, education paraprofessional, transportation assistant, bus driver, or food service worker on a noncontractual basis after he or she has been retired for 1 calendar month. A district school board may reemploy a retiree as instructional personnel, as defined in s. 1012.01(2)(a), on an annual contractual basis after he or she has been retired for 1 calendar month. Any member who is reemployed within 1 calendar month after retirement shall void his or her application for retirement benefits. District school boards reemploying such teachers,

education paraprofessionals, transportation assistants, bus drivers, or food service workers are subject to the retirement contribution required by subparagraph 2.

b. A Florida College System institution board of trustees may reemploy a retiree as an adjunct instructor or as a participant in a phased retirement program within the Florida College System, after he or she has been retired for 1 calendar month. A member who is reemployed within 1 calendar month after retirement shall void his or her application for retirement benefits. Boards of trustees reemploying such instructors are subject to the retirement contribution required in subparagraph 2. A retiree may be reemployed as an adjunct instructor for no more than 780 hours during the first 12 months of retirement. A retiree reemployed for more than 780 hours during the first 12 months of retirement must give timely notice in writing to the employer and to the Division of Retirement or the state board of the date he or she will exceed the limitation. The division shall suspend his or her retirement benefits for the remainder of the 12 months of retirement. Any retiree employed in violation of this sub-subparagraph and any employer who employs or appoints such person without notifying the division to suspend retirement benefits are jointly and severally liable for any benefits paid during the reemployment limitation period. The employer must have a written statement from the retiree that he or she is not retired from a state-administered retirement system. Any retirement benefits received by the retiree while reemployed in excess of 780 hours during the first 12 months of retirement must be repaid to the Florida Retirement System Trust Fund, and retirement benefits shall remain suspended until repayment is made. Benefits suspended beyond the end of the retiree's first 12 months of retirement shall apply toward repayment of benefits received in violation of the 780-hour reemployment limitation.

c. The State University System may reemploy a retiree as an adjunct faculty member or as a participant in a phased retirement program within the State University System after the retiree has been retired for 1 calendar month. A member who is reemployed within 1 calendar month after retirement shall void his or her application for retirement benefits. The State University System is subject to the retired contribution required in subparagraph 2., as appropriate. A retiree may be reemployed as an adjunct faculty member or a participant in a phased retirement program for no more than 780 hours during the first 12 months of his or her retirement. A retiree reemployed for more than 780 hours during the first 12 months of retirement must give timely notice in writing to the employer and to the Division of Retirement or the state board of the date he or she will exceed the limitation. The division shall suspend his or her retirement benefits for the remainder of the 12 months. Any retiree employed in violation of this sub-subparagraph and any employer who employs or appoints such person without notifying the division to suspend retirement benefits are jointly and severally liable for any benefits paid during the reemployment limitation period. The employer must have a written statement from the retiree that he or she is not retired from a state-administered retirement system. Any retirement benefits received by the retiree while reemployed in excess of 780 hours during the first 12 months of retirement must be repaid to the Florida Retirement System Trust Fund, and retirement benefits shall remain suspended until repayment is made. Benefits suspended beyond the end of the retiree's first 12 months of retirement shall apply toward repayment of benefits received in violation of the 780-hour reemployment limitation.

d. The Board of Trustees of the Florida School for the Deaf and the Blind may reemploy a retiree as a substitute teacher, substitute residential instructor, or substitute nurse on a noncontractual basis after he or she has been retired for 1 calendar month. Any member who is reemployed within 1 calendar month after retirement shall void his or her application for retirement benefits. The Board of Trustees of the Florida School for the Deaf and the Blind reemploying such teachers, residential instructors, or nurses is subject to the retirement contribution required by subparagraph 2.

A developmental research school may reemploy a retiree as instructional personnel, as defined in s. 1012.01(2)(a), on an annual contractual basis after he or she has been retired for 1 calendar month after retirement. Any member who is reemployed within 1 calendar month voids his or her application for retirement benefits. A developmental research school that reemploys retired teachers and education paraprofessionals is subject to the retirement contribution required by subparagraph 2.

f. A charter school may reemploy a retiree as a substitute or hourly teacher on a noncontractual basis after he or she has been retired for 1 calendar month. A charter school may reemploy a retired member as instructional personnel, as defined in s. 1012.01(2)(a), on an annual contractual basis after he or she has been retired for 1 calendar month after retirement. Any member who is reemployed within 1 calendar month voids his or her application for retirement benefits. A charter school that reemploys such teachers is subject to the retirement contribution required by subparagraph 2.

2. The employment of a retiree or DROP participant of a state-administered retirement system does not affect the average final compensation or years of creditable service of the retiree or DROP participant. Before July 1, 1991, upon employment of any person, other than an elected officer as provided in s. 121.053, who is retired under a state-administered retirement program, the employer shall pay retirement contributions in an amount equal to the unfunded actuarial liability portion of the employer contribution which would be required for regular members of the Florida Retirement System. Effective July 1, 1991, contributions shall be made as provided in s. 121.122 for retirees who have renewed membership or, as provided in subsection (13), for DROP participants.

3. Any person who is holding an elective public office which is covered by the Florida Retirement System and who is concurrently employed in nonelected covered employment may elect to retire while continuing employment in the elective public office if he or she terminates his or her nonelected covered employment. Such person shall receive his or her retirement benefits in addition to the compensation of the elective office without regard to the time limitations otherwise provided in this subsection. A person who seeks to exercise the provisions of this subparagraph as they existed before May 3, 1984, may not be deemed to be retired under those provisions, unless such person is eligible to retire under this subparagraph, as amended by chapter 84-11, Laws of Florida.

(c) Any person whose retirement is effective on or after July 1, 2010, or whose participation in the Deferred Retirement Option Program terminates on or after July 1, 2010, who is retired under this chapter, except under the disability retirement provisions of subsection (4) or as provided in s. 121.053, may be reemployed by an employer that participates in a state-administered retirement system and receive retirement benefits and compensation from that employer. However, a person may not be reemployed by an employer participating in the Florida Retirement System before meeting the definition of termination in s. 121.021 and may not receive both a salary from the employer and retirement benefits for 6 calendar months after meeting the definition of termination, except as provided in paragraph (d) ~~(f)~~. However, a DROP participant shall continue employment and receive a salary during the period of participation in the Deferred Retirement Option Program, as provided in subsection (13).

1. The reemployed retiree may not renew membership in the Florida Retirement System, except as provided in s. 121.122.

2. The employer shall pay retirement contributions in an amount equal to the unfunded actuarial liability portion of the employer contribution that would be required for active members of the Florida Retirement System in addition to the contributions required by s. 121.76.

3. A retiree initially reemployed in violation of this paragraph and an employer that employs or appoints such person are jointly and severally liable for reimbursement of any retirement benefits paid to the retirement trust fund from which the benefits were paid, including the Florida Retirement System Trust Fund and the Florida Retirement System Investment Plan Trust Fund, as appropriate. The employer must have a written statement from the employee that he or she is not retired from a state-administered retirement system. Retirement benefits shall remain suspended until repayment is made. Benefits suspended beyond the end of the retiree's 6-month reemployment limitation period shall apply toward the repayment of benefits received in violation of this paragraph.

(d) *Beginning July 1, 2024, a retiree who has met the definition of termination in s. 121.021 may be reemployed by an employer that participates in a state-administered retirement system and receive retirement benefits and compensation from that employer but may not receive both a salary from the employer and retirement benefits for 6 calendar months immediately subsequent to the date of retirement.*

(e)(d) This subsection applies to retirees, as defined in s. 121.4501(2), of the Florida Retirement System Investment Plan, subject to the following conditions:

1. A retiree may not be reemployed with an employer participating in the Florida Retirement System until such person has been retired for 6 calendar months.

2. A retiree employed in violation of this subsection and an employer that employs or appoints such person are jointly and severally liable for reimbursement of any benefits paid to the retirement trust fund from which the benefits were paid. The employer must have a written statement from the retiree that he or she is not retired from a state-administered retirement system.

(f)(e) The limitations of this subsection apply to reemployment in any capacity irrespective of the category of funds from which the person is compensated.

(f) A retired law enforcement officer may be reemployed as a school resource officer by an employer that participates in the Florida Retirement System and receive compensation from that employer and retirement benefits after meeting the definition of termination in s. 121.021, but may not receive both a salary from the employer and retirement benefits for 6 calendar months immediately subsequent to the date of retirement. The reemployed retired law enforcement officer may not renew membership in the Florida Retirement System, except as provided in s. 121.122.

(5) CLOSURE TO NEW MEMBERS.—Effective July 1, 2026, the Florida Retirement System Preservation of Benefits Plan is closed to new members.

Section 4. Paragraph (a) of subsection (1) of section 121.591, Florida Statutes, is amended to read:

121.591 Payment of benefits.—Benefits may not be paid under the Florida Retirement System Investment Plan unless the member has terminated employment as provided in s. 121.021(39)(a) or is deceased and a proper application has been filed as prescribed by the state board or the department. Benefits, including employee contributions, are not payable under the investment plan for employee hardships, unforeseeable emergencies, loans, medical expenses, educational expenses, purchase of a principal residence, payments necessary to prevent eviction or foreclosure on an employee's principal residence, or any other reason except a requested distribution for retirement, a mandatory de minimis distribution authorized by the administrator, or a required minimum distribution provided pursuant to the Internal Revenue Code. The state board or department, as appropriate, may cancel an application for retirement benefits if the member or beneficiary fails to timely provide the information and documents required by this chapter and the rules of the state board and department. In accordance with their respective responsibilities, the state board and the department shall adopt rules establishing procedures for application for retirement benefits and for the cancellation of such application if the required information or documents are not received. The state board and the department, as appropriate, are authorized to cash out a de minimis account of a member who has been terminated from Florida Retirement System covered employment for a minimum of 6 calendar months. A de minimis account is an account containing employer and employee contributions and accumulated earnings of not more than \$5,000 made under the provisions of this chapter. Such cash-out must be a complete lump-sum liquidation of the account balance, subject to the provisions of the Internal Revenue Code, or a lump-sum direct rollover distribution paid directly to the custodian of an eligible retirement plan, as defined by the Internal Revenue Code, on behalf of the member. Any nonvested accumulations and associated service credit, including amounts transferred to the suspense account of the Florida Retirement System Investment Plan Trust Fund authorized under s. 121.4501(6), shall be forfeited upon payment of any vested benefit to a member or beneficiary, except for de minimis distributions or minimum required distributions as provided under this section. If any financial instrument issued for the payment of retirement benefits under this section is not presented for payment within 180 days after the last day of the month in which it was originally issued, the third-party administrator or other duly authorized agent of the state board shall cancel the instrument and credit the amount of the instrument to the suspense account of the Florida Retirement System Investment Plan Trust Fund authorized under s. 121.4501(6). Any amounts transferred to the suspense account are payable upon a proper application, not to include earnings thereon,

as provided in this section, within 10 years after the last day of the month in which the instrument was originally issued, after which time such amounts and any earnings attributable to employer contributions shall be forfeited. Any forfeited amounts are assets of the trust fund and are not subject to chapter 717.

(1) NORMAL BENEFITS.—Under the investment plan:

(a) Benefits in the form of vested accumulations as described in s. 121.4501(6) are payable under this subsection in accordance with the following terms and conditions:

1. Benefits are payable only to a member, an alternate payee of a qualified domestic relations order, or a beneficiary.

2. Benefits shall be paid by the third-party administrator or designated approved providers in accordance with the law, the contracts, and any applicable board rule or policy.

3. The member must be terminated from all employment with all Florida Retirement System employers, as provided in s. 121.021(39).

4. Benefit payments may not be made until the member has been terminated for 3 calendar months, except that the state board may authorize by rule for the distribution of up to 10 percent of the member's account after being terminated for 1 calendar month if the member has reached the normal retirement date as defined in s. 121.021.

5. If a member or former member of the Florida Retirement System receives an invalid distribution, such person must either repay the full amount within 90 days after receipt of final notification by the state board or the third-party administrator that the distribution was invalid, or, in lieu of repayment, the member must terminate employment from all participating employers. If such person fails to repay the full invalid distribution within 90 days after receipt of final notification, the person may be deemed retired from the investment plan by the state board and is subject to s. 121.122. If such person is deemed retired, any joint and several liability set out in s. 121.091(9)(e)2. ~~s. 121.091(9)(d)2.~~ is void, and the state board, the department, or the employing agency is not liable for gains on payroll contributions that have not been deposited to the person's account in the investment plan, pending resolution of the invalid distribution. The member or former member who has been deemed retired or who has been determined by the state board to have taken an invalid distribution may appeal the agency decision through the complaint process as provided under s. 121.4501(9)(g)3. As used in this subparagraph, the term "invalid distribution" means any distribution from an account in the investment plan which is taken in violation of this section, s. 121.091(9), or s. 121.4501.

Section 5. *The Legislature finds that a proper and legitimate state purpose is served when employees and retirees of the state and its political subdivisions, and the dependents, survivors, and beneficiaries of such employees and retirees, are extended the basic protections afforded by governmental retirement systems that provide fair and adequate benefits and that are managed, administered, and funded in an actuarially sound manner as required by s. 14, Art. X of the State Constitution and part VII of chapter 112, Florida Statutes. Therefore, the Legislature determines and declares that this act fulfills an important state interest.*

Section 6. This act shall take effect July 1, 2024.

And the title is amended as follows:

Remove everything before the enacting clause and insert: A bill to be entitled An act relating to the Florida Retirement System; amending s. 121.091, F.S.; authorizing certain retirees to be reemployed after terminating employment; prohibiting such retirees from receiving both a salary from the employer and retirement benefits for a specified period after his or her retirement; removing provisions authorizing the reemployment of certain law enforcement officers as school resource officers; amending s. 121.1001, F.S.; prohibiting new participation in a specified plan beginning on a specified date; amending s. 121.71, F.S.; revising employer contribution rates to the Florida Retirement System; amending s. 121.591, F.S.; conforming a cross-reference; providing a declaration of important state interest; providing an effective date.

Managers on the part of the House

The Conference Committee Amendment for HB 5101, relating to Education, conforms law to the appropriations provided in HB 5001, the General Appropriations Act for Fiscal Year 2024-2025, for pre-kindergarten through grade 12 education. Specifically, the amendment provides for the following.

**Section 1** amends s. 110.123, F.S., to revise definitions to include Florida College System (FCS) institutions in the State Group Health Insurance (SGHI) Program. The initial enrollment period is required to begin as soon as practicable with coverage beginning in the 2025 plan year by July 31, 2025. FCS institutions are required to participate for at least 3 plan years.

**Section 2** amends s. 1002.31, F.S., to create a transportation stipend from an eligible nonprofit scholarship-funding organization, contingent upon a legislative appropriation, for public school students enrolled in kindergarten through grade 8 for transportation to a Florida public school that is different from the school to which the student is assigned or to a developmental research (laboratory) school. The act specifies the scholarship is on a first-come, first-served basis, and provides priority for awards.

**Section 3** amends s. 1002.32, F.S., to modify exceptions on the limitations of one developmental research (laboratory) school (lab school) per university by adding the Florida State University Charter Lab K-12 School in Leon County and removing the Florida Atlantic University Charter Lab K-12 School in St. Lucie County. The Lab School Educational Trust Fund is removed along with a provision that allowed charter lab schools to receive funding for charter school capital outlay.

**Section 4** amends s. 1002.33, F.S., to remove a provision to hold harmless a charter school sponsor for full-time equivalent (FTE) students not included in projections due to approval of a charter school application and a reporting requirement of charter school applications. The act modifies reporting requirements for charter schools from student membership to FTE. The act also modifies the methodology to calculate state funds and capital outlay funds for charter schools sponsored by a state university or FCS institution, and designates that the university or FCS institution is the fiscal agent for sponsored charter schools.

**Section 5** amends s. 1002.391, F.S., to create the Bridge to Speech Program to fund auditory-oral education programs required in law.

**Section 6** amends s. 1002.394, F.S., to eliminate transportation to a public school as an eligible use of funds under the Family Empowerment Scholarship Program. The act also eliminates reference to an award amount.

**Section 7** amends s. 1002.395, F.S., to eliminate transportation to a public school as an eligible use of funds under the Florida Tax Credit Scholarship Program. The act also eliminates reference to an award amount.

**Section 8** amends s. 1002.68, F.S., to designate that the methodology for calculating the Voluntary Prekindergarten (VPK) performance me-

tric is required in the 2023-2024 program year and issuance of the VPK performance metric to VPK programs is required in the 2024-2025 program year. The act retains a provision relating to loss of VPK eligibility due to program assessment that was removed in the 2023 Implementing Bill.

**Section 9** amends s. 1002.71, F.S., to increase the percentage of funds from the Voluntary Prekindergarten (VPK) program that each early learning coalition may retain for administrative expenses from 4.0 percent to 5.0 percent.

**Section 10** amends s. 1002.82, F.S., to require the Department of Education (DOE) to annually collect cost data from school readiness programs that includes federal salary information for child care personnel and certain data from child care providers. The DOE is required to provide certain school readiness cost data to the Legislature by November 1, 2024, and annually thereafter.

**Section 11** amends s. 1002.84, F.S., requiring each early learning coalition to implement a parent sliding fee scale that increases in relation to family income adopted in rule by the DOE for the school readiness program. The existing methodology for distribution of school readiness funding is removed and provides that all instructions for the distribution of funds will be provided by the policies of the Legislature.

**Section 12** amends s. 1002.89, F.S., to modify the school readiness program allocation to use unweighted full-time equivalent children instead of eligible population, and use of a "rate index" to account for differences in geographic location. A provision regarding local ordinances relating to staff-to-children ratio that were passed prior to January 1, 2022, is removed.

**Section 13** amends s. 1002.895, F.S., to modify elements of the market rate schedule for the school readiness program to remove provisions related to providers with a Gold Seal Quality Care designation and large family child care homes. The market rate schedule is required to differentiate school readiness program rates only by care levels driven by age or whether care is full-time or part-time. The elements related to the annual collection of data by the DOE and subsequent reporting of data to the Early Learning Programs Conference are removed.

**Section 14** repeals s. 1002.90, F.S., relating to school readiness cost-of-care information.

**Section 15** amends s. 1002.92, F.S., to remove an obsolete reference.

**Section 16** creates s. 1003.4206, F.S., to establish the Charity for Change program, subject to funding appropriated in the General Appropriations Act (GAA), to implement the character education standards required in law and authorize the program to use third-party providers to deliver after-school and summer services that empower students with an evidence-based curriculum.

**Section 17** creates s. 1006.042, F.S., to establish the AMIkids, Inc., program, subject to funding appropriated in the GAA, to provide alternatives to institutionalization or commitment for youth by providing services, such as, education, behavior modification, skills development, mental health, workforce development, family functioning, and advocacy.

**Section 18** modifies s. 1006.07, F.S., to require each district school board to establish a threat management coordinator to serve as the primary point of contact regarding the district's coordination, communication, and implementation of the threat management program and to report quantitative data on its activities to the Office of Safe Schools.

**Section 19** amends s. 1006.27, F.S., to repeal the Driving Choice Grant Program.

**Section 20** amends s. 1008.25, F.S., to modify provisions for VPK students demonstrating a substantial deficiency on the coordinated screening and progress monitoring system, which requires students to be referred to a local school district and specifies that such students are eligible for participation in a 100-hour summer bridge program consisting of 4 hours of daily instruction to be provided by the school district.

**Section 21** revises s. 1009.896, F.S., to expand the Florida Law Enforcement Academy Scholarship Program to include emergency medical

technicians, paramedics, and firefighters, and specify eligibility criteria and authorized uses of funds. Accordingly, the amendment changes the name to the Florida First Responder Scholarship Program.

**Section 22** modifies s. 1009.90, F.S., to require the DOE to have a database system to track all school bond referendums and debt incurred by a school district via referendum for capital outlay or operational purposes.

**Section 23** modifies s. 1011.62, F.S., to authorize charter schools sponsored by a state university or FCS institution to receive the state-funded discretionary contribution. The act also requires an annual appropriation to the educational enrollment stabilization program to maintain a minimum balance of \$250 million, funds from which may be carried forward for up to 10 years.

**Section 24** modifies s. 1011.765, F.S., to specify that, for purposes of providing matching grants through the Florida Academic Improvement Trust Fund, a public school district education foundation includes each district school board direct-support organization and the education foundation established by the Florida Virtual School.

**Section 25** amends s. 1012.56, F.S., to eliminate the requirement that applicants for a temporary apprenticeship certificate must first complete the subject area content requirements established by the State Board of Education or the demonstration of mastery of subject area knowledge.

**Section 26** modifies s. 1013.62, F.S., to specify that a charter school not eligible to receive capital outlay funds includes a charter school sponsored by a state university or an FCS institution that receives state funding for capital improvement purposes as specified in law.

**Section 27** requires the taxable value for Wakulla County School District that was provided by the Department of Revenue to the DOE to be used for the remaining calculations of the fiscal year 2023-2024 FEFP and for use in the Prior Period Adjustment Millage calculation. This section is effective until July 1, 2025.

**Section 28** provides an effective date upon becoming law, except as otherwise provided.

**Conference Committee Amendment (656953) (with title amendment)**—Remove everything after the enacting clause and insert:

(f) Moneys received pursuant to this subsection do not constitute taxable income to the qualified student or his or her parent.

(g) No liability shall arise on the part of the state based on the stipend or use of the stipend.

Section 3. Subsection (2) and paragraphs (b) through (g) of subsection (9) of section 1002.32, Florida Statutes, are amended to read:

1002.32 Developmental research (laboratory) schools.—

(2) ESTABLISHMENT.—There is established a category of public schools to be known as developmental research (laboratory) schools (lab schools). Each lab school shall provide sequential instruction and shall be affiliated with the college of education within the state university of closest geographic proximity. A lab school to which a charter has been issued under s. 1002.33(5)(a)2. must be affiliated with the college of education within the state university that issued the charter, but is not subject to the requirement that the state university be of closest geographic proximity. For the purpose of state funding, Florida Agricultural and Mechanical University, Florida Atlantic University, Florida State University, the University of Florida, and other universities approved by the State Board of Education and the Legislature are authorized to sponsor a lab school. The limitation of one lab school per university shall not apply to the following legislatively allowed charter lab schools: Florida State University Charter Lab K-12 School in Broward County, Florida State University Charter Lab K-12 School in Leon County, and Florida Atlantic University Charter Lab K-12 School in Palm Beach County, and Florida Atlantic University Charter Lab K-12 School in St. Lucie County. The limitation of one lab school per university does not apply to a university that establishes a lab school to serve families of a military installation that is within the same county as a branch campus that offers programs from the university's college of education.

(9) FUNDING.—Funding for a lab school, including a charter lab school, shall be provided as follows:

~~(b) There is created a Lab School Educational Facility Trust Fund to be administered by the Commissioner of Education. Allocations from such fund shall be expended solely for the purpose of facility construction, repair, renovation, remodeling, site improvement, or maintenance. The commissioner shall administer the fund in accordance with ss. 1013.60, 1013.64, 1013.65, and 1013.66.~~

~~(b)(e)~~ All operating funds provided under this section shall be deposited in a Lab School Trust Fund and shall be expended for the purposes of this section. The university assigned a lab school shall be the fiscal agent for these funds, and all rules of the university governing the budgeting and expenditure of state funds shall apply to these funds unless otherwise provided by law or rule of the State Board of Education. The university board of trustees shall be the public employer of lab school personnel for collective bargaining purposes for lab schools in operation prior to the 2002-2003 fiscal year. Employees of charter lab schools authorized prior to June 1, 2003, but not in operation prior to the 2002-2003 fiscal year shall be employees of the entity holding the charter and must comply with the provisions of s. 1002.33(12).

~~(c)(d)~~ Each lab school shall receive funds for capital improvement purposes in an amount determined as follows: multiply the maximum allowable nonvoted discretionary millage for capital improvements pursuant to s. 1011.71(2) by 96 percent of the current year's taxable value for school purposes for the district in which each lab school is located; divide the result by the total full-time equivalent membership of the district; and multiply the result by the full-time equivalent membership of the lab school. The amount obtained shall be discretionary capital improvement funds and shall be appropriated from state funds in the General Appropriations Act to the Lab School Educational Facility Trust Fund.

~~(d)(e)~~ In addition to the funds appropriated for capital outlay budget needs, lab schools may receive specific funding as specified in the General Appropriations Act for upgrading, renovating, and remodeling science laboratories.

~~(e)(f)~~ Each lab school is designated a teacher education center and may provide inservice training to school district personnel. The Department of Education shall provide funds to the Lab School Trust Fund for this purpose from appropriations for inservice teacher education.

~~(g) A lab school to which a charter has been issued under s. 1002.33(5)(a)2. is eligible to receive funding for charter school capital outlay if it meets the eligibility requirements of s. 1013.62. If the lab school receives funds from charter school capital outlay, the school shall receive capital outlay funds otherwise provided in this subsection only to the extent that funds allocated pursuant to s. 1013.62 are insufficient to provide capital outlay funds to the lab school at one-fifteenth of the cost per student station.~~

Section 4. Paragraphs (b) and (c) of subsection (6) and subsections (17) and (19) of section 1002.33, Florida Statutes, are amended to read:

1002.33 Charter schools.—

(6) APPLICATION PROCESS AND REVIEW.—Charter school applications are subject to the following requirements:

(b) A sponsor shall receive and review all applications for a charter school using the evaluation instrument developed by the Department of Education. A sponsor shall receive and consider charter school applications for charter schools to be opened at a time determined by the applicant. A sponsor may not charge an applicant for a charter any fee for the processing or consideration of an application, and a sponsor may not base its consideration or approval of a final application upon the promise of future payment of any kind. Before approving or denying any application, the sponsor shall allow the applicant, upon receipt of written notification, at least 7 calendar days to make technical or nonsubstantive corrections and clarifications, including, but not limited to, corrections of grammatical, typographical, and like errors or missing signatures, if such errors are identified by the sponsor as cause to deny the final application.

~~1. In order to facilitate an accurate budget projection process, a sponsor shall be held harmless for FTE students who are not included in the FTE projection due to approval of charter school applications after the FTE projection deadline. In a further effort to facilitate an accurate budget projection, within 15 calendar days after receipt of a charter school application, a sponsor shall report to the Department of Education the name of the applicant entity, the proposed charter school location, and its projected FTE.~~

~~1.2.~~ In order to ensure fiscal responsibility, an application for a charter school shall include a full accounting of expected assets, a projection of expected sources and amounts of income, including income derived from projected student enrollments and from community support, and an expense projection that includes full accounting of the costs of operation, including start-up costs.

~~2.a.3.a.~~ A sponsor shall by a majority vote approve or deny an application no later than 90 calendar days after the application is received, unless the sponsor and the applicant mutually agree in writing to temporarily postpone the vote to a specific date, at which time the sponsor shall by a majority vote approve or deny the application. If the sponsor fails to act on the application, an applicant may appeal to the State Board of Education as provided in paragraph (c). If an application is denied, the sponsor shall, within 10 calendar days after such denial, articulate in writing the specific reasons, based upon good cause, supporting its denial of the application and shall provide the letter of denial and supporting documentation to the applicant and to the Department of Education.

b. An application submitted by a high-performing charter school identified pursuant to s. 1002.331 or a high-performing charter school system identified pursuant to s. 1002.332 may be denied by the sponsor only if the sponsor demonstrates by clear and convincing evidence that:

(I) The application of a high-performing charter school does not materially comply with the requirements in paragraph (a) or, for a high-performing charter school system, the application does not materially comply with s. 1002.332(2)(b);

(II) The charter school proposed in the application does not materially comply with the requirements in paragraphs (9)(a)-(f);

(III) The proposed charter school's educational program does not substantially replicate that of the applicant or one of the applicant's high-performing charter schools;

(IV) The applicant has made a material misrepresentation or false statement or concealed an essential or material fact during the application process; or

(V) The proposed charter school's educational program and financial management practices do not materially comply with the requirements of this section.

Material noncompliance is a failure to follow requirements or a violation of prohibitions applicable to charter school applications, which failure is quantitatively or qualitatively significant either individually or when aggregated with other noncompliance. An applicant is considered to be replicating a high-performing charter school if the proposed school is substantially similar to at least one of the applicant's high-performing charter schools and the organization or individuals involved in the establishment and operation of the proposed school are significantly involved in the operation of replicated schools.

c. If the sponsor denies an application submitted by a high-performing charter school or a high-performing charter school system, the sponsor must, within 10 calendar days after such denial, state in writing the specific reasons, based upon the criteria in sub-subparagraph b., supporting its denial of the application and must provide the letter of denial and supporting documentation to the applicant and to the Department of Education. The applicant may appeal the sponsor's denial of the application in accordance with paragraph (c).

3.4. For budget projection purposes, the sponsor shall report to the Department of Education the approval or denial of an application within 10 calendar days after such approval or denial. In the event of approval, the report to the Department of Education shall include the final projected FTE for the approved charter school.

4.6. A charter school may defer the opening of the school's operations for up to 3 years to provide time for adequate facility planning. The charter school must provide written notice of such intent to the sponsor and the parents of enrolled students at least 30 calendar days before the first day of school.

(c1). An applicant may appeal any denial of that applicant's application or failure to act on an application to the State Board of Education no later than 30 calendar days after receipt of the sponsor's decision or failure to act and shall notify the sponsor of its appeal. Any response of the sponsor shall be submitted to the State Board of Education within 30 calendar days after notification of the appeal. Upon receipt of notification from the State Board of Education that a charter school applicant is filing an appeal, the Commissioner of Education shall convene a meeting of the Charter School Appeal Commission to study and make recommendations to the State Board of Education regarding its pending decision about the appeal. The commission shall forward its recommendation to the state board at least 7 calendar days before the date on which the appeal is to be heard.

2. The Charter School Appeal Commission may reject an appeal submission for failure to comply with procedural rules governing the appeals process. The rejection shall describe the submission errors. The appellant shall have 15 calendar days after notice of rejection in which to resubmit an appeal that meets the requirements set forth in State Board of Education rule. An appeal submitted subsequent to such rejection is considered timely if the original appeal was filed within 30 calendar days after receipt of notice of the specific reasons for the sponsor's denial of the charter application.

3.a. The State Board of Education shall by majority vote accept or reject the decision of the sponsor no later than 90 calendar days after an appeal is filed in accordance with State Board of Education rule. The State Board of Education shall remand the application to the sponsor with its written decision that the sponsor approve or deny the application. The sponsor shall implement the decision of the State Board of Education. The decision of the State Board of Education is not subject to the provisions of the Administrative Procedure Act, chapter 120.

b. If an appeal concerns an application submitted by a high-performing charter school identified pursuant to s. 1002.331 or a high-performing charter school system identified pursuant to s. 1002.332, the State Board of Education shall determine whether the sponsor's denial was in accordance with sub-subparagraph (b)2.b. ~~(b)3.b.~~

(17) FUNDING.—Students enrolled in a charter school, regardless of the sponsorship, shall be funded *based upon the applicable program pursuant to s. 1011.62(1)(c)* ~~as if they are in a basic program or a special program~~, the same as students enrolled in other public schools in a school district. Funding for a charter lab school shall be as provided in s. 1002.32.

(a) Each charter school shall report its *full-time equivalent student membership enrollment* to the sponsor as required in s. 1011.62(1)(a) ~~s. 1011.62~~ and in accordance with the definitions in s. 1011.61. The sponsor shall include each charter school's *full-time equivalent student membership enrollment* in the sponsor's *full-time equivalent student membership report to the Department of Education of student enrollment*. All charter schools submitting *full-time equivalent student membership record* information required by the department of Education shall comply with the *department's Department of Education's* guidelines for electronic data formats for such data, and all sponsors shall accept electronic data that complies with the *department's Department of Education's* electronic format.

The payments shall be issued no later than 10 working days after the sponsor receives a distribution of state or federal funds or the date the payment is due pursuant to this subsection. With respect to federal grant funds submitted for reimbursement, the sponsor shall have 60 calendar days from the date of the submission to reimburse the charter school if the submission provides all the necessary information to qualify for reimbursement. If a warrant for payment is not issued within 10 working days after receipt of funding by the sponsor or within 60 calendar days after an approved submittal for reimbursement of federal grant funds, the sponsor shall pay to the charter school, in addition to the amount of the scheduled disbursement, interest at a rate of 1 percent per month calculated on a daily basis on the unpaid balance from the expiration of the 10 working days or 60 calendar days for the reimbursement of federal grant funds, until such time as the warrant is issued.
